**NOTICE OF PUBLIC INFORMATION AND
ENVIRONMENTAL REPORT SCOPING MEETINGS**

Issued: November 22, 2023

In the Matter of the Application for a Certificate of Need for the Proposed 345 kV Brookings County, Lyon County and Helena County Hampton Second Circuit Project

In the Matter of the Application for a Minor Alteration of the CapX2020 Brookings – Hampton Route Permit to Add the Brookings County – Lyon County and Helena – Hampton Second-Circuit Project

**PUC Docket Numbers: E-002/CN-23-200 (Certificate of Need)
 E-002/TI-08-1474 (Minor Alteration)**

PLEASE TAKE NOTICE that the Minnesota Public Utilities Commission (PUC) and Minnesota Department of Commerce will hold a public information and environmental report scoping meeting on the certificate of need application and application for minor alteration to the route permit issued in docket number 08-1474 filed by Northern States Power Company, doing business as Xcel Energy, Central Minnesota Municipal Power Agency; Great River Energy; Otter Tail Power Company; and Western Minnesota Municipal Power Agency (CapX2020 Brookings Owners or Applicants) for their proposed Brookings County – Lyon County and Helena Hampton Second-Circuit Project.

The purpose of the meeting is to provide information to the public about the proposed project and the state's certificate of need process and the process being used to obtain route approval through an alteration to an existing route permit for the Brookings County – Hampton 345 kilovolt (kV) transmission line (Original Brookings Line).

Project Description

In August 2023, the CapX2020 Brookings Owners submitted applications to the PUC to install separate second 345 kV circuits on double-circuit-capable structures on the Minnesota portion of the Brookings County to Lyon County (Western Segment) and Helena to Hampton Minnesota (Eastern Segment) segments of the Original Brookings Line (see Commission Docket 08-1474). The Lyon County – Helena segment was originally constructed with the second circuit installed. The Western and Eastern Segments of the Project will, collectively, be approximately 98.5 miles long. The Western Segment is approximately 59.5 miles and will require reconfiguring an existing line at the Steep Bank Lake Substation to avoid the second circuit crossing the existing transmission line. This reconfiguration will involve adding one structure outside of the Steep Bank Lake Substation but within the existing right-of-way. The Eastern Segment is approximately 39 miles and will require rerouting around the Chub Lake Substation. The Company will construct two new dead-end structures on foundations on the south side of the Chub Lake Substation to avoid the second circuit having to go over the top of the Chub Lake Substation. The Company will also install eight new poles in the Eastern Segment to maintain the transmission line’s low profile near an airport.

The Applicants indicated that the Project is needed to relieve current transmission congestion in this area. The Applicants plan to place the Western Segment in service by September 1, 2024, and the Eastern Segment in service by September 15, 2025.

Meeting Information

- The meetings start on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meeting.
- PUC and Department of Commerce staff members as well as representatives of Xcel Energy will be available to answer questions about the permitting process and the project.
- After a brief presentation, the meeting will be open for questions and comments. You may make verbal comments, submit written comments, or both into the record.
- Each meeting will adjourn after everyone at the meeting has had an opportunity to speak.
- The Department of Commerce will use comments received at the meeting and during the comment period to develop the scope of the environmental report.
- If you are joining the meeting online using WebEx and would like to ask a question or make a comment, raise your hand using the button at the bottom of the screen or press *3 if you are joining by phone. You will be unmuted when it is your turn to speak.
- The WebEx chat function is also available for the online meeting if you are having technical issues and our meeting moderator is available for support. Additional instructions for participating in the WebEx meeting are available at:
<https://mn.gov/puc/activities/meetings/webex/>.

Please focus your comments on information that will help answer the following questions:

- What potential human and environmental impacts of the proposed project should be considered in the environmental report?
- What are the possible methods to address (avoid, minimize, or mitigate) the potential impacts of the proposed project?
- Are there other ways to meet the stated need for the project, instead of the proposed transmission project? If so, what alternatives to the project should be studied in the environmental report?
- Are there any unique characteristics of the proposed site or the project that should be considered?
- Are there any items missing or mischaracterized in the certificate of need or minor-alteration applications?
- Are there other project-related issues or concerns?

Comment Period: Written comments accepted through Wednesday, January 3, 2024. Please include the PUC Docket Number(s) (23-200 and/or 08-1474) in all communications.

Important: Comments will be made available to the public via the PUC's and the Department of Commerce's websites, except in limited circumstances consistent with the Minnesota Government Data Practices Act. Personally identifying information is not edited or deleted from submissions.

Process Information

The Commission accepted the Applicants' certificate of need application as complete in October 2023. This means the Applicants submitted all the information required to begin the review process.

The Department of Commerce Energy Environmental Review and Analysis staff will prepare an environmental report on the project for the Commission. The environmental report analyzes the potential human and environmental impacts of the proposed project and alternatives, as well as ways to address or mitigate potential impacts.

After the environmental report is issued, an Administrative Law Judge (ALJ) will hold a public hearing in the project area. You may speak at the hearing, ask questions, and submit written comments about the project.

After the public hearing, the ALJ will prepare and submit a summary of public comments to the PUC. After the ALJ submits the summary of comments, the PUC will review all the information in the record, including written comments and comments received at the public hearings. The PUC's final decisions on the certificate of need and minor alteration for this project are expected by early spring 2024.

This project is being reviewed under Minnesota Statutes Section 216B.243 (certificate of need), Minnesota Rules Chapters 7849 (certificate of need), 4410 (minor alteration), and 7850 (minor alteration). All Minnesota laws and rules are available at revisor.mn.gov.
