IN THE MATTER OF THE APPLICATION FOR A
CERTIFICATE OF NEED FOR THE IRON
RANGE –ST. LOUIS COUNTY –
ARROWHEAD 345 KV TRANSMISSION LINE
PROJECT

MPUC Docket No. E015/CN-25-111

NOTICE PLAN COMPLIANCE FILING

I. INTRODUCTION

Minnesota Power and American Transmission Company LLC by and through its corporate manager ATC Management Inc. (“ATC”) (collectively, the “Applicants”) submit this Notice Plan Compliance Filing to the Minnesota Public Utilities Commission (“Commission”) pursuant to Minn. R. 7829.2550. This filing confirms that all required notices under the Notice Plan were given in advance of submitting a combined application for a Certificate of Need and a Route Permit (the “Application”) for the Iron Range –St. Louis County – Arrowhead Project (the “Project”). In addition, this Notice Plan Compliance Filing confirms that Applicants complied with the notice requirement of Minn. R. 7829.2500, Subp. 5, as varied by the Commission’s November 18, 2025 Order approving the Notice Plan (“Notice Plan Order”).

II. NOTICE PLAN IMPLEMENTATION

A. Direct Mail Notice

Enclosed with this Notice Plan Compliance Filing as **Attachment A** is an affidavit of mailing of direct mail notice for: 1) landowners and mailing addresses; and 2) local governments and Tribal government officials. **Exhibit 1** to the affidavit of mailing includes a letter that was mailed to landowners, residents, local units of government, elected officials, Tribal government contacts, and agencies within the Notice Area for the Project. **Exhibit 2** to the affidavit of mailing includes the individual mailing lists.

1. Landowners

Minn. R. 7829.2550, Subp. 3(A), requires an applicant for a Certificate of Need to provide direct mail notice to all landowners likely to be affected by the proposed transmission line. On December 4, 2025, Applicants provided direct mail notice to all landowners who own property within the Notice Area, included as **Exhibit 1**. The list of notified landowners is included in this compliance filing as **Exhibit 2**.

2. Mailing Addresses

Minn. R. 7829.2550, Subp. 3(B), requires an applicant for a Certificate of Need to provide direct mail notice to all mailing addresses in the area that are likely to be affected by the proposed transmission line. On December 4, 2025, Applicants provided direct mail notice to all residential and commercial mailing addresses within the Notice Area, included as **Exhibit 1**. The list of notified residents and commercial entities is also included in this compliance filing as **Exhibit 2**.

3. Tribal Government Officials

Minn. R. 7829.2550, Subp. 3(C) requires an applicant for a Certificate of Need for a high voltage transmission line to provide direct mail notice to Tribal governments whose jurisdictions are reasonably likely to be affected by the proposed transmission line. On December 4, 2025, Applicants provided direct mail notice to the Tribal organizations and other Tribal government officials and administrators reasonably likely to be affected by the proposed transmission line, included as **Exhibit 1**. The list of notified Tribal government officials is included in this compliance filing as **Exhibit 2**.

4. Local Governments

Minn. R. 7829.2550, Subp. 3(C), requires an applicant to provide direct mail notice to governments of towns, cities, home rule charter cities, and counties whose jurisdictions are reasonably likely to be affected by the proposed transmission line. On December 4, 2025, Applicants provided direct mail notice to lead administration personnel in the towns, cities, and counties reasonably likely to be affected by the proposed transmission line, included as **Exhibit 1**. The list of notified local government officials is also included in this compliance filing as **Exhibit 2**.

B. Newspaper Notice.

Minn. R. 7829.2550, Subp. 3(D), requires an applicant for a Certificate of Need to publish notice in newspapers in the areas that may be affected by the proposed transmission line. Newspaper notices regarding the Project were run in the following local newspapers:

Newspaper	Run Date
<i>Star Tribune</i>	December 3, 2025
<i>Duluth News Tribune</i>	December 3, 2025
<i>Grand Rapids Herald Review</i>	December 3, 2025
<i>The Proctor Journal</i>	December 4, 2025

In addition, Minn. R. 7829.2500, Subp. 5, requires that after submission of the application, notice must be published in a newspaper of general circulation throughout

the state. In their Notice Plan, Applicants proposed to vary this rule requirement and publish notice in the *Star Tribune* shortly before filing the Certificate of Need application, rather than after the Certificate of Need application is filed with the Commission, which the Commission approved in its Notice Plan Order.¹ A newspaper notice regarding the Project was run in the *Star Tribune* on December 3, 2025.

Affidavits of publication, and a copy of each publication's tear sheet, are included in this filing as **Attachment B**.

