

1 Q. Did MP reply to your first recommendation?

2 A. ~~No~~ Yes. MP agreed with my recommendation. MP Ex. \_\_\_\_\_ at 8-9 (McMillan Rebuttal).

4 Q. What is your conclusion from this response omission?

5 A. ~~I conclude that MP neither supports nor objects to such a requirement. Given no~~  
6 ~~objection from MP,~~ I continue to recommend that the Commission require MP to use  
7 the Commission's externality values in all certificates of need and put MP on notice  
8 that failure to do so would result in CN filings being found to be incomplete in the  
9 future.
