Burl W. Haar Executive Secretary Minnesota Public Utilities Commission 121 7th Place East, Suite 350 St. Paul, Minnesota 55101-2147

RE: Comments of the Minnesota Department of Commerce, Division of Energy Resources Docket No. G011/M-13-670

Dear Dr. Haar:

Attached are the comments of the Minnesota Department of Commerce, Division of Energy Resources (Department) in the following matter:

A request by Minnesota Energy Resources Corporation (MERC or the Company) for approval by the Minnesota Public Utilities Commission (Commission) of a change in demand entitlement for its customers served off of the Northern Natural Gas Company (NNG) system effective in the Purchased Gas Adjustment (PGA) on November 1, 2013.

The filing was submitted on August 1, 2013. The petitioner is:

Gregory J. Walters Minnesota Energy Resources Corporation 3460 Technology Drive NW Rochester, MN 55901

Based on its investigation, the Department recommends that the Commission:

- **allow** MERC to recover storage gas costs through the commodity portion of the PGA, rather than the demand portion;
- **accept** MERC-NNG's peak-day analysis with the caveat that the Department cannot fully verify the results of MERC's analysis as mentioned herein;
- accept MERC-NNG's proposed level of demand entitlement; and
- allow the proposed recovery of associated demand costs effective November 1, 2013.

Burl W. Haar October 3, 2013 Page Two

The Department requests that MERC confirm in Reply Comments, the change in TFX5 Max and Discount demand levels. The Department requests that MERC explain in Reply Comments the differences in FDD storage contract reservation and capacity amounts shown in DOC Attachment 1.

The Department is available to answer any questions that the Commission may have.

Sincerely,

/s/ MICHELLE ST. PIERRE Financial Analyst

/s/ SACHIN SHAH Rates Analyst

# BEFORE THE MINNESOTA PUBLIC UTILITIES COMMISSION

# COMMENTS OF THE MINNESOTA DEPARTMENT OF COMMERCE DIVISION OF ENERGY RESOURCES

DOCKET NO. G011/M-13-670

### I. SUMMARY OF COMPANY'S PROPOSAL

Pursuant to Minnesota Rules 7825.2910, subpart 2, Minnesota Energy Resources Corporation-(MERC or the Company) filed a change in demand entitlement petition (Petition) on August 1, 2013 for its customers served off of the Northern Natural Gas Co. (NNG) system.<sup>1</sup> In its Petition, MERC requested that the Minnesota Public Utilities Commission (Commission) accept the following changes in the Company's overall level of contracted capacity.<sup>2</sup>

Table 1

The Company's Proposed	Total Entitlement Changes
Type of Entitlement	Proposed Changes: increase (decrease) (Dkt) <sup>3</sup>
TF 12 Base and Variable	763
TF5	(763)
TFX5 (Max Rate)	199
TFX5 (Discount Rate)	(199)
NNG Zone Gas Daily Delivery (GDD) Call Option	20,000
Total Entitlement Net Change	20,000

<sup>&</sup>lt;sup>1</sup> In its July 1, 2013 rearrangement/consolidation of its four Purchased Gas Adjustment (PGA) systems, MERC named the PGA for the NNG customers "MERC-NNG." MERC's other PGA systems were combined and named "MERC-Consolidated." On August 1, 2013, MERC filed a demand entitlement request for MERC-Consolidated in Docket No. G011/M-13-669.

<sup>&</sup>lt;sup>2</sup> MERC noted in its August 1, 2013 cover letter that any updated information will be provided with its November 1, 2013 filing.

<sup>&</sup>lt;sup>3</sup> Dekatherms (Dkt).

Analysts assigned: Michelle St. Pierre/Sachin Shah

Page 2

MERC proposed to increase the 12-month capacity by 763 Dkt, reduce the five-month capacity by the same amount and purchase a NNG Zone GDD Call Option of 20,000.<sup>4</sup> MERC indicated that the demand entitlement increased primarily due to purchasing a NNG Zone Delivery Call Option (20,000 Dkt) which was not part of the petition in 2012/13. <sup>5</sup>

Further, the Minnesota Department of Commerce, Division of Energy Resources (Department or DOC) compared MERC-NNG's Attachment 4, page 2 to MERC-NNG's August 2013 PGA<sup>6</sup> and found that MERC increased TFX5 (5-month) at the maximum rate from 57,172 to 57,371 Dkt or by 199 Dkt and reduced TFX5 at the discount rate from 1,999 to 1,800 Dkt or by 199 Dkt. The Department recommends that MERC confirm in Reply Comments, the change in TFX5 Max and Discount demand levels since there was no discussion in the Petition.

