Certificate of Need Application Completeness Checklist

**Huntley – Wilmarth Project
Certificate of Need Application
Completeness Checklist**

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
Minn. R. 7829.2500, Subp. 2	Brief summary of filing on separate page sufficient to apprise potentially interested parties of its nature and general content	Filing Summary
Minn. R. 7849.0200, Subp. 2	Title Page and Table of Contents	Title Page and Table of Contents
Minn. R. 7849.0200, Subp. 4	Cover Letter	Cover Letter
Minn. R. 7849.0220, Subp. 3	Joint Ownership and Multiparty use	1.3
Minn. R. 7849.0240	Need summary and additional considerations	
Subp. 1	Summary of the major factors that justify the need for the proposed facility	1.3
Subp. 2	Relationship of the proposed facility to the following socioeconomic considerations:	–
A.	Socially beneficial uses of the output of the facility	1.8.1
B.	Promotional activities that may have given rise to the demand for the facility	ITC Midwest – Exempt
		1.8.2
C.	Effects of the facility in inducing future development	1.8.3
Minn. R. 7849.0260	Proposed LHVTL and Alternatives	–
A.	A description of the type and general location of the proposed line, including:	–
(1)	Design voltage	2.1
(2)	Number, sizes and types of conductors	2.1

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
(3)	Expected losses under projected maximum loading and under projected average loading in the length of the line and at terminals or substations	Exempt
(4)	Approximate length of the proposed line	2.1 and 2.2
(5)	Approximate locations of DC terminals or AC substations on a map	Figure 1
(6)	List of likely affected counties	1.2
B.	Discussion of the available alternatives including:	–
(1)	New generation	5.2.6
(2)	Upgrading existing transmission lines	4.1.5, 5.2.2, and Appendix G
(3)	Transmission lines with different voltages or conductor arrays	4.1.5, 5.1, 5.2.5, and Appendix G
(4)	Transmission lines with different terminals or substations	4.1.5, 5.2.1, and Appendix G
(5)	Double circuiting of existing transmission lines	5.2.3 and Appendix G
(6)	If facility for DC (AC) transmission, an AC (DC) transmission line	5.2.4
(7)	If proposed facility is for overhead (underground) transmission, an underground (overhead) transmission line	5.2.7
(8)	Any reasonable combination of alternatives (1) – (7)	4.1.5, Chapter 5, and Appendix G
C.	For the facility and for each alternative in B, a discussion of:	–
(1)	Total cost in current dollars	2.4, 4.1.5, and Chapter 5
(2)	Service life	7.5 and Chapter 5
(3)	Estimated average annual availability	7.6 and Chapter 5

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
(4)	Estimated annual O&M costs in current dollars	7.5 and Chapter 5
(5)	Estimate of its effect on rates system wide and in Minnesota	Exempt
Exemption Order	<i>ITC Midwest Alternative Data: MEP allocation methodology and the share that will be allocated to Minnesota utilities' load.</i>	2.4 and Appendix J
Exemption Order	<i>Xcel Energy Alternative Data: Project's effects on its rates system wide and in Minnesota.</i>	2.4 and Appendix J
(6)	Efficiency	Exempt
(7)	Major assumptions made in subitems (1) – (6)	Chapter 5, 7.5, and 7.6
D.	A map (of appropriate scale) showing the applicant's system or load center to be served by the proposed LHVTL	Figure 6
	<i>ITC Midwest Alternative Data: Map of ITC Midwest's transmission network in Minnesota and Iowa.</i>	Figure 7
E.	Such other information about the proposed facility and each alternative as may be relevant to determination of need.	Chapters 1, 2, 4, 5, and 7 and Appendices F and G
Minn. R. 7849.0270	Content of Forecast	–
Minn. R. 7849.0270, Subp. 1	Peak demand and annual consumption data	5.3.1 and Appendix M
Minn. R. 7849.0270, Subp. 2	For each forecast year the following data:	Exempt
A.	Minnesota forecast data	Exempt
B.	Estimates of the number of ultimate consumers and annual electrical consumption by those consumers:	Exempt
(1)	Farm, excluding irrigation and drainage pumping	Exempt
(2)	Irrigation and drainage pumping	Exempt

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
(3)	Nonfarm residential	Exempt
(4)	Commercial	Exempt
(5)	Mining	Exempt
(6)	Industrial	Exempt
(7)	Street and highway lighting	Exempt
(8)	Electrified transportation ¹	Exempt
(9)	Other	Exempt
(10)	Sum of subitems (1) – (9)	Exempt
C.	Estimate of the demand for power in system at the time of annual system peak demand	Exempt
D.	System peak demand by month	Exempt
E.	Estimated annual revenue requirement per kWh in current dollars	Appendix J
F.	Estimated average weekday load factor by month	Exempt
Minn. R. 7849.0270, Subp. 3	Forecast Methodology	Exempt
	Detail of forecast methodology including:	Exempt
A.	Overall methodological framework used	Exempt
B.	Specific analytical techniques used	Exempt

¹ Electrified transportation is included in the column labeled “other.”

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
C.	Manner in which specific techniques are related in producing the forecast	Exempt
D.	Where statistical techniques are used:	Exempt
(1)	Purpose of the technique	Exempt
(2)	Typical computations	Exempt
(3)	Results of statistical tests	Exempt
E.	Forecast confidence levels for annual peak demand and annual electrical consumption	Exempt
F.	Brief analysis of methodology including:	Exempt
(1)	Strengths and weaknesses	Exempt
(2)	Suitability to the system	Exempt
(3)	Cost considerations	Exempt
(4)	Data requirements	Exempt
(5)	Past accuracy	Exempt
(6)	Other significant factors	Exempt
G.	Explanation of discrepancies	Exempt
Minn. R. 7849.0270, Subp. 4	Discussion of data base used for forecasts including:	Exempt
A.	List of data sets including a brief description of each	Exempt

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
B.	Identification of adjustments made to raw data including nature, reason and magnitude	Exempt
Minn. R. 7849.0270, Subp. 5	Assumptions and Special Information	Exempt
	Discussion of each essential assumption including need and nature of assumption and sensitivity of forecast results to assumptions	Exempt
	Discussion of assumptions regarding:	Exempt
A.	Availability of alternative sources of energy	Exempt
B.	Expected conversion from other fuels to electricity or vice versa	Exempt
C.	Future prices for customers and their effect on demand	Exempt
D.	Data requested in Subp. 2 not historically available or generated by applicant for demand forecast	Exempt
E.	Effect of energy conservation programs on long term demand	Exempt
F.	Other factors considered when preparing forecast	Exempt
Minn. R. 7849.0270, Subp. 6	Coordination of Forecasts with Other Systems	—
A.	Extent of coordination of load forecasts with those of other systems	4.1.5.1 and Appendix F
B.	Description of the manner in which those forecasts are coordinated	4.1.5.1 and Appendix F
Minn. R. 7849.0280	System Capacity	—
	Description of ability of existing system to meet demand forecast including:	—
A.	Power planning programs	Chapter 4 and Appendix F

