Re: COMPLIANCE – NOTICE PLAN  
IN THE MATTER OF THE APPLICATION FOR A CERTIFICATE OF NEED  
FOR THE PROPOSED 345 kV BROOKINGS COUNTY – LYON COUNTY AND  
HELENA – HAMPTON SECOND-CIRCUIT PROJECT  
MPUC DOCKET NO. E002/CN-23-200

Dear Mr. Seuffert:

Northern States Power Company, doing business as Xcel Energy, as the lead utility for itself and on behalf of the other CapX2020 Brookings Owners<sup>1</sup> as co-Applicants submits this Notice Plan Compliance filing in the above-captioned docket demonstrating that we have completed implementation of our Notice Plan, as approved by the Minnesota Public Utilities Commission on July 24, 2023.

Please contact me at [monsherra.s.blank@xcelenergy.com](mailto:monsherra.s.blank@xcelenergy.com) or (214) 422-3672 if you have any questions or need additional information.

Sincerely,

/s/

MONSHERRA BLANK  
DIRECTOR, REGULATORY AND STRATEGIC ANALYSIS

IN THE MATTER OF THE APPLICATION  
FOR A CERTIFICATE OF NEED FOR THE  
PROPOSED 345 KV BROOKINGS COUNTY  
– LYON COUNTY AND HELENA –  
HAMPTON SECOND-CIRCUIT PROJECT

MPUC Docket No. E002 /CN-23-200

**COMPLIANCE – NOTICE PLAN**

**INTRODUCTION**

Northern States Power Company, doing business as Xcel Energy (Xcel Energy or Company), submits this Notice Plan Compliance filing to the Minnesota Public Utilities Commission (Commission) under Minn. R. 7829.2550 on behalf of itself as the lead utility and on behalf of the other CapX2020 Brookings Owners<sup>1</sup> as co-Applicants. This filing confirms all required notices were given in connection with submitting the Certificate of Need application for the proposed Brookings County – Lyon County and Helena – Hampton Second-Circuit Project (Project).

**NOTICE PLAN IMPLEMENTATION**

**A. Direct-Mail Notice**

1. Content

The Commission's order approving the form of notice (Notice Plan Order or Order) adopted the Department of Commerce, Division of Energy Resources' recommendation to include a reference to Minn. R. ch. 4410 in the notices as required by 7829.2550, subp. 4.<sup>2</sup> The form of notice has been updated to include this reference, as required by the Order. Additionally, the Department of Commerce, Energy Environmental Review and Analysis (EERA), recommended we update the form of notice to refer to EERA's

---

<sup>1</sup> In addition to Xcel Energy, the CapX2020 Brookings Owners are Central Minnesota Municipal Power Agency, Great River Energy, Otter Tail Power Company, and Western Minnesota Municipal Power Agency.

<sup>2</sup> IN THE MATTER OF THE APPLICATION FOR A CERTIFICATE OF NEED FOR THE PROPOSED 345 KV BROOKINGS COUNTY, LYON COUNTY, AND HELENA COUNTY HAMPTON SECOND CIRCUIT PROJECT, Docket No. E002/CN-23-200, Order at 1 (July 12, 2023) (Notice Plan Order).

Environmental Report scoping meeting as a “meeting” rather than a “hearing.”<sup>3</sup> We made this change consistent with EERA’s comments. The form of notice includes all information required by Minn. R. 7829.2550, subp. 4, and the Notice Plan Order.

## 2. Landowners

Minnesota Rule 7829.2550, subpart 3(A), requires an applicant for a Certificate of Need to provide direct-mail notice to all landowners likely to be affected by the proposed transmission line. On August 4, 2023, we sent direct-mail notice to landowners within the Notice Area. Landowners were provided the notice materials included in this filing as **Attachment A**. The list of notified landowners is included in this filing as **Attachment B**, and an affidavit of mailing is included as **Attachment C**.

