

NOTICE OF COMMENT PERIOD ON SITE PERMIT AMENDMENT

Issued: November 26, 2025

In the Matter of the Application of Big Bend Wind, LLC for a Large Wind Energy Conversion System Site Permit for the up to 300 MW Big Bend Wind Project in Cottonwood and Watonwan Counties, Minnesota

PUC Docket Number(s): IP-7013/WS-19-619

Comment Period: Initial comment period closes December 10, 2025 at 4:30pm

Reply comment period closes December 17, 2025 at 4:30pm

Comments received after the close of the comment period may or may not be considered by the Commission.

Issue: On October 31, 2025, Big Bend Wind, LLC (Big Bend Wind or Permittee) submitted a request for the Commission to amend the existing Big Bend Wind Large Wind Energy Conversion System (LWECS) site permit originally issued to Big Bend Wind on September 28, 2022, and extended on December 23, 2024 (the Site Permit).

Big Bend Wind is requesting to amend the site permit to address the following changes: (1) turbine technology, (2) the Site Layout changes that occurred since the Site Permit was issued, and (3) references to Minn. Stat. Ch. 216I, which became effective after the Site Permit was issued. Specifically, the requested amendments are based on:

- Turbine technology changes:
 - removing a turbine model from consideration, and
 - uprating the capacity of a different turbine model (turbine dimensions have not changed); and
- Site layout changes, including:
 - removal of two turbine locations (other turbine locations have not changed),
 - the addition of a collection line easement that avoids a Minnesota Department of Natural Resources (MDNR) driveway crossing, and
 - shifting the location of the operation and maintenance (O&M) building to the former Red Rock Solar Project substation (to be collocated with the Project substation).

Topic(s) Open for Comment:

- Are there any new or changed human or environmental impacts from the redesigned project when compared to the original project?
- If the proposed design changes were known to the Commission at the time the site permit was issued, would the Commission have made a different decision?
- Should the Commission approve Big Bend Wind's petition to amend the side permit for the Big Bend Wind Project?
- Are there other issues or concerns related to this matter?

Background: In its September 28, 2022 Order, the Commission granted Big Bend Wind a certificate of need, site permit and a route permit for the Big Bend Wind Project. Big Bend Wind, a wholly owned subsidiary of Apex Clean Energy Holdings, Inc, was permitted to construct an up to 300-megawatt large wind energy conversion system in Cottonwood and Watonwan counties. The turbine technology change will result in a slight increase in the nameplate capacity for the GE-158 turbine type from 5.8 MW to 6.1 MW, but the turbine design features (total height, hub height, and rotor diameter) will remain the same as in the original application. The turbine capacity increase will result in total project nameplate capacity increase from up to 300 MW to 311.1 MW.

Filing Requirements: Utilities, telecommunications carriers, official parties, and state agencies are **required** to efile documents using the Commission's electronic filing system (eFiling). All parties, participants, and interested persons are encouraged to use eFiling at:

<https://www.edockets.state.mn.us/EFiling>

Submit Public Comments:

Online: <https://mn.gov/puc/get-involved/public-comments/>, and follow the instructions.