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
B.	Seasonal firm purchases and sales	Exempt
C.	Seasonal participation purchases and sales	Exempt
D.	For each forecast year load and generating capacity for:	Exempt
(1)	Seasonal system demand	Exempt
(2)	Annual system demand	Exempt
(3)	Total seasonal firm purchases	Exempt
(4)	Total seasonal firm sales	Exempt
(5)	Seasonal adjusted net demand	Exempt
(6)	Annual adjusted net demand	Exempt
(7)	Net generating capacity	Exempt
(8)	Total participation purchases	Exempt
(9)	Total participation sales	Exempt
(10)	Adjusted net capability	Exempt
(11)	Net reserve capacity obligation	Exempt
(12)	Total firm capacity obligation	Exempt
(13)	Surplus or deficit capacity	Exempt

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
E.	Summer and winter season load generation and capacity in years subsequent to application contingent on proposed facility	Exempt
F.	Summer and winter season load generation and capacity including all projected purchases, sales and generation in years subsequent to application	Exempt
G.	List of proposed additions and retirements in generating capacity for each forecast year subsequent to application	Exempt
H.	Graph of monthly adjusted net demand and capability with difference between capability and maintenance outages plotted	Exempt
I.	Appropriateness and method of determining system reserve margins	Exempt
Minn. R. 7849.0290	Conservation Programs	—
A.	Persons responsible for energy conservation and efficiency programs	ITC Midwest – Exempt
		Xcel Energy – Appendix H
B.	List of energy conservation and efficiency goals and objectives	ITC Midwest – Exempt
		Xcel Energy – Appendix H
C.	Description of programs considered, implemented and rejected	ITC Midwest – Exempt
		Xcel Energy – Appendix H
D.	Description of major accomplishments in conservation and efficiency	ITC Midwest – Exempt
		Xcel Energy – Appendix H
E.	Description of future plans with respect to conservation and efficiency	ITC Midwest – Exempt
		Xcel Energy – Appendix H
F.	Quantification of the manner by which these programs impact the forecast	ITC Midwest – Exempt
		Xcel Energy – Appendix H
Minn. R. 7849.0300	Consequence of Delay	Exempt
Minn. R. 7849.0310	Required Environmental Information	Chapter 8

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
Minn. R. 7849.0330	Transmission Facilities	—
	Data for each alternative that would require LHVTL construction including:	—
A.	For overhead transmission lines	—
(1)	Schematics showing dimensions of support structures	2.1.1 and Appendix L
(2)	Discussion of electric fields	6.6.1
(3)	Discussion of ozone and nitrogen oxide emissions	6.2
(4)	Discussion of radio and television interference	6.4
(5)	Discussion of audible noise	6.3
B.	For underground transmission facilities:	N/A
(1)	Types and dimensions of cable systems	N/A
(2)	Types and qualities of cable system materials	N/A
(3)	Heat released in kW per foot of cable	N/A
C.	Estimated right-of-way required for the facility	2.1.1
D.	Description of construction practices	7.3
E.	Description of O&M practices	7.5
F.	Estimated workforce required for construction and O&M	7.3 and 7.5

AUTHORITY	REQUIRED INFORMATION	LOCATION IN APPLICATION
G.	Description of region between endpoints in likely area for routes emphasizing a three mile radius of endpoints including:	Chapter 8
(1)	Hydrological features	8.1.6
(2)	Vegetation and wildlife	8.1.7 and 8.1.8
(3)	Physiographic regions	8.1.2
(4)	Land use types	8.1.3 and 8.1.4
Minn. R. 7849.0340	No-Facility Alternative	Exempt
Exemption Order		
Exemption Order	In lieu of Minn. R. 7849.0260 A(3) and C(6) requiring line-specific loss information, Applicants will provide system loss information.	5.1.1.2.3
Exemption Order	In lieu of Minn. R. 7849.0270, subp. 2 (A-D and F) and Subps. 3-5, requiring information regarding system peak, annual energy consumption, and load factors for applicant's service area and system, Applicants will provide forecast information utilized by MISO in studying, planning, and analyzing the Project. This data will include PROMOD production cost analyses MISO used in MTEP16. The Applicants will also provide information regarding impacts of congestion and how the proposed Project will alleviate this congestion. Congestion data will include historical, day-ahead, real-time and market-to-market congestion, as well as projected congestion identified through out-year production cost model simulations.	Chapter 4 and Appendices F and N
Exemption Order	In lieu of Minn. R. 7849.0300 and 7849.0340, Applicants will provide substitute data regarding potential impacts caused by consequences of delay and no build alternative.	5.3

RE: REQUEST FOR EXEMPTIONS FOR THE
HUNTLEY-WILMARTH 345 KV TRANSMISSION LINE PROJECT
DOCKET NO. E002 AND ET6675/CN-17-184

Dear Mr. Wolf:

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (collectively, the Applicants) respectfully submit this Request for Exemptions from certain Certificate of Need application requirements to the Minnesota Public Utilities Commission pursuant to Minnesota Rule 7849.0200, Subp. 6.

If you have any questions or need additional information, please contact either Bria Shea, Director, Regulatory and Strategic Analysis at bria.e.shea@xcelenergy.com or 612-330-6064, or David Grover, Director, RTO Affairs (MISO) at dgrover@itctransco.com or 612-332-2511.

SINCERELY,

/s/

BRIA E. SHEA
NORTHERN STATES POWER COMPANY
DIRECTOR, REGULATORY AND STRATEGIC ANALYSIS

IN THE MATTER OF THE APPLICATION OF
NORTHERN STATES POWER COMPANY
AND ITC MIDWEST LLC, FOR A
CERTIFICATE OF NEED FOR THE
HUNTLEY – WILMARTH 345 KV
TRANSMISSION LINE PROJECT

MPUC Docket No. E002, ET6675/
CN-17-184

**REQUEST FOR EXEMPTION FROM
CERTAIN CERTIFICATE OF NEED
APPLICATION CONTENT
REQUIREMENTS**

I. INTRODUCTION

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) (collectively, the Applicants), respectfully submit this request for exemptions from certain content requirements for a Certificate of Need application pursuant to Minnesota Rule 7849.0200, Subp. 6.