## 3. Mailing Address

Minnesota Rule 7829.2550, subpart 3(B), requires an applicant for a Certificate of Need to provide direct-mail notice to all mailing addresses in the area likely to be affected by the proposed transmission line. As mentioned above, we sent direct-mail notice to mailing addresses within the Notice Area on August 4, 2023. Recipients were provided the notice materials included in this filing as **Attachment A**. The list of notified residents is included in this filing as **Attachment B**, and an affidavit of mailing is included as **Attachment C**.

## 4. Tribal Government Officials

Minnesota Rule 7829.2550, subpart 3(C), requires an applicant for a Certificate of Need for a high-voltage transmission line to provide direct-mail notice to tribal governments whose jurisdictions are reasonably likely to be affected by the proposed transmission line. On August 4, 2023, we sent direct-mail notice to tribal organizations and other tribal government officials. Tribal governments were provided the notice materials included in this filing as **Attachment D**. The recipients of the notice materials at tribal governments are identified in the mailing list included as **Attachment E**, and the affidavit of mailing is included as **Attachment C**.

## 5. Local Governments

Minnesota Rule 7829.2550, subpart 3(C), also requires an applicant for a Certificate of Need to provide direct-mail notice to governments of towns, cities, home rule charter cities, and counties whose jurisdictions are reasonably likely to be affected by the proposed transmission line. On August 4, 2023, we sent direct-mail notice of the materials included as **Attachment A** to the government officials identified on **Attachment F**. The affidavit of mailing is included as **Attachment C**.

---

<sup>3</sup> Docket No. E002/CN-23-200, EERA Comments on Draft Notice at 1 (July 17, 2023).

## **B. Newspaper Notice**

Minnesota Rule 7829.2550, subpart 3(D), requires an applicant for a Certificate of Need to publish notice in newspapers in the areas reasonably likely to be affected by the proposed transmission line. The Commission approved meeting this requirement through publication in the newspapers listed in Table 1 of the Notice Plan.<sup>4</sup> The notice was published in these newspapers between August 7 and August 17. An affidavit of publication and a copy of the tear sheet are included in this filing as **Attachment G**.<sup>5</sup>

## **C. Notice Timing**

Minnesota Rule 7829.2550, subpart 6, requires the Applicant to implement the notice plan within 30 days of its approval by the Commission. The notice plan was approved on July 24, 2023. As demonstrated in the attachments to this filing, we implemented the notice plan with all the requirements contained within the Notice Plan Order within 30 days of its approval by the Commission.

## **CONCLUSION**

Xcel Energy, on behalf of itself as the lead utility and the other CapX2020 Brookings Owners as co-Applicants, respectfully submits this compliance filing demonstrating compliance with the Notice Plan Order. All notice elements of the notice plan have been completed as required.

Dated: October 27, 2023

Northern States Power Company

---

<sup>4</sup> Notice Plan Order at 12. Those newspapers were the: Star Tribune, Hendricks Pioneer, Ivanhoe Times, Tyler Tribute, Balaton Press Tribune, Cottonwood Tri-County News, Marshall Independent, Headlight Herald, New Prague Times, Jordan Independent, Dakota County Tribune, and Sun This Week.

<sup>5</sup> The Balaton Press Tribune published its final issue on May 31, 2023, after filing of the Notice Plan but before the Notice Plan was implemented. Consequently, no notice ran in the Balaton Press Tribune. Publication of the notice in the Tyler Tribute and Headlight Herald covered the area formerly covered by the Balaton Press Tribune.

August 4, 2023

*RE: Notice of Certificate of Need Application for the Proposed 345 kV Brookings County – Lyon County and Helena – Hampton Transmission Project*

MPUC Docket No. E002 /CN-23-200

This letter is intended to notify you of a proposed transmission line project and to provide the following information:

1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.

Northern States Power Company, doing business as Xcel Energy (Applicant), proposes to add a second circuit to the portion of an existing 345 kiloVolt (kV) transmission line between Brookings County, South Dakota, and Lyon County, Minnesota, and between the Helena Substation, west of New Prague, Minnesota, and the Hampton Substation, north of Hampton, Minnesota (Project). When originally built, the project was referred to as the “CapX2020 Brookings County-Hampton project.”

