To members of the Minnesota Public Utility Commission regarding Docket 23-215:

I urge you to choose among Center Point's pilot plans submitted towards their Natural Gas Innovation Plan -- specifically to choose Pilot L, Pilot N and Pilot I and to discard Pilot P.

The criteria for choosing Pilots L, N and I and rejecting Pilot P is to enable transitioning to renewables and avoid committing consumers to gas projects over the long term.

I will be watching your decisionmaking process and results. Thank you.

Sincerely,  
Kristin (Murph) Dawkins
