**Project Description**

The proposed Project includes an up to 200-megawatt (MW) solar energy generating system and associated facilities in Dodge County. The project's primary components include solar panels affixed to a linear ground-mounted single-axis tracking system, inverters and transformers housed in electrical cabinets, electrical collection system, collection line, project substation, and supervisory control and data acquisition systems and metering equipment. It also requires fencing, approximately 35.3 miles of access roads, laydown areas, up to 5 weather stations, and an operation and maintenance facility. Byron Solar is anticipating construction to begin in 2024 with commercial operation by the end of 2025.
