RE: RENEWABLE ENERGY CERTIFICATE RETIREMENT FOR RENEWABLE ENERGY OBJECTIVES (REO)-ENERGY TECHNOLOGY STANDARD (EETS) AND GREEN PRICING PROGRAMS COMPLIANCE REPORT

RENEWABLE ENERGY OBJECTIVES REPORTING FOR COMPLIANCE YEAR 2024
DOCKET NO. E999/PR-25-12

GREEN PRICING VERIFICATION
DOCKET NO. E999/PR-02-1240

Dear Mr. Seuffert:

Northern States Power Company, doing business as Xcel Energy, submits this compliance report to the Minnesota Public Utilities Commission to fulfill the verification and filing requirements for the Eligible Energy Technology Standard (EETS),[1] Renewable Energy Credit (REC) retirement, and Green Pricing REC retirement required by Minn. Stat. § 216B.1691, Subd. 3. The Company also submits this as the 2024 Annual Report required by the Commission's January 29, 2021 Order in Docket Nos. E999/M-20-464 and E999/M-13-542 regarding the Solar Energy Standard (SES).

We have provided the required information in Attachments A and B. Attachment A contains EETS, Green Pricing, SES and Distributed Solar Energy Standard (DSES) Retail Sales; EETS, Green Pricing, and SES REC Retirements; REC Purchases and Sales; and Midwest Renewable Energy Tracking System (M-RETS) Retired Certificates. Attachment B includes the M-RETS Retired Certificate Report.

[1] Formally known as the Renewable Energy Standard (RES).

A. REC Retirement

By May 1, 2025, the Company retired approximately 8.3 million RECs, representing 30 percent of annual retail sales for calendar year 2024, using M-RETS. The Company is therefore in compliance with the Minnesota EETS requirements identified in Minn. Stat. § 216B.1691 subd. 2(a) and the Commission's March 19, 2010 Order in Docket No. E999/CI-03-869.

By June 1, 2025, the Company retired more than 900,000 RECs for our Green Pricing Programs, which includes the combination of the Renewable*Connect Pilot, Renewable*Connect Government, Renewable *Connect Long Term and Renewable*Connect Flex. Details of the Company's Green Pricing Program REC retirements are included in Attachment A.3.

The required information specified in the Commission's April 17, 2014 Notice and the May 28, 2013 ORDER FINDING UTILITIES IN COMPLIANCE WITH MINN. STAT. § 216B.1691 AND MODIFYING BIENNIAL REPORTING PROCEDURES in Docket No. E999/M-12-958, including the EETS calculations, the RECs retired and the names of the M-RETS retirement sub-accounts, is provided in Attachment A.

As noted in Attachment A.7, the Company purchased approximately 312,000 RECs to supplement our Renewable*Connect Flex program.

B. Certified Renewable Percentage

The Company began offering the Certified Renewable Percentage (CRP) to our customers in reporting year 2018.

Each year, the Company calculates the CRP for the preceding year, after all program participation, REC sales, REC retirements for the EETS, trade margin sales, and all other data points that affect the CRP are available. After the annual CRP is calculated, the Company then retires the additional RECs to match the amount of renewable energy delivered to customers.

The 2024 CRP is calculated at 38.8 percent compared to 41.8 percent in 2023. The small decrease is attributed to overall lower wind production. The 2024 CRP still remains higher than the applicable EETS obligation, and therefore the Company plans to retire additional RECs for the 2024 CRP beyond what is required for the EETS.

Below is an overview of the Minnesota CRP from 2018 to 2024. All prior CRP calculations have completed the thorough process of third-party verification. The Company anticipates that the 2024 CRP will be verified by Fall of 2025.

Table 1
Annual CRP Percentages

Year	CRP Percent
2018	26.6
2019	23.3
2020	31.8
2021	34.3
2022	42.6
2023	41.8
2024	38.8

C. Renewable*Connect Government Program

The security and privacy of customer data, including energy usage data, is a key concern for the Company. As a matter of course, the Company generally does not publicly disclose energy usage data related to an individual customer.

