Re: ANSWER IN OPPOSITION TO PETITIONS FOR RECONSIDERATION
Minnesota Energy Connection Project
Docket Nos. E-022/CN-22-131; E-022/TL-22-132

Dear Mr. Bull:

Northern States Power Company, doing business as Xcel Energy, respectfully submits its Answer to Petitions for Reconsideration filed on or after July 1, 2025, in the above-referenced matter.

We have electronically filed this document with the Minnesota Public Utilities Commission. Copies are also being served on the persons on the attached service lists. Please contact me if you have any questions regarding this filing.

Sincerely,

FREDRIKSON & BYRON, P.A.

/s/ Haley L. Waller Pitts

OAH Docket No. 23-2500-39782

**ANSWER TO PETITION FOR
RECONSIDERATION**

INTRODUCTION

Northern States Power Company doing business as Xcel Energy submits this answer to the petitions for reconsideration filed on July 1, 2025, on behalf of Diane Jensen (Jensen Petition) and Barb and Paul Pladson (Pladson Petition) related to the Minnesota Public Utilities Commission's June 11, 2025, ORDER MODIFYING AND ADOPTING THE ADMINISTRATIVE LAW JUDGE REPORT, GRANTING A CERTIFICATE OF NEED, AND ISSUING A ROUTE PERMIT FOR THE MINNESOTA ENERGY CONNECTION PROJECT (Order). Petitions for reconsideration were also submitted by Gwen Schlemmer and Linda Nesburg. Based on the submissions in the docket, it is unclear whether the petitions were timely submitted pursuant to the statutory deadline in Minn. Stat. § 21B.27, subd. 1. Regardless, the petitions raise the same issues as the Jensen Petition, and those issues are addressed in Section I below.¹ Similarly, Cameron Liebl, a resident along Route Segment 213,

¹ Xcel Energy reserves the right to object to these petitions as untimely pursuant to the statutory deadline.

submitted comments opposing that route segment (Liebl Comments); it is unclear whether the comments were intended to be a petition for reconsideration, and whether the comments were submitted prior to the statutory deadline. Xcel Energy nonetheless responds to the Liebl Comments in Section I(B), below.

LEGAL STANDARD

A petition for reconsideration must be timely filed and must specifically set forth the grounds for rehearing.² The Commission “may reverse, change, modify, or suspend” its original decision only if “the original decision, order, or determination is in any respect unlawful or unreasonable.”³ Generally, the Commission will review petitions for reconsideration to determine whether the petition (i) raises new issues, (ii) points to new and relevant evidence, (iii) exposes errors or ambiguities in the underlying order, or (iv) otherwise persuades the Commission that it should rethink its decision.⁴ The Commission may decide on a petition for reconsideration with or without a hearing and oral argument.⁵

I. ROUTE SEGMENT 213.

A. Response to Jensen Petition.

1. Background.

Ms. Jensen owns property along the approved route for the Minnesota Energy Connection Project (Project). The Blue Route/Xcel Energy’s Preferred Route, which the Commission did not

² Minn. Stat. § 216B.27, subd. 2; *see also* Minn. R. 7829.3000, subp. 2.

³ Minn. Stat. § 216B.27, subd. 3; *see also* Minn. Stat. § 14.69 (providing that, on appeal, a reviewing court may affirm an agency decision unless, among other things, it is not supported by substantial evidence or is arbitrary or capricious).

⁴ *See, e.g., In the Matter of the Formal Complaint and Request for Relief by the Minnesota Solar Advocates*, MPUC Docket No. E-002/C-23-424, Order Denying Petition for Reconsideration at 1 (Apr. 26, 2024).

⁵ Minn. R. 7829.3000, subp. 6.

select, would have crossed Ms. Jensen’s property along the southern property line and road (310th Street). Ms. Jensen’s property was also crossed by a route alternative studied in the environmental impact statement (EIS)—Route Segment 213. **Attachment A** shows Ms. Jensen’s property, as well as Ms. Nesburg’s and Ms. Schlemmer’s properties. Xcel Energy understands that Ms. Jensen, Ms. Nesburg, and Ms. Schlemmer are sisters and that the properties were previously in a trust held by their mother.

Route Segment 213 was proposed by Jeff Potter to avoid impacts to residences along 310th Street.⁶ Xcel Energy initially opposed Route Segment 213 due to potential conservation easements and cost increases, but, in its Response to Hearing Comments, stated that the alternative was feasible and that Xcel Energy “does not object to the extent the Commission selects Route Segment 213.”⁷

Ms. Jensen attended the October 29, 2024, public hearing in Monticello, Minnesota, and indicated that she had received full ownership of her property within the last two years and had just recently started receiving notices about the Project.⁸ Ms. Jensen did not submit written comments.⁹

During the Commission’s April 10, 2025, meeting, two other landowners also crossed by the Blue Route and Route Segment 213 spoke in favor of Route Segment 213 and asserted that

⁶ See EIS Scoping Decision at A-6 (May 14, 2024) (eDocket No. [20245-206732-02](#)).

⁷ See Xcel Energy Response to Hearing Comments at 6-7 (Dec. 13, 2024) (eDocket No. [202412-212990-02](#)).

⁸ See Monticello 6:00 p.m. Public Hearing Transcript (Monticello 6:00 p.m. Tr.) at 41:17-25 (Oct. 29, 2024).

⁹ Ms. Nesburg and Ms. Schlemmer also did not submit written comments, nor did they provide comments at a public hearing.

Route Segment 213 would generally reduce impacts in their neighborhood. In its Order, the Commission incorporated Route Segment 213 into the Project's route:

Several of the residents impacted by the Route Segment 213's equivalent route participated in this docket and appeared at the Commission's hearing to express support for Segment 213 so that the Project would be located farther from their homes and mitigate impacts on agriculture. Comparing Segment 213 to its equivalent route shows that 213 avoids more human impacts, but the equivalent route avoids more potential environmental impacts. Segment 213 provides a net reduction of four residences within 300 feet of the transmission line, but it is near a residence on Kenwood Avenue. To allow for a possible alignment that mitigates the impacts on this homestead, the Commission will expand the route width 2,700 feet east from Segment 213 where the route travels north-south along Kenwood Avenue. Xcel must consult with those affected as described in ordering paragraph 10. With the expanded route width, the Commission will incorporate Route Segment 213 into its designated route.

Ms. Jensen now asks the Commission to reconsider its decision incorporating Route Segment 213 into the Project's route. She raises concerns about impacts to agriculture because the route does not follow a property line on her property. The Petition also expresses concern about impacts to remnant prairie and Project notices.¹⁰

2. Discussion.

The Commission selected Route Segment 213 after reviewing the EIS's analysis of that route segment and taking public comments then in the record into consideration. As evidenced by the Order, the Commission weighed residential and environmental impacts and ultimately

¹⁰ Similarly, the Nesburg Petition states, in part, that Ms. Nesburg would have opposed Route Segment 213 had she attended the Commission's April 10, 2025 meeting and that "I was able to obtain the view of the April 10, 2025 meeting. I have never heard from Mr. Potter or Mr. Mertens." *See* Nesburg Reconsideration Petition (July 8, 2025) (eDocket No. [20257-220732-01](#)).

determined to select the route that increased distances from homes.¹¹ The Jensen Petition takes issue with the Commission’s selection of Route Segment 213 due to its impacts on Ms. Jensen’s property—specifically, agricultural and natural resource impacts. However, these issues were thoroughly considered by the Commission and reflected in the Order, and the Jensen Petition does not establish that these findings were unlawful or unreasonable.

Xcel Energy understands that Ms. Jensen and Ms. Nesburg may take issue with statements made to the Commission during the April 10, 2025 meeting by their neighbors with respect to Route Segment 213. However, setting aside those comments, the Commission’s decision is nonetheless supported by the record in this matter. In other words, the Order does not indicate that the Commission relied on the landowners’ oral comments in reaching its decision, and reconsideration is not warranted on that basis.

With respect to Ms. Jensen’s concerns about impacts to prairie, that was one of the resources the Commission considered when it evaluated Route Segment 213, as compared to the Blue Route. Thus, the Jensen Petition does not raise new facts, and reconsideration is also not warranted on that basis. Regardless, a transmission line right-of-way is largely consistent with prairie because prairie typically does not include woody vegetation that would need to be cleared. Further, as stated in the Route Permit Application, Xcel Energy plans to maximize structure spacing to span native prairie habitats to the extent feasible.¹² With respect to this property, Xcel Energy has also committed to work with the landowners for a seed mix during restoration.

¹¹ Per Table 7-20 of the Final EIS, Route Segment 213 has one residence within 250 feet and two residences within 500-1,600 feet; in comparison, the Blue Route has three residences within 250 feet, four residences within 250-500 feet, and two residences within 500-1,600 feet.

¹² MNEC Route Permit Application at 192 (Oct. 20, 2023) (eDocket No. [202310-199981-02](#)).

Finally, the Jensen Petition raises concerns about notices provided during the permitting proceeding. The Nesburg Petition raises similar concerns. Consistent with Minn. Stat. § 216E.03, subd. 4, Xcel Energy obtains landowner mailing addresses from county tax records, and that is what was done for this Project, as well. If a landowner notifies Xcel Energy of an incorrect or updated address, Xcel Energy incorporates that information into its mailing list. Xcel Energy representatives had direct correspondence from Ms. Nesburg in response to a Project mailing in October 2024 (prior to the public hearings), and has had additional communications since that time. Ms. Jensen’s Petition also indicates that she was notified of the public hearings and attended the October 29, 2024, public hearing. Xcel Energy has likewise made efforts to contact Ms. Jensen since October 2024. The record here demonstrates that Xcel Energy has made a “bona fide attempt” to comply with Minn. Stat. § 216E.03 and that Ms. Jensen received actual notice of the Project. Accordingly, Xcel Energy respectfully submits that reconsideration is not warranted for this reason, either.

Regardless of the Commission’s action on the Jensen Petition, Xcel Energy remains committed to working with Ms. Jensen, Ms. Nesburg, Ms. Schlemmer, and their neighbors regarding the Project’s right-of-way in this area.

B. Response to Liebl Comments.

The Liebl Comments were filed to the docket on July 9, 2025.¹³ Mr. Liebl indicates that he opposes Route Segment 213 because of its proximity to his residence and instead prefers that the Project follow the “original route” (Blue Route). Mr. Liebl’s property is shown on Attachment A,

¹³ The comments are dated 6:29 p.m. on July 1. From the filing, it is unclear whether the comments were submitted prior to the statutory deadline to submit a petition for reconsideration. Xcel Energy reserves the right to object to the comments as untimely to the extent they are construed as a petition for reconsideration.

along the north-south portion of the approved route as it follows Kenwood Avenue. The figure below also depicts the approved route and Mr. Liebl's property:¹⁴

At the April 10, 2025, Commission meeting, the landowner to the east of Mr. Liebl spoke in favor of Route Segment 213 and indicated his willingness to consider an alignment that would increase the distance between the Project and Mr. Liebl's residence. The Commission selected Route Segment 213 in this area and included an expanded route width "for the purpose of mitigating impacts" to Mr. Liebl's property. The anticipated right-of-way is across the road from, but does not cross, Mr. Liebl's property. The Order states:

For the purpose of identifying an alternative alignment within the expanded route width described below that reduces environmental and human impacts, the Permittee shall consult with the affected Townships, BWSR (particularly those responsible for managing conservation easements in this area), DNR, and the affected landowners. The Permittee shall file with the Commission the results of the consultations and any modifications to the transmission line alignment that have been mutually agreed to within the expanded route width.

¹⁴ The figure is from page 50 of the maps attached to the Order; the red arrow is added to point to Mr. Liebl's property.

The route width is expanded a distance of 2,700 feet to the east of the Alternative 213 alignment to allow for a possible alignment along the field line for the purpose of mitigating impacts on the homestead at 31252 Kenwood Avenue.

Since the issuance of the Order, Xcel Energy has been coordinating with the landowners affected by the expanded route width to evaluate whether an agreement could be reached with all affected landowners on an alignment that shifts the Project farther from Mr. Liebl's residence. To date, however, there is not agreement among the landowners to shift the alignment to the north and east within the expanded right-of-way.

