Utility Information Request

Docket Number: P405/AR-16-696

Date of Request: October 27, 2016

Requested From: Scott Bohler, Frontier Communications

Response Due: November 7, 2016

Analyst Requesting Information: Marc Fournier, 651 -201 -2214

If you feel your responses are trade secret, please indicate.

Request Number 1

Please provide Frontier Communications of Minnesota, Inc.'s current subscriber line count. (When responding, please include Frontier's definition of "subscriber line.")

Response)

As of October 31, 2016, the subscriber access line count was 47,724. This figure is based on the approach directed by the Commission for the 911/TAP/TAM surcharge, reflecting the number of subscriber access lines, network access lines for Centrex, and trunk channels. This figure represents the number of access lines, but it is important to note that the statute refers to "subscribers" rather than access lines. Obviously, the number of subscribers is less than the number of total access lines.

Request Number 2

Please provide the last date Frontier Communications of Minnesota, Inc.'s subscriber line count was greater than 50,000.

Response)

April 2016.

Request Number 3

Please confirm Frontier Communications of Minnesota plans to comply with and adhere to its AFOR approved in Docket No. P405/AR-14-735 until that plan's expiration date.

Response)

Frontier Communications of Minnesota intends to comply with and adhere to its AFOR approved in Docket No. P405/AR-14-735 until that plan's expiration date.

Response by: Scott Bohler