A “second circuit” means the installation of an additional transmission circuit (three lines) on existing transmission towers that were designed to accommodate an additional circuit. The majority of the Project will not require changing the route of the existing transmission line or new infrastructure. The Brookings County – Lyon County portion of the Project, however, will require reconfiguring an existing line at the Steep Bank Lake Substation near Hendricks, Minnesota, to avoid the second circuit crossing the existing transmission line. The Helena – Hampton portion of the Project will also require routing the new circuit around the Chub Lake Substation, northeast of Elko New Market, which requires the construction of two new towers.

This notice is being provided to you because you fall into one of the categories listed below as they relate to the area shown in the attached “Notice Area” map:

- Landowners with property within the Notice Area,
- Residents living within the Notice Area,

- Local units of government in and around the Notice Area,
- State elected officials in and around the Notice Area, and/or
- Government agencies and offices.

### **Why is the Project needed?**

The Project is needed to reduce energy costs by addressing one of the most electrically congested areas in Minnesota. Currently, low-cost energy (primarily generated by wind) generated in South Dakota and southern Minnesota faces congestion when flowing to customers in eastern Minnesota, including the Twin Cities. This congestion increases the cost of electricity either due to additional charges imposed on transmitting electricity during times of high congestion or because electricity must come from higher-cost generators in areas without transmission constraints. These higher costs create inefficiencies in the wholesale energy market and increase costs for consumers. The Project is needed to relieve the current transmission congestion in this area and allow access to lower-cost generation, provide economic benefits, strengthen the regional grid, and support future wind generation facilities in Minnesota and South Dakota. The Applicant estimates the Project would provide \$323 million in production-cost benefits on a present value basis over 20 years, as well as significant progress toward carbon-emission reduction policy objectives.

### **What is the regulatory process for the Project?**

Before construction can begin on the Project, the Minnesota Public Utilities Commission (the Commission) must determine whether the Project is needed in a Certificate of Need proceeding.

The Certificate of Need process includes opportunities for public involvement and analyzes the benefits and impacts the Project may have, including costs, electric needs, issues the Project will solve, and potential impacts on the environment and general area where the Project is located.

The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216B.243, and Minnesota Rules Chapters 4410, 7829, and 7849. A copy of the Certificate of Need application can be obtained by visiting the Commission's website at [www.mn.gov/puc/](http://www.mn.gov/puc/) in Docket No. E002/CN-23-200.

### **What will the Certificate of Need proceedings address?**

The Certificate of Need proceedings will address whether the Project is necessary to provide adequate, reliable, and efficient electric service to the Applicant's customers, and residents of Minnesota and neighboring states. The proceedings will also address whether any alternatives to the Project could meet these energy needs. Finally, the proceedings will assess the human and environmental impacts of the Project and how any negative impacts can be mitigated.

### **How will the human and environmental impacts of the Project be evaluated?**

As part of the Certificate of Need process, Minnesota Department of Commerce, Energy Environmental Review and Analysis (EERA) will prepare an environmental report as required by Minnesota Rule 7849.1200 (Environmental Report). The Environmental Report will describe the human and environmental impacts of the Project and methods to mitigate any anticipated adverse impacts.

### **What is the process for determining the scope of the Environmental Report?**

EERA will hold a public meeting on the scope of the Environmental Report. Before the meeting, EERA will give interested persons notice of the meeting. At the meeting, EERA will explain the process for preparing the Environmental Report. The meeting will also give the public the opportunity to ask questions, present comments, and suggest alternatives and possible impacts of the Project to be evaluated in the Environmental Report. EERA will accept written comments after the public meeting. After the close of the public comment period, EERA will issue a decision determining the alternatives and potential impacts to be addressed in the Environmental Report, the schedule for completion, and other matters to be included in the Environmental Report.

### **What additional opportunities are there for public participation?**

The Commission is still developing the process for soliciting public input. Nevertheless, the Applicant anticipates that, after EERA issues the Environmental Report, the Commission will invite written public comments on the Certificate of Need and Environmental Report. The Applicant also expects that the Commission will hold a public hearing to receive oral comments and give the public an opportunity to ask questions regarding the Environmental Report and Certificate of Need application. The Commission will then decide whether the Environmental Report is adequate and whether to grant a Certificate of Need.

