Will Seuffert
Executive Secretary
Minnesota Public Utilities Commission
121 7th Place East, Suite 350
St. Paul, MN 55101

**Re: In the Matter of an Investigation into Implementing Changes to the Renewable Energy Standard and Newly Created Carbon Free Standard Under Minn. Stat. § 216B.1691
PUC Docket No. E999/CI-23-151**

Dear Mr. Seuffert:

The Minnesota Large Industrial Group (“MLIG”), a continuing ad hoc consortium of large industrial end-users of energy in Minnesota spanning multiple utilities and functioning to represent large industrial interests before regulatory and legislative bodies, submits the following comment pursuant to the Notice of Comment Period and Updated Timeline (“Notice”) issued by the Minnesota Public Utilities Commission (“Commission”) in this matter on October 31, 2024. Specifically, the Commission’s Notice requests comments on the issue of “What clarifications, if any, should the Commission make regarding carbon-free standard compliance reporting and verification under Minn. Stat. § 216B.1691, and sets forth the following topics for comment:

1. When and how should utilities report preparedness for meeting upcoming CFS requirements?
2. By which criteria and standards should the Commission measure an electric utility’s compliance with the CFS?
3. What considerations should the Commission take into account regarding the double counting of Renewable Energy Credits (RECs) to meet multiple requirements?
4. How should net market purchases be counted towards CFS compliance?
5. Are there other issues or concerns related to this matter?

MLIG appreciates the Commission’s engagement on these issues and offers the following comments.

MLIG notes that the questions identified for comment are complex and require additional record development in this matter and also in Docket No. E-999/CI-24-352, *In the Matter of a Commission Investigation into a Fuel Life-Cycle Analysis Framework for Utility Compliance with Minnesota's Carbon-Free Standard*. MLIG intends to more fully address the topics included in the Notice in Reply Comments in reply comments after evaluating the initial comments and proposals submitted by the utilities and other stakeholders.

Initially, however, MLIG encourages the Commission to consider the rate and reliability impacts of compliance with the Carbon-free (“CFS”), Renewable (“RES”) and Solar Standards (“SES”), as described in Minn. Stat. § 216B.1691, subd. 2e, as it determines the parameters for implementation of these standards. Consistency and transparency in the reporting of the cost incurred to achieve compliance with the RES, SES and CFS, and whether reliability is jeopardized, is crucial in allowing the Commission to monitor the pace of investments and determine the magnitude of the exemptions and partial compliance that should be permitted and required.

Uniform Reporting of Cost Impacts

Even before the enactment of the CFS, MLIG has been concerned with customer rates, and MLIG remains concerned the pace of investment necessary to fully comply with the CFS by 2040 could result in unjust and unreasonable rates. As Minnesota Power noted in its pending acquisition proceeding: “Minnesota Power is entering into a historic period where the need to upgrade aging infrastructure and enable the clean energy transformation, combined with significant utility load growth driven by electrification, domestic manufacturing, and advanced computing, results in extremely large capital needs and potential financing challenges” (emphasis added).¹ “The Company has a significant need for capital from investors at levels that are several times the size of historic levels to continue ALLETE’s Sustainability-in-Action Strategy, which seeks to decarbonize Minnesota Power’s generation portfolio while continuing to provide safe, affordable, and reliable electric service to our customers and communities” (emphasis added).² It is clear to MLIG the cost of implementation of the CFS could be prohibitively detrimental to customers and therefore MLIG requests the Commission adopt annual uniform reporting requirements that allow stakeholders to examine the pace of planned investments to ensure just and reasonable rates.

¹ *In the Matter of the Petition of Minnesota Power for the Acquisition of ALLETE by Canada Pension Plan Investment Board and Global Infrastructure Partners*, MPUC Docket No. E-015/PA-24-198 and OAH Docket No. 25-2500-40339, Terms of Acquisition at 4 (Scissons Direct) (December 12, 2024) (eDocket No. 202412-212968-04).

² *In the Matter of the Petition of Minnesota Power for the Acquisition of ALLETE by Canada Pension Plan Investment Board and Global Infrastructure Partners*, MPUC Docket No. E-015/PA-24-198 and OAH Docket No. 25-2500-40339, Capital Needs and Credit Ratings at 3 (Taran Direct) (December 12, 2024) (eDocket No. 202412-212968-05).

The production and presentation of rate impacts is rarely uniform across utility dockets, and the Commission should carefully develop the “uniform reporting system” required in Minn. Stat. §216B.1691, subd. 2e.³ Accordingly, MLIG requests the Commission require utilities to file:

- a reference case scenario, detailing the least cost plan, from a ratepayer impact perspective, for meeting the CFS by 2040 and 2050; and
- a reference case scenario, detailing the least cost plan, from a ratepayer impact perspective, to partially meet the CFS by 2040 and 2050.

MLIG continues to support these requirements as a way to uniformly track the cost of implementation of the 2040 legislation. These two reference case scenarios would give the Commission and intervening parties the information they need to understand the utility’s preferred plan versus other possible plans, with the ability to evaluate (i) the least cost way of meeting the carbon free target by 2040 or a later date; and (ii) the cost mitigation that could result if utilities partially meet the carbon free target.

As part of these reference case requirements, MLIG requests the Commission provide utilities and customers with some expectation as to what is a “reasonable” cost increase, to provide a target or range of costs that are acceptable and in the public interest to achieve compliance with the 2040 legislation. This would provide guidance to utilities and customers as they prepare their IRPs and budgets and allow the Commission to determine in future proceedings whether the actual costs of approved IRPs were reasonable, or whether the pace of investments need to be slowed to maintain affordability.

Uniform Reporting of Reliability Impacts

As important as reasonable cost increases to meet decarbonization targets, reliability cannot suffer as a result of utility efforts to implement the 2040 legislation. The Commission should set specific reporting requirements to establish a framework for evaluating how compliance with the RES, SES and CFS affects system reliability. The Commission should require the utilities to analyze the findings available in their current reliability filings, determine whether implementation of the 2040 bill has caused reliability impacts and file a report annually to outline any changes to their implementation plans necessary to maintain reliability. MLIG believes the current reliability reporting is insufficient to isolate instances attributable to implementation of the 2040 legislation, and therefore a more elaborate framework needs to be created so that the

³ See *In the Matter of an Investigation into Implementing Changes to the Renewable Energy Standard and Newly Created Carbon Free Standard Under Minn. Stat. § 216B.1691*, MPUC Docket No. E999/CI-23-151, MLIG Comment at 5-7 (August 2, 2023) (eDocket No. 20238-197959-02) (requesting Commission require utilities to file certain information in their integrated resource plans (“IRPs”), including (1) the average current rate for each customer class as of the year of the IRP filing, (2) projected rate increases by customer class for each year of the IRP action plan, and (3) the net present value of the utility’s revenue requirement over the life of the plan, under various scenarios, and separately identifying the environmental costs).

Commission can monitor reliability according to benchmarks and metrics to determine whether offramps or partial compliance may be required.

MLIG appreciates the opportunity to comment on these important topics. MLIG respectfully requests the Commission adopt the approaches outlined in this comment to facilitate productive discussions to determine what investments and reliability impacts are reasonable in the implementation of the 2040 legislation.

By copy of this letter, all parties have been served. A Certificate of Service is also attached.

Very truly yours,

Stoel Rives LLP
