

APPENDIX A

Route Permit Application Completeness Checklist

MINNESOTA ENERGY CONNECTION PROJECT
ROUTE PERMIT APPLICATION
COMPLETENESS CHECKLIST

Authority	Required Information	Location in Application
Minn. Stat. § 216E.03 – Project Notice		
Subd. 3a	At least 90 days before filing an application with the commission, the applicant shall provide notice to each local unit of government within which a route may be proposed. The notice must describe the proposed project and the opportunity for a preapplication consultation meeting with local units of government as provided in subdivision 3b.	Appendix B
Subd. 3b	Within 30 days of receiving a project notice, local units of government may request the applicant to hold a consultation meeting with local units of government. Upon receiving notice from a local unit of government requesting a preapplication consultation meeting, the applicant shall arrange the meeting at a location chosen by the local units of government. A single public meeting for which each local government unit requesting a meeting is given notice satisfies the meeting requirement of this subdivision.	§ 7.1; Appendix B
Minn. R. 7850.1900, Subp. 2 – Route Permit for a High Voltage Transmission Line (“HVTL”)		
A.	A statement of proposed ownership of the facility at the time of filing the Application and after commercial operation.	§ 1.1
B.	The precise name of any person or organization to be initially named as permittee or permittees and the name of any other person to whom the Route Permit may be transferred if transfer of the Route Permit is contemplated.	§ 1.2
C.	At least two proposed routes for the proposed HVTL and identification of the preferred route and the reasons for the preference. Note: Applicants' description of their proposed routes complies with Minn. Stat. 216E.03, subd. 3 which states "Neither of the two proposed routes may be designated as a preferred route and all proposed routes must be numbered and designated as alternatives."	§ 2.2 and Section 4

Authority	Required Information	Location in Application
D.	A description of the proposed HVTL and all associated facilities, including the size and type of the HVTL.	§ 2.0 and Appendix D
E.	The environmental information required under Minn. Rules 7850.1900, Subp. 3.	§ 6.0 and Table 9.0-1
F.	Identification of land uses and environmental conditions along the proposed routes.	§ 6.0
G.	The names of each owner whose property is within any of the proposed routes for the HVTL.	Appendix L
H.	United States Geological Survey topographical maps or other maps acceptable to the Commission showing the entire length of the HVTL on all proposed routes.	Appendix C
I.	Identification of existing utility and public rights-of-way along or parallel to the proposed routes that have the potential to share right-of-way with the proposed HVTL.	§ 4.4 and Appendix C
J.	The engineering and operational design concepts for the proposed HVTL, including information on the electric and magnetic fields of the HVTL.	§ 5.0 and § 6.2.12
K.	Cost analysis of each route, including the costs of constructing, operating and maintaining the HVTL that are dependent on design and route.	§ 2.8 and § 5.4
L.	A description of possible design options to accommodate expansion of the HVTL in the future.	§ 2.9
M.	The procedures and practices proposed for the acquisition and restoration of the right-of-way and for construction and maintenance of the HVTL.	§ 5.0
N.	A listing and brief description of federal, state and local permits that may be required for the proposed HVTL.	§ 8.0 and Table 8.0-1
O.	A copy of the Certificate of Need or the certified HVTL list containing the proposed HVTL or documentation that an application for a Certificate of Need has been submitted or is not required.	§ 1.3

