RE: PETITION
NEW BASE COST OF GAS
DOCKET NO. G002/MR-25-357

Dear Ms. Bergman:

Northern States Power Company, doing business as Xcel Energy, submits the enclosed PETITION for approval of a new base cost of gas to be used to determine interim rates in conjunction with our general natural gas rate case filing (Docket No. G002/GR-25-356).

Attached to this cover letter, we provide the required information as specified in Minn. R. 7829.1300 and Minn. R. 7829.0700, including to whom information requests should be directed.

We have electronically filed this document with the Commission, and copies have been served on the parties on the attached service lists. Please contact me at amber.r.hedlund@xcelenergy.com or Lynnette Sweet at lynnette.m.sweet@xcelenergy.com if you have any questions regarding this filing.

Sincerely,

/s/

AMBER R. HEDLUND
MANAGER, REGULATORY AFFAIRS

Enclosures
cc: Service Lists

REQUIRED INFORMATION

I. SUMMARY OF FILING

A one-paragraph summary is attached to this filing pursuant to Minn. R. 7829.1300, subp. 1.

II. SERVICE ON OTHER PARTIES

Pursuant to Minn. Stat. § 216.17, subd. 3, we have electronically filed this document with the Commission. Pursuant to Minn. R. 7829.1300, subp. 2, the Company has served a copy of this filing on the Department of Commerce and the Office of the Attorney General. A summary of the filing has been served on all parties on the enclosed service list.

III. GENERAL FILING INFORMATION

Pursuant to Minn. R. 7829.1300, subp. 3, the Company provides the following information.

A. Name, Address, and Telephone Number of Utility

Northern States Power Company doing business as:
Xcel Energy
414 Nicollet Mall
Minneapolis, MN 55401
(612) 330-5500

B. Name, Address, and Telephone Number of Utility Attorney

Xcel Energy
Riley Conlin Principal Attorney
Xcel Energy
414 Nicollet Mall, 401 – 8th Floor
Minneapolis, MN 55401
(612) 216-9309

C. Date of Filing and Proposed Effective Date of Rates

Xcel Energy is submitting this filing on October 31, 2025. Pursuant to Minn. Stat. § 216B.16, subd. 1, the Company is requesting approval of the new base gas costs and

REQUIRED INFORMATION

corresponding revised tariff sheets effective with the implementation of interim rates in Docket No. G002/GR-25-356, which will occur no earlier than January 1, 2026.

D. Statute Controlling Schedule for Processing the Filing

Minn. Stat. § 216B.16, subd. 1 prescribes general timelines for rate and tariff changes, including, but not limited to, a requirement of 60-days' notice prior to any rate or tariff change.

Commission Rules define this filing as a “miscellaneous filing” under Minn. R. 7829.0100, subp. 11 since no determination of Xcel Energy’s overall revenue requirement is necessary. Minn. R. 7829.1400, subp. 1 and 4 permit comments in response to a miscellaneous filing to be filed within 30 days and reply comments to be filed no later than 10 days thereafter.

E. Utility Employee Responsible for Filing

Xcel Energy
Amber R. Hedlund
Manager, Regulatory Affairs
Xcel Energy
414 Nicollet Mall, 401 – 7th Floor
Minneapolis, MN 55401
(612) 337-2268

IV. MISCELLANEOUS INFORMATION

Pursuant to Minn. R. 7829.0700, the Company requests that the following persons be placed on the Commission’s official service list for this proceeding:

Xcel Energy
Riley Conlin
Principal Attorney
MN1180-08-MCA
414 Nicollet Mall
Minneapolis, MN 55401
Riley.conlin@xcelenergy.com

Xcel Energy
Christine Marquis
Regulatory Administrator

IN THE MATTER OF THE PETITION OF
NORTHERN STATES POWER COMPANY
FOR APPROVAL OF A NEW BASE GAS
COST FOR INTERIM RATES

DOCKET NO. G002/MR-25-357

PETITION

INTRODUCTION

Pursuant to Minn. R. 7825.2700, subp. 2 and Minn. R. 7825.3200, part B, Northern States Power Company, doing business as Xcel Energy (Xcel Energy or the Company) hereby submits to the Minnesota Public Utilities Commission (the Commission) a Petition for approval to implement new base gas costs to coincide with the implementation of interim rates in the Company's general gas rate case filing, Docket No. G002/GR-25-356.

