INVESTIGATION INTO THE CREATION OF
A COMMISSION SUBCOMMITTEE UNDER
MINN. STAT. §216A.03, SUBD. 8

DOCKET NO. E999/CI-17-284

SUPPLEMENTAL COMMENTS

INTRODUCTION

Northern States Power Company, doing business as Xcel Energy (the Company), submits these Supplemental Comments in response to the Commission's July 6, 2017 Notice of Supplemental Comment Period (Notice) in the above-mentioned docket.

In these comments, we provide our response to Attachment A-1 of the Notice, which includes additional options for consideration prepared by the Commission Staff. Parties already have had an opportunity to offer opinions on the DG Subcommittee proposal and have also stated their initial reactions to other parties' recommendations. There appears to be little consensus on the appropriate procedures or scope of issues that would be suitable for the DG Subcommittee. The Staff and parties have also presented alternative mechanisms to address the desire for procedural efficiency and increased access. We appreciate the creative ideas brought forth to date and continue to believe the proposal needs more development to respond to issues raised in this proceeding. We appreciate the opportunity to provide additional input on alternative mechanisms as set forth in the Notice.

COMMENTS

A. Additional Type of Work

In Attachment A-1, the Staff identified additional work that could be delegated to the proposed DG Subcommittee and listed the following options: objections to interventions in non-contested cases, requests for an Administrative Law Judge for discovery disputes, and requests for the Office of Administrative Hearings to conduct

public hearings. These examples are unlikely to require decisions on material questions, and the Company is not opposed to including these types of matters as appropriately in scope for review by the Subcommittee. Staff may wish to clarify whether the intent is that the same docket or matter could have parts (e.g., procedural decisions) delegated to the proposed Subcommittee and other parts (e.g., material decisions) handled by the full Commission.

B. Pilot with a Sunset Date

If the Commission decides to create a DG Subcommittee, we believe it is important to conduct an evaluation that assesses the results and lessons learned. It would be reasonable to establish the Subcommittee for a pilot period of 18 months, as contemplated by the Staff, and let the Subcommittee sunset unless the Commission explicitly orders its continuation based on the evaluation.

C. Modifications to the CAO Process

The Staff requested comments on two potential modifications to the current practices of the Commission's Consumer Affairs Office (CAO). We have suggested that strengthening the present CAO process could be a viable option in addition to or in lieu of the DG Subcommittee.

The Staff requested comments on an option of mandating more information about distributed generation complaints as part of the utilities' annual reporting requirements under Minn. Rule 7820.0500, Sub. B. We believe more insight into the quantity and types of complaints would be very helpful in understanding the scope of the problem being addressed by the staff proposal. We note that additional transparency alone would not be sufficient to resolve any existing disputes or to prevent future disputes.

The Staff also requested comments on an option to provide resolution letters in CAO matters, appealable to the full Commission if the utility or customer is not satisfied with the proposed Staff resolution. We believe this is exactly the kind of improvement that would strengthen the CAO process, especially if combined with increased transparency about the process, number and types of complaints, and resolutions.

D. Stakeholder Advisory Group

We do not believe a separate stakeholder advisory group would result in efficiency gains or increased accessibility to the Commission process. We suggest the Staff could instead use the existing Commission protocols, such as Commission Planning

Meetings, which allow for input on these types of issues. Using the existing Commission Planning Meetings, instead of an advisory group, would have the added benefits of transparency and compliance with the open meetings law that otherwise could be lacking with an advisory group.

CONCLUSION

We appreciate the opportunity to provide these supplemental comments to the Commission, and believe the Staff has identified a feasible option to strengthen the CAO process. If the CAO process is enhanced accordingly, this could be a positive step to help achieve the goals of increased efficiency and accessibility. We are supportive of the goals for this proceeding, and we continue to believe that the staff proposal would benefit from further development.