The Applicants intend to file an Application for a Certificate of Need for the Huntley – Wilmarth 345 kV Transmission Line Project (Project or Huntley-Wilmarth Project) pursuant to Minnesota Statutes § 216B.243 in late 2017. The Applicants also intend to file a Route Permit application for the Project in accordance with Minnesota Statutes § 216E.03 by the end of the year. The Project consists of an approximately 40 – 50 mile 345 kV transmission line between Xcel Energy’s existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest’s Huntley Substation, currently under construction, south of Winnebago, Minnesota.

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.’s (MISO)¹ Board of Directors as a Market Efficiency Project

¹ MISO is a member-based non-profit regional transmission organization (RTO) that is responsible for the planning and operation of transmission grid and wholesale energy market across 15 states and the Canadian province of Manitoba. MISO’s members include 48 transmission owners with more than 65,800 miles of transmission lines and \$34.5 billion in

(MEP)² in December 2016 as part of its annual Transmission Expansion Plan (MTEP16) report.³ MISO’s MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are transmission projects that are designed to help achieve this goal. MISO found that the Huntley-Wilmarth Project would provide \$210 million in production cost benefits on a present value basis over 20 years and had a weighted benefit to cost ratio of 1.51 to 1.86.⁴

This will be the first MEP that has come before the Commission for approval. In assessing the need for the Project under Minnesota Statutes § 216B.243, subd. 3(9), the Commission shall evaluate whether the proposed transmission line enhances “regional reliability, access, or deliverability to the extent these factors improve the robustness of the transmission system or lower costs for electric customers in Minnesota.”

As an MEP, this Project is designed to reduce wholesale energy costs by addressing one of the most congested areas in the MISO electric transmission system, along the Minnesota/Iowa border. Congested areas are those areas where the amount of the energy available to move on the system exceeds the physical limits of certain components of the transmission system that must be maintained to ensure grid reliability. In Iowa and southern Minnesota, low cost energy has not been able to reach load centers, like the Twin Cities, due to congestion on the electrical system.

When this congestion occurs, customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. These transmission constraints create inefficiencies in the

transmission assets that are under MISO’s functional control. Both Xcel Energy and ITC Midwest are transmission owning members of MISO.

² The MISO requirements to qualify as an MEP is different from an Multi-Value Project (“MVP”). A MVP provides regional reliability, public policy and/or economic benefits spread across the MISO footprint. In 2014, The Commission approved an MVP, ITC’s Minnesota-Iowa 345 kV Transmission Line Project which is also known as “MVP3”. *See* Docket Nos. ET6675/ CN-12-1053 and TL-12-1337. In contrast, an MEP is designed to address market congestion issues and provides economic benefits to a more confined area than the entire MISO footprint. As a result, while costs for an MVP are allocated across the MISO footprint, costs for MEPs are allocated 80 percent to the areas benefiting from the project and 20 percent of the costs are allocated across the MISO footprint.

³ A copy of the MTEP16 is available online at: <https://www.misoenergy.org/Planning/TransmissionExpansionPlanning/Pages/MTEP16.aspx>

⁴ MTEP 16 at 112.