I. DESCRIPTION AND PURPOSE OF FILING

A. Description of the Proposed Tariff

Pursuant to Minn. R. 7825.2700, subpt. 2, a new base gas cost must be submitted as a miscellaneous filing to coincide with the implementation of interim rates during a general rate proceeding; or to coincide with the implementation of the proposed final rates if those rates are not suspended and interim rates are not put into effect. This new base cost of gas was included in the proposed interim rate filing in Docket No. G002/GR-25-356.

The proposed base cost of gas rates were developed for commodity and peak shaving based on 12 distinct monthly costs. Because classes exhibit varying usage patterns during the year, this method gives each class of customers a different base commodity cost of gas. Monthly gas costs were then summarized for each class and divided by the annual sales volumes to determine the base commodity gas cost. This same methodology was approved in the Company's prior natural gas rate case and Base

Cost of Gas Petition, Docket No. G002/GR-23-413 and G002/MR-23-412. Attachment A identifies the calculation of the commodity and peak shaving gas costs by class.

System demand costs are calculated with each pipeline transportation or storage contract's price per unit multiplied by the quantity and then by the number of months for which the contract is effective. The annual contract cost is then categorized as either an "Annual" or "Winter" related cost as determined by the number of months for which the contract is effective.

The proposed base cost of gas rates for demand costs were allocated to general demand and Demand Billed classes based on contribution to design day demand for the State of Minnesota. These demand costs are first allocated to the Demand Billed classes. The resulting annual non-demand billed cost is then divided by annual firm sales to develop the Annual demand rate, and the resulting Winter non-demand billed cost is divided by the firm sales forecast for November through March to develop the Winter demand adder. This same methodology was approved in the Company's prior natural gas rate case and Base Cost of Gas petition, Docket Nos. G002/GR-23-413 and G002/MR-23-412. Attachment B identifies the calculation of the demand gas costs by class.

Attachment C compares the proposed base cost of gas rates to the previously approved base cost of gas rates from the prior natural gas rate case and Base Cost of Gas Petition, Docket Nos. G002/GR-23-413 and G002/MR-23-412.

Additional details describing how the inputs to calculate the base cost of gas are derived as follows; as stated in the Required Financial Information in Volume 3, Section II (4), Schedule E filed in Docket No. G002/GR-25-356:

The annual forecast of purchased gas expense is a projected expense prepared using a computer model. The data inputs for the model include the Company's monthly sales forecast, a "lost and unaccounted for" factor, pipeline transportation and storage contracts and supply contracts. The model uses the monthly sales projections and the "lost and unaccounted for" factor to project monthly sales volumes. The model then satisfies monthly projected required sales volumes by drawing on supply and storage contracts via transportation contracts described in detail within the model. The contract provisions and physical restrictions determine the monthly availability within the model of term gas supply contracts, as well as Xcel Energy liquefied natural gas and propane-air peak shaving supplies. The model then assumes spot market gas is readily available to satisfy any remaining monthly projected required sales volumes not met by the modeled term or storage resource portfolio.

Once the volume requirements are met, the model then projects the purchased gas expense for both fixed and variable costs. The fixed costs are modeled to reflect transportation demand, storage reservation, and gas supply demand fees. Interstate pipeline transportation and storage costs are set by FERC approved tariffs or defined in specific agreements. In the model, the costs correspond to and are associated with each resource (i.e., transportation/ storage resource or gas supply resource).

The variable costs for pipeline transportation and storage services are set by FERC approved tariffs and are used to calculate the variable transport costs for the model. These pipeline variable costs include volumetric pipeline commodity costs, fuel and ACA surcharges.

