VIA ELECTRONIC FILING

Mr. William Seuffert
Executive Secretary
Minnesota Public Utilities Commission
1221 Seventh Place East, Suite 350
Saint Paul, MN 55101-2147

**Re: In the Matter of the Application of Hayward Solar LLC for a Certificate of Need for the up to 150 MW Hayward Solar Project in Freeborn County, Minnesota
MPUC Docket No. IP-7053/CN-21-112**

**In the Matter of the Application of Hayward Solar LLC for a Site Permit for the up to 150 MW Hayward Solar Project in Freeborn County, Minnesota
MPUC Docket No. IP-7053/GS-21-113**

Dear Mr. Seuffert:

Hayward Solar LLC (Hayward Solar) has completed the notice requirements of Minnesota Rules 7829.2500 and 7850.2100 and provided direct mail notice and newspaper publication relating to Hayward Solar's Certificate of Need Application (CN Application) and Site Permit Application (SP Application) (collectively, Applications).

ATTACHMENT A includes the notice and certificate of service documenting that Hayward Solar provided notice of the filing of the Applications to the general list maintained by the Minnesota Public Utilities Commission in accordance with Minnesota Rule 7829.2500, Minnesota Rule 7850.2100, subp. 2(A), and Minnesota Statutes § 216E.03, subd. 4.

ATTACHMENT B includes the cover letter, notice and certificate of mailing documenting that Hayward Solar provided notice and a copy of the Applications by certified mail to each regional development commission, county, incorporated municipality, and town/township within or adjacent to the proposed site in accordance with Minnesota Rule 7850.2100, subp. 2(B) and Minnesota Statute § 216E.03, subd. 4.

ATTACHMENT C includes the cover letter, notice and certificate of mailing documenting that Hayward Solar provided written notice of the Applications to each landowner living within or

April 22, 2022

Page 2

adjacent to the proposed site in accordance with Minnesota Rule 7850.2100, subp. 2(C) and Minnesota Statute § 216E.03, subd. 4.

ATTACHMENT D includes the affidavits of publication and tear sheets documenting that Hayward Solar provided notice by publication in the *Albert Lea Tribune*, and the *Saint Paul Pioneer Press* in accordance with Minnesota Rule 7829.2500, subp. 5, Minnesota Rule 7850.2100, subp. 4 and Minnesota Statute § 216E.03, subd. 4.

ATTACHMENT E includes the cover letter, certificate of mailing and confirmation of delivery documenting that Hayward Solar provided a copy of the Applications to the Albert Lea Public Library to be available for public review.

A copy of this filing is also being served upon the persons on the Official Service Lists of record. Please let me know if you have any questions regarding this filing

Sincerely,

FREDRIKSON & BYRON, P.A.

NOTICE OF FILING CERTIFICATE OF NEED AND SITE PERMIT APPLICATIONS FOR THE HAYWARD SOLAR PROJECT WITH THE MINNESOTA PUBLIC UTILITIES COMMISSION

- To: Persons interested in the proposed up to 150 MW solar project to be located in Freeborn County, Minnesota; the Minnesota Public Utilities Commission Energy Facilities General List; Local Officials; and Property Owners**
- Re: Notice of Hayward Solar LLC's Filing of Certificate of Need and Site Permit Applications with the Minnesota Public Utilities Commission (MPUC Docket Nos. IP-7053/CN-21-112 and IP-7053/GS-21-113)**

This letter provides formal notice that Hayward Solar LLC ("Hayward Solar"), a wholly owned indirect subsidiary of CD Clean Energy and Infrastructure VII JV, LLC, filed Certificate of Need and Site Permit applications with the Minnesota Public Utilities Commission ("Commission") on May 5, 2021 for an up to 150 megawatt ("MW") photovoltaic ("PV") solar energy generating facility and associated systems in Freeborn County, Minnesota ("Project"). This notice also provides information on the Project and the permitting processes, as well as information on how to register your name with the Commission on the Project contact list to ensure that you receive future notices.

PROJECT LOCATION

The Project is located within an approximately 1,958-acre Project area, of which approximately 1,272 acres is currently proposed for use, in portions of Hayward Township in Freeborn County, Minnesota.