Authority	Required Information	Location in Application
Minn. R. 7850.1900, Subp. 3 – Environmental Information		
A.	A description of the environmental setting for each site or route.	§ 6.1
B.	A description of the effects of construction and operation of the facility on human settlement, including, but not limited to, public health and safety, displacement, noise, aesthetics, socioeconomic impacts, cultural values, recreation and public services.	§ 6.2 and Table 9.0-1
C.	A description of the effects of the facility on land-based economies, including, but not limited to, agriculture, forestry, tourism, and mining.	§ 6.3 and Table 9.0-1
D.	A description of the effects of the facility on archaeological and historic resources.	§ 6.4 and Table 9.0-1
E.	A description of the effects of the facility on the natural environment, including effects on air and water quality resources and flora and fauna.	§ 6.5 and Table 9.0-1
F.	A description of the effects of the facility on rare and unique natural resources.	§ 6.6 and Table 9.0-1
G.	Identification of human and natural environmental effects that cannot be avoided if the facility is approved at a specific site or route.	§ 6.7 and Table 9.0-1
H.	A description of measures that might be implemented to mitigate the potential human and environmental impacts identified in items A to G and the estimated costs of such mitigation measures.	§§ 5.0, 6.0, and 7.0

Re: In the Matter of the Application of Xcel Energy for a Certificate of Need and Route Permit for Two Gen-Tie Lines from Sherburne County to Lyon County, Docket No. E002/CN-22-131, TL-22-132

Dear Administrator,

Xcel Energy is proposing to build a new double-circuit 345 kilovolt (kV) transmission line (the Minnesota Energy Connection project) between the existing Sherco Power Plant in Becker, Minnesota and a new substation in Lyon County, Minnesota. The project, which if approved would run approximately 160 to 180 miles, will support Xcel Energy's and the State of Minnesota's transition to carbon-free electricity by re-using the existing grid connections at Sherco, which will enable us to deliver predictable and cost-effective energy for our customers in the Upper Midwest. Re-using the existing interconnection is key for our ability to continue to deliver new renewable energy to customers at that important connection to the regional transmission grid as the coal units at Sherburne County Generation Station retire by the end of 2030.

The Minnesota Energy Connection project would include the double circuit transmission line, an intermediate substation and a substation to house voltage support equipment. The Project is part of Xcel Energy's most recently approved Integrated Resource Plan (Docket No. 19-368) and will be entirely owned by Xcel Energy. Both circuits will be co-located on single pole structures to minimize impacts to the human and natural environments. A map of the route corridors under consideration by the Company are shown below. .

Xcel Energy is committed to working closely with landowners and in consultation with local communities. In developing the route options for this project, Xcel Energy has conducted significant amounts of public outreach to landowners in the project area, including holding virtual open houses in November 2022 and in-person open houses along potential routing corridors in Spring and Summer 2023.