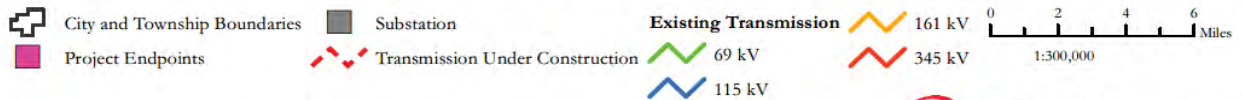

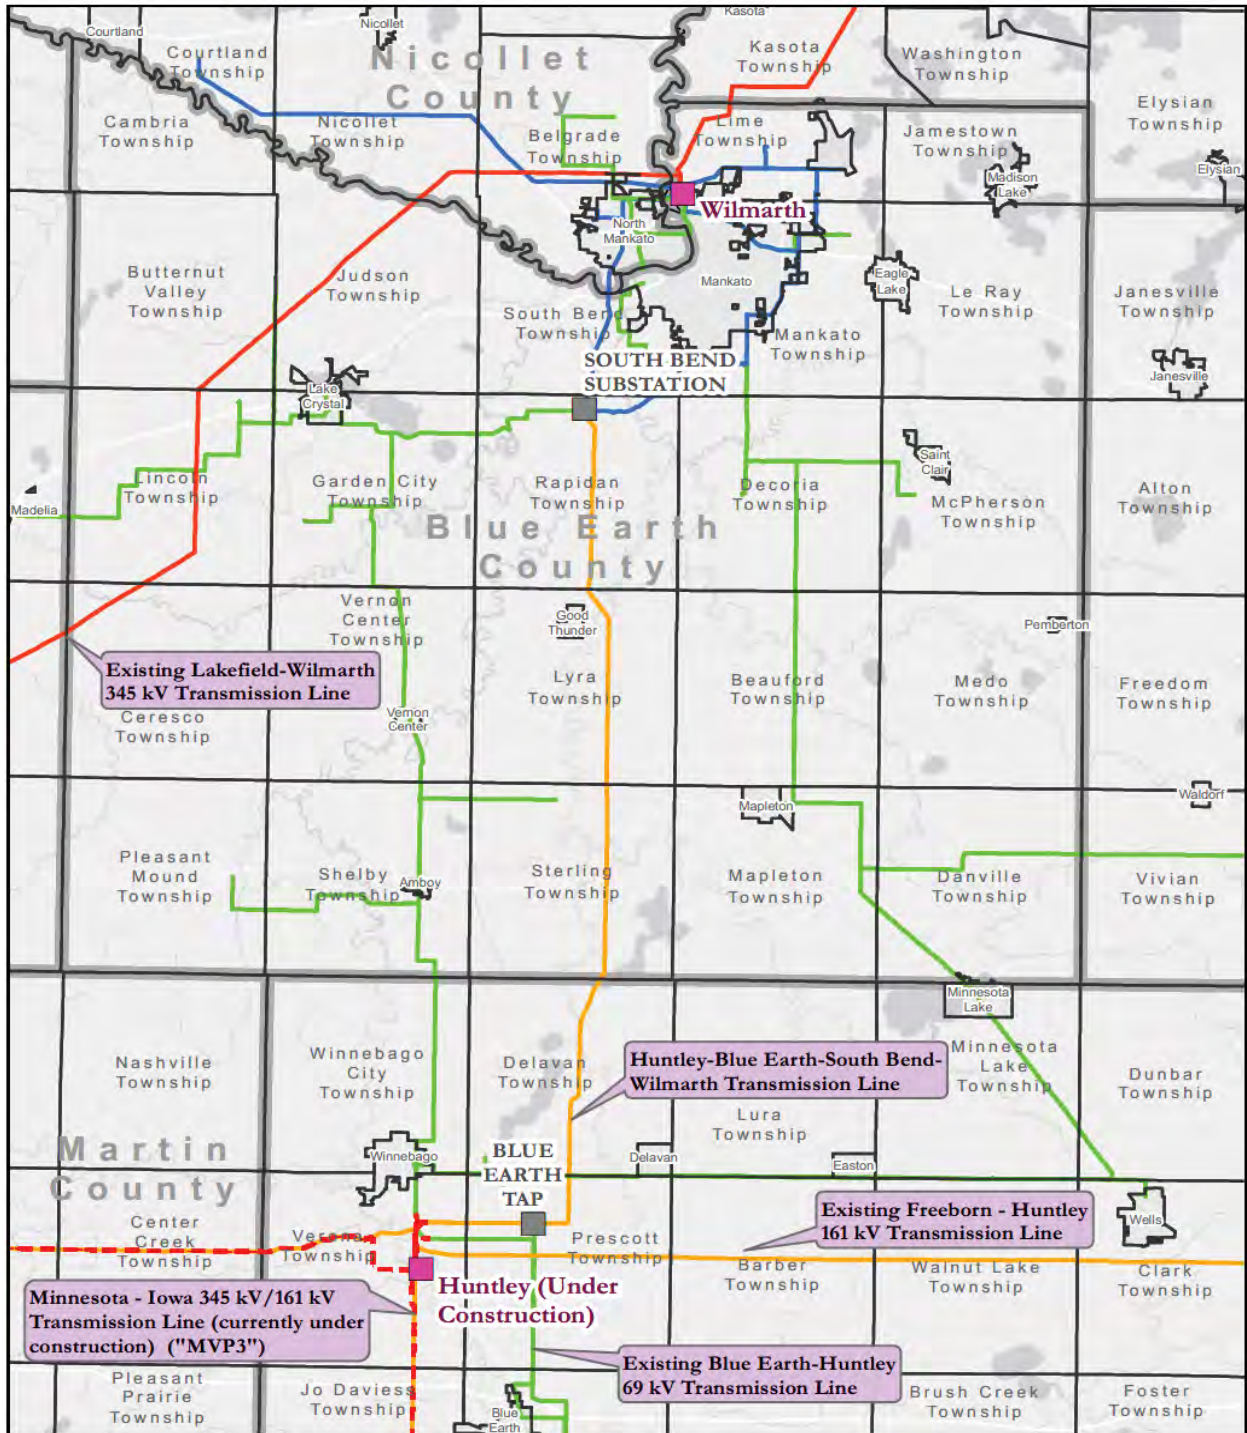

wholesale energy market and increase costs for consumers. This congestion is projected to get worse as more wind generation facilities are developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and increase market access to lower cost generation, provide economic benefits, strengthen the regional grid, and support future wind generation facilities in Minnesota and Iowa.

The Applicants believe that certain Certificate of Need application content requirements of Minnesota Rules Chapter 7849 should be modified to better address the nature of Applicants, our proposal, and the regional energy market conditions underlying the need for this Project. The Commission has accepted similar adjustments for other transmission line projects in the recent past. We therefore respectfully request that the Commission grant exemptions from certain requirements as provided under Minnesota Rule 7849.0200, Subp. 6. In lieu of some content requirements, we propose to submit alternative information that we believe will better inform the Commission's decision regarding the need for the Project.

II. BACKGROUND

The Huntley-Wilmarth Project is a Large Energy Facility as defined by Minnesota Statutes § 216B.2421, subd. 2(2). The approximately 40 – 50 mile 345 kV transmission line will run between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota. The Project will be jointly owned by these two utilities. Figure 1 below shows the endpoints for the Project as well as other transmission facilities of note in the area.

Figure 1: Huntley – Wilmarth 345 kV Transmission Line Project

As part of its 2016 Market Congestion Planning Study in MTEP16, MISO identified that one of the most congested portions of the MISO electric system is on the border of Iowa and Minnesota.⁵ Congestion in this area is caused by the large amount of wind capacity and low-cost coal generation in southern Minnesota and northern Iowa.⁶ This congestion is projected to worsen over the next 15 years as more wind facilities comes on line in this area. Further, the expected coal generation retirements north of the Minneapolis/St. Paul area, such as Sherco 1, Sherco 2, and Clay Boswell Units 1&2, increase the need for power to flow from northern Iowa and southern Minnesota to the Twin Cities via the Lakefield to Wilmarth 345 kV line.⁷

Specifically, MISO noted that in the event of an outage of the Lakefield to Wilmarth 345 kV line, the low-voltage parallel path on the Huntley to Blue Earth to South Bend to Wilmarth line⁸ approaches its capacity limits.⁹ This means that this line cannot carry the lower-cost generation to the load centers; thus, it becomes necessary for higher cost generation located closer to load to be “redispatched.” As a result, as the transmission system becomes more congested and operates less efficiently and less cost-effectively.

After identifying this area of congestion on the Iowa/Minnesota border, MISO staff and stakeholders developed more than 20 different transmission solutions.¹⁰ These solutions were tested for their robustness to address the system’s congestion under five future scenarios. Following this rigorous analysis, the proposed Project consisting of a new 345 kV circuit between the Huntley and Wilmarth substations, was found to offer the best value and performance under the various futures studied and was approved by the MISO Board of Directors.¹¹ The Project completely mitigates the congestion on Huntley to Blue Earth to South Bend to Wilmarth line and provides an additional 345 kV connection to strengthen the region’s high-voltage power delivery system.¹² By mitigating congestion on one of the regional transmission system’s most

⁸ *See* MTEP 16 at 110. The Blue Earth-Huntley 161 kV transmission line was previously known as the Blue Earth-Winnebago Junction 69 kV transmission line. The Winnebago Junction Substation is being decommissioned as part of ITC Midwest’s Minnesota –Iowa 345 kV Transmission Line Project or MVP3 that received a Certificate of Need and Route Permit from the Commission in 2014 (Docket Nos. ET6675/ CN-12-1053 and TL-12-1337). The segment of the Blue Earth –Huntley 69 kV line between near the Winnebago Substation and the new Huntley Substation was constructed to 161 kV standards and reconfigured to terminate at the Huntley Substation.

congested lower voltage transmission paths, the Project will enable more efficient delivery and greater utilization of low-cost renewable wind generated energy from southern Minnesota and northern Iowa to serve Minnesota customers, as well as customers throughout the rest of the MISO footprint.