In previous years of the REO/EETS REC retirement filing, the customer participating in the Renewable*Connect Government Program affirmatively authorized the public disclosure of information related to its energy usage even though it would not be considered public otherwise. In advance of this year's Compliance filing, the Company reached out to this customer asking if the information that it normally considers non-public could be submitted publicly for this year's 2024 REO/EETS REC retirement filing. The customer consented to the Company submitting the information as public information. Notwithstanding this one-time consent, the Company reserves the right to submit similar information as non-public in the future.

D. Summary of ongoing efforts to obtain solar energy, including a brief summary of the anticipated mix of project sizes for SES compliance

For purposes of this Section, SES compliance means the requirement set forth in Minn. Stat. § 216B.1691, Subd. 2f, whereby Xcel Energy, by the end of 2020, needs to generate or procure sufficient electricity generated by solar energy so that at least 1.5 percent of the Company's total retail electric sales in Minnesota is generated by solar

energy. The additional requirement in Subd. 2f regarding the 10 percent solar carve-out requirement from systems of 40 kW (AC) or less is addressed in Section E below.

The Company has developed a large portfolio of resources and programs to provide renewable options to residential and commercial customers. Since the passage of the SES in 2013, we have grown our utility portfolio of solar resources to expand the access of solar benefits to all customers while achieving compliance in reporting year 2024. The Company began to satisfy the Minnesota SES compliance requirements in 2020 and expects to accumulate and exceed the number of solar RECs (SRECs) required through 2040. SRECs accumulated in the REC bank beyond what is needed for compliance requirements will be applied towards the Minnesota state EETS obligations to avoid any REC expirations.

E. Progress towards the 10 percent carve-out for systems 40 kW or less, including the method by which the utility will meet the carve-out

A subset of programs from Section D above can be used towards our 10 percent small solar carve-out. Table 2 describes these impacts. These are further detailed in this section.