There may be other opportunities to participate in the proceedings. Members of the public wishing to be informed of opportunities to provide input should subscribe to the Certificate of Need docket, as described below.

**How will the Project’s route be selected?**

The Project involves installing a second circuit on existing transmission towers. Consequently, the route will largely follow the existing Brookings Line. The Applicant anticipates obtaining route approval through a minor alteration to the existing route permit for the Brookings Line (Docket 08-1474). The minor-alteration process will overlap with the Certificate of Need process.

**What is the anticipated schedule for the Certificate of Need process?**

The table below provides a high-level summary of the major steps in the Certificate of Need process and estimated timing.

**Major Certificate of Need Process Steps and Summary Schedule**

Step	Approximate Date
Pre-Application stakeholder outreach	Late Second Quarter 2023/ Early Third Quarter 2023
Certificate of Need Application submitted to Commission	Late Second Quarter 2023/ Early Third Quarter 2023
Informational Meetings (public meeting and comment)	Third Quarter 2023
Environmental Report Issued	Fourth Quarter 2023
Public Hearings (public meeting and comment period)	First Quarter 2024
Commission Meeting (to determine the adequacy of the Environmental Report and whether to issue a Certificate of Need)	First Quarter 2024
Written Commission Decision	Second Quarter 2024

## **Will the Applicant need to acquire new land rights for the Project?**

Because the Project primarily involves installing a second circuit on existing transmission towers, the Applicant does not anticipate requiring significant new land rights for the Project. Before beginning construction, the Applicant will attempt to acquire any new land rights through negotiations with the landowner for each parcel.

## **How can I obtain additional information about the Project?**

You may subscribe to the Project's Certificate of Need docket to receive email notifications when information is filed in that docket, please visit [www.edockets.state.mn.us](http://www.edockets.state.mn.us), click on the "Subscribe to a Docket" button, enter your email address and select "Docket Number" from the Type of Subscriptions dropdown box, then select "23" from the first Docket number drop down box and enter "200" in the second box before clicking on the "Add to List" button. You must then click the "Save" button at the bottom of the page to confirm your subscription to the Project's Certificate of Need docket.

To be placed on the Project Certificate of Need mailing list (MPUC Docket No. E002/CN-23-200), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147, Fax: 651-297-7073 or [robin.benson@state.mn.us](mailto:robin.benson@state.mn.us).

If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

**How do I learn more about other transmission projects and the transmission planning process in Minnesota?**

You may access reports that provide information about the transmission planning process used by utilities in the state of Minnesota and information about other transmission line projects at [www.minnelectrans.com](http://www.minnelectrans.com). These reports are prepared pursuant to Minnesota Statutes Section 216B.2425, which requires each electric transmission owning utility in the state to file a biennial transmission planning report with the Commission in the fall of odd-numbered years.

**IN THE MATTER OF THE APPLICATION FOR  
A CERTIFICATE OF NEED FOR THE  
PROPOSED 345 KV BROOKINGS COUNTY –  
LYON COUNTY AND HELENA – HAMPTON  
SECOND-CIRCUIT PROJECT**

**DOCKET NO. E002/CN-23-200**

STATE OF MINNESOTA    )  
  ) ss.  
COUNTY OF \_\_\_\_\_ Hennepin \_\_\_\_\_)

I Verica Sarajlic, being duly sworn on oath, deposes, and states that on the 4 day of August 2023, s/he directed to be sent via U.S. Mail true and correct copies of Xcel Energy’s Notice Letter to Stakeholders and Map, and Notice Letter to Tribes and Map to all parties listed on the attached service lists, as appropriate, by depositing the same enveloped with postage paid in the United States mail at Minneapolis, Minnesota:

Verica Sarajlic  
[NAME]

Subscribed and sworn to before me  
on this 04 day of August, 2023.