The variable costs for gas supply, also known as “commodity charges,” are typically tied to price indices published in various gas industry publications. In the Purchased Gas Expense model, the company uses a combination of market indicators such as NYMEX and various long-term price forecasts published by highly respected, industry-leading sources such as Wood Mackenzie and S&P Global. The forecast is NYMEX based for the first few years, and then it transitions into blending the NYMEX curve with the vendor forecasts to develop a composite forecast. The company used the following weightings for each component at various time intervals: Balance of the year plus two years is 100 percent NYMEX, years 3 and beyond is a simple average of NYMEX (25%), Wood Mackenzie (37.5%), and S&P Global (37.5%). The resulting prices are applied to the respective forecasted volumes to calculate the gas supply expense portion of the model.

Xcel Energy operates its Minnesota/North Dakota gas system in an integrated fashion. Purchasing, dispatching and monitoring decisions are made with the entire system in mind. The total system costs are then allocated between the two states based on total system sales forecasts for commodity costs, and projected design day demand for fixed costs.

B. Proposed Tariff Sheets

Attachment D contains the proposed tariff sheets including the Purchased Gas Adjustment (PGA) tariff page, which states the new base cost of gas for each customer class. The schedules containing proposed interim and final rates are included with the Company's interim rate petition. We provide the tariff sheets in redline and clean format as follows:

Minnesota Gas Rate Book – MPUC No. 2

- Sheet No. 5-1, revision 15
- Sheet No. 5-2, revision 15
- Sheet No. 5-3, revision 13
- Sheet No. 5-10.1, revision 6
- Sheet No. 5-41, revision 13

C. Customer Notice

Xcel Energy proposes to inform customers of the interim rate schedule and provide information explaining the interim rates through a bill insert. The proposed customer notice and details regarding the notice plan are provided in the Company's General Rate Case Application and Petition for Interim Rates.

II. EFFECT OF CHANGE UPON XCEL ENERGY REVENUE

This Petition does not affect the Company's revenues. Rather, it simply reflects a lower base cost of gas within the same determined monthly Purchased Gas Adjustment (PGA). Because the PGA adjusts monthly and is trued up to collect actual costs incurred, any change in revenue is offset by a change in costs.

CONCLUSION

Xcel Energy respectfully requests Commission approval of the Company's proposed new base cost of gas and corresponding PGA tariff be effective with the interim rates in the general rate case.

IN THE MATTER OF THE PETITION OF
NORTHERN STATES POWER COMPANY
FOR APPROVAL OF A NEW BASE GAS
COST FOR INTERIM RATES

DOCKET NO. G002/MR-25-357

PETITION

SUMMARY OF FILING

Please take notice that on October 31, 2025, Northern States Power Company filed with the Minnesota Public Utilities Commission a Petition for approval to implement new base gas rates. Xcel Energy proposes the new base gas cost tariffs be made effective with the interim rates approved in the general rate case, Docket No. G002/GR-25-356, or with the proposed final rates, if those rates are not suspended and interim rates put into effect.

MINNESOTA GAS RATE BOOK - MPUC NO. 2

RESIDENTIAL FIRM SERVICE

RATE CODE: 101

Section No. 5

~~14th~~15th Revised Sheet No. 1

AVAILABILITY

This rate is available to any residential customer, as defined in Class Definitions in Section 4, for domestic use of natural gas service.

DETERMINATION OF CUSTOMER BILLS

Customer bills under this rate are based on the distribution cost and the cost of gas that vary with customer usage determined in Therms, in addition to a monthly minimum charge equal to the monthly customer charge. Details regarding these specific charges are listed below.

DETERMINATION OF COST OF GAS

The billed Cost of Gas is the below Base Cost of Gas for each unit of customer usage determined in Therms adjusted by the Purchased Gas Adjustment as provided for in the Purchased Gas Adjustment Clause. See additional information on the Purchased Gas Adjustment Clause in this section.

MONTHLY MINIMUM CHARGE

Customer Charge as listed below.

RATE

Customer Charge per Month \$9.00

Distribution Charge per Therm \$0.380239

Base Cost of Gas per Therm

April - October ~~\$0.444832~~0.542376

November - March ~~\$0.516916~~0.629323

COMMERCIAL FIRM SERVICE

Section No. 5

RATE CODES: SMALL 102 & 108; LARGE 118 & 125

~~44th~~15th Revised Sheet No. 2

AVAILABILITY

This rate is available to any firm commercial or industrial customer as defined in Class Definitions in Section 4 for general use of natural gas service with peak daily demand requirements of less than 500 Therms.