C. Notice Timing

Minn. R. 7829.2550, Subp. 6, requires the applicant to implement the Notice Plan within 30 days of its approval by the Commission. In its Notice Plan Order, the Commission granted a variance and directed the notices identified in the Notice Plan to occur no more than 60 days and no less than one week prior to the filing of the Certificate of Need application.²

Additionally, the Commission required Applicants to provide notice to the service lists maintained by the Commission for Docket Nos. E015/AI-11-75 and E015/PA-04-2020 by serving each with a copy of the Summary of Filing.³ Applicants complied with the timing and notice requirements as the Application was filed on January 5, 2026, and the Summary of Filing was served on the service lists maintained for Docket Nos. E015/AI-11-75 and E015/PA-04-2020⁴

¹ NOTICE PLAN ORDER at Order Point 3 (Nov. 18, 2025) (eDockets No. [202511-225041-01](#)).

² *Id.* at Order Point 4.

³ *Id.* at Order Point 6.

⁴ *In the Matter of the Application for a Certificate of Need for the Iron Range to St. Louis County – Arrowhead 345 kV Transmission Line Project*, Docket No. E015/CN-25-111, CERTIFICATE OF SERVICE and SUMMARY OF FILING (Jan. 5, 2026).

III. CONCLUSION

Applicants respectfully submit this Notice Plan Compliance Filing that demonstrates compliance with the Commission's Notice Plan Order. All notice elements of the Notice Plan have been completed as required.

January 9, 2026

Respectfully submitted,

MINNESOTA POWER

NOTICE OF PROPOSED TRANSMISSION LINE PROJECT

Re: *In the Matter of Application for a Certificate of Need for the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project*
Docket No. E015/CN-25-111

PLEASE TAKE NOTICE that Minnesota Power and American Transmission Company LLC by and through its corporate manager ATC Management Inc. (collectively, the “Applicants”) are applying to the Minnesota Public Utilities Commission (also “Commission”) for a Certificate of Need to construct the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project (“ISA Project” or “Project”).

Project Description

The ISA Project consists of construction of a new, approximately 66-mile-long, single-circuit 345 kV transmission line on double-circuit capable structures from Minnesota Power’s Iron Range Substation in Itasca County, Minnesota to Minnesota Power’s St. Louis County Substation in St. Louis County, Minnesota. The Project also involves construction of a new, approximately 1.5-mile-long, double-circuit 345 kV transmission line from Minnesota Power’s St. Louis County Substation to ATC’s Arrowhead Substation in Hermantown, St. Louis County, Minnesota. A map of the ISA Project is provided as **Attachment A**.

Project Need

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc. (“MISO”) as part of its Long-Range Transmission Planning (“LRTP”) Tranche 2.1 portfolio of projects included in the 2024 MISO Transmission Expansion Plan (“MTEP24”). The Project, as part of the LRTP Tranche 2.1 portfolio, is needed to enhance grid reliability in the Upper Midwest as grid operating conditions become more variable, increase grid efficiency as energy is transferred from where it is produced to where it is needed, and meet the growing demand for reliable clean energy in the Upper Midwest.

Regulatory Review Process

Before the Applicants can construct the Project, the Minnesota Public Utilities Commission (“Commission”) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota Law, including Minnesota Statutes section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules parts 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.mn.gov/puc/ in Docket No. E015/CN-25-111.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is also governed by Minnesota Law, including Minnesota Statutes Chapter 216I. A copy of the Route Permit Application, once submitted, can be obtained by visiting the Commission's website in Docket No. E015/TL-25-112.

The Commission will not make its determinations on the Certificate of Need or Route Permit until it has completed a thorough review process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. Because the Applicants anticipate requesting a joint proceeding for the Certificate of Need and Route Permit, a single environmental review document will be prepared. This process includes preparation of an Environmental Assessment ("EA") for the Project that will be submitted with the Route Permit Application. An addendum to the EA may be prepared by the Commission after the public information meetings are held in early 2026.

The Applicants will submit an application for a Route Permit with one proposed route for the proposed transmission line. Other routes can be proposed to be evaluated during the scoping process. The Commission staff will decide which routes get studied in the addendum to the EA and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

The Commission will review all of the data from the public process and will decide if the Project is needed and which route should be approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes section 216I.05, subd. 11 and stakeholder input received during the regulatory process. The table below provides a high-level summary of the major steps in the regulatory process.

Summary of Regulatory Schedule

Action	Approximate Date
Pre-application study and public meeting and stakeholder outreach	May and August 2025
Certificate of Need and Route Permit Application and EA submitted to Commission	December 2025
Informational and Scoping Meetings (public meeting and comment)	February 2026
Addendum to Environmental Assessment Issued	May 2026
Public Hearings (public meeting and comment period)	June 2026
Commission Decision	July 2026

Right-of-Way for the Project

Before beginning construction, the Applicants will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. The Applicants anticipate acquiring easements with a minimum right-of-way width of approximately 150 feet for the 345 kV transmission line. Where these transmission lines parallel existing lines, fewer new rights-of-way may be required because the new transmission line may share a portion of the existing right-of-way.

