

# In the Matter of the Application of Walleye Wind, LLC for a Site Permit for a 109.2-Megawatt Large Wind Energy Conversion System in Rock County

**Docket No: IP7026/WS-20-384**

Commissioner Tuma offers the following decision options for consideration:

6. Take some action deemed appropriate.
  - a. The applicant shall maintain and file to e-Dockets combined site map(s) for identifying each proposed and alternative turbine locations by number, receptor locations by number, road identifications, government unit boundaries, and other major landmarks for easy use by the public. The combined map(s) shall be clearly identified as such. All maps must be available at all public meetings. The applicant shall maintain a consistent numbering scheme throughout the project and any time there is a turbine layout modification that would significantly change impacts on environmental receptors the applicant must file the new version of the combined map(s) separately into the docket. All future direct notices sent to affected landowners with an identified environmental receptor located on the property shall make known the reference maps location in the docket file and identify the specific receptor number associated with that property.