Although Xcel Energy understands the concerns raised in the Liebl Comments, they do not require the Commission to reconsider the Order. Route Segment 213 was proposed during the scoping period, studied in the draft environmental impact statement (EIS), subject to public comment during the public hearing comment period, and studied in the final EIS. The Liebl Comments do not raise any new issues that were not previously presented to the Commission, and the Order reflects that the Commission carefully considered the route in this area. As such, Xcel Energy respectfully submits that the Liebl Comments do not warrant reconsideration.

II. RESPONSE TO PLADSON PETITION.

A. Background.

The Pladsons are property owners outside of the City of St. Augusta, Minnesota, whose property is crossed by Route Segment 244. Route Segment 244 was proposed by the Minnesota Department of Natural Resources to avoid and minimize natural resource impacts, and Xcel Energy incorporated Route Segment 244 into its Preferred Route because of the reduced natural resource impacts. Route Segment 244 was also incorporated into the route selected by the Commission for the Project.

The Pladsons provided comments throughout this process opposing Route Segment 244 because of concerns about impacts on Christmas trees grown on their property. In its Response to Hearing Comments, Xcel Energy stated that it would work with the landowners to develop an alignment within the route width to avoid and minimize impacts on the Pladsons' Christmas trees.¹⁵ **Attachment B** shows the Pladson's property, the route width approved by the Commission, the alignment reflected in the Order, and the alignment being evaluated by Xcel Energy. This alignment was presented to the Pladsons in April 2025.

Now, in their Petition, the Pladsons request reconsideration with respect to three issues: (1) move structure 256 to the southeast corner of their field; (2) move tower 257 "slightly so the deciduous trees located along the upper 1/3 of the power line between towers #256 and #257 are not destroyed;" and (3) keep structure 255 at its current proposed location.¹⁶ As discussed further below, none of these issues warrants reconsideration.

B. Discussion.

The Petition should be denied because it does not identify an error in the Order, nor does it request that any portion of the Order actually be modified. Instead, the Petition asks for a specific alignment within the route width related to a single landowner in a discrete location. Minnesota law authorizes the Commission to grant a permit for a route.¹⁷ Within an approved route, the Commission has a matter of practice identified an alignment which can be adjusted for specified

¹⁵ See Xcel Energy Response to Hearing Comments at 24 (Dec. 13, 2024) (eDocket No. [202412-212990-02](#)).

¹⁶ Structure numbers are not part of this record; Xcel Energy assumes that the structure numbers in the Pladson Petition relate to communications the Pladsons have had with land agents for the Project.

¹⁷ See Minn. R. 7850.1000, subp. 15 (providing that a "route may have a variable width of up to 1.25 miles within which a right-of-way for a high voltage transmission line can be located").

reasons in the plan and profile process. The constructed alignment must be within the route width, and the Route Permit also identifies parameters for identifying any changes to that alignment. Here, the issues raised in the Petition are all within the route width authorized by the Commission, and the Petition does not seek to modify the route width. Xcel Energy anticipates that the final alignment will be within the route width and will comply with Section 3 of the Route Permit. As such, there is no basis for reconsideration of the Order.

More specifically, Xcel Energy is evaluating the alignment reflected in Attachment B. This alignment moves structure 256 as far as possible within the route width to the southeast corner of the Pladsons' property. The remaining issues raised in the Pladson Petition also affect neighboring landowners. With respect to the changes requested by the Pladsons to structure 257, that change is opposed by the affected landowner. Structure 255 is on another landowner's property.

For the reasons discussed in Xcel Energy's July 3, 2025, filing, Xcel Energy does not support the Commission granting reconsideration for the purpose of ordering a specific alignment in response to an individual landowner's concern post-route permit. Further, as discussed herein, Xcel Energy is already attempting to work with the Pladsons and their neighbors regarding an alignment in this area.

CONCLUSION

For the reasons discussed herein, Xcel Energy respectfully requests that the Jensen Petition and the Pladson Petition be denied.

We have electronically filed this document with the Minnesota Public Utilities Commission. Copies have been served on parties on the attached service lists.