Proposed Structures for the Project

The specific type and size of structures to be used will depend on the route identified in this process along with land use/land cover, topography, water/wetlands, and soil types. Currently, structures for the Project are anticipated to be 120- to 180-foot high single-pole weathering steel structures with arms on both sides of the structure. For this type of structure, the Applicants anticipate having five to eight structures for each mile of the line.

Additional Information and Mailing Lists

To subscribe to the Project’s Certificate of Need docket (E015/CN-25-111) and to receive email notifications when information is filed in that docket, please visit www.mn.gov/puc/ and click on “eDockets,” then click on “Go to eDockets,” and then click on “Sign In” in the top right corner. Then, click on “Subscriptions” and “Create a Subscription.” In the “Docket #” box, type 25-111 and click “Create.” These same steps can be followed to subscribe to the Project’s Route Permit docket 25-112.

If you would like to have your name added to the Project Route Permit proceeding mailing list (E015/TL-25-112) you may register by contacting the public advisor in the consumer affairs office at the Commission at consumer.puc@state.mn.us, or (651) 296-0406 or 1-800-657-3782. Please be sure to note: 1) how you would like to receive notices (regular mail or email) and 2) your complete mailing or email address.

A separate mailing list is maintained for the Certificate of Need proceeding (E015/CN-25-111). To be placed on the Project Certificate of Need mailing list (MPUC Docket No. E015/CN-25-111), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147, Fax: 651-297-7073 or robin.benson@state.mn.us.

If you have any questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

Transmission Planning Process in Minnesota

Minnesota Statutes section 216B.2425, subd. 2 requires that each electric transmission-owning utility in the state file a biennial transmission planning report with the Commission in the fall of each odd-numbered year. These reports provide information on the transmission planning process used by the utilities in the state of Minnesota and information about other transmission line projects. The 2025 Biennial Transmission Projects Report is available at: www.minnelectrans.com. The 2025 Biennial Transmission Projects Report was submitted on October 31, 2025.

Sincerely,

Drew Janke

Minnesota Power

Senior Environmental Compliance Specialist

AFFIDAVIT OF PUBLICATION

**STATE OF MINNESOTA
COUNTY OF HENNEPIN**

**650 3rd Ave. S., Suite 1300
Minneapolis, MN 55488**

Elizabeth Deleeuw, being first duly sworn, on oath states as follows:

1. He is and during all times herein stated has been an employee of the Star Tribune Media Company LLC, a Delaware limited liability company with offices at 650 Third Ave. S., Suite 1300, Minneapolis, Minnesota 55488, or the publisher's designated agent. I have personal knowledge of the facts stated in this Affidavit, which is made pursuant to Minnesota Statutes §331A.07.

2. The newspaper has complied with all of the requirements to constitute a qualified newspaper under Minnesota law, including those requirements found in Minnesota Statutes §331A.02.

3. The dates of the month and the year and day of the week upon which the public notice attached/copied below was published in the newspaper are as follows:

Publication Date:

12/3/2025

4. The publisher's lowest classified rate paid by commercial users for comparable space, as determined pursuant to § 331A.06, is as follows: \$5.60 per line per day.

5. Mortgage Foreclosure Notices. Pursuant to Minnesota Statutes §580.033 relating to the publication of mortgage foreclosure notices: The newspaper's known office of issue is located in Hennepin County. The newspaper complies with the conditions described in §580.033, subd. 1, clause (1) or (2). Star Tribune has its known office of issue located in Hennepin County, which adjoins the county in which the mortgaged premises are located. A substantial portion of the newspaper is circulated in the county in which the mortgaged premises are located.

6. A true and correct copy of the legal notice is attached hereto as Exhibit A and incorporated herein by reference.

FURTHER YOUR AFFIANT SAITH NOT.

Subscribed and sworn to before me on December 10, 2025.

NOTICE OF PROPOSED TRANSMISSION LINE PROJECT

Re: In the Matter of Application for a Certificate of Need for the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project

Docket No. E015/CN-25-111

PLEASE TAKE NOTICE that Minnesota Power and American Transmission Company LLC by and through its corporate manager ATC Management Inc. (collectively, the “Applicants”) are applying to the Minnesota Public Utilities Commission (also “Commission”) for a Certificate of Need to construct the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project (“ISA Project” or “Project”).

Project Description

The ISA Project consists of construction of a new, approximately 66-mile-long, single-circuit 345 kV transmission line on double-circuit capable structures from Minnesota Power’s Iron Range Substation in Itasca County, Minnesota to Minnesota Power’s St. Louis County Substation in St. Louis County, Minnesota. The Project also involves construction of a new, approximately 1.5-mile-long, double-circuit 345 kV transmission line from Minnesota Power’s St. Louis County Substation to ATC’s Arrowhead Substation in Hermantown, St. Louis County, Minnesota. A map of the ISA Project is provided below.

