Hello,

I am writing to express my deep support for Geronimo Power's Summit Lake Solar and Battery Storage project. As a lifelong Minnesotan, I believe that clean energy, like solar and storage are the best electricity uses for a secure, healthy, and sustainable future. Clean energy projects help us reduce our reliance on harmful, polluting fossil fuels that harm our habitats and air.

Minnesota has set ambitious goals to be carbon neutral and to decarbonize our electric grid. The only way to do that is by building wind, solar, and battery storage projects. The PUC must accept these projects.

Thank you