III. LEGAL STANDARD AND SUMMARY EXEMPTION

Minnesota Rule 7849.0220, Subp. 2, Rule 7849.0240, and Rules 7849.0260 to 7849.0340 specify the content requirements for Certificate of Need application for large high-voltage transmission line (LHVTL) projects. The Commission has authority to grant exemptions from the requirements of Minnesota Rules Chapter 7849 pursuant to Minnesota Rule 7849.0200, Subp. 6, which provides:

Subp. 6 Exemptions. Before submitting an application, a person is exempted from any data requirement of parts 7849.0010 to 7849.0400 if the person (1) requests an exemption from specific rules, in writing to the commission, and (2) shows that the data requirement is unnecessary to determine the need for the proposed facilities or may be satisfied by submitting another document. A request for exemption must be filed at least 45 days before submitting an application. The commission shall respond in writing to a request for exemption within 30 days of receipt and include the reasons for the decision. The commission shall file a statement of exemptions granted and reasons for granting them before beginning the hearing.

Based on the standard set forth in this rule, the Commission may grant exemptions when the data requirements: (1) are unnecessary to determine need in a specific case; or (2) can be satisfied by submitting documents other than those required by the rules.¹³

The Applicants specifically request that the Commission grant exemptions from the following rules as they are either unnecessary to determine the need for the Project or can be satisfied by submitting alternative data:

¹³ *In the Matter of The Application for a Certificate of Need for the Appleton – Canby 115 kV Line*, Docket No. E-017/CN-06-0677, ORDER GRANTING EXEMPTIONS AND APPROVING NOTICE PLAN (Aug. 1, 2006).

Minnesota Rule	Scope of Exemption
<i>Minn. Rule 7849.0240, Subp. 2(B)</i> (Promotional Activities)	Request full exemption for ITC Midwest from requirement to provide data regarding the relationship of the project and promotional activities that may have given rise to the demand for the facility.
<i>Minn. Rule 7849.0260, Subp. (C)(5)</i> (Effect of Project on Rates Systemwide)	As to ITC Midwest, request to submit alternative data in the form of the estimated MEP revenue requirement and cost allocation calculations showing costs that will be allocated to Minnesota utilities for the Project. Xcel Energy will provide estimated MEP revenue requirement and cost allocation calculations along with its relevant data related to effects on its rates systemwide and in Minnesota.
<i>Minn. Rule 7849.0260, Subp. A(3) and C(6)</i> (Proposed LHVTL and Alternatives Application)	Request to provide substitute data in the form of overall system losses instead of line losses.
<i>Minn. Rule 7849.0260(D)</i> (System Map)	As to ITC Midwest, request to submit alternative map of ITC Midwest's transmission network in Minnesota and Iowa.
<i>Minn. Rule 7849.0270, Subp. 2(A - D and F) and Subps. 3-5</i> (Peak Demand and Annual Consumption Forecasting)	Request exemption from providing forecasting and capacity information for Applicants' system and to provide substitute forecast information utilized in analyzing the need for the Project as well as substation demand and forecasts for Project area substations. The Applicants will also provide information regarding impacts of congestion.

<i>Minn. Rules 7849.0280 (B) through (I)</i> (System Capacity)	Request full exemption from providing a discussion of the ability of the existing system to meet the forecasted demand for electrical energy identified in response to Minnesota Rule 7849.0270.
<i>Minn. Rule 7849.0290</i> (Conservation)	Request full exemption for ITC Midwest.
<i>Minn. Rule 7849.0300</i> (Consequences of Delay)	Request to be exempt from providing analysis using three confidence levels. The Applicants propose to provide substitute data regarding potential impacts caused by delay in implementing the Project.
<i>Minn. Rule 7849.0340</i> (No Facility Alternative)	Request to be exempt from providing analysis using three confidence levels. The Applicants propose to provide substitute data regarding potential impacts caused by no build alternative.

Each of these requests is discussed in more detail below. This request is being made at least 45 days prior to submitting an application for a Certificate of Need as required by Minnesota Rule 7849.0200, Subp. 6.

IV. EXEMPTIONS REQUESTED

A. Minnesota Rules 7849.0240, Subp.2(B) – Need Summary and Additional Considerations

Minnesota Rule 7849.0240, Subp. 2(B) requires that a Certificate of Need application contain “an explanation of the relationship of the proposed facility to . . . promotional activities that may have given rise to the demand for the facility.” Promotional practices include actions or activities that directly or indirectly give rise to the need for the facility, including advertising, billing practices, promotion of increased use of electricity, or other marketing activities.¹⁴ ITC Midwest does not directly serve end-users of electric service and has not engaged in promotional activities that could have given rise to the need for the proposed Project. The Commission has previously determined that an exemption from this requirement is appropriate for other entities

¹⁴ Minn. R. 7849.0010, Subp. 24.

that do not serve retail customers.¹⁵ The Applicants request that the Commission grant ITC Midwest an exemption from this data request. Xcel Energy will provide its relevant data.

B. Minnesota Rule 7849.0260(C)(5) – Effect of Project on Rates Systemwide

Minnesota Rule 7849.0260(C)(5) requires an applicant to estimate its proposed project’s “effect on rates systemwide and in Minnesota, assuming a test year beginning with the proposed in-service date.” ITC Midwest requests an exemption from this requirement because it is not a Minnesota public utility whose rates are regulated by the Commission. Rather, as a transmission-only utility, ITC Midwest’s rates are regulated by the Federal Energy Regulatory Commission (FERC) and the prices for providing transmission service are governed by the MISO tariff. This specific Project is an MEP and, as such, its costs will be allocated across the MISO footprint following MISO’s MEP cost allocation process.¹⁶ Information regarding the expected Project cost, the MEP allocation methodology, and the share that will be allocated to Minnesota utilities’ load would be more useful in evaluating the Project so ITC Midwest proposes to provide this data as substitute information. Xcel Energy will provide its relevant data related to the Project’s effects on its rates systemwide and in Minnesota.