Project Need

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc. (“MISO”) as part of its Long-Range Transmission Planning (“LRTP”) Tranche 2.1 portfolio of projects included in the 2024 MISO Transmission Expansion Plan (“MTEP24”). The Project, as part of the LRTP Tranche 2.1 portfolio, is needed to enhance grid reliability in the Upper Midwest as grid operating conditions become more variable, increase grid efficiency as energy is transferred from where it is produced to where it is needed, and meet the growing demand for reliable clean energy in the Upper Midwest.

Regulatory Review Process

Before the Applicants can construct the Project, the Minnesota Public Utilities Commission (“Commission”) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota Law, including Minnesota Statutes section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules parts 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission’s website at www.mn.gov/puc/ in Docket No. E015/CN-25-111.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is also governed by Minnesota Law, including Minnesota Statutes Chapter 216I. A copy of the Route Permit Application, once submitted, can be obtained by visiting the Commission’s website in Docket No. E015/TL-25-112.

The Commission will not make its determinations on the Certificate of Need or Route Permit until it has completed a thorough review process that encourages

public involvement and analyzes the impacts of the Project and various route alternatives. Because the Applicants anticipate requesting a joint proceeding for the Certificate of Need and Route Permit, a single environmental review document will be prepared. This process includes preparation of an Environmental Assessment (“EA”) for the Project that will be submitted with the Route Permit Application. An addendum to the EA may be prepared by the Commission after the public information meetings are held in early 2026.

The Applicants will submit an application for a Route Permit with one proposed route for the proposed transmission line. Other routes can be proposed to be evaluated during the scoping process. The Commission staff will decide which routes get studied in the addendum to the EA and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

The Commission will review all of the data from the public process and will decide if the Project is needed and which route should be approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes section 216I.05, subd. 11 and stakeholder input received during the regulatory process. The table below provides a high-level summary of the major steps in the regulatory process.

Summary of Regulatory Schedule

Action	Approximate Date
Pre-application study and public meeting and stakeholder outreach	May and August 2025
Certificate of Need and Route Permit Application and EA submitted to Commission	December 2025
Informational and Scoping Meetings (public meeting and comment)	February 2026
Addendum to Environmental Assessment Issued	May 2026
Public Hearings (public meeting and comment period)	June 2026
Commission Decision	July 2026

Right-of-Way for the Project

Before beginning construction, the Applicants will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. The Applicants anticipate acquiring easements with a minimum right-of-way width of approximately 150 feet for the 345 kV transmission line. Where these transmission lines parallel existing lines, fewer new rights-of-way may be required because the new transmission line may share a portion of the existing right-of-way.

Proposed Structures for the Project

The specific type and size of structures to be used will depend on the route identified in this process along with land use/land cover, topography, water/wetlands, and soil types. Currently, structures for the Project are

anticipated to be 120- to 180-foot high single-pole weathering steel structures with arms on both sides of the structure. For this type of structure, the Applicants anticipate having five to eight structures for each mile of the line.

Additional Information and Mailing Lists

To subscribe to the Project’s Certificate of Need docket (E015/CN-25-111) and to receive email notifications when information is filed in that docket, please visit www.mn.gov/puc/ and click on “eDockets,” then click on “Go to eDockets,” and then click on “Sign In” in the top right corner. Then, click on “Subscriptions” and “Create a Subscription.” In the “Docket #” box, type 25-111 and click “Create.” These same steps can be followed to subscribe to the Project’s Route Permit docket 25-112.

If you would like to have your name added to the Project Route Permit proceeding mailing list (E015/TL-25-112) you may register by contacting the public advisor in the consumer affairs office at the Commission at consumer.puc@state.mn.us, or (651) 296-0406 or 1-800-657-3782. Please be sure to note: 1) how you would like to receive notices (regular mail or email) and 2) your complete mailing or email address.

A separate mailing list is maintained for the Certificate of Need proceeding (E015/CN-25-111). To be placed on the Project Certificate of Need mailing list (MPUC Docket No. E015/CN-25-111), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147, Fax: 651-297-7073 or robin.benson@state.mn.us.

If you have any questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

Transmission Planning Process in Minnesota

Minnesota Statutes section 216B.2425, subd. 2 requires that each electric transmission-owning utility in the state file a biennial transmission planning report with the Commission in the fall of each odd-numbered year. These reports provide information on the transmission planning process used by the utilities in the state of Minnesota and information about other transmission line projects. The 2025 Biennial Transmission Projects Report is available at: www.minnlectrans.com. The 2025 Biennial Transmission Projects Report was submitted on October 31, 2025.

NOTICE OF PROPOSED TRANSMISSION LINE PROJECT

Re: In the Matter of Application for a Certificate of Need for the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project

Docket No. E015/CN-25-111

PLEASE TAKE NOTICE that Minnesota Power and American Transmission Company LLC by and through its corporate manager ATC Management Inc. (collectively, the “Applicants”) are applying to the Minnesota Public Utilities Commission (also “Commission”) for a Certificate of Need to construct the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project (“ISA Project” or “Project”).

