ELIGIBLE TELECOMMUNICATIONS CARRIER**

In July of 2015 Paul Bunyan Rural Telephone Cooperative (“PBC) petitioned the Commission to be designated as an Eligible Telecommunications Carrier (“ETC”) in areas where the company had been awarded Rural Broadband Experiment funds.<sup>1</sup> In 2018 PBC expanded its ETC service area to include census blocks awarded through FCC Connect America Fund (“CAF II”). And in 2017 PBC requested and was granted ETC designation throughout its CLEC service area.<sup>2</sup> In this petition PBC requests expansion of its ETC service area for certain census blocks awarded to PBC in the FCC Rural Digital Opportunity Fund (“RDOF”) Auction 904. PBC was assigned 5,088 locations in the RDOF auction and will receive \$1,630,789.21 in universal support. The list of RDOF census blocks is provided in Exhibit 3.

In support of its Petition, PBC states as follows:

- A. The legal name, address and telephone number of the Petitioner and its designated contact person are as follows:

Paul Bunyan Communications

- D. The service area (“Proposed RDOF Census Blocks”) for which ETC designation is sought is attached in Exhibit 1.
- E. PBC’s Petition for expansion of its designation as a ETC for the Proposed RDOF Census Blocks is consistent with the public interest, convenience and necessity, and satisfies the requirements for receiving universal service support under state and federal law, for the following reasons:

***PBC POSSESSES THE INTENT AND CAPABILITY OF PROVIDING SERVICE UPON REASONABLE CUSTOMER REQUEST THROUGHOUT THE SERVICE AREA***

2. PBC's Facilities and Commitment to Serve - PBC will provide broadband and voice telephone over the RDOF installed fiber-optic facilities to customer premises. PBC is committed to provide service to all customers making a reasonable request for service. PBC certifies that it will: (a) provide service on a timely basis to requesting customers within the Service Area where PBC's network already passes the potential customer's premises; and (b) provide service within a reasonable period of time, if the potential customer is within the Service Area but not passed by PBC's current network facilities if service can be provided at reasonable cost by constructing network facilities.
  
3. PBC's Basic Universal Service Offering - PBC will provide voice telephony in the Service Area. The services PBC offers meet the Basic Local Service requirements under [Minn. Rule 7812.0600](#). PBC has the ability and the intention to provide the voice telephony services required by [47 CFR § 54.101\(a\)](#)<sup>3</sup>:
  - Voice grade access to the public switched network or its functional equivalent;
  - Minutes of use for local service provided at no additional charge to end users;
  - Access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911
  - Toll limitation for qualifying low-income consumers

The universal service offering will be made available throughout the Proposed Service Area upon approval for expansion of ETC authority. PBC's tariffs address customer eligibility provisions and the availability of subsidies under the Lifeline program<sup>4</sup> and the Minnesota Telephone Assistance Plan<sup>5</sup>. The applicable sections of PBC's tariff are attached as [Exhibit 2](#). PBC is committed to providing the supported services throughout the Service Area to all customers who make a request for such services if service can be provided at reasonable cost by constructing network facilities. The local usage plans offered are comparable to those offered by the

incumbent local exchange carriers. PBC's local calling scope will mirror those of the ILECs and any mandatory Extended Area Service calling as part of the basic local service offering.

4. PBC's Advertising Plan - PBC currently advertises its services through several different channels of general distribution, including newspapers, telephone directories, customer newsletters, and direct mail. PBC will advertise the availability of its universal service offering throughout the Service Area through these same advertising channels it currently employs. In addition, the availability of the offering throughout the Proposed Service Area will be listed continuously on PBC's web site: <http://www.paulbunyan.net> The service offering will also be published at least annually in the local newspaper, and will be posted at the PBC offices in Bemidji.
5. PBC's 10-Year Plan for Use of Universal Service Support - PBC will receive Universal High Cost Support and lifeline support to the extent it serves customers eligible for that program.
6. PBC's Ability to Remain Functional in Emergency Situations. PBC's network will remain functional in emergency situations:

Commercial power outage: The central office serving PBC's customers is equipped with electrical generators and battery power supply to provide service in the event of a commercial power outage.

Network failure: PBC will work toward providing interoffice facilities to the Proposed Service Area on a diverse routed fiber ring, which if cut will be automatically rerouted.

PBC complies with the Commission's Rules in Chapter [7810](#) establishing minimum standards on various operational matters, such as 7810.3900 (Emergency Operations); 7810.4900 (Adequacy of Service); and 7810.5300 (Dial Service Requirements).

7. PBC's Satisfaction of Consumer Protection and Service Quality Standards – PBC, is subject to, and complies with, the Commission's Rules pertaining to service quality and consumer protection. PBC's tariff has specific provisions outlining the following terms addressing consumer protection issues:

<sup>9</sup> Ibid

The specific provisions in PBC's tariff, as well as the Commission's service quality rules by which PBC is bound, will apply throughout the Service Area and assure a high level of service quality and consumer protection.