Mesha Bishop  
Notary Public

August 4, 2023

*RE: Notice of Certificate of Need Application for the Proposed 345 kV Brookings County – Lyon County and Helena – Hampton Transmission Project*

MPUC Docket No. E002 /CN-23-200

This letter is intended to notify you of a proposed transmission line project and to provide the following information:

1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.

Northern States Power Company, doing business as Xcel Energy (Applicant), proposes to add a second circuit to the portion of an existing 345 kiloVolt (kV) transmission line between Brookings County, South Dakota, and Lyon County, Minnesota, and between the Helena Substation, west of New Prague, Minnesota, and the Hampton Substation, north of Hampton, Minnesota (Project). When originally built, the project was referred to as the “CapX2020 Brookings County-Hampton project.”

A “second circuit” means the installation of an additional transmission circuit (three lines) on existing transmission towers that were designed to accommodate an additional circuit. The majority of the Project will not require changing the route of the existing transmission line or new infrastructure. The Brookings County – Lyon County portion of the Project, however, will require reconfiguring an existing line at the Steep Bank Lake Substation near Hendricks, Minnesota, to avoid the second circuit crossing the existing transmission line. The Helena – Hampton portion of the Project will also require routing the new circuit around the Chub Lake Substation, northeast of Elko New Market, which requires the construction of two new towers.

This notice is being provided to you as a tribal government in the region.

### **Why is the Project needed?**

The Project is needed to reduce energy costs by addressing one of the most electrically congested areas in Minnesota. Currently, low-cost energy (primarily generated by wind) generated in South Dakota and southern Minnesota faces congestion when flowing to

customers in eastern Minnesota, including the Twin Cities. This congestion increases the cost of electricity either due to additional charges imposed on transmitting electricity during times of high congestion or because electricity must come from higher-cost generators in areas without transmission constraints. These higher costs create inefficiencies in the wholesale energy market and increase costs for consumers. The Project is needed to relieve the current transmission congestion in this area and allow access to lower-cost generation, provide economic benefits, strengthen the regional grid, and support future wind generation facilities in Minnesota and South Dakota. The Applicant estimates the Project would provide \$323 million in production-cost benefits on a present-value basis over 20 years, as well as significant progress toward carbon-emission reduction policy objectives.

### **What is the regulatory process for the Project?**

Before construction can begin on the Project, the Minnesota Public Utilities Commission (the Commission) must determine whether the Project is needed in a Certificate of Need proceeding.

The Certificate of Need process includes opportunities for tribal involvement and analyzes the benefits and impacts the Project may have, including costs, electric needs, issues the Project will solve, and potential impacts on the environment and general area where the Project is located.

The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216B.243, and Minnesota Rules Chapters 4410, 7829, and 7849. A copy of the Certificate of Need application can be obtained by visiting the Commission's website at [www.mn.gov/puc/](http://www.mn.gov/puc/) in Docket No. E002/CN-23-200.

**What will the Certificate of Need proceedings address?** The Certificate of Need proceedings will address whether the Project is necessary to provide adequate, reliable, and efficient electric service to the Applicant's customers, and residents of Minnesota and neighboring states. The proceedings will also address whether any alternatives to the Project could meet these energy needs. Finally, the proceedings will assess the human and environmental impacts of the Project and how any negative impacts can be mitigated.

### **How will the human and environmental impacts of the Project be evaluated?**

As part of the Certificate of Need process, Minnesota Department of Commerce, Energy Environmental Review and Analysis (EERA) will prepare an environmental report as required by Minnesota Rule 7849.1200 (Environmental Report). The

Environmental Report will describe the human and environmental impacts of the Project and methods to mitigate any anticipated adverse impacts.

### **What is the process for determining the scope of the Environmental Report?**

EERA will hold a meeting on the scope of the Environmental Report. Before the meeting, EERA will give interested persons notice of the meeting. At the meeting, EERA will explain the process for preparing the Environmental Report. The meeting will also give interested parties the opportunity to ask questions, present comments, and suggest alternatives and possible impacts of the Project to be evaluated in the Environmental Report. EERA will accept written comments after the meeting. After the close of the comment period, EERA will issue a decision determining the alternatives and potential impacts to be addressed in the Environmental Report, the schedule for completion, and other matters to be included in the Environmental Report.

