Dr. Burl W. Haar  
Executive Secretary  
Minnesota Public Utilities Commission  
121 7th Place East, Suite 350  
St. Paul, MN 55101-2147

Re: In the Matter of Establishing a Distributed  
Solar Value Methodology Under  
Minn. Stat. §216B.164, subd. 10 (e) and (f)  
Docket No. E-999/M-14-65

Dear Dr. Haar:

Minnesota Power respectfully submits its Answer to Xcel Energy's Motion for Reconsideration in the above-referenced Docket. An Affidavit of Service included.

Please contact me at the number provided above with any questions or concerns.

Yours truly,

David R. Moeller

**STATE OF MINNESOTA  
BEFORE THE  
MINNESOTA PUBLIC UTILITIES COMMISSION**

---

In the Matter of Establishing  
a Distributed Solar Value  
Methodology under  
Minn. Stat. §216B.164, subd. 10 (e) and (f)

Docket No. E999/M-14-65

MINNESOTA POWER'S ANSWER TO  
XCEL ENERGY'S  
MOTION FOR RECONSIDERATION

---

Minnesota Power has reviewed Xcel Energy's Motion for Reconsideration ("Motion") filed on April 21, 2014 in the above-referenced Docket, and Minnesota Power supports the Motion. Minnesota Power has fully participated in this Docket and has offered many of the same reasons as set forth in Xcel Energy's Motion as reasons for why the Minnesota Public Utilities Commission ("Commission") should carefully evaluate a feasible Value of Solar ("VOS") methodology going forward. This is important to Minnesota Power as the Company evaluates whether to implement a VOS methodology and how this would affect both participating and non-participating customers. Minnesota Power is also evaluating Community Solar Gardens under Minn. Stat. § 216B.1641 and the best applicable rate for customers. The modifications requested in the Motion would assist in these evaluations.

Several items that Minnesota Power highlights for the Commission's attention are the following. The approved VOS methodology should allow for flexibility between customer classes in establishing rates and load matching. As currently set forth, there is only one rate that is applicable to all customer classes. Another example, as stated by Xcel Energy's Motion, is that by relying on embedded transmission investments, the VOS methodology does not capture marginal cost for avoided transmission capacity. In addition, Avoided Fuel Cost values that include sizeable adders for fuel price volatility over-estimate utilities' true avoided costs. Finally, the Federal Social Cost of Carbon should not be adopted in the VOS methodology without further input from all stakeholders.

One other consideration that is touched on in Xcel Energy's Motion is the Commission process for updating and evaluating the VOS methodology. While the Commission was limited

in making its initial determination under the process set forth in Minn. Stat. § 216B.164, subd. 10(e) to only modifications consented to by the Department of Commerce, the statute is silent as to how the Commission may make further evaluations or modifications after the initial VOS methodology is approved. When evaluating Xcel Energy's Motion and future proposed modifications, the Commission may have broader discretion in approving a VOS methodology that is workable for all stakeholders, while still moving solar energy forward in Minnesota.

Dated: April 30, 2014

Respectfully submitted,

A handwritten signature in black ink that reads "David R. Moeller". The signature is written in a cursive, flowing style.
