Introduction and Background

On May 10, 2019, the Minnesota Public Utilities Commission (Commission) issued Freeborn Wind Energy LLC an amended Large Wind Energy Conversion System (LWECS) site permit for the Freeborn Wind Farm.¹ The permit authorizes construction and operation of an up to 84 megawatt wind farm in Freeborn County, MN. On December 19, 2018 the Commission issued Freeborn Wind Energy LLC a route permit for the Freeborn Wind Farm 161 kilovolt (kV) high voltage transmission line (HVTL).² The permit authorizes construction of an approximately 7 mile-long 161 kV HVTL for the Freeborn Wind Farm in

Freeborn County, MN. On December 27, 2018, the Commission filed in eDockets additional documents that are attachments to the previously issued route permit, which were unintentionally omitted from the original route permit order.³

On June 14, 2019, Northern States Power Company of Minnesota (NSPM, referred to hereinafter as the Company) purchased Freeborn Wind Farm, which included the LWECS Site Permit and the HVTL Route Permit. On June 18, 2019, the Company notified the Commission of their acquisition and filed a request with the Commission to transfer the Freeborn Wind Farm LWECS Site Permit and the Freeborn Wind Farm 161 kV HVTL Route Permit to Xcel.⁴

On July 8, 2019 the Commission issued a Notice of Comment Period requesting comments on the permit transfer.⁵

Regulatory Process and Procedures

To transfer an LWECS site permit, a permittee must provide the “name of the existing permittee, the name and description of the person to whom the permit is to be transferred, the reasons for the transfer, a description of the facilities affected, and the requested date of the transfer.”⁶ The entity to which the permit is to be transferred must provide “such information as the [Commission] shall require to determine whether the new permittee can comply with the conditions of the permit.”⁷

The Commission must approve the permit transfer “if the Commission determines that the new permittee will comply with the conditions of the permit.”⁸ The Commission may impose reasonable conditions on the permit transfer.⁹

Similarly, to transfer an HVTL route permit, a permittee must provide the “name of the existing permittee, the name and description of the entity to which the permit is to be transferred, the reasons for the transfer, a description of the facilities affected, and the proposed effective date of the transfer.”¹⁰ The entity to which the permit is to be transferred must provide “such information as the [Commission] shall require to determine whether the new permittee can comply with the conditions of the permit.”¹¹

The Commission must approve the permit transfer “if the Commission determines that the new permittee will comply with the conditions of the permit.”¹² The Commission may impose reasonable conditions on the permit transfer.¹³

EERA Staff Analysis and Comments

In their June 18, 2019 filing, the Company provided the name of the existing permittee, the name and description of the person to whom the permit is to be transferred, the reasons for the transfer, a description of the facilities affected, and the requested date of the transfer.¹⁴ Therefore, EERA believes the basic informational requirements of the permit transfer request have been met.

The Freeborn Wind Farm LWECS site permit and HVTL route permit contain construction related obligations for the permittee. In addition, the LWECS site permit contains on-going operational obligations for the permittee. The Company has stated that they will comply with all conditions in the Freeborn Wind Farm LWECS site and HVTL route permit and have indicated that the Company has appropriately skilled and experienced staff to deliver on this commitment.¹⁵ Based on the record to date and EERA staff’s experience with permits for other NSPM and Xcel Energy projects, EERA staff has no reason to believe that the Company will not comply with the conditions in the Freeborn Wind Farm permits.

EERA Staff Recommendation

If the Commission determines that the Company will comply with the conditions of the Freeborn Wind Farm permits, EERA staff recommends that the Commission approve transfer of the Freeborn Wind Farm LWECS site permit and HVTL route permit to the Company.
