

BEFORE THE MINNESOTA PUBLIC UTILITIES COMMISSION

Nancy Lange
Dan Lipschultz
Matthew Schuerger
Katie J. Sieben
John A. Tuma

In the Matter of Freeborn Wind Energy, LLC for a Large Wind Energy Conversion System Site Permit for the 84 MW Freeborn Wind Farm in Freeborn County

ISSUE DATE: December 19, 2018 DOCKET NO. IP-6946/WS-17-322

Mr. Tuma stated the obvious; “if Invenergy doesn’t have the land, this project cannot move forward.”

INVENERGY DOESN’T HAVE THE LAND!!

Freeborn Wind Energy is an LLC. A limited liability company (LLC) is the US -specific form of a private limited company.

Which means even after Xcel buys this company it will still be a LLC. They cannot use Eminent Domain. NO PROJECT! THEY DON’T HAVE THE LAND!

PG. 10 Implantable Medical Devices. Potential impacts, should they occur, would be long-term and localized. OH GOOD, JUST LIKE BIG TOBACCO!

PG 10 Why does the Commission have no standard for regulating magnetic fields? Why is that regulation unwarranted?

Stop declining all the ALJ’s proposals. Adopt them.

Not enough land for the project, noise studies subpar, too many lies. This project needs not move forward any longer. DENY!

Thank you,

Allie Olson