Project Description

The ISA Project consists of construction of a new, approximately 66-mile-long, single-circuit 345 kV transmission line on double-circuit capable structures from Minnesota Power’s Iron Range Substation in Itasca County, Minnesota to Minnesota Power’s St. Louis County Substation in St. Louis County, Minnesota. The Project also involves construction of a new, approximately 1.5-mile-long, double-circuit 345 kV transmission line from Minnesota Power’s St. Louis County Substation to ATC’s Arrowhead Substation in Hermantown, St. Louis County, Minnesota. A map of the ISA Project is provided below.

Project Need

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc. (“MISO”) as part of its Long-Range Transmission Planning (“LRTP”) Tranche 2.1 portfolio of projects included in the 2024 MISO Transmission Expansion Plan (“MTEP24”). The Project, as part of the LRTP Tranche 2.1 portfolio, is needed to enhance grid reliability in the Upper Midwest as grid operating conditions become more variable, increase grid efficiency as energy is transferred from where it is produced to where it is needed, and meet the growing demand for reliable clean energy in the Upper Midwest.

Regulatory Review Process

Before the Applicants can construct the Project, the Minnesota Public Utilities Commission (“Commission”) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota Law, including Minnesota Statutes section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules parts 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission’s website at www.mn.gov/puc/ in Docket No. E015/CN-25-111.

public involvement and analyzes the impacts of the Project and various route alternatives. Because the Applicants anticipate requesting a joint proceeding for the Certificate of Need and Route Permit, a single environmental review document will be prepared. This process includes preparation of an Environmental Assessment (“EA”) for the Project that will be submitted with the Route Permit Application. An addendum to the EA may be prepared by the Commission after the public information meetings are held in early 2026.

The Applicants will submit an application for a Route Permit with one proposed route for the proposed transmission line. Other routes can be proposed to be evaluated during the scoping process. The Commission staff will decide which routes get studied in the addendum to the EA and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

The Commission will review all of the data from the public process and will decide if the Project is needed and which route should be approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes section 216I.05, subd. 11 and stakeholder input received during the regulatory process. The table below provides a high-level summary of the major steps in the regulatory process.

NOTICE OF PROPOSED TRANSMISSION LINE PROJECT

Re: In the Matter of Application for a Certificate of Need for the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project

Docket No. E015/CN-25-111

PLEASE TAKE NOTICE that Minnesota Power and American Transmission Company LLC by and through its corporate manager ATC Management Inc. (collectively, the "Applicants") are applying to the Minnesota Public Utilities Commission (also "Commission") for a Certificate of Need to construct the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project ("ISA Project" or "Project").

Project Description

The ISA Project consists of construction of a new, approximately 66-mile-long, single-circuit 345 kV transmission line on double-circuit capable structures from Minnesota Power's Iron Range Substation in Itasca County, Minnesota to Minnesota Power's St. Louis County Substation in St. Louis County, Minnesota. The Project also involves construction of a new, approximately 1.5-mile-long, double-circuit 345 kV transmission line from Minnesota Power's St. Louis County Substation to ATC's Arrowhead Substation in Hermantown, St. Louis County, Minnesota. A map of the ISA Project is provided below.

Project Need

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc. ("MISO") as part of its Long-Range Transmission Planning ("LRTP") Tranche 2.1 portfolio of projects included in the 2024 MISO Transmission Expansion Plan ("MTEP24"). The Project, as part of the LRTP Tranche 2.1 portfolio, is needed to enhance grid reliability in the Upper Midwest as grid operating conditions become more variable, increase grid efficiency as energy is transferred from where it is produced to where it is needed, and meet the growing demand for reliable clean energy in the Upper Midwest.

Regulatory Review Process

Before the Applicants can construct the Project, the Minnesota Public Utilities Commission ("Commission") must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota Law, including Minnesota Statutes section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules parts 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.mn.gov/puc/ in Docket No. E015/CN-25-111.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is also governed by Minnesota Law, including Minnesota Statutes Chapter 216I. A copy of the Route Permit Application, once submitted, can be obtained by visiting the Commission's website in Docket No. E015/TL-25-112.

The Commission will not make its determinations on the Certificate of Need or Route Permit until it has completed a thorough review process that encourages

public involvement and analyzes the impacts of the Project and various route alternatives. Because the Applicants anticipate requesting a joint proceeding for the Certificate of Need and Route Permit, a single environmental review document will be prepared. This process includes preparation of an Environmental Assessment ("EA") for the Project that will be submitted with the Route Permit Application. An addendum to the EA may be prepared by the Commission after the public information meetings are held in early 2026.