C. Minnesota Rules 7849.0260 A(3) and C(6) – Proposed LHVTL and Alternatives Application (Losses)

Minnesota Rule 7849.0260 A(3) requires the applicant to provide the expected losses “under projected maximum loading and under projected average loading in the length of the transmission line and at the terminals or substations.” Subpart C(6) of the rule requires similar information (efficiency of proposed system under maximum and average loading along the length of the line). The electrical grid operates as a single, integrated system, which prevents electricity from being “directed” along a particular line or set of lines. Consequently, heat loss takes place across the entire transmission

¹⁵ See, e.g., *In the Matter of the Application of ITC Midwest LLC for a Certificate of Need for the Minnesota-Iowa 345 kV Transmission Line Project in Jackson, Martin, and Faribault Counties, Minnesota*, Docket No. ET-6675/CN-12-1053, [Order on Exemption Request] (Feb. 8, 2013); *In the Matter of the Application of Prairie Rose Wind, LLC for a Certificate of Need for up to 200 MW wind project in Rock and Pipestone Counties*, Docket No. IP6838/CN-10-80, ORDER APPROVING EXEMPTION PETITION, OES Cmts at p. 3 (May 14, 2010); *In the Matter of the Application of Pleasant Valley Wind, LLC for a Certificate of Need for the 299.5 MW Pleasant Valley Project in Dodge, Olmstead and Mower Counties*, Docket No. IP6828/CN-09-937, ORDER APPROVING EXEMPTION REQUESTS, OES Cmts at p. 2 (Oct. 8, 2009); *In the Matter of the Application of Goodbue Wind, LLC for a Certificate of Need for a 78 MW Wind Project and Associated Facilities in Goodbue County*, Docket No. IP6701/CN-09-1186, ORDER FINDING APPLICATION COMPLETE AND INITIATING INFORMAL REVIEW PROCESS at p. 2-3 (Dec. 30, 2009).

¹⁶ MISO *Open Access Transmission, Energy and Operating Reserve Markets Tariff, Attachment FF* Section III.A.2.f.

system and is not isolated to a few transmission lines within the integrated regional electric grid. It is necessary, therefore, to calculate losses across the system affected by the addition of new transmission lines, rather than the losses attributable to the transmission addition itself.

The Applicants request an exemption from Rules 7849.0260 A(3) and C(6) and propose to supply system losses information in lieu of line-specific losses required by the rules. Our proposal is consistent with the approach previously approved by the Commission in several other Certificate of Need transmission line dockets.¹⁷

D. Minnesota Rule 7849.0260(D) – System Map

Minnesota Rule 7849.0260(D) calls for a map showing the applicant’s system or load center to be served by the proposed transmission lines. As a transmission company, ITC Midwest does not directly serve load. ITC Midwest proposes to submit a map showing ITC Midwest’s network of transmission lines in Minnesota and Iowa.

E. Minnesota Rules 7849.0270, Subp. 2 (A-D and F) and Subps. 3-5 – Peak Demand and Annual Consumption Forecast

The Applicants seek an exemption from the content requirements of Minnesota Rule 7849.0270 which requires extensive information concerning peak demand, annual consumption, weekday load factors, and forecasts, for the applicant’s entire service area and system. Under the rule, the applicant must provide peak demand and consumption forecasts to justify the need for the proposed transmission project. However, in the case of the Huntley-Wilmarth Project, the Project is not needed to support growing peak demand or to meet energy demands. Rather, the Huntley-Wilmarth 345 kV transmission line, identified by MISO as a MEP, will benefit customers in the broader MISO region as well as customers in southwestern Minnesota and the Twin Cities metropolitan area by relieving congestion on the

¹⁷ IN THE MATTER OF THE APPLICATION OF NORTHERN STATES POWER COMPANY D/B/A XCEL ENERGY FOR A CERTIFICATE OF NEED FOR THE UPGRADE OF THE SOUTHWEST TWIN CITIES BLUFF CREEK – WESTGATE AREA 69 KV TRANSMISSION LINE TO 115 KV CAPACITY, Docket No. E002/CN-11-332, *Order Granting Applicant’s Exemption Request*, (Nov. 16, 2011); IN THE MATTER OF THE APPLICATION OF NORTHERN STATES POWER COMPANY D/B/A XCEL ENERGY AND GREAT RIVER ENERGY FOR A CERTIFICATE OF NEED FOR THE UPGRADE OF THE SOUTHWEST TWIN CITIES (SWTC) CHASKA AREA 69 KV TRANSMISSION LINE TO 115 KV CAPACITY, Docket No. E002/CN-11-826 *Order Granting The Company’s Exemption Request* (Nov. 4, 2011); IN THE MATTER OF THE APPLICATION OF NORTHERN STATES POWER, A MINNESOTA CORPORATION FOR CERTIFICATES OF NEED FOR TWO 161 KV TRANSMISSION LINES IN THE GREATER ROCHESTER AREA, Docket No. E002/CN-08-992, *Order Approving Exemption Request As Modified* (December 16, 2008); IN THE MATTER OF THE APPLICATION OF GREAT RIVER ENERGY, NORTHERN STATES POWER COMPANY (D/B/A XCEL ENERGY) AND OTHERS FOR A CERTIFICATE OF NEED FOR THE CAPX 345 KV TRANSMISSION PROJECT, Docket No. E002/CN-06-1115, *Order designating The Company and Setting Filing Requirements* (June 4, 2007). IN THE MATTER OF THE APPLICATION OF GREAT RIVER ENERGY AND MINNESOTA POWER FOR A CERTIFICATE OF NEED FOR A 115 KV, Docket No. E002/CN-10-973, *Order Approving Exemptions and Proposed Provision of Alternative Data* (November 2, 2010).

regional electric system, allowing greater and more efficient access to lower cost renewable energy.

Thus, the Applicants propose to provide forecast information utilized by MISO in studying, planning, and analyzing the Project rather than data limited to the Applicants' service areas and systems. This data will include PROMOD production costs analyses MISO used in the MTEP16. The Applicants will also provide information on the congestion issues on the Minnesota-Iowa border and a discussion of how the proposed Project will alleviate these issues. Congestion data will include historical, day-ahead, real-time and market-to-market congestion, as well as projected congestion identified through out-year production cost model simulations.