The Project will include PV solar panels/arrays, linear axis tracking rack system, inverters, fencing, step-up transformers, power transformers, electrical wiring, access roads, Project substation, Operations and Maintenance building, switchyard, below-ground or above-ground electrical collection and communication lines, parking areas, up to ten weather stations, 161-kilowatt overhead gen-tie transmission line, a Supervisory Control and Data Acquisition system, switchgear, metering equipment, stormwater collection ponds, temporary laydown areas, and other ancillary equipment or buildings typical of a utility-scale solar facility.

The accompanying map outlines the location of the Project.

PROPERTY ACQUISITION

Hayward Solar has, through voluntary agreements, secured 100 percent of the private real estate rights necessary to construct the Project. Accordingly, Hayward Solar's current and future plans do not include the use of eminent domain. If additional property rights are required for the Project, Hayward Solar will seek to negotiate a voluntary easement agreement with each affected landowner. If Hayward Solar and the landowner are unable to negotiate an easement for the right-of-way, Hayward Solar reserves the right to evaluate whether the use of eminent domain is appropriate under Minn. Stat. Ch. 117, based on specific circumstances.

ATTACHMENT A

CERTIFICATE OF NEED

Minnesota Statutes Section 216B.243, subdivision 2, states that “no large energy facility” shall be sited or constructed in Minnesota without the issuance of a Certificate of Need (“CN”). Hayward Solar filed its CN application with the Commission on May 5, 2021.

The Commission will consider the CN application pursuant to Minn. Stat. § 216B.243 and implementing rules, Minn. R. Ch. 7849. The statutes and rules also establish notice requirements for various stages of the process. Per statute, the Commission shall approve or deny the CN within twelve (12) months of the CN application.

The Commission will hold a public meeting on the CN application. The Commission will provide notice of this meeting to persons whose names are on the Project contact list, those listed on a general service list, local government officials in the area of the proposed Project, and those persons who own property adjacent to any site or within any route affected by the proposed Project. At this meeting, the public will be afforded an opportunity to ask questions and present comments and suggest alternative and possible impacts to be evaluated in the environmental report.

SITE PERMIT PROCESS

A Site Permit (“SP”) from the Commission is required before the Project can be constructed. The Power Plant Siting Act (Minn. Stat. Ch. 216E) and implementing rules in Minn. R. parts 7850.1000 to 7850.5600 establish the requirements for submitting and processing a permit application. The statutes and rules also establish notice requirements for various stages of the process.

The Commission will consider the SP application pursuant to the alternative permitting process outlined in Minn. Stat. § 216E.04 and Minn. R. 7850.2800 through 7850.3900. The Commission has up to six months from the time the application is accepted as complete to process and make a decision on the permit according to Minn. Stat. § 216E.04, subd. 7 and Minnesota Rule 7850.3900, subp. 1, but that time period is extended up to 12 months from the time the application is accepted as complete because the Project also requires a CN before it can receive a SP and the process for a CN is up to 12 months.

Within sixty (60) days after the Commission accepts the SP application as complete, the Commission will schedule a public meeting to provide information to the public about the Project and to afford the public an opportunity to present comments and ask questions. At this meeting, members of the public may comment on the scope of the draft Environmental Assessment (“EA”) that the Department of Commerce, Energy, Environmental Review and Analysis unit (“EERA”) will prepare. Once the public meeting is scheduled, notice of the meeting will be provided to persons whose names are on the Project contact list and will be published in a legal newspaper of general circulation in the Project area.

Once EERA completes the draft EA, EERA will make the document available for public review by placing a copy of the document in a public library or other governmental office in each county

ATTACHMENT A

where the Project is proposed, and will hold an informational meeting to provide for the opportunity to comment on the draft EA. A period for written comments will also be provided.

After the draft EA has been completed, a public hearing (conducted by an administrative law judge from the Office of Administrative Hearings) will be held. Any person may speak at the public hearing, present documentary evidence, ask questions of Hayward Solar representatives and EERA staff, and submit comments.

Hayward Solar has requested that the Commission jointly process the two applications.

Further details regarding upcoming meetings and comment periods on the two applications will be provided by Hayward Solar and the Commission in the future.

PUBLIC INFORMATION AND ENVIRONMENTAL ASSESSMENT SCOPING MEETING

The Commission and the Minnesota Department of Commerce (“Department”) will hold a public information and Environmental Assessment scoping meeting on the Applications at a future date. Please look for future notices providing additional details regarding the meeting.

