

4-9-26

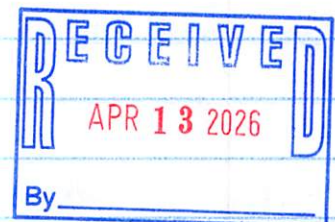

To the Public Utilities Commission:

We are writing in support of the Summit Lake Solar Project. We live on one of the locations (Section 13) that the solar will be built on. We feel that it is an important project that will be needed in the near future and beyond.

Hopefully you will ignore the critics around the Reading area and go ahead with this important project !!

You have our complete support !!

Wendy & Wally Cooper
