RE: Joint Application for Approval of an Interconnection Agreement between  
Integra Telecom of Minnesota, Inc. and:  
CenturyTel of Minnesota, Inc. d/b/a CenturyLink, Docket No. P5643,551/IC-14-778,  
and Embarq Minnesota, Inc. d/b/a CenturyLink, Docket No. P5643,430/IC-14-779

Dear Dr. Haar:

Interconnection agreements and amendments to interconnection agreements that are not arbitrated under §252 of the Federal Telecommunications Act of 1996 may be approved without hearing under Minn. Stat. §216A.03, subd. 7. The Public Utilities Commission's (Commission) Order designating interconnection agreements and amendments to interconnection agreements as subject to a standing order was issued on August 25, 2000 in Docket No. P999/CI-00-634. The use of a standing order is to apply to filings submitted on or after September 1, 2000.

As required by the Commission's August 25, 2000 Order, the Department of Commerce has reviewed and analyzed the current filing. Attached is the Minnesota Department of Commerce's Checklist for processing Interconnection Agreements. The Checklist reflects the Department's analysis of the issues and language that the Commission has established to meet the requirements that interconnection agreements not discriminate against third parties, harm the public interest or conflict with state law.

*The petition was filed on:* September 12, 2014

*Interconnection Agreement Type:* Negotiated

*Wireless or Wireline:* Wireline

*The Petition was filed by:*

*Conditions for approval:* None

The Department's analysis finds that the interconnection agreement complies with the Commission's requirements as indicated on the attached Checklist. The Department is submitting this memorandum recommending that the Commission **approve** the interconnection agreement either at a Commission hearing or by way of the standing order process ordered on August 25, 2000.

Sincerely,

/s/ BRUCE L. LINSCHIED  
Financial Analyst

Companies: Joint Application for Approval of an Interconnection Agreement between Integra Telecom of Minnesota, Inc. and: CenturyTel of Minnesota, Inc. dba CenturyLink, Docket No. P5643,551/IC-14-778, and Embarq Minnesota, Inc. dba CenturyLink, Docket No. P5643,430/IC-14-779

## CHECKLIST FOR PROCESSING NEGOTIATED INTERCONNECTION AGREEMENTS

### ANALYTICAL PROCEDURES

#### A. NEGOTIATED INTERCONNECTION AGREEMENTS

1. Affected CLEC **has authority to provide operational facilities-based** local service. Identify the Docket and Order date: Docket No 98-660, August 12, 1998 with name change to Integra in Docket No. 98-1340 on November 23, 1998.
2. Affected CLEC **has authority to provide operational local resale** service. Identify the Docket and Order date:
- Place an "X" in the item that applies:
- UNEs and Collocation are not included in the interconnection agreement.
- UNEs and Collocation are included in the interconnection agreement. (Operational facilities-based authority must be obtained prior to the CLEC obtaining UNEs or Collocation under the interconnection agreement, or the interconnection agreement must be withdrawn and a replacement agreement without UNEs or Collocation should be submitted.)
3. The Commission has **not yet granted operational local authority** and service under the interconnection agreement cannot be offered until such authority is obtained. Choose one:
- The CLEC has not applied for local authority.
- The CLEC is seeking local facilities-based authority.
- The CLEC is seeking local resale authority and not facilities-based authority. Place an "X" in the item that applies:
- UNEs and Collocation are not included in the interconnection agreement.
- UNEs and Collocation are included in the interconnection agreement. (Operational facilities-based authority must be obtained prior to the CLEC obtaining UNEs or Collocation under the interconnection agreement, or the interconnection agreement must be withdrawn and a replacement agreement without UNEs or Collocation should be submitted.)
4. Affected carrier is a Commercial Mobile Radio Service (CMRS) provider.
5. Place an "X" in the item that applies:
- Agreement is negotiated.
- Agreement is an adoption of another interconnection agreement. Identify the docket number and date of the adopted interconnection agreement: (Adopted agreements must be amended to contain Commission-required language if the underlying agreement does not have the Commission-required language-see Commission Order, Docket No. P5321,421/IC-04-1178, May 18, 2005, Ordering Paragraph 2, page 8.)

6. Agreement contains language required by the Commission to meet the requirements of 47 CFR 252(e)(2) and (3), which specifies that the interconnection agreements may be rejected for the following reasons: 1) they discriminate against a telecommunications carrier who is not a party to the agreement; 2) implementing them would be inconsistent with the public interest, convenience and necessity; and 3) they conflict with any valid state law, including any applicable intrastate service quality standards or requirements.