***DESIGNATING PBC AS AN ETC IN THE PROPOSED SERVICE AREA WILL SERVE THE PUBLIC INTEREST***

8. Public Interest - Designation of PBC as an ETC in the Proposed Service Area is in the public interest since it affords qualifying customers a choice of service providers while retaining the Lifeline benefit.
9. Superior Service Offering - PBC believes its service offerings are superior to that received by the ILECs' customers in the Service Area. PBC presently has fiber to the home in much of the Proposed Service Area and plans to place fiber to the home going forward, offering a technically superior network to that of ILECs.

PBC believes customers will additionally benefit from choosing a locally owned and Minnesota based provider which has demonstrated its commitment to, and success in, responding to the service needs of its residents.

10. Affordability – The local exchange services offered to PBC's customers are within the range of the announced Federal Communications Commission 2021 annual Urban rate survey rates.<sup>10</sup> PBC's basic service offerings rates are identified in its Local Exchange Services<sup>11</sup> tariff. PBC will provide the benefit of Lifeline discounts to qualifying subscribers.
11. Commitment to Service Quality - As noted in Paragraph E.7 above, PBC is a certified CLEC in Minnesota and is subject to, and complies with, the Commission's Rules pertaining to service quality and consumer protection.

***ETC CERTIFICATION***

12. Request for Certification - PBC requests that the Commission certify its use of support effective as of the date of PBC's ETC designation for the Proposed Expanded Service Area.

***CONCLUSION***

13. PBC meets the requirements of both state and federal laws and regulations for designation as an Eligible Telecommunications Carrier in the requested expanded Service Area. Pursuant to [47 USC § 214\(e\)](#), the Commission should designate PBC as an Eligible Telecommunications Carrier for the expanded RDOF Service Area. In so doing, the Commission will ensure that consumers in the expanded RDOF Service

Area have an opportunity to secure better and more reliable service at a rate equal to or less than that which they are currently paying. The consumers in the expanded RDOF Service Area will benefit and the public interest will be served if PBC's Petition is approved.

Therefore, PBC respectfully requests that the Commission:

- A. Designate Paul Bunyan Rural Telephone Cooperative as a ETC for receipt of federal universal high cost service support with respect to the expanded RDOF Service Areas specified in this Petition;
- B. For such other and further relief as the Commission may deem just and reasonable.

9. CREDIT POLICY

A. Deposit and Guarantee Requirements

The Company may require a deposit or guarantee of payment from any customer or applicant who has not established good credit with the Company. Deposit or guarantee of payment requirements as prescribed by the Company must be based upon standards which bear a reasonable relationship to the assurance of payment. The Company may determine whether a customer has established good credit with the Company, except as herein restricted:

- 1) A customer, who within the last 12 months has not had his service disconnected for nonpayment of a bill and has not been liable for disconnection of service for nonpayment of a bill, and the bill is not in dispute, shall be deemed to have established good credit.
- 2) A Company shall not require a deposit or a guarantee of payment based upon income, home ownership, residential location, employment tenure, nature of occupation, race, color, creed, sex, marital status, age, national origin, or any other criteria which does not bear a reasonable relationship to the assurance of payment or which is not authorized by this chapter.
- 3) The Company shall not use any credit reports other than those reflecting the purchase of utility services to determine the adequacy of a customer's credit history without the permission in writing of the customer. Any credit history so used shall be mailed to the customer in order to provide the customer an opportunity to review the data. Refusal of a customer to permit use of a credit rating or credit service other than that of a Company shall not affect the determination by the Company as to that customer's credit history.
- 4) Qualifying applicants for Lifeline Service may initiate service without paying a deposit if they voluntarily elect to have Toll Blocking on their line. Toll Blocking will be provided at no charge to Lifeline customers.

B. Deposit

When required, a customer may assure payment by submitting a deposit. A deposit shall not exceed an estimated two months' gross bill or existing two months' bill where applicable. All deposits shall be in addition to payment of an outstanding bill or a part of such bill as has been resolved to the satisfaction of the Company, except where such bill has been discharged in bankruptcy. A Company shall not require a deposit or a guarantee of payment without explaining in writing why that deposit or guarantee is being required and under what conditions, if any, the deposit will be diminished upon return. The deposit shall be refunded to the customer after 12 consecutive months of prompt payment of all bills to that Company. The Company may, at its option, refund the deposit by direct payment or as a credit on the bill. With notice any deposit of a customer shall be applied by the Company to a bill when the bill has been determined by the Company to be delinquent. Each Company shall issue a written receipt of deposit to each customer from whom a deposit is received and shall provide a means whereby a depositor may establish a claim if the receipt is unavailable.

LINK-UP SERVICE CONNECTION PROGRAM (Available only on Tribal Lands)

1. General (6-25-20)

The Link-Up Service Connection Program is a federally sponsored assistance program under 47 CFR Section 54 and is designed to make telephone service accessible to eligible residents of Tribal Lands, if the subscriber's location is rural as defined in 47 CFR Section 54.505(b)(3)(i) and (ii), who are seeking telecommunications services from a telecommunications carrier that is receiving high-cost support on rural Tribal Lands. - Federal Public Housing Assistance