The Applicants will submit an application for a Route Permit with one proposed route for the proposed transmission line. Other routes can be proposed to be evaluated during the scoping process. The Commission staff will decide which routes get studied in the addendum to the EA and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

The Commission will review all of the data from the public process and will decide if the Project is needed and which route should be approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes section 216I.05, subd. 11 and stakeholder input received during the regulatory process. The table below provides a high-level summary of the major steps in the regulatory process.

Summary of Regulatory Schedule

Table with 2 columns: Action, Approximate Date. Rows include: Pre-application study and public meeting and stakeholder outreach (May and August 2025), Certificate of Need and Route Permit Application and EA submitted to Commission (December 2025), Informational and Scoping Meetings (February 2026), Addendum to Environmental Assessment Issued (May 2026), Public Hearings (June 2026), Commission Decision (July 2026).

Right-of-Way for the Project

Before beginning construction, the Applicants will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. The Applicants anticipate acquiring easements with a minimum right-of-way width of approximately 150 feet for the 345 kV transmission line. Where these transmission lines parallel existing lines, fewer new rights-of-way may be required because the new transmission line may share a portion of the existing right-of-way.

Proposed Structures for the Project

The specific type and size of structures to be used will depend on the route identified in this process along with land use/land cover, topography, water/wetlands, and soil types. Currently, structures for the

Project are anticipated to be 120- to 180-foot high single-pole weathering steel structures with arms on both sides of the structure. For this type of structure, the Applicants anticipate having five to eight structures for each mile of the line.

Additional Information and Mailing Lists

To subscribe to the Project's Certificate of Need docket (E015/CN-25-111) and to receive email notifications when information is filed in that docket, please visit www.mn.gov/puc/ and click on "eDockets," then click on "Go to eDockets," and then click on "Sign In" in the top right corner. Then, click on "Subscriptions" and "Create a Subscription." In the "Docket #" box, type 25-111 and click "Create." These same steps can be followed to subscribe to the Project's Route Permit docket 25-112.

If you would like to have your name added to the Project Route Permit proceeding mailing list (E015/TL-25-112) you may register by contacting the public advisor in the consumer affairs office at the Commission at consumer.puc@state.mn.us, or (651) 296-0406 or 1-800-657-3782. Please be sure to note: 1) how you would like to receive notices (regular mail or email) and 2) your complete mailing or email address.

A separate mailing list is maintained for the Certificate of Need proceeding (E015/CN-25-111). To be placed on the Project Certificate of Need mailing list (MPUC Docket No. E015/CN-25-111), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147, Fax: 651-297-7073 or robin.benson@state.mn.us.

Transmission Planning Process in Minnesota

Minnesota Statutes section 216B.2425, subd. 2 requires that each electric transmission-owning utility in the state file a biennial transmission planning report with the Commission in the fall of each odd-numbered year. These reports provide information on the transmission planning process used by the utilities in the state of Minnesota and information about other transmission line projects. The 2025 Biennial Transmission Projects Report is available at: www.minnelectrans.com. The 2025 Biennial Transmission Projects Report was submitted on October 31, 2025.

NOTICE OF PROPOSED TRANSMISSION LINE PROJECT

Re: In the Matter of Application for a Certificate of Need for the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project

Docket No. E015/CN-25-111

PLEASE TAKE NOTICE that Minnesota Power and American Transmission Company LLC by and through its corporate manager ATC Management Inc. (collectively, the “Applicants”) are applying to the Minnesota Public Utilities Commission (also “Commission”) for a Certificate of Need to construct the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project (“ISA Project” or “Project”).

Project Description

The ISA Project consists of construction of a new, approximately 66-mile-long, single-circuit 345 kV transmission line on double-circuit capable structures from Minnesota Power’s Iron Range Substation in Itasca County, Minnesota to Minnesota Power’s St. Louis County Substation in St. Louis County, Minnesota. The Project also involves construction of a new, approximately 1.5-mile-long, double-circuit 345 kV transmission line from Minnesota Power’s St. Louis County Substation to ATC’s Arrowhead Substation in Hermantown, St. Louis County, Minnesota. A map of the ISA Project is provided below.

Project Need

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc. (“MISO”) as part of its Long-Range Transmission Planning (“LRTP”) Tranche 2.1 portfolio of projects included in the 2024 MISO Transmission Expansion Plan (“MTEP24”). The Project, as part of the LRTP Tranche 2.1 portfolio, is needed to enhance grid reliability in the Upper Midwest as grid operating conditions become more variable, increase grid efficiency as energy is transferred from where it is produced to where it is needed, and meet the growing demand for reliable clean energy in the Upper Midwest.

Regulatory Review Process

Before the Applicants can construct the Project, the Minnesota Public Utilities Commission (“Commission”) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota Law, including Minnesota Statutes section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules parts 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission’s website at www.mn.gov/puc/ in Docket No. E015/CN-25-111.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is also governed by Minnesota Law, including Minnesota Statutes Chapter 216I. A copy of the Route Permit Application, once submitted, can be obtained by visiting the Commission’s website in Docket No. E015/TL-25-112.