HOW TO LEARN MORE

Department of Commerce Project Website: <http://mn.gov/commerce/energyfacilities>

Full Case Record: All documents filed in these dockets are available on the Commission’s website at <https://mn.gov/puc/>. Select “eDockets”, and under the category of “Docket Number”, enter the year (21) and docket number (112 for the CN and 113 for the SP), then select “Search”.

Subscribe to the Docket: The best way to stay informed is to “subscribe” to receive e-mail notifications when new documents are filed in the docket:

1. Follow the steps above to access the full case record.
2. Select box under Subscribe and click on Subscribe.
3. Type your e-mail address.
4. For Type of Subscription, select Docket Number.
5. For Docket Number, select 21 in the first box and type 112 for the CN or 113 for the SP in the second box.
6. Select Add to List.
7. Select Save.

Project Mailing List: Contact the Public Advisor (see below)

Public Libraries: The CN and SP applications are available for review at the following public library:

- Albert Lea Public Library, 211 East Clark Street, Albert Lea, MN 56007

ATTACHMENT A

Minnesota Statutes and Rules: The CN is being reviewed under Minn. Stat. § 216B.243 and Minn. R. Ch 7849. The SP is eligible for consideration by the Commission under the alternative permitting process in Minn. Stat. § 216E.04 and Minn. R. 7850.2800 through 7850.3900. Minnesota Statutes and Rules are available at <https://www.revisor.mn.gov/>

PROJECT CONTACTS

Public Utilities Commission Public Advisor

Michael Kaluzniak at publicadvisor.puc@state.mn.us or (651) 201-2257 or 1 (800) 657-3782

