### Message Content

Larry,  
The service at 34-22-340, was established to facilitate the export of solar energy to the cooperative.

The spirit of the statute relating to net metering envisions consumers installing DER for the purpose of providing energy for their own homes, own farms, and own businesses that would exist regardless of the presence of renewable energy.

From the very first conversations we had for this project and throughout the process, we have maintained and expressed this view.

Based on this, we believe it is appropriate for you to select "time of day purchase rates" which is option C on the contract.

A new contract will be sent out.

If you have any further questions, please feel free to call me at the office, 320-826-2593

Thank you,  
Nick Bruns

Hello Larry Rauenhorst,

The previous contract was canceled and a new one is being sent due to the following:  
Please select "time of day purchase rates" which is option C.

Please sign the document by January 06.