1. Rule 7849.0270, Subp. 2(A-D and F) – Content of Forecast

Minnesota Rule, Subp. 7849.0270 directs an applicant to predict the amount of energy consumed and demanded for each of nine classes of customers (residential, commercial, industrial, farming, etc.), and at various times. Specifically, Minnesota Rule 7849.0270, Subp. 2(A) and (B) require that the applicant provide annual electrical consumption for its Minnesota customers by a series of customer class categories. These application requirements were crafted in contemplation of utilities proposing a transmission line to connect to a specific new source of electricity to a specific new source of demand. The proposed Project is not designed to serve peak demand or to meet energy requirements. Therefore, we do not believe that providing demand and consumption forecasts by class of customers will help inform the record. We propose that the Commission grant the requested exemption for the data required by Minnesota Rule 7849.0270, Subp. 2(A) and (B).

Minnesota Rule 7849.0270, Subp. 2(C) calls for detailed forecasts of power requirements by end use class in the applicant's system. Rule 7849.0270, Subp. 2(D) seeks monthly peak demand data. Instead of the information called for in Rule 7849.0270, Subps. 2(C) and (D), we propose to provide data actually utilized in studying and planning the Project as discussed above.

Minnesota Rule 7849.0270, Subp. 2(F) requires applicant's average system weekday load factor for each month. Applicants request an exemption from this requirement because load factor is not a relevant consideration when evaluating the need for a transmission facility. Load factor is a measure of how demand varies over time and it is a determinant in the need for generation. Load factor has no bearing on the need for a new transmission line. Rather, additional transmission capacity must be designed to meet peak demand and other system power flow circumstances. In doing so, there is sufficient capacity to meet lower levels of instantaneous demand. Variations of demand will not assist the Commission in evaluating the need for the

proposed upgrades and therefore, we respectfully request an exemption from this requirement which the Commission has granted in the past for other transmission projects.¹⁸

Consequently, the Applicants request an exemption from the data requirements of Minnesota Rule 7849.0270, Subp. 2(A-D and F).

2. Rule 7849.0270, Subps. 3-5 – Forecast Methodology, Data Base, and Assumptions

Minnesota Rule 7849.0270, Subps. 3-5 require the applicant to detail the forecast methodology employed, identify the database used for the forecast, and detail the assumptions made in preparing the forecasts provided under Subpart 2 of the same rule. As stated above, the need for these facilities is not prompted by electrical consumption but rather the need to reduce transmission system congestion and enable the more efficient delivery of lower cost generation to our customers. Thus, instead of providing energy consumption forecasts, the Applicants will provide detailed information and explanation of all of the effects of congestion, *i.e.*, PROMOD analysis and information regarding impacts on locational marginal pricing (LMP).

Consequently, the Applicants request an exemption from the data requirements of Rule 7849.0270, Subp. 3-5 and will substitute cost-benefit analyses, forecasts, and forecast methodology as well as information related to the effects of congestion relief.

F. Minnesota Rule 7849.0280 (B) through (I) – System Capacity

Minnesota Rules 7849.0280 (B) through (I) pertain to system capacity and generation data. The general purpose of this section is to provide a discussion of the ability of the existing system to meet the forecasted demand for electrical energy in response to Minnesota Rule 7849.0270. Subparts (B) through (I) pertain to an examination of generation adequacy and do not address transmission planning considerations. The Applicants request that the Commission grant an exemption to Rule 7849.0280, Subps. (B) – (I). The Commission has previously granted exemption requests from Rule 7849.0280, Subps. (B) through (I) in several other transmission line Certificate of Need dockets where, as here, issues of transmission adequacy, rather than generation adequacy, were at issue.¹⁹

¹⁸ IN THE MATTER OF THE REQUEST OF MINNESOTA POWER FOR A CERTIFICATE OF NEED FOR THE GREAT NORTHERN TRANSMISSION LINE, Docket No. E-015/CN-12-1163, *Order Approving Notice Plan, Granting Variance Request, and Approving Exemption Request* (Feb. 28, 2013).

¹⁹ IN THE MATTER OF THE APPLICATION OF NORTHERN STATES POWER COMPANY D/B/A XCEL ENERGY FOR A CERTIFICATE OF NEED FOR THE UPGRADE OF THE SOUTHWEST TWIN CITIES BLUFF CREEK – WESTGATE AREA 69 kV

G. Minnesota Rule 7849.0290 – Conservation

ITC Midwest requests a full exemption from Minnesota Rule 7849.0290 which requires an applicant to describe its energy and conservation plans, including load management and the effect of conservation in reducing the applicant's need for new generation and transmission facilities. This rule is intended to ensure that regulated load serving utilities fully consider conservation as well as generation when planning for future needs of their customers.²⁰ ITC Midwest has no end-user customers and therefore cannot affect their energy consumption levels. The Commission has granted ITC Midwest an exemption from this requirement in a prior docket and it is appropriate to do so here given continued role as a transmission-only company.²¹

H. Minnesota Rule 7849.0300 – Consequences of Delay and Minnesota Rule 7849.0340 – No Facility Alternative

Minnesota Rule 7849.0300 requires detailed information regarding the consequences of delay on three specific statistically-based levels of demand and energy consumption. Minnesota Rules 7849.0340 requires a discussion of the impact on existing generation and transmission facilities at the three levels of demand specified in part 7849.0300 for the no-build alternative. Such a discussion is an important element of a determination of the need for new transmission infrastructure. While we will evaluate the consequences of delay and a no build alternative, we propose to evaluate these based on impacts to congestion relief and request a variance from the portions of these rules that requires the examination of delay to incorporate the three specific levels of demand required by Minnesota Rule 7849.0300.

We believe that this information will fully support our application and better inform the analysis performed by the Commission. We note a similar request for exemptions

TRANSMISSION LINE TO 115 kV CAPACITY, Docket No. E002/CN-11-332, *Order Granting Applicant's Exemption Request* (Nov. 16, 2011); IN THE MATTER OF THE APPLICATION OF NORTHERN STATES POWER COMPANY D/B/A XCEL ENERGY AND GREAT RIVER ENERGY FOR A CERTIFICATE OF NEED FOR THE UPGRADE OF THE SOUTHWEST TWIN CITIES (SWTC) CHASKA AREA 69 kV TRANSMISSION LINE TO 115 kV CAPACITY, Docket No. E002/CN-11-826, *Order Granting The Company's Exemption Request* (Nov. 4, 2011); IN THE MATTER OF THE APPLICATION OF NORTHERN STATES POWER, A MINNESOTA CORPORATION FOR CERTIFICATES OF NEED FOR TWO 161 kV TRANSMISSION LINES IN THE GREATER ROCHESTER AREA, Docket No. E002/CN-08-992, *Order Approving Exemption Request As Modified* (December 16, 2008); IN THE MATTER OF THE OTTER TAIL POWER COMPANY APPLICATION FOR A CERTIFICATE OF NEED FOR A 115 kV TRANSMISSION LINE BETWEEN APPLETON AND CANBY SUBSTATIONS, Docket No. E- 017/CN-06-677, *Order Granting Exemptions and Approving Notice Plan as Modified* (Aug. 1, 2006).