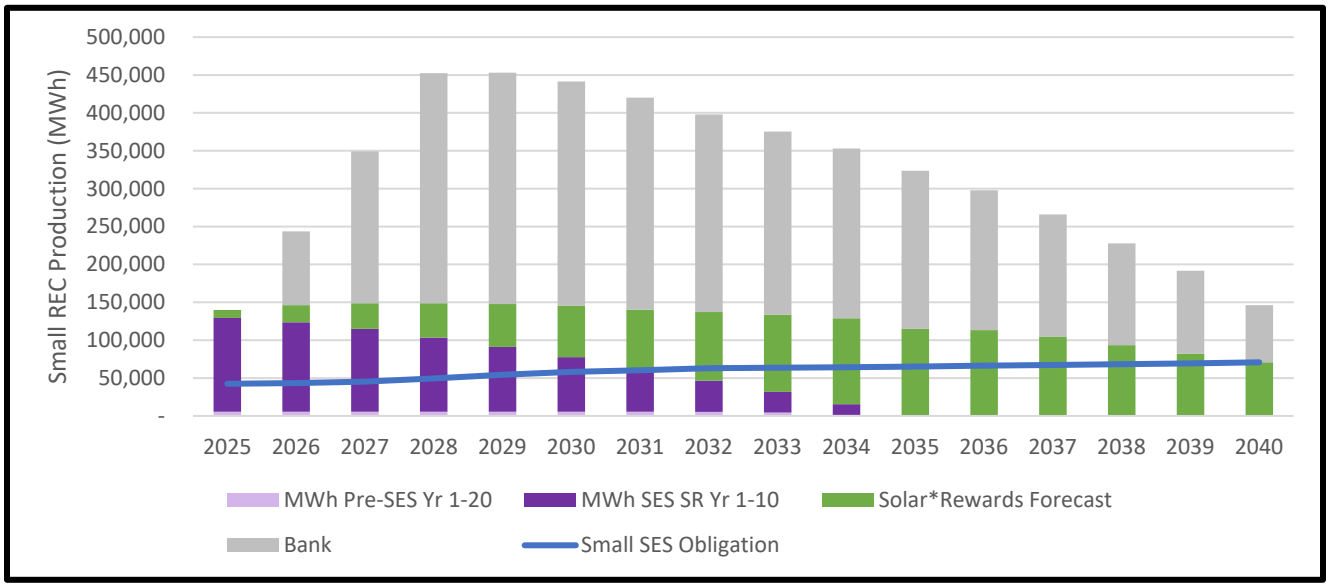

Table 2
Small Solar Carve-Out – Programs

Program Name	Size	Years Available
Solar*Rewards (First Generation)	≤40 kW (DC)*	2010 – August 2014
Solar*Rewards (Second Generation)	≤ 20 kW (DC)* ≤ 40 kW (DC)*	August 2014 – May 2018 June 2018 – May 2019
Solar*Rewards (Third Generation)	≤ 40 kW (AC)	June 2019 - 2025
Solar*Rewards for Schools	≤ 40 kW (AC) >40 kW – 1 MW	May 2022 – May 2023
Made in Minnesota	≤40 kW	2014 – 2017

*Energy produced in DC goes through an inverter to get converted to AC. In this process there is energy loss, meaning that DC output results in a lower AC output.

Graph 1 below represents our current projection for SREC compliance with the 10 percent small solar carve-out. This chart shows the Company may be in compliance with the small solar carve-out through 2040. However, this representation uses program assumptions, discussed below, and thus has embedded risk that the actual results could be significantly different than the forecast. The Company cannot predict what the installation rate will be for small rooftop solar.

PUBLIC DOCUMENT
NOT-PUBLIC DATA HAS BEEN EXCISED
Graph 1
Small SREC Production with Solar*Rewards
Program Extension through 2036

The chart above assumes 100 percent of Solar*Rewards funds are allocated based on estimated solar system performance and that of these projects; 75 percent of them are completed in the year of funding allocation through 2036.[2] If actual solar installations are lower than forecasted levels, the Company may not be able to meet the small solar carve-out requirements through 2040 as projected in the chart above.

The above analysis is based on the understanding that the nameplate capacity for purposes of this statute is measured in alternating current (AC). This is consistent with the definition of capacity in Minn. Stat. § 216B.164, Subd. 2a.(c), as well as how capacity is used or interpreted under the following statutes: Minn. Stat. §§ 216B.1611, Subd.2(a), and Subd.3a(a)(1); 216B.1613; 216B.164, and Subd. 4c; 216B.1641 (b).

F. Discussion on the utilities' efforts to reach, by 2030, the energy goal that ten percent of the retail electric sales in Minnesota be generated by solar energy

The 10 percent by 2030 goal is an energy goal of the state of Minnesota. We understand this question to be evaluating our current efforts to reach our proportional share of the state's energy goal.

[2] Minn. Stat. § 116C.7792 (d) allocates funding for the Solar*Rewards program through 2035. Starting in 2026, $5,000,000 has been added for each year through 2035.

As shown in Graph 2 below, the Company forecasts that the currently approved and proposed/planned solar resources will be sufficient to meet the 10 percent by 2030 goal and will furthermore be sufficient to satisfy the SES requirements through year 2040 without the use of banked RECs.

