Name * Jeanne Fahlstrom

Provide the docket's number. 25-111

Leave a comment on the docket. *

In the State of Minnesota there needs to be an actual need stated for a project. If there isn't, it is against Minnesota law to go forward with this project. No need stated equals no need permit. Until there are actual Data Centers sucking up all this energy, there is no need. Right now, you have not even shown me the actual projected need.

As a resident of Minnesota with a cabin near the powerline, I insist that you follow the law. At the very least, I demand that the PUC pause review of 25-111 and 25-112 dockets.