The Commission will not make its determinations on the Certificate of Need or Route Permit until it has

completed a thorough review process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. Because the Applicants anticipate requesting a joint proceeding for the Certificate of Need and Route Permit, a single environmental review document will be prepared. This process includes preparation of an Environmental Assessment (“EA”) for the Project that will be submitted with the Route Permit Application. An addendum to the EA may be prepared by the Commission after the public information meetings are held in early 2026.

The Applicants will submit an application for a Route Permit with one proposed route for the proposed transmission line. Other routes can be proposed to be evaluated during the scoping process. The Commission staff will decide which routes get studied in the addendum to the EA and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

The Commission will review all of the data from the public process and will decide if the Project is needed and which route should be approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes section 216I.05, subd. 11 and stakeholder input received during the regulatory process. The table below provides a high-level summary of the major steps in the regulatory process.

Summary of Regulatory Schedule

Action	Approximate Date
Pre-application study and public meeting and stakeholder outreach	May and August 2025
Certificate of Need and Route Permit Application and EA submitted to Commission	December 2025
Informational and Scoping Meetings (public meeting and comment)	February 2026
Addendum to Environmental Assessment Issued	May 2026
Public Hearings (public meeting and comment period)	June 2026
Commission Decision	July 2026

Right-of-Way for the Project

Before beginning construction, the Applicants will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. The Applicants anticipate acquiring easements with a minimum right-of-way width of approximately 150 feet for the 345 kV transmission line. Where these transmission lines parallel existing lines, fewer new rights-of-way may be required because the new transmission line may share a portion of the existing right-of-way.

Proposed Structures for the Project

The specific type and size of structures to be used will depend on the route identified in this process along with land use/land cover, topography, water/wetlands, and soil types. Currently, structures for the Project are anticipated to be 120- to 180-foot high single-pole weathering steel structures with arms on

both sides of the structure. For this type of structure, the Applicants anticipate having five to eight structures for each mile of the line.

Additional Information and Mailing Lists

To subscribe to the Project’s Certificate of Need docket (E015/CN-25-111) and to receive email notifications when information is filed in that docket, please visit www.mn.gov/puc/ and click on “eDockets,” then click on “Go to eDockets,” and then click on “Sign In” in the top right corner. Then, click on “Subscriptions” and “Create a Subscription.” In the “Docket #” box, type 25-111 and click “Create.” These same steps can be followed to subscribe to the Project’s Route Permit docket 25-112.

If you would like to have your name added to the Project Route Permit proceeding mailing list (E015/TL-25-112) you may register by contacting the public advisor in the consumer affairs office at the Commission at consumer.puc@state.mn.us, or (651) 296-0406 or 1-800-657-3782. Please be sure to note: 1) how you would like to receive notices (regular mail or email) and 2) your complete mailing or email address.

A separate mailing list is maintained for the Certificate of Need proceeding (E015/CN-25-111). To be placed on the Project Certificate of Need mailing list (MPUC Docket No. E015/CN-25-111), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147, Fax: 651-297-7073 or robin.benson@state.mn.us.

If you have any questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

NOTICE OF PROPOSED TRANSMISSION LINE PROJECT

Re: In the Matter of Application for a Certificate of Need for the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project

Docket No. E015/CN-25-111

PLEASE TAKE NOTICE that Minnesota Power and American Transmission Company LLC by and through its corporate manager ATC Management Inc. (collectively, the “Applicants”) are applying to the Minnesota Public Utilities Commission (also “Commission”) for a Certificate of Need to construct the Iron Range – St. Louis County – Arrowhead 345 kV Transmission Project (“ISA Project” or “Project”).

Project Description

The ISA Project consists of construction of a new, approximately 66-mile-long, single-circuit 345 kV transmission line on double-circuit capable structures from Minnesota Power’s Iron Range Substation in Itasca County, Minnesota to Minnesota Power’s St. Louis County Substation in St. Louis County, Minnesota. The Project also involves construction of a new, approximately 1.5-mile-long, double-circuit 345 kV transmission line from Minnesota Power’s St. Louis County Substation to ATC’s Arrowhead Substation in Hermantown, St. Louis County, Minnesota. A map of the ISA Project is provided below.

Project Need

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc. (“MISO”) as part of its Long-Range Transmission Planning (“LRTP”) Tranche 2.1 portfolio of projects included in the 2024 MISO Transmission Expansion Plan (“MTEP24”). The Project, as part of the LRTP Tranche 2.1 portfolio, is needed to enhance grid reliability in the Upper Midwest as grid operating conditions become more variable, increase grid efficiency as energy is transferred from where it is produced to where it is needed, and meet the growing demand for reliable clean energy in the Upper Midwest.