Regulatory permits and approvals

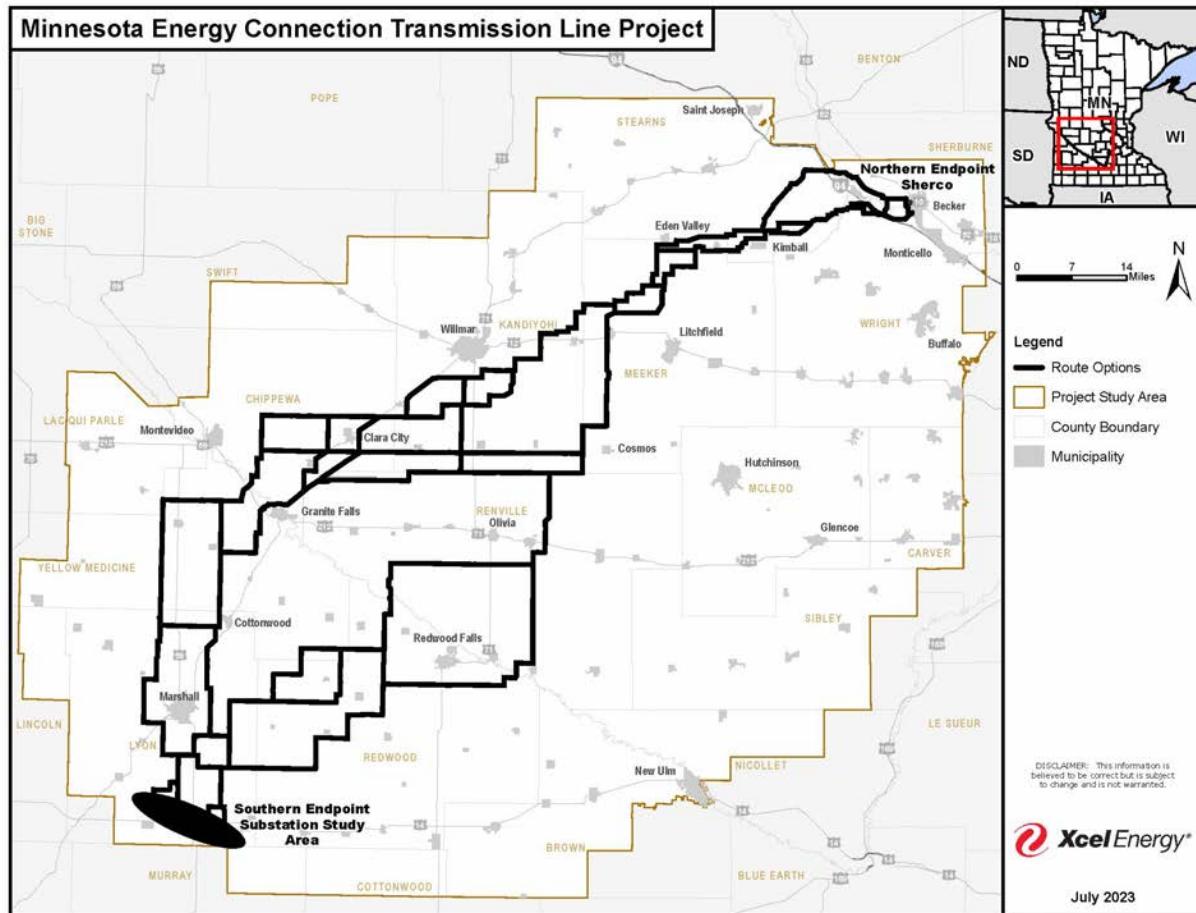

Two major approvals must be obtained from the Minnesota Public Utilities Commission (Commission) before a high voltage transmission line like the proposed Project can be built: a Certificate of Need and a Route Permit. The Company filed a Certificate of Need application in March 2023 and anticipates filing a route permit application in October 2023. In this case, the Commission will use joint proceedings for the project's Certificate of Need and Route Permit applications and will also conduct a joint environmental review. In the joint proceedings, the Commission will consider whether the Project is needed, the appropriate size, configuration, and timing. The Commission will also consider the route for the proposed Project. There are multiple opportunities for stakeholder and public input throughout the proceedings.

We would appreciate an opportunity to update your board about the project and discuss any questions you may have. We'd also be happy to discuss the right-of-way acquisition and

construction process. To schedule a briefing, please contact the project team at 1-888-292-4714 or by email at MNEnergyConnection@xcelenergy.com.

We look forward to speaking with you.

Regards,
Matt Langan and Randy Fordice
Xcel Energy

AFFIDAVIT OF MAILING

**IN THE MATTER OF THE APPLICATION OF
XCEL ENERGY FOR A CERTIFICATE OF
NEED FOR TWO GEN-TIE LINES FROM
SHERBURNE COUNTY TO LYON COUNTY,
MINNESOTA**

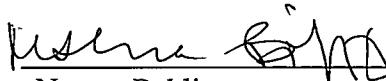

DOCKET NO. E002/CN-22-131

STATE OF MINNESOTA)
) ss.
COUNTY OF Hennepin)

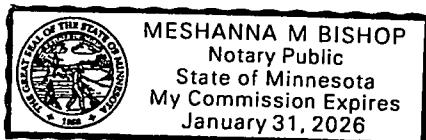

I Verica Sarajlic, Xcel Energy certifies that on the 28th day of July 2023, they directed to be sent via U.S. Mail a true and correct copy of the **Notice Letter to Local Government Officials** to all parties listed on the attached service list by depositing the same enveloped with postage paid in the United States mail at Minneapolis, Minnesota:
