

Midwater BESS Site photos Docket #24-294

Tim Kaasa

I am posting some pictures of the proposed BESS site from the Task Force Report so you can see what it looks like and understand our concerns. There is also a video that can be viewed. It can be found by going to the EA. (line 9 on the docket) then to page 223 and click the blue link, go to page 195 in the Task Force Report and click on the blue video link.

I ask that you deny the site and transmission line permits for Midwater BESS.

Thank you,

Tim Kaasa