The net change to the design-day capacity is an increase of 20,000 Dkt. As discussed further below, MERC's projected 2013-2014 design-day requirements (overall needs of its firm customers on a design day) increased by 19,995 Dkt (or approximately 8.85 percent) from the previous year.

MERC stated that it "proposes no change in TFX Apr. and TFX Oct. and no change in Firm Deferred Delivery (FDD storage) in other pipeline entitlements that are not included in peak day deliverability." However, it appears that MERC made changes to its FDD storage contracts.<sup>8</sup> See DOC Attachment 1, page 2, last column. The Department requests that MERC explain in Reply Comments the differences in FDD storage contract reservation and capacity amounts shown in DOC Attachment 1, page 2.

The Department does not oppose any of MERC's proposed changes. In discussions with Company personnel on October 1, 2013, the Department understands that updated information will be provided by MERC on or about November 1, 2013. Thus, the Department will discuss the effect of the proposed demand changes on rates in subsequent Response Comments.

<sup>&</sup>lt;sup>4</sup> The NNG Zone GDD Call Option is discussed further in MERC's March 22, 2012 Reply Comments in Docket No. G011/M-11-1084. The call option is a delivered service, meaning MERC's supplier uses their own firm NNG transportation to deliver supply to MERC's Zone EF delivery point when called on. Thus, the Department does not consider the NNG Zone GDD call option a financial hedge.

<sup>&</sup>lt;sup>5</sup> Petition page 2. The Department notes that there are no page numbers on the Petition.

<sup>&</sup>lt;sup>6</sup> Docket No. G011/AA-13-662.

<sup>&</sup>lt;sup>7</sup> Petition, page 15.

<sup>&</sup>lt;sup>8</sup> For years prior to 2013-14, the Department notes that MERC's Attachment 10 shows only MERC-PNG's NNG entitlement levels rather than MERC's combined NNG levels. Moreover, the Company provided no schedule that added together the previous NNG entitlement levels for MERC-PNG and MERC-NMU to arrive at the Company's proposed MERC-NNG system levels. The Department prepared Attachment 1 to show the detail for prior years for MERC-PNG's and MERC-NMU's NNG system entitlement levels as well as totals for the combined NNG system levels.

#### II. THE DEPARTMENT'S ANALYSIS OF THE COMPANY'S PROPOSAL

The Department analyzed the following components of the Company's request:

- storage costs allocated to commodity costs;
- changes to capacity;
- design-day requirement; and
- reserve margin.

#### A. STORAGE COSTS

The Department has advocated in several recent demand entitlement filings<sup>9</sup> that demand costs associated with storage contracts be recovered through the commodity portion of the PGA since all customers, not just firm customers, benefit from stored gas. The Commission has not yet determined whether storage-related costs are more appropriately recovered through the commodity or through the demand portion of MERC's PGAs.

The Department notes that the Commission allowed CenterPoint Energy to allocate a portion of its storage costs to commodity costs in CenterPoint Energy's PGA. <sup>10</sup> Similarly, the Department recommends that the Commission allow MERC to recover storage gas costs through the commodity portion of the PGA, rather than the demand portion.

While the Department has been recommending this rate design change since MERC's 2007 demand entitlement dockets, the Department is aware that it would be problematic to implement such changes retroactively; as a result, the Department recommends that the Commission address this question of rate design and implement the change on a going-forward basis.

#### B. MERC'S PROPOSED CHANGES

## 1. Capacity

As indicated in DOC Attachments 1 and 2, the Company proposed to increase its total entitlement level in Dkt as follows:

<sup>&</sup>lt;sup>9</sup> See the Commission's February 6, 2008 Order in Docket No. E,G999/AA-06-1208, for more background.

<sup>&</sup>lt;sup>10</sup> See the Commission's February 28, 2012 Order in Docket No. G008/M-07-561.

Analysts assigned: Michelle St. Pierre/Sachin Shah

Page 4

Table 2

Previous	Proposed	Entitlement	Change From
<b>Entitlement</b>	Entitlement	Changes	Previous
(Dkt)	(Dkt)	(Dkt)	Year (%) <sup>11</sup>
233,485	253,485	20,000	8.57%

As indicated in the current filing, MERC purchased a NNG Zone Delivery Call Option of 20,000 Dkt. As discussed below, the design day increased by 19,995 Dkt. As also discussed below, MERC-NNG's reserve margin is reasonable. Therefore, the Department concludes that MERC-NNG's proposed level of demand entitlement is reasonable and recommends acceptance of the proposed level of capacity.

# 2. Design-Day Requirement

As indicated in DOC Attachment 2, the Company proposed to increase its total design day in Dkt as follows:

Table 3

Ī	Previous	Proposed	Design Day	Change From
	Design Day	Design Day	Changes	Previous
	(Dkt)	(Dkt)	(Dkt)	Year (%)
Ī	225,883	245,878	19,995	8.85%

MERC provided significant discussion regarding its design-day calculation. The Department notes that the Company's design-day analysis is similar to the process that it has used in prior demand entitlement filings. MERC once again explored the use of additional weather variables in its review of other design-day regression models but did not use the variables in the Company's final design-day analysis. The Department does not oppose MERC's evaluation of other weather determinants in its efforts to produce the most robust design-day estimates possible; however, the Department notes that some of these additional data were taken from a proprietary source as was discussed in the Department's January 3<sup>rd</sup>, 10<sup>th</sup>, and March 12<sup>th</sup>, 2012 *Comments* in Docket Nos. G011/M-11-1082, G011/M-11-1083, and G011/M-11-1084 respectively. When a utility uses proprietary data in its analysis, the Department cannot fully verify that the results of the analysis are correct.

In addition, the issue of autocorrelation was discussed in the Department's March 4<sup>th</sup>, 2013 *Comments* in Docket Nos. G011/M-12-1192, G011/M-12-1193, G011/M-12-1194 and G011/M-12-1195 wherein the Department requested that, in future demand entitlement filings, MERC

<sup>&</sup>lt;sup>11</sup> The Department combined MERC's historical NNG data in DOC Attachment 2 beginning with the fiscal year 2006-07.

Analysts assigned: Michelle St. Pierre/Sachin Shah

Page 5

check the regression models it ultimately uses for autocorrelation and correct the model if autocorrelation is present. The Department notes that MERC corrected its models for autocorrelation in the present docket.

The Department recommends that the Commission accept MERC-NNG's peak-day analysis with the caveat that the Department cannot fully verify the results of MERC's analysis as mentioned above.

# 3. Reserve Margin

As indicated in DOC Attachment 2, the proposed reserve margin is 3.09 percent or 7,607 Dkt as follows:

Total **Design-day** Reserve % Change From Difference **Entitlement Estimate** Margin **Previous** (Dkt) (Dkt) (Dkt) **%** Year 253,485 3.09% 245,878 7,607 -0.28%

Table 4

The proposed reserve margin of 3.09 percent represents a decrease of 0.28 percent over last year's reserve margin of 3.37 percent.<sup>12</sup> Generally, a reserve margin up to five percent is not unreasonable. Based on this information and the Department's analysis of the Company's design-day analysis, the Department concludes that the reserve margin appears to be reasonable at this time.

The proposed changes in the Petition would increase demand costs by an insignificant amount. Therefore, the Department recommends that the Commission allow the proposed recovery of demand costs effective November 1, 2013.

### III. THE DEPARTMENT'S RECOMMENDATIONS

Based on its investigation, the Department recommends that the Commission:

- allow MERC to recover storage gas costs through the commodity portion of the PGA, rather than the demand portion;
- accept MERC-NNG's peak-day analysis with the caveat that the Department cannot fully verify the results of MERC's analysis as mentioned above;
- accept MERC-NNG's proposed level of demand entitlement; and
- allow the proposed recovery of associated demand costs effective November 1, 2013.