Regulatory Review Process

Before the Applicants can construct the Project, the Minnesota Public Utilities Commission (“Commission”) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota Law, including Minnesota Statutes section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules parts 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission’s website at www.mn.gov/puc/ in Docket No. E015/CN-25-111.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is also governed by Minnesota Law, including Minnesota Statutes Chapter 216I. A copy of the Route Permit Application, once submitted, can be obtained by visiting the Commission’s website in Docket No. E015/TL-25-112.

The Commission will not make its determinations on the Certificate of Need or Route Permit until it has completed a thorough review process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. Because the Applicants anticipate requesting a joint proceeding for the Certificate of Need and Route Permit, a single environmental review document will be prepared. This process includes preparation of an Environmental Assessment (“EA”) for the Project that will be submitted with the Route Permit Application. An addendum to the EA may be prepared by the Commission after the public information meetings are held in early 2026.

The Applicants will submit an application for a Route Permit with one proposed route for the proposed transmission line. Other routes can be proposed to be evaluated during the scoping process. The Commission staff will decide which routes get studied in the addendum to the EA and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

The Commission will review all of the data from the public process and will decide if the Project is needed and which route should be approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes section 216I.05, subd. 11 and stakeholder input received during the regulatory process. The table below provides a high-level summary of the major steps in the regulatory process.

Arena parking gets a Hat Trick of new fixes

School and city officials have taken steps to reduce overcrowding in the main parking lot at the Aspirus Sports and Event Center during major events, ensuring emergency vehicles can access the facility.

Over the summer, school officials worked with Police Chief Kent Gaidis and Fire Chief Kerry Helquist to develop a plan that provides adequate parking for hockey players, teams, and buses while keeping the main lot clear for spectators and first responders.

A key component of the solution is the creation of an overflow parking area adjacent to the outdoor pleasure rink. This lot will open once the ground freezes. Arena staff members Nate Hinks and Nate Regas have prepared the site by rop-

ing off the area, installing signage, and adding curb ramps.

In addition, Hinks cleared a large space behind the arena near the Zamboni door that can hold 20 to 30 vehicles. This area will be reserved for players, coaches, and event staff, reducing congestion.

One ongoing concern is vehicle traffic near pedestrian pathways between the outdoor rinks and the building. Officials say they will work closely with the Proctor Area Hockey Association to ensure appropriate safety measures are in place.

The new parking strategy is expected to improve traffic flow, increase safety, and keep the main lot accessible for emergency response throughout the winter sports season.

Boys lose to GAS, beat Greenway

Proctor's boys hockey team in their home opener beat Greenway 9-0.

The Rails were led by Breckin Ross and Rafe Giswold, who each had two goals in the victory.

The boys scored four goals in the first period, three in the second period, and two in the third period. Greenway was not able to get anything past the Rails' defense.

At an invitation tournament at TRIA Rink, the Proctor Rails lost to Gentry Academy Stars 6-0 on Saturday, Nov. 29.

The Stars opened strong, with two goals in the first period, three in the second and 1 in the third.

Gianna Hansen named to DNT All-Area team

Proctor senior Gianna Hansen was named to the DNT All-Area girls soccer First Team for the 2025 season. The forward/midfielder scored 21 goals and also earned All-Lake Superior Conference honors while leading the Rails to the Section 7A final.

Gianna Hansen

A state-level competitor for Proctor in the Track & Field 400 meters and Triple Jump, Hansen was a force on the pitch with her speed and agility. "She was unstoppable," said Rails head coach Charles Fai. "Gianna has a killer mentality that turns chances into goals".

Levy

- continued from page 1 -

money would go to:

- Police Services \$39
- Fire, First Responders \$8
- City Infrastructure \$25
- Parks, Recreation \$3
- City Administration \$17
- Internal City Services \$10
- Economic Devel. \$2
- Debt Service \$8

The meeting also highlighted a few purchases that have been made. They included:

- a new sign-sewer-utility truck that was ordered in 2023 and arrived in the summer of 2025. It replaced a 1989 truck.
- a new Cat 926 Gen Wheel Loader that replaced a 2012 loader.
- a replacement for the 2006 grader.

Levies can be lowered but cannot be raised. In the past, both

the city council and school board have lowered their preliminary levies.

Both the city council and school board must approve their final 2026 budget and levy on or before December 31.

Prior to that approval, residents have an opportunity to learn, comment and ask questions about the proposed budget and levy during this annual meeting.

The Proctor School District's meeting is scheduled for Monday, Dec. 8 at 6:30 p.m.

In 1988, the Minnesota Legislature approved a new law called "Truth in Taxation" (TNT) which aimed to improve transparency and accountability in Minnesota's property tax system. Newspaper publication of a TNT meeting notice is no longer required.

The deadline is 4 p.m. Thursday for news and ads.
