Hi there,

Please upload this email as a public comment for the Summit Lake Solar and Sotrage Project (Dockets 25-88 and 25-89). If you need anything else from me, please let me know!

Sam

Sam

The eagle nest is located on Rodney Burkard's property, which is approximately two miles north of Reading. His address is 17679 McCall Ave, Reading, MN. To the west of his place is a large state wildlife management area, and the proposed solar project is across the road to the east.

The red dot on the map represents the eagle nest.

Thank you for your attention to this.
Jake Cuperus