### **What additional opportunities are there for tribal participation?**

The Commission is still developing the process for soliciting input. Nevertheless, the Applicant anticipates that, after EERA issues the Environmental Report, the Commission will invite written comments on the Certificate of Need and Environmental Report. The Applicant also expects that the Commission will hold a hearing to receive oral comments and give interested parties an opportunity to ask questions regarding the Environmental Report and Certificate of Need application. The Commission will then decide whether the Environmental Report is adequate and whether to grant a Certificate of Need.

There may be other opportunities to participate in the proceedings. Tribes wishing to be informed of opportunities to provide input should subscribe to the Certificate of Need docket, as described below.

### **How will the Project's route be selected?**

The Project involves installing a second circuit on existing transmission towers. Consequently, the route will largely follow the existing Brookings Line. The Applicant anticipates obtaining route approval through a minor alteration to the existing route permit for the Brookings Line (Docket 08-1474). The minor-alteration process will overlap with the Certificate of Need process.

### **What is the anticipated schedule for the Certificate of Need process?**

The table below provides a high-level summary of the major steps in the Certificate of Need process and estimated timing.

**Major Certificate of Need Process Steps and Summary Schedule**

Step	Approximate Date
Pre-Application stakeholder outreach	Late Second Quarter 2023/ Early Third Quarter 2023
Certificate of Need Application submitted to Commission	Late Second Quarter 2023/ Early Third Quarter 2023
Informational Meetings (public meeting and comment)	Third Quarter 2023
Environmental Report Issued	Fourth Quarter 2023
Hearings and Comment Period	First Quarter 2024
Commission Meeting (to determine the adequacy of the Environmental Report and whether to issue a Certificate of Need)	First Quarter 2024
Written Commission Decision	Second Quarter 2024

**How can tribes obtain additional information about the Project?**

Tribes may subscribe to the Project’s Certificate of Need docket to receive email notifications when information is filed in that docket, please visit [www.edockets.state.mn.us](http://www.edockets.state.mn.us), click on the “Subscribe to a Docket” button, enter the appropriate email address and select “Docket Number” from the Type of Subscriptions dropdown box, then select “23” from the first Docket number drop down box and enter “200” in the second box before clicking on the “Add to List” button. You must then click the “Save” button at the bottom of the page to confirm your subscription to the Project’s Certificate of Need docket.

To be placed on the Project Certificate of Need mailing list (MPUC Docket No. E002/CN-23-200), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147, Fax: 651-297-7073 or [robin.benson@state.mn.us](mailto:robin.benson@state.mn.us).

If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

**How do tribes learn more about other transmission projects and the transmission planning process in Minnesota?**

Tribes may access reports that provide information about the transmission planning process used by utilities in the state of Minnesota and information about other transmission line projects at [www.minnelectrans.com](http://www.minnelectrans.com). These reports are prepared pursuant to Minnesota Statutes Section 216B.2425, which requires each electric transmission owning utility in the state to file a biennial transmission planning report with the Commission in the fall of odd-numbered years.

# PUBLIC NOTICE

This notice is intended to notify you of a proposed transmission line project and to provide the following information:

1. Project location and a description of the need for the Project;
2. Describe how to participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.

Northern States Power Company, doing business as Xcel Energy (Applicant), proposes to add a second circuit to the portion of an existing 345 kiloVolt (kv) transmission line between Brookings County, South Dakota and Lyon County, Minnesota, and between the Helena Substation, west of New Prague, Minnesota, and the Hampton Substation, north of Hampton, Minnesota (Project). When originally built, the project was referred to as the "CapX2020 Brookings County-Hampton project."

A "second circuit" means the installation of an additional transmission circuit (three lines) on existing transmission towers that were designed to accommodate an additional circuit. The majority of the Project will not require changing the route of the existing transmission line or new infrastructure. The Brookings County – Lyons County portion of the Project, however, will require reconfiguring an existing line at the Steep Bank Lake Substation near Hendricks, Minnesota, to avoid the second circuit crossing the existing transmission line. The Helena – Hampton portion of the Project will also require routing the new circuit around the Chub Lake Substation, northeast of Elko New Market, which requires the construction of two new towers.

This notice is being provided this area falls into one of the categories listed below as they relate to the area shown in the attached "Notice Area" map:

- Landowners with property within the Notice Area,
- Residents living within the Notice Area,
- Local units of government in and around the Notice Area,
- State elected officials in and around the Notice Area; and/or,
- Government agencies and offices.

### Why is the Project needed?

The Project is needed to reduce energy costs by addressing one of the most electrically congested areas in Minnesota. Currently, low-cost energy (primarily generated by wind) generated in South Dakota and southern Minnesota faces congestion when flowing to customers in eastern Minnesota, including the Twin Cities. This congestion increases the cost of electricity either due to additional charges imposed on transmitting electricity during times of high congestion or because electricity must come from higher-cost generators in areas without transmission constraints. These higher costs create inefficiencies in the wholesale energy market and increase costs for consumers. The Project is needed to relieve the current transmission congestion in this area and allow access to lower-cost generation, provide economic benefits, strengthen the regional grid, and support future wind generation facilities in Minnesota and South Dakota. The Applicant estimates the Project would provide \$277 million in production-cost benefits on a present value basis over 20 years, as well as significant progress toward carbon-emission reduction policy objectives.

### What is the regulatory process for the Project?

Before construction can begin on the Project, the Minnesota Public Utilities Commission (the Commission) must determine whether the Project is needed in a Certificate of Need proceeding.

The Certificate of Need process includes opportunities for public involvement and analyzes the benefits and impacts the Project may have, including costs, electric needs, issues the Project will solve, and potential impacts on the environment and general area where the Project is located.

The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216B.243, and Minnesota Rules Chapters 4410, 7829 and 7849. A copy of the Certificate of Need application can be obtained by visiting the Commission's website at [www.mn.gov/puc/](http://www.mn.gov/puc/) in Docket No. E002/CN-23-200.

### What will the Certificate of Need proceedings address?

The Certificate of Need proceedings will address whether the Project is necessary to provide adequate, reliable, and efficient electric service to the Applicant's customers, and residents of Minnesota and neighboring states. The proceedings will also address whether any alternatives to the Project could meet these energy needs. Finally, the proceedings will assess the human and environmental impacts of the Project and how any negative impacts can be mitigated.

### How will the human and environmental impacts of the Project be evaluated?

As part of the Certificate of Need process, Minnesota Department of Commerce, Energy Environmental Review and Analysis (EERA) will prepare an environmental report as required by Minnesota Rule 7849.1200 (Environmental Report). The Environmental Report will describe the human and environmental impacts of the Project and methods to mitigate any anticipated adverse impacts.

### What is the process for determining the scope of the Environmental Report?

EERA will hold a public hearing on the scope of the Environmental Report. Before the hearing, EERA will give interested persons notice of the hearing. At the hearing, EERA will explain the process for preparing the Environmental Report. The hearing will also give the public the opportunity to ask questions, present comments, and suggest alternatives and possible impacts of the Project to be evaluated in the Environmental Report. EERA will accept written comments after the public hearing. After the close of the public comment period, EERA will issue a decision determining the alternatives and potential impacts to be addressed in the Environmental Report, the schedule for completion, and other matters to be included in the Environmental Report.

### What additional opportunities are there for public participation?

The Commission is still developing the process for soliciting public input. Nevertheless, the Applicant anticipates that, after EERA issues the Environmental Report, the Commission will invite written public comments on the Certificate of Need and Environmental Report. The Applicant also expects that the Commission will hold a public hearing to receive oral comments and give the public an opportunity to ask questions regarding the Environmental Report and Certificate of Need application. The Commission will then decide whether the Environmental Report is adequate and whether to grant a Certificate of Need.

