I'm not sure how to make my opinion known on this project. It seems like such a large project would require some input from the surrounding neighbors.

I will be affected by this project because I believe it will affect my property values, my health and well being, my contentment and my landscape. I will literally have to drive through this project every day. I will be able to see it from my house.

I can't believe this won't negatively affect wildlife.

I feel the some of the homeowners are having their lives ruined by the Summit Lake Project.

I can't believe that this is sustainable or profitable long term.

Thank you

Rebecca Baumhoefner
