APPROVAL OF A CREDIT MECHANISM TO  
RETURN TO CUSTOMERS DEPARTMENT OF  
ENERGY SETTLEMENT PAYMENTS.

DOCKET NO. E002/M-21-\_\_\_\_

**PETITION**

**INTRODUCTION**

Northern States Power Company, doing business as Xcel Energy, submits this Petition to the Minnesota Public Utilities Commission (Commission) for approval of a customer credit for additional funds received pursuant to the 2011 Settlement Agreement with the United States Department of Energy (DOE) for the partial breach of its contract to take spent nuclear fuel. The Company and the U.S. Government reached an agreement in January 2014 to extend the 2011 Settlement for an additional three-year period, 2014 through 2016, for the recovery of spent fuel storage damages. On February 23, 2017, the Company and the U.S. Government agreed to again extend the Settlement another three years to allow for recovery of damages incurred through December 31, 2019 (Payments 9, 10, and 11).

On December 22, 2020, the eleventh payment was received in the amount of \$13,130,727 for the period January 1, 2019 to December 31, 2019, and we request approval to pass on the Minnesota allocation of \$9,589,930 to our Minnesota electric customers in the form of a one-time bill credit.

The Company has placed these funds into a separate external interest bearing account and has included the interest received, minus bank fees, in calculating the estimated amount of the proposed credit to customers. Consistent with the credits provided to customers for previous settlement payments, we request approval to return the eleventh payment to our current Minnesota electric customers in the form of one-time bill credits based upon customers' usage for a twelve month period.

Our Petition is structured as follows:

- History of the case and background; and
- A description of the Company's proposed credit mechanism.

**IV. HISTORY OF THE CASE AND BACKGROUND**

**A. 2011 Settlement**

Under the Nuclear Waste Policy Act, utilities such as Xcel Energy were required to enter into contracts for the disposal of spent nuclear fuel; utilities contributed \$1.0 mil for every kilowatt-hour of electricity generated by their nuclear power plants. In exchange, the DOE committed to transport and dispose of the spent nuclear fuel beginning no later than January 31, 1998. However, the DOE has not accepted any spent nuclear fuel to date.

In 1998, the Company filed the first of two suits against the DOE seeking to recover damages associated with storage of spent nuclear fuel at our Prairie Island and Monticello nuclear generating plants. The Company's claims were for partial breach of the Standard Contract for Disposal of Spent Nuclear Fuel for failing to take title to, transport, and dispose of spent nuclear fuel beginning no later than January 31, 1998. The first lawsuit sought damages through 2004; the second sought damages through 2008.

The Company reached a settlement with the U.S. Government on these suits on July 7, 2011. The settlement provided a mechanism for the Company to recover its spent nuclear fuel storage damages through December 31, 2013. On August 5, 2011, the Company filed a petition for approval of a credit mechanism to return the Settlement amounts to customers in Docket E002/M-11-807.

## **B. Extended Settlement Agreement**

The Company and the Government reached an agreement on January 24, 2014, to extend the 2011 Settlement Agreement for the recovery of spent fuel storage damages for the three-year period of 2014 through 2016. On December 1, 2014, the Company made a compliance filing in Docket No. E-002/M-11-807, which notified the Commission of this extension and that any future payment amounts would be based on the submission of damage claims and subsequent negotiations between the parties.

## **C. Second Extension of Settlement Agreement**

On February 23, 2017, the Company and the U.S. Government agreed to again extend the Settlement another three years to allow for recovery of damages through December 31, 2019 (Payments 9, 10, and 11). The third payment under this second extension was received on December 22, 2020 in the amount of \$13,130,727 million, Attachment A is a copy of the wire transfer confirming the amount received and has been redacted to remove Company-sensitive banking information. Attachment B provides a derivation of the Minnesota jurisdictional portion of approximately \$9,589,930, along with the estimated credit by customer class. This payment was placed into a segregated bank account established specifically and solely for the settlement proceeds similar to the Company's treatment of the previous under the 2011 Settlement Agreement and Extended Settlement. Attachment C provides a summary of the Minnesota jurisdictional portion of the DOE payments.

## **V. PROPOSED CREDIT MECHANISM**

### **A. One-time Bill Credit**

Previous DOE customer credits were returned to active Minnesota electric customers in the form of a one-time bill credit based upon the customers' most recent 12 months of usage. The credit amount would include the actual amount of interest earned by the Company, minus any bank fees or charges on these funds. As outlined in Attachment B, once the credit amounts are allocated to each customer class, a credit factor is calculated for each customer class based on 12 months of actual kWh usage for active customers. The appropriate credit factor was applied to each active customer's actual kWh usage for that time period to determine the actual credit amount for each customer.

### **B. Interest**

The Company has placed the funds from the eleventh payment in a separate interest-bearing account to protect both customers and the Company and to ensure the funds are accurately accounted for pending the actual bill credit. The interest bearing sweep account currently earns 0.05% annually and the interest is posted daily. The Company proposes the credit include the actual amount of interest earned by the Company,

minus any bank fees or charges on these funds, consistent with the previous one-time DOE settlement credits.

### **C. Credit Implementation and Compliance Filings**

We propose returning the eleventh settlement payment to active Minnesota electric customers similarly to previous DOE credits in the form of a one-time bill credit based upon the customers' most recent 12 months of usage. The credit amount would include the actual amount of interest earned by the Company, minus any bank fees or charges on these funds. As outlined in Attachment B, once the credit amounts have been allocated to each customer class, a credit factor will be calculated for each customer class based on the most recent and available 12 months of actual kWh usage for active customers. The appropriate credit factor will then be applied to each active customer's actual kWh usage for that time period to determine the actual credit amount for each customer. Customers that have an active account on the date the credit is calculated will receive a bill credit based on their usage for their current address.

We propose the following bill message be included on customer's bills and will work with the Commission's Consumer Affairs Office to finalize the message:

The Minnesota Public Utilities Commission has ordered Xcel Energy to credit customers for funds received as part of a settlement with the U.S. Department of Energy regarding nuclear fuel storage. Your credit is shown as "Nuclear Fuel Settlement" on this billing statement.

### **D. Compliance Filings**

If the Commission approves the Company's proposed bill credit, we will begin implementation of the initial one-time bill credit, including a bill message, based on the customers' most recent twelve months of usage in third or fourth quarter of 2021. The Company will file a compliance filing within 30 days after completion of this bill credit, and any future bill credits, providing a summary of the settlement payment, interest credited, class allocations and the actual average customer credit per customer class as was done with previous DOE payments in the above-mentioned docket.

Also consistent with Docket No. E002/M-15-1089, we propose providing the same compliance filing within 30 days after receipt of each future payment, and to include documentation like that provided in Attachments B in this filing

## **VI. EFFECT OF THE CHANGE UPON XCEL ENERGY REVENUE**

There is no effect on the Company's revenues since the Settlement payments will be returned to customers with interest.

## **VIII. MISCELLANEOUS INFORMATION**

Pursuant to Minnesota Rule 7829.0700, Xcel Energy requests that the following persons be placed on the Commission's official service list for this matter:

The mechanism will credit customers in the form of a one-time bill credits based upon the customers' most recent twelve months of usage.