Public Utilities Commission Staff Analyst

Stephen Rakow at stephen.rakow@state.mn.us or 1 (800) 657-3782

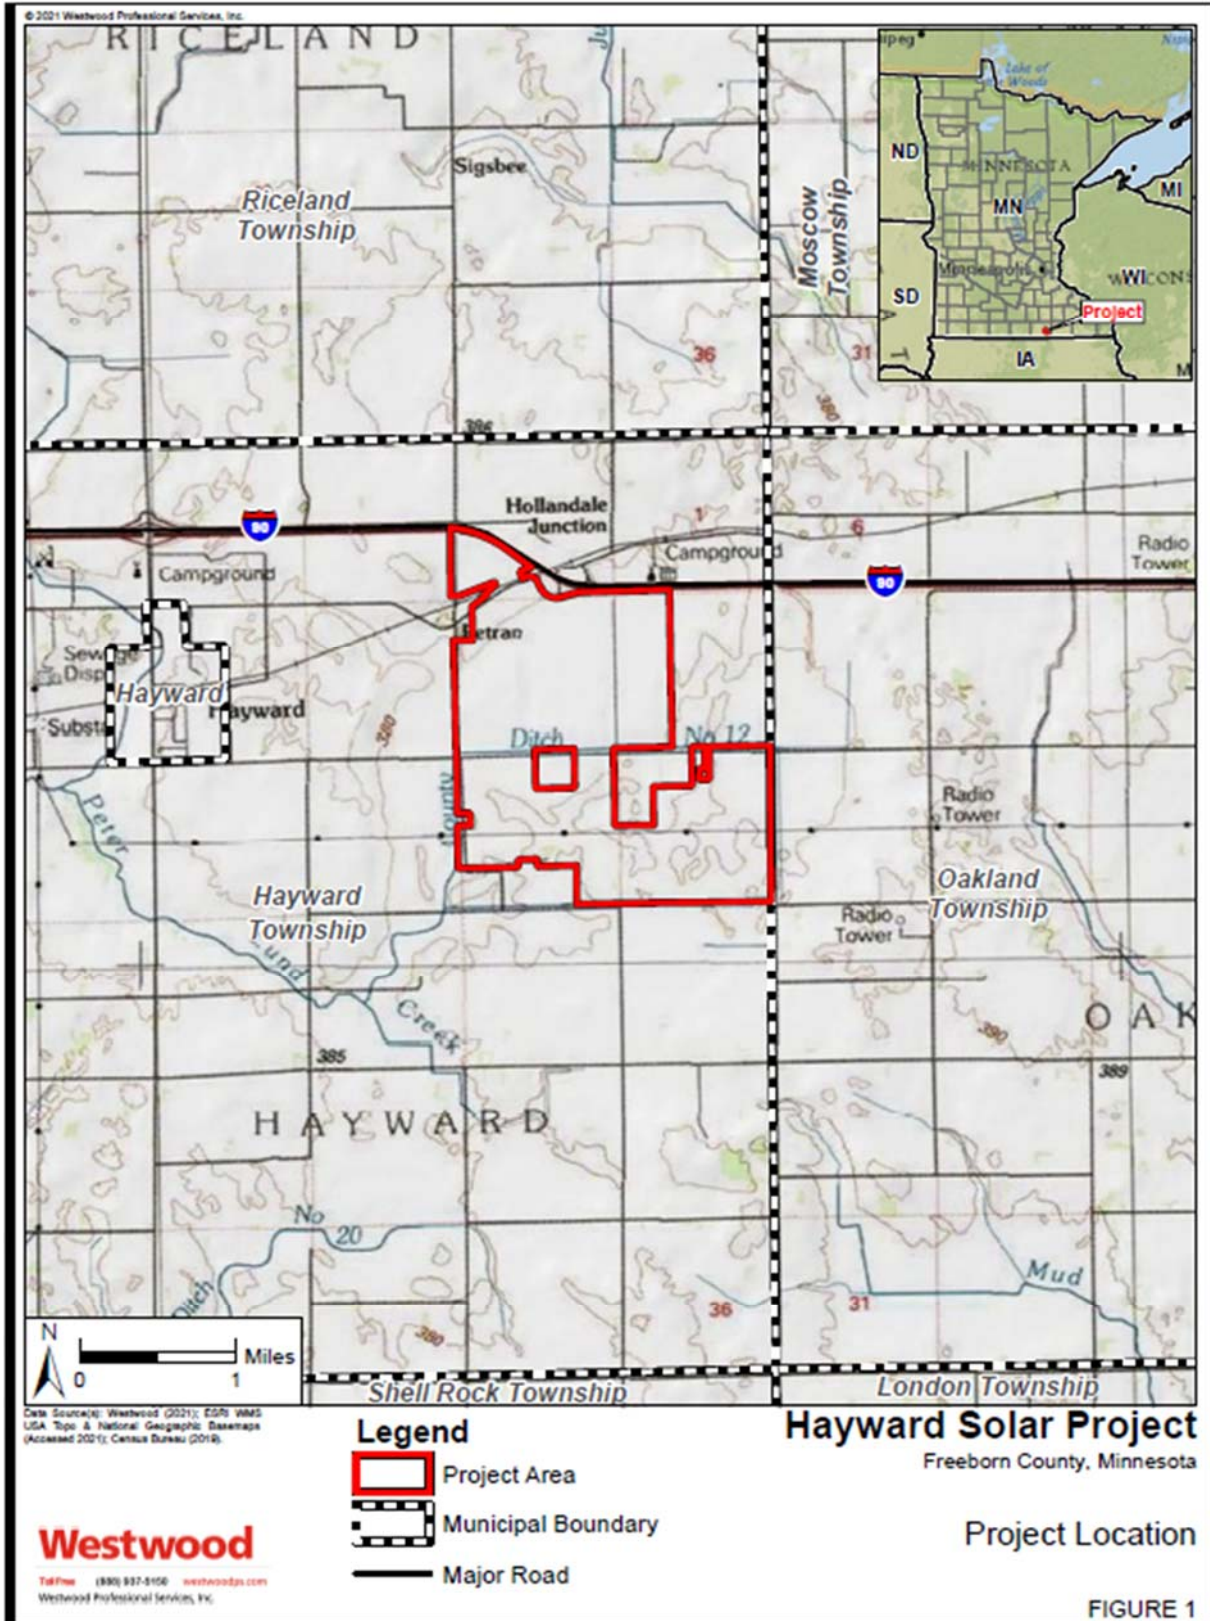

Department of Commerce Environmental Review Manager

Ray Kirsch at raymond.kirsch@state.mn.us or (651) 539-1841

If you wish to receive written notices of the Project milestones regarding the environmental review process, including notice of the availability of the draft EA, please sign up for the Project contact list by contacting the Public Advisor indicated above.

Should you require further information pertaining to the Project, or to the CN or SP applications, please contact Hayward Solar's representative, Mike Roth, Director, Strategic Development & Acquisitions, Tenaska, Inc., at mroth@tenaska.com or (402) 938-1634.

