They make getting to this page so hard that no one can find where there voices can be heard. Recommend that the City of Burnsville and the Residents of River Hills Area sit down and have a discussion on the plans of this pipe line.....

Yes all of the above needs to happen before any pipe line is further completed. What a disaster this has been!

Very concerning having a natural gas pipeline 4 feet under ground directly behind my back yard. Not even 20 yards from my house. What happens to property value when you have to disclose the natural gas pipeline that runs almost the property line of the whole back yard 20 yards from your house????????? there is hundreds of acres of state land and you choose to place a pipeline right in people's back yards. I grew up in the woods back there as a kid and could find a handful of better routes and alternatives than what has been provided..... DISGUSTING!!!!