The Company currently has or is in the process of adding 810 MW of utility-scale solar resources. This includes Sherco Solar 1, which is in operation; Sherco Solar 2 and 3, which are in development; and the Apple River Solar PPA. Further, the Company has proposed significant additions of solar generation in our approved 2024-2040 Integrated Resource Plan.[3] Notably, solar projects have been shortlisted in our 2024 RFP.[4]

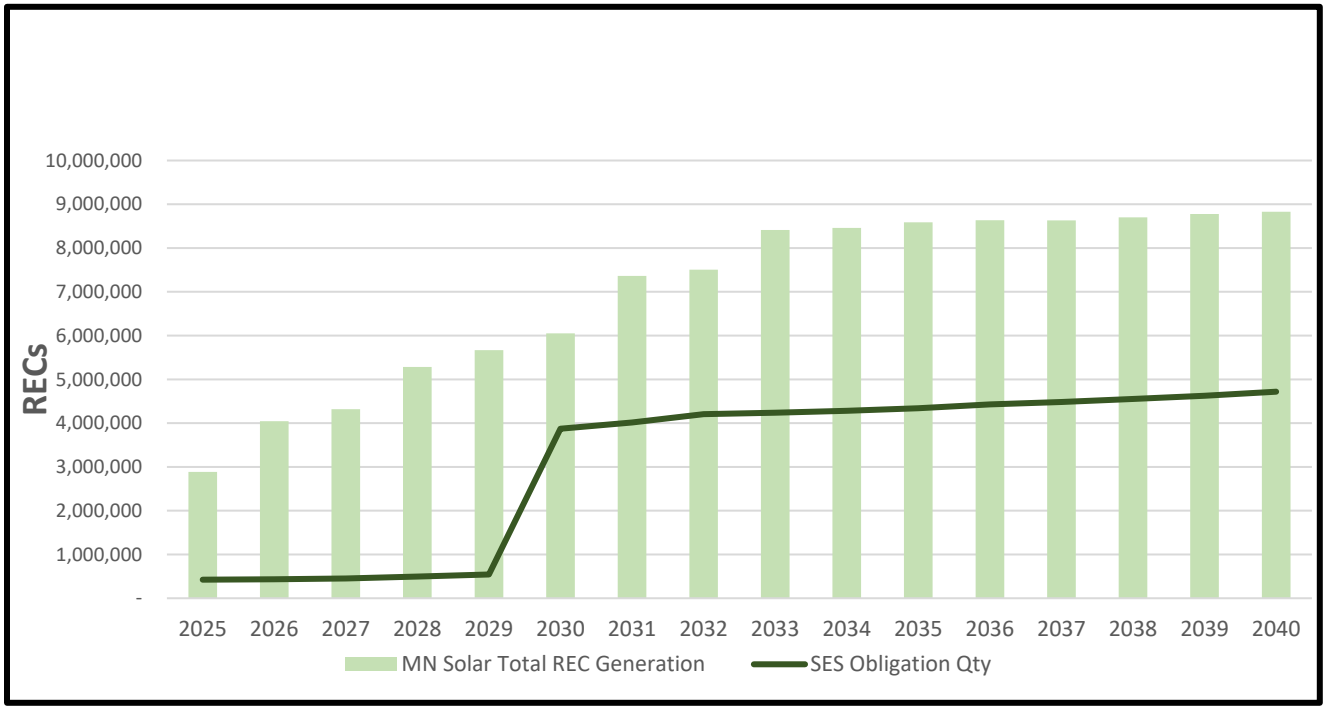

The Company also launched our first DSES RFP to procure distributed solar resources to comply with the DSES statute.[5] While current projections indicate that existing and planned solar capacity is sufficient to meet the SES without any DSES resources, the Company retains the option to count DSES resources towards SES compliance.

Looking ahead, we anticipate evaluating additional solar resources through future procurements. These efforts will focus on identifying the most competitive renewable and storage projects to meet the Company's capacity needs and support interconnection reuse through the Minnesota Energy Connection and King gen-tie lines. In total, by 2030, we expect solar to account for more than 10 percent of our total generation, in alignment with the SES goal. As always, we will continue to assess the need for additional solar resources in our future resource plans to ensure long-term compliance and system reliability.