**Re: In the Matter of the Application of Hayward Solar LLC for a Certificate of Need for the up to 150 MW Hayward Solar Project in Freeborn County, Minnesota
MPUC Docket No. IP-7053/CN-21-112**

**In the Matter of the Application of Hayward Solar LLC for a Site Permit for the up to 150 MW Hayward Solar Project in Freeborn County, Minnesota
MPUC Docket No. IP-7053/GS-21-113**

To Whom it May Concern:

On May 5, 2021, Hayward Solar LLC's (Hayward Solar), a wholly owned indirect subsidiary of CD Clean Energy and Infrastructure VII JV, LLC, filed Certificate of Need and Site Permit Applications (Applications) with the Minnesota Public Utilities Commission (Commission) for a proposed up to 150-megawatt (MW) alternating current (AC) solar energy generating facility to be located in Hayward Township, Freeborn County, Minnesota (Project).

As a local unit of government and regional development commission in the area of the Project, we are providing you with a thumb drive containing the Applications and the attached notice of filing. Please retain the Applications on file in your office for public review.

Should you require further information pertaining to the Project or the Applications, please contact Hayward Solar's representative Mike Roth, Director, Strategic Development & Acquisitions, Tenaska, Inc., at mroth@tenaska.com or (402) 938-1634.

Sincerely,

FREDRIKSON & BYRON, P.A.

NOTICE OF FILING CERTIFICATE OF NEED AND SITE PERMIT APPLICATIONS FOR THE HAYWARD SOLAR PROJECT WITH THE MINNESOTA PUBLIC UTILITIES COMMISSION

- To: Persons interested in the proposed up to 150 MW solar project to be located in Freeborn County, Minnesota; the Minnesota Public Utilities Commission Energy Facilities General List; Local Officials; and Property Owners**
- Re: Notice of Hayward Solar LLC's Filing of Certificate of Need and Site Permit Applications with the Minnesota Public Utilities Commission (MPUC Docket Nos. IP-7053/CN-21-112 and IP-7053/GS-21-113)**

This letter provides formal notice that Hayward Solar LLC ("Hayward Solar"), a wholly owned indirect subsidiary of CD Clean Energy and Infrastructure VII JV, LLC, filed Certificate of Need and Site Permit applications with the Minnesota Public Utilities Commission ("Commission") on May 5, 2021 for an up to 150 megawatt ("MW") photovoltaic ("PV") solar energy generating facility and associated systems in Freeborn County, Minnesota ("Project"). This notice also provides information on the Project and the permitting processes, as well as information on how to register your name with the Commission on the Project contact list to ensure that you receive future notices.

PROJECT LOCATION

The Project is located within an approximately 1,958-acre Project area, of which approximately 1,272 acres is currently proposed for use, in portions of Hayward Township in Freeborn County, Minnesota.

The Project will include PV solar panels/arrays, linear axis tracking rack system, inverters, fencing, step-up transformers, power transformers, electrical wiring, access roads, Project substation, Operations and Maintenance building, switchyard, below-ground or above-ground electrical collection and communication lines, parking areas, up to ten weather stations, 161-kilowatt overhead gen-tie transmission line, a Supervisory Control and Data Acquisition system, switchgear, metering equipment, stormwater collection ponds, temporary laydown areas, and other ancillary equipment or buildings typical of a utility-scale solar facility.

The accompanying map outlines the location of the Project.

PROPERTY ACQUISITION

Hayward Solar has, through voluntary agreements, secured 100 percent of the private real estate rights necessary to construct the Project. Accordingly, Hayward Solar's current and future plans do not include the use of eminent domain. If additional property rights are required for the Project, Hayward Solar will seek to negotiate a voluntary easement agreement with each affected landowner. If Hayward Solar and the landowner are unable to negotiate an easement for the right-of-way, Hayward Solar reserves the right to evaluate whether the use of eminent domain is appropriate under Minn. Stat. Ch. 117, based on specific circumstances.

ATTACHMENT B

CERTIFICATE OF NEED

Minnesota Statutes Section 216B.243, subdivision 2, states that “no large energy facility” shall be sited or constructed in Minnesota without the issuance of a Certificate of Need (“CN”). Hayward Solar filed its CN application with the Commission on May 5, 2021.

The Commission will consider the CN application pursuant to Minn. Stat. § 216B.243 and implementing rules, Minn. R. Ch. 7849. The statutes and rules also establish notice requirements for various stages of the process. Per statute, the Commission shall approve or deny the CN within twelve (12) months of the CN application.