There may be other opportunities to participate in the proceedings. Members of the public wishing to be informed of opportunities to provide input should subscribe to the Certificate of Need docket, as described below.

### How will the Project's route be selected?

The Project involves installing a second circuit on existing transmission towers. Consequently, the route will largely follow the existing Brookings Line. The Applicant anticipates obtaining route approval through a minor alteration to the existing route permit for the Brookings Line. The minor-alteration process will overlap with the Certificate of Need process.

### What is the anticipated schedule for the Certificate of Need process?

The table below provides a high-level summary of the major steps in the Certificate of Need process and estimated timing.

Step	Approximate Date
Pre-Application stakeholder outreach	Late Second Quarter 2023/ Early Third Quarter 2023
Certificate of Need Application submitted to Commission	Late Second Quarter 2023/ Early Third Quarter 2023
Informational Meetings (public meeting and comment)	Third Quarter 2023
Environmental Report Issued	Fourth Quarter 2023
Public Hearings (public meeting and comment period)	First Quarter 2024
Commission Meeting (to determine the adequacy of the Environmental Report and whether to issue a Certificate of Need)	First Quarter 2024
Written Commission Decision	Second Quarter 2024

### Will the Applicant need to acquire new land rights for the Project?

Because the Project primarily involves installing a second circuit on existing transmission towers, the Applicant does not anticipate requiring significant new land rights for the Project. Before beginning construction, the Applicant will attempt to acquire any new land rights through negotiations with the landowner for each parcel.

### How can I obtain additional information about the Project?

You may subscribe to the Project's Certificate of Need docket to receive email notifications when information is filed in that docket, please visit [www.edockets.state.mn.us](http://www.edockets.state.mn.us), click on the "Subscribe to a Docket" button, enter your email address and select "Docket Number" from the Type of Subscriptions dropdown box, then select "23" from the first Docket number drop down box and enter "200" in the second box before clicking on the "Add to List" button. You must then click the "Save" button at the bottom of the page to confirm your subscription to the Project's Certificate of Need docket.

To be placed on the Project Certificate of Need mailing list (MPUC Docket Docket No. E002/CN-23-200), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147, Fax: 651-297-7073 or [robin.benson@state.mn.us](mailto:robin.benson@state.mn.us).

**AFFIDAVIT OF PUBLICATION**

**STATE OF MINNESOTA )  
COUNTY OF HENNEPIN )**

**650 3rd Ave. S, Suite 1300 | Minneapolis, MN | 55488**

Terri Swanson, being first duly sworn, on oath states as follows:

1. (S)He is and during all times herein stated has been an employee of the Star Tribune Media Company LLC, a Delaware limited liability company with offices at 650 Third Ave. S., Suite 1300, Minneapolis, Minnesota 55488, or the publisher's designated agent. I have personal knowledge of the facts stated in this Affidavit, which is made pursuant to Minnesota Statutes §331A.07.
2. The newspaper has complied with all of the requirements to constitute a qualified newspaper under Minnesota law, including those requirements found in Minnesota Statutes §331A.02.
3. The dates of the month and the year and day of the week upon which the public notice attached/copied below was published in the newspaper are as follows:

<u>Dates of Publication</u>	<u>Advertiser</u>	<u>Account #</u>	<u>Order #</u>
StarTribune 08/07/2023	XCEL ENERGY LEGAL NOTICE	1000018914	464060

4. The publisher's lowest classified rate paid by commercial users for comparable space, as determined pursuant to § 331A.06, is as follows: **\$7828.80**

5. Mortgage Foreclosure Notices. Pursuant to Minnesota Statutes §580.033 relating to the publication of mortgage foreclosure notices: The newspaper's known office of issue is located in Hennepin County. The newspaper complies with the conditions described in §580.033, subd. 1, clause (1) or (2). If the newspaper's known office of issue is located in a county adjoining the county where the mortgaged premises or some part of the mortgaged premises described in the notice are located, a substantial portion of the newspaper's circulation is in the latter county.

**FURTHER YOUR AFFIANT SAITH NOT.**