G. Reporting for the Cities of Ada and Kasota

The Commission's April 12, 2024 ORDER FURTHER CLARIFYING IMPLEMENTATION OF CHANGES TO MINN. STAT. § 216B.1691 in Docket No. E999/CI-23-151 requires electric utilities that intend to report on behalf of one more other electric utilities must file a list of the electric utilities on whose behalf they intend to report. The Commission's April 25, 2025 Order in Docket Nos. E999/PR-24-12 and E999/PR-02-1240 provides additional guidance regarding reporting on behalf of multiple utilities. Xcel Energy filed a letter on January 31, 2025 in Docket No. E999/PR-25-12 to indicate we would file the 2024 Annual Report data on behalf of the City of Ada and the City of Kasota. We include those reports as Attachments C and D, respectively. We note that the Company is currently working with each of the cities to procure the RECs to satisfy the 2024 EETS requirements for the City of Ada and the City of Kasota. We will file a supplement in this docket to confirm when these purchases have been made.

[6] We note that Graph 2 does not show benefits from banked RECs; however, even with this conservative approach, it shows compliance through 2040.

H. Conclusion

Attachments A, B, C, and D contain certain portions that have been designated as Trade Secret information pursuant to Minn. Stat. § 13.37, subd. 1(b). In particular, the information designated as Trade Secret relates to specific Purchase Power Agreements (PPAs). The terms of the Commission-approved PPAs require that this information be non-public. Other information marked as trade secret relates to specific production from specific customer facilities. Further, this is considered to be "non-public data" pursuant to Minn. Stat. § 13.02, Subd.9, and is also "Trade Secret" information pursuant to Minn. Stat. § 13.37, subd. 1(b) as it derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use. In general, we do not publicly show the names of non-CSG resources. The smaller wind facilities and non-CSG solar resources generally are our retail customers and Minnesota regulations prohibit us from disclosing a customer name alone; therefore, we have treated as non-public the customer names along with their M-RETS ID that would otherwise identify them. Where we have biomass plants, because we have fewer than 15, we have treated as non-public the name and RECs of each. We note that the number of RECs retired from specific solar gardens is publicly provided because our solar garden tariff at Sheet No. 9-78 specifically authorizes us to make solar garden generation data public for each. Other REC retirement data for smaller facilities has been aggregated and de-identified.

We have electronically filed this document with the Minnesota Public Utilities Commission, and copies have been served on the parties on the attached service lists. Please contact me at rebecca.d.eilers@xcelenergy.com or (612) 330-5570, or Stephanie Mayers at stephanie.m.mayers@xcelenergy.com if you have any questions regarding this filing.

Sincerely,

/s/

REBECCA EILERS
MANAGER, REGULATORY AFFAIRS

More than 100 kW	0	0	0	0	0

Additional DSES Reporting

Projected DSES compliance for the current plus three (3) upcoming years. Include banked RECs.

Year	Actual/Projected MN retail sales (MWh) minus DSES exempt sales	DSES Total Req (MWh)	Projected Total SRECs (MWh)	Projected Total Surplus/ (Deficit) (MWh)	Projected Total SRECs (MWh)
2024	27,715,638.45	831,469	0	831,469	0
2025	28,297,832.04	848,935	0	848,935	0
2026	28,885,093.81	866,553	0	866,553	0
2027	30,182,680.49	905,480	120,149	785,332	120,149

Estimated Total Solar Energy Requirement to Meet DSES in 2030	1,161,509
Amount of Solar Generation Missing (Generation Needed by 2030)	1,161,509

The Status of Process Implementation, Project Procurement, and Construction *Response Required from 2025 through 2030*

On December 2, 2024, the Department of Commerce (DOC) approved our DSES RFP. We issued our first RFP on January 31, 2025, seeking at least 200 MW of DSES projects. Our DSES RFP closed on April 29, 2025. We received 17 total bids, comprising of 15 unique projects. The 17 bids amounted to 57 megawatts (MW) of nameplate capacity, with the average bid being 4.4 MW. We expect to announce the shortlist of selected projects on August 25, 2025.