The language identified below was reviewed and satisfies Commission precedent in the following sections of the Agreement.

- a. *Amendments*. No amendment, waiver, or consent or default under this Agreement shall be effective without approval of the Commission.<sup>1</sup> Indicate the section and page where this language is found: Section 6.1, page 16
- b. *Assignment*. The Party making the assignment shall notify the Commission sixty (60) days in advance of the effective date of the assignment.<sup>2</sup> Indicate the section and page where this language is found: Section 12.5, page 33
- c. *Default*.
- 1) The Commission must be notified of any pending default in writing in order to protect the public interest.<sup>3</sup> Indicate the section and page where this language is found: Section 7.6, page 27
- 2) Neither Party shall disconnect service to the other Party without first obtaining Commission approval.<sup>4</sup> Indicate the section and page where this language is found: Section 7.6, page 27
- d. *Dispute Resolution*. If the dispute has been assigned to an arbitrator for resolution, and the language of the interconnection agreement provides that the decision of the arbitrator is final and binding, the Parties shall submit a copy of each arbitration opinion to the Commission, the Department of Commerce, and the Office of the Attorney General, Residential and Small Business Utilities Division. The arbitrator's decision shall remain in effect unless the Commission acts to suspend, modify, or reject the decision within 45 days.<sup>5</sup> Indicate the section and page where this language is found: Not applicable

Interconnection agreements that do not provide for third-party arbitrations, but do provide for relief through a court or administrative agency, shall

e. *Third Party Beneficiaries.* The parties agree to give notice to the Commission of any lawsuits or other proceedings that involve or arise under this Agreement to ensure that the Commission has the opportunity to seek to intervene in these proceedings on behalf of the public interest.<sup>7</sup> Indicate the section and page where this language is found: Section 16.2.8, page 37

f. *Number Portability.* The Commission has opposed language stating that parties will not port telephone numbers of customers who have past due balances. The Commission has determined that it was inappropriate to use withholding number portability as a collection tool.<sup>8</sup> Indicate the section and page where this language is found: Section 90, pp. 146-150 complies with the Commission's position.

7. Other Issues. If the Parties have agreed to a position that is different than how the Commission resolved a disputed item, the Department does not object to the agreement if the language does not conflict with the law and the Parties do not dispute the Commission's jurisdiction. If unilateral conditions are imposed by one of the Parties to which the other Party has not agreed, the matter is not subject to the standing order.

a. Reciprocal compensation for Internet Service Provider (ISP)-bound traffic.

The Commission has required reciprocal compensation for ISP-bound traffic in certain agreements.<sup>9</sup> However, based upon the FCC's April 18, 2001 ISP Remand Order,<sup>10</sup> the Commission found that the FCC has preempted this Commission's authority over reciprocal compensation rates for ISP-bound traffic and that the Commission should reinstate the FCC-approved rates that were in effect prior to the Commission's September 24, 2003 Order.<sup>11</sup> In the ISP Remand Order, the FCC adopted an

c. Unbundled Network Elements (UNEs).

The Federal Communications Commission (FCC) affirmed that incumbent local exchange companies (ILECs) are obligated to offer combinations of unbundled network elements that they currently combine.<sup>17</sup> The Minnesota Public Utilities Commission (Commission) affirmed its position on this aspect of unbundled network elements. The Commission objected to language that stated USWC shall have no obligation to combine or separate any network elements whether or not they are ordinarily combined in USWC’s network.<sup>18</sup> The Commission has subsequently issued an Order<sup>19</sup> clarifying some requirements that arose as the result of the FCC’s Triennial Review Remand Order<sup>20</sup> that removed certain previously defined 251 UNEs.

The FCC strengthened its collocation rules to reduce the costs and delays faced by competitors that seek to collocate equipment in an ILEC's central office.<sup>22</sup> The Commission affirmed the FCC's "used or useful" definition in the collocation context for either interconnection or access to unbundled network elements, and found that language imposed by the Commission in reliance of that definition should remain in place.<sup>23</sup> The Commission later granted U S WEST's petition to reconsider its order, agreeing with the parties that it is reasonable to wait until the FCC issues further guidance on collocation of RSU's (remote switching) units before taking further action on this matter.<sup>24</sup> The FCC adopted rules concerning collocation requirement of ILECs stating that collocating equipment is "necessary for interconnection or access to unbundled network elements," and allowing requesting carriers to collocate switching and routing equipment.<sup>25</sup>