The Commission will hold a public meeting on the CN application. The Commission will provide notice of this meeting to persons whose names are on the Project contact list, those listed on a general service list, local government officials in the area of the proposed Project, and those persons who own property adjacent to any site or within any route affected by the proposed Project. At this meeting, the public will be afforded an opportunity to ask questions and present comments and suggest alternative and possible impacts to be evaluated in the environmental report.

SITE PERMIT PROCESS

A Site Permit (“SP”) from the Commission is required before the Project can be constructed. The Power Plant Siting Act (Minn. Stat. Ch. 216E) and implementing rules in Minn. R. parts 7850.1000 to 7850.5600 establish the requirements for submitting and processing a permit application. The statutes and rules also establish notice requirements for various stages of the process.

The Commission will consider the SP application pursuant to the alternative permitting process outlined in Minn. Stat. § 216E.04 and Minn. R. 7850.2800 through 7850.3900. The Commission has up to six months from the time the application is accepted as complete to process and make a decision on the permit according to Minn. Stat. § 216E.04, subd. 7 and Minnesota Rule 7850.3900, subp. 1, but that time period is extended up to 12 months from the time the application is accepted as complete because the Project also requires a CN before it can receive a SP and the process for a CN is up to 12 months.

Within sixty (60) days after the Commission accepts the SP application as complete, the Commission will schedule a public meeting to provide information to the public about the Project and to afford the public an opportunity to present comments and ask questions. At this meeting, members of the public may comment on the scope of the draft Environmental Assessment (“EA”) that the Department of Commerce, Energy, Environmental Review and Analysis unit (“EERA”) will prepare. Once the public meeting is scheduled, notice of the meeting will be provided to persons whose names are on the Project contact list and will be published in a legal newspaper of general circulation in the Project area.

Once EERA completes the draft EA, EERA will make the document available for public review by placing a copy of the document in a public library or other governmental office in each county

ATTACHMENT B

where the Project is proposed, and will hold an informational meeting to provide for the opportunity to comment on the draft EA. A period for written comments will also be provided.

After the draft EA has been completed, a public hearing (conducted by an administrative law judge from the Office of Administrative Hearings) will be held. Any person may speak at the public hearing, present documentary evidence, ask questions of Hayward Solar representatives and EERA staff, and submit comments.

Hayward Solar has requested that the Commission jointly process the two applications.

Further details regarding upcoming meetings and comment periods on the two applications will be provided by Hayward Solar and the Commission in the future.

PUBLIC INFORMATION AND ENVIRONMENTAL ASSESSMENT SCOPING MEETING

The Commission and the Minnesota Department of Commerce (“Department”) will hold a public information and Environmental Assessment scoping meeting on the Applications at a future date. Please look for future notices providing additional details regarding the meeting.

HOW TO LEARN MORE

Department of Commerce Project Website: <http://mn.gov/commerce/energyfacilities>

Full Case Record: All documents filed in these dockets are available on the Commission’s website at <https://mn.gov/puc/>. Select “eDockets”, and under the category of “Docket Number”, enter the year (21) and docket number (112 for the CN and 113 for the SP), then select “Search”.

Subscribe to the Docket: The best way to stay informed is to “subscribe” to receive e-mail notifications when new documents are filed in the docket:

1. Follow the steps above to access the full case record.
2. Select box under Subscribe and click on Subscribe.
3. Type your e-mail address.
4. For Type of Subscription, select Docket Number.
5. For Docket Number, select 21 in the first box and type 112 for the CN or 113 for the SP in the second box.
6. Select Add to List.
7. Select Save.

Project Mailing List: Contact the Public Advisor (see below)

Public Libraries: The CN and SP applications are available for review at the following public library:

- Albert Lea Public Library, 211 East Clark Street, Albert Lea, MN 56007

ATTACHMENT B

Minnesota Statutes and Rules: The CN is being reviewed under Minn. Stat. § 216B.243 and Minn. R. Ch 7849. The SP is eligible for consideration by the Commission under the alternative permitting process in Minn. Stat. § 216E.04 and Minn. R. 7850.2800 through 7850.3900. Minnesota Statutes and Rules are available at <https://www.revisor.mn.gov/>

In the Matter of the Application of Hayward Solar LLC for a Site Permit for the up to 150 MW Hayward Solar Project in Freeborn County, Minnesota MPUC Docket No. IP-7053/GS-21-113

To Whom it May Concern:

On May 5, 2021, Hayward Solar LLC's (Hayward Solar), a wholly owned indirect subsidiary of CD Clean Energy and Infrastructure VII JV, LLC, filed Certificate of Need and Site Permit Applications (Applications) with the Minnesota Public Utilities Commission (Commission) for a proposed up to 150-megawatt (MW) alternating current (AC) solar energy generating facility to be located in Hayward Township, Freeborn County, Minnesota (Project).