We plan to issue a second RFP on June 22, 2026, followed by another approximately 18 months later. This phased approach will continue until we have procured enough capacity to meet our DSES obligation.

At this time, since no projects have been shortlisted, we are unable to provide any details regarding construction timelines or plans.

A short summary of ongoing efforts to obtain solar energy, including a brief summary of the anticipated mix of project sizes for DSES compliance.

As noted above, we are currently evaluating response to the DSES RFP. We expect to announce the project shortlist on August 25, 2025.

Any considerations, such as those outlined in Minn. Stat. § 216B.1691, subd. 2b, that may create challenges with achieving compliance, and which under Minn. Stat. § 216B.1691, subd. 2h(f), may allow the Commission to modify or delay implementation. *Response Required from 2025 through 2030*

Since the bid shortlist for our first DSES RFP is not expected until August 25, 2025, it is too early to identify or assess potential challenges.

Minnesota Public Utilities Commission: Docket No. E999/PR-25-12 **Attachment 8**
Minnesota Department of Commerce: Docket No. E999/PR-02-1240 Reporting Period: **January 1, 2024 - December 31, 2024**

M-RETS Retired Certificate Report Filing Instructions

Minn. Stat. §216B.1691, Subd. 3(9)

Directions

To confirm the information provided in Attachment 5, and to fulfill remaining Minn. Stat. §216B.1691, Subd. 3.(9) reporting requirements, please follow the steps below and file a "Retired Certificates" report from M-RETS that includes information on RECs Retired for RES, SES, and SES-smallscale compliance.

	Steps
1	Log into the M-RETS System
2	Navigate to the Certificates dashboard
3	Select the retired certificates tab
4	Select the "Account" filter and apply a filter that corresponds to the name of the retirement account that was connected to the Minnesota Porgram in M-RETS
5	Scroll to the right and select the "Reporting Period" filter and apply to the compliance year in question.
6	The report can then be downloaded using the download button on the top right of the screen

Please include the following column headers with your Retired Certificates Report

Header Title	Information included	Required by
Organization	Utility Name	
Destination Account	Retirement Account	
Generator	Generator Name	Minn. Stat. §216B.1691, Subd. 3(9)(i)
M-RETS ID	Generator ID	Minn. Stat. §216B.1691, Subd. 3(9)(i)
Generator Location	Location (state) of Generator	Minn. Stat. §216B.1691, Subd. 3(9)(i)
Generation Start Date	REC Generation Start Date	Minn. Stat. §216B.1691, Subd. 3(9)(ii)
Generation End Date	REC Generation End Date	Minn. Stat. §216B.1691, Subd. 3(9)(ii)
Fuel Type	Fuel Used to Generate Energy Associated with the Credit	Minn. Stat. §216B.1691, Subd. 3(9)(iii)
Quantity (RECs)	Number of RECs Retired	

See Attachment B

M-RETS Retired Certificate Report Filing Instructions

Minn. Stat. §216B.1691, Subd. 3(9)

Directions

To confirm the information provided in Attachment 5, and to fulfill remaining Minn. Stat. §216B.1691, Subd. 3.(9) reporting requirements, please follow the steps below and file a "Retired Certificates" report from M-RETS that includes information on RECs Retired for RES, SES, and SES-smallscale compliance.

	Steps
1	Log into the M-RETS System
2	Navigate to the Certificates dashboard
3	Select the retired certificates tab
4	Select the "Account" filter and apply a filter that corresponds to the name of the retirement account that was connected to the Minnesota Porgram in M-RETS
5	Scroll to the right and select the "Reporting Period" filter and apply to the compliance year in question.
6	The report can then be downloaded using the download button on the top right of the screen

Please include the following column headers with your Retired Certificates Report

Header Title	Information included	Required by
Organization	Utility Name	
Destination Account	Retirement Account	
Generator	Generator Name	Minn. Stat. §216B.1691, Subd. 3(9)(i)