Customer's rate will be based on annual usage:

- Small – less than 6,000 Therms; and
- Large – at least 6,000 Therms.

Customers with peak daily demand requirements of 500 Therms or more must take service under Commercial Demand Billed Service.

DETERMINATION OF CUSTOMER BILLS

Customer bills under this rate are based on the distribution cost and the cost of gas that vary with customer usage determined in Therms, in addition to a monthly minimum charge equal to the monthly customer charge. Details regarding these specific charges are listed below.

DETERMINATION OF COST OF GAS

The billed Cost of Gas is the below Base Cost of Gas for each unit of customer usage determined in Therms adjusted by the Purchased Gas Adjustment as provided for in the Purchased Gas Adjustment Clause. See additional information on the Purchased Gas Adjustment Clause in this section.

MONTHLY MINIMUM CHARGE

Customer Charge as listed below.

MINNESOTA GAS RATE BOOK - MPUC NO. 2

COMMERCIAL DEMAND BILLED SERVICE

Section No. 5

RATE CODES: SMALL 119, LARGE 103

~~12th~~13th Revised Sheet No. 3

AVAILABILITY

This rate is available to any firm commercial and industrial customer as defined in Section 2. Customer's rate will be based on peak day demand: Small – less than 500 Therms; and Large – at least 500 Therms. Gas consumed under this rate schedule must be separately metered from customer's other firm gas requirements.

CHARACTER OF SERVICE

Service shall be provided through a Company owned and maintained meter with telemetering or other automated meter reading capabilities installed. Customer shall provide, install, and maintain a weatherproof phone service and electrical service outlet with appropriate grounding for telemetering equipment.

If the Customer fails to provide phone and/or electrical service that meets Company requirements, then the Company may take one of the following actions and charge the Customer for the costs:

1. Equip customer with cellular meter reading technology, if service is available, for an initial cost of \$1,800 and a monthly cost of \$10.00 for cellular service and maintenance.
2. Equip customer with a recording instrument for an initial cost of \$2,100 and a monthly cost of \$52.44 for reading the recording instrument manually each month by the Company via laptop computer.

DETERMINATION OF CUSTOMER BILLS

Customer bills under this rate are based on the distribution cost and the cost of gas that vary with customer usage determined in Therms, in addition to a monthly minimum charge equal to the monthly customer charge plus demand costs (including distribution and cost of gas) which is based on the customer's demand in Therms as defined below. Details regarding these specific charges are listed below,

DETERMINATION OF COST OF GAS

The billed Cost of Gas is the below Base Cost of Gas for each unit of customer usage determined in Therms adjusted by the Purchased Gas Adjustment as provided for in the Purchased Gas Adjustment Clause. See additional information on the Purchased Gas Adjustment Clause in this section.

MONTHLY MINIMUM CHARGE

Customer Charge plus the Demand Charge as listed below.

RATE	SMALL	LARGE	
Customer Charge per Month	\$175.00	\$275.00	
Distribution Charge per Therm	\$0.154138	\$0.154138	R
Distribution Demand Charge per Therm per Month of Billing Demand	\$0.895000	\$0.895000	R
Commodity Base Cost of Gas per Therm	\$0.3634000 <u>0.423991</u>	\$0.3634000 <u>0.423991</u>	R
Demand Base Cost of Gas per Therm per Month of Billing Demand	\$0.8520501 <u>1.136773</u>	\$0.8520501 <u>1.136773</u>	R

* Per Therm of Billing Demand

4. GAS SUPPLY COST TRUE-UP

For each 12-month period ending June 30, a Gas Supply Cost True-Up factor will be calculated for each supply cost component described in Section 2 of this Clause. The true-up factors will be added to each supply cost component beginning with the first billing cycle each September and will remain in effect for 12 months. Certain gas costs incurred by Xcel Energy from February 13-17, 2021 will be excluded from the annual gas supply cost true-up for the period ending June 30, 2021. These costs will be recovered via the February 2021 Weather Event – Pricing Event Surcharge described in Section 7 of this Clause.