You are receiving this letter and notice because you are either within or adjacent to a proposed site for the Project. The enclosed notice provides information on the Project and the application processes, as well as information regarding how to register your name with the Commission on the Project list to ensure that you receive future notices. In addition, a map of the proposed facility near your property is included.

Should you require further information pertaining to the Project or the Applications, please contact Hayward Solar's representative, Mike Roth, Director, Strategic Development & Acquisitions, Tenaska, Inc., at mroth@tenaska.com or (402) 938-1634.

Sincerely,

Fredrikson & Byron, P.A.

The Commission and the Minnesota Department of Commerce (“Department”) will hold a public information and Environmental Assessment scoping meeting on the Applications at a future date. Please look for future notices providing additional details regarding the meeting.

HOW TO LEARN MORE

Department of Commerce Project Website: <http://mn.gov/commerce/energyfacilities>

Full Case Record: All documents filed in these dockets are available on the Commission’s website at <https://mn.gov/puc/>. Select “eDockets”, and under the category of “Docket Number”, enter the year (21) and docket number (112 for the CN and 113 for the SP), then select “Search”.

Subscribe to the Docket: The best way to stay informed is to “subscribe” to receive e-mail notifications when new documents are filed in the docket:

1. Follow the steps above to access the full case record.
2. Select box under Subscribe and click on Subscribe.
3. Type your e-mail address.
4. For Type of Subscription, select Docket Number.
5. For Docket Number, select 21 in the first box and type 112 for the CN or 113 for the SP in the second box.
6. Select Add to List.
7. Select Save.

Project Mailing List: Contact the Public Advisor (see below)

Public Libraries: The CN and SP applications are available for review at the following public library:

- Albert Lea Public Library, 211 East Clark Street, Albert Lea, MN 56007

ATTACHMENT C

Minnesota Statutes and Rules: The CN is being reviewed under Minn. Stat. § 216B.243 and Minn. R. Ch 7849. The SP is eligible for consideration by the Commission under the alternative permitting process in Minn. Stat. § 216E.04 and Minn. R. 7850.2800 through 7850.3900. Minnesota Statutes and Rules are available at <https://www.revisor.mn.gov/>

NOTICE OF FILING CERTIFICATE OF NEED AND SITE PERMIT APPLICATIONS FOR THE HAYWARD SOLAR PROJECT WITH THE MINNESOTA PUBLIC UTILITIES COMMISSION

Please take notice that Hayward Solar LLC ("Hayward Solar"), a wholly owned indirect subsidiary of CD Clean Energy and Infrastructure VII JV, LLC, filed Certificate of Need and Site Permit applications with the Minnesota Public Utilities Commission ("Commission") on May 5, 2021 for an up to 150 megawatt ("MW") photovoltaic ("PV") solar energy generating facility and associated systems in Freeborn County, Minnesota ("Project"). This notice also provides information on the Project and the permitting processes, as well as information on how to register your name with the Commission on the Project contact list to ensure that you receive future notices.

PROJECT LOCATION
The Project is located within an approximately 1,958-acre Project area, of which approximately 1,272 acres is currently proposed for use, in portions of Hayward Township in Freeborn County, Minnesota.

The Project will include PV solar panels/arrays, linear axis tracking rack system, inverters, fencing, step-up transformers, power transformers, electrical wiring, access roads, Project substation, Operations and Maintenance building, switchyard, below-ground or above-ground electrical collection and communication lines, parking areas, up to ten weather stations, 161-kilowatt overhead gen-tie transmission line, a Supervisory Control and Data Acquisition system, switchgear, metering equipment, stormwater collection ponds, temporary laydown areas, and other ancillary equipment or buildings typical of a utility-scale solar facility. The accompanying map outlines the location of the Project.

PUBLIC INFORMATION AND ENVIRONMENTAL ASSESSMENT SCOPING MEETING

The Commission and the Minnesota Department of Commerce ("Department") will hold a public information and Environmental Assessment ("EA") scoping meeting on the Applications at a future date. Please look for future notices providing additional details regarding the meeting.