²¹ IN THE MATTER OF THE APPLICATION OF ITC MIDWEST LLC FOR A CERTIFICATE OF NEED FOR THE MINNESOTA-IOWA 345 kV TRANSMISSION LINE PROJECT IN JACKSON, MARTIN, AND FARIBAULT COUNTIES, MINNESOTA, Docket No. ET-6675/CN-12-1053, *Order on Exemption Request* (Feb. 8, 2013).

from the requirements of Minnesota Rules 7849.0300 and 7849.0340 was approved by the Commission in other recent transmission line Certificate of Need dockets.²²

V. CONCLUSION

The Applicants believe the Commission's Certificate of Need process would best be served by a focused application that presents the information needed to evaluate the identified need for the proposed 345 kV transmission line. Therefore, the Applicants respectfully request that the Commission grant our exemption request so that the most useful and beneficial information can be provided for making a determination on the merits of our application.

Dated: July 14, 2017

Respectfully submitted,

Northern States Power Company

and

ITC Midwest LLC

Appendix C
Applicants' Notice Plan Petition

June 30, 2017

--Via Electronic Filing--

Daniel P. Wolf
Executive Secretary
Minnesota Public Utilities Commission
121 7th Place East, Suite 350
St. Paul, MN 55101

RE: NOTICE PLAN PETITION FOR THE
HUNTLEY – WILMARTH 345 kV TRANSMISSION LINE PROJECT
DOCKET NO. E002 AND ET6675/CN-17-184

Dear Mr. Wolf:

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) (collectively, the Applicants), submit this Notice Plan for approval by the Minnesota Public Utilities Commission (“Commission”) pursuant to Minnesota Rule 7829.2550.

Minnesota Rule 7829.2550 requires that persons seeking a Certificate of Need for a high voltage transmission line must file a Notice Plan with the Commission three months before filing an application for a Certificate of Need. Xcel Energy and ITC Midwest intend to file a Certificate of Need application for the Huntley – Wilmarth 345 kV transmission line project (Project) in the fall of 2017. The Project consists of an approximately 40-50 mile 345 kV transmission line between Xcel Energy’s existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest’s Huntley Substation, currently under construction, south of Winnebago, Minnesota.

In accordance with Minnesota Statutes § 216.17 and Minnesota Rule 7829.2550, Subpart 1, copies of this Notice Plan Petition have been provided to the Minnesota Department of Commerce and the Minnesota Office of Attorney General-Residential Utilities and Antitrust

Division, along with persons on the “General List of Persons Interested in Power Plants and Transmission Lines” as maintained by the Commission under Minnesota Rule 7850.2100, Subpart 1(A).

Minnesota Rule 7829.2550, Subpart 2, provides that interested parties have 20 days from the date of the filing to provide comments on the proposed Notice Plan. This rule also provides that reply comments must be made within 20 days of expiration of the period for initial comments. These notice periods have been identified on the first page of the Notice Plan Petition for reference.

If you have questions or need additional information, please contact either Bria Shea, Director, Regulatory and Strategic Analysis at bria.e.shea@xcelenergy.com or 612-330-6064, or David Grover, Director, RTO Affairs (MISO) at dgrover@itctransco.com or 612-332-2511.

SINCERELY,

**Replies to Comments can be submitted to the Minnesota Public Utilities
Commission until 4:30 P.M. August 9, 2017.**

**The Minnesota Public Utilities Commission’s address is: Minnesota Public
Utilities Commission, 121 7th Place East, Suite 350, St. Paul, MN 55101-2147**

I. INTRODUCTION

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) (collectively, the Applicants), submit this Notice Plan for approval by the Minnesota Public Utilities Commission (Commission) pursuant to Minnesota Rule 7829.2550.

Applicants intend to submit applications for a Certificate of Need and a Route Permit for the Huntley – Wilmarth 345 kV transmission line Project (Project). The Project consists of a 40 - 50 mile 345 kV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota. The proposed 345 kV transmission line will traverse Faribault, Martin, Blue Earth, and Nicollet counties in Minnesota.

The proposed Project area and the existing transmission system are shown in **Figure 1**. The Project was studied, reviewed, and approved as a Market Efficiency Project (MEP) by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors in December 2016 as part of its annual Transmission Expansion Plan (MTEP16) report. As an MEP, this Project is designed to reduce energy costs by addressing one of the most congested areas in the MISO electric transmission system, along the Minnesota/Iowa border. Currently, low cost energy being produced in Iowa and southern Minnesota is unable to flow to loads, like the Twin Cities, because of congestion on the system. When this congestion occurs, customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. These transmission constraints create inefficiencies in the wholesale energy market and increase costs for consumers. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, provide economic benefits, strengthen the regional grid, and support future wind generation facilities in Minnesota and Iowa. MISO found that the Huntley-Wilmarth Project would provide \$210 million in production cost benefits on a present value basis over 20 years and had a weighted benefit to cost ratio of 1.51 to 1.86.¹

In addition, due to the increased cost-competitiveness of wind as well as favorable renewable energy and tax policies, there has been a higher than usual number of new wind generation facilities being developed recently. This Project will allow the transmission system to accommodate this future wind generation that is currently being developed in southern Minnesota and northern Iowa.

¹ MTEP 16 at 112. A copy of the MTEP16 is available online at: <https://www.misoenergy.org/Planning/TransmissionExpansionPlanning/Pages/MTEP16.aspx>.

Minnesota Rule 7829.2550 requires a Notice Plan to be submitted for review by the Commission at least three months before filing a Certificate of Need application for any high voltage transmission line under Minnesota Statutes § 216B.243. Applicants therefore, submit this Notice Plan for the Commission’s approval.

II. NOTICE PLAN PROPOSAL

This Notice Plan is prepared as an initial step in the Certificate of Need regulatory process. Preparation of a Notice Plan, and its review and approval by the Commission, will ensure that interested persons are aware of the proceeding and have the opportunity to participate. The area proposed to be included in notices under this proposal (Notice Area) is depicted in **Figure 1**.

While the Notice Plan is the first step in the regulatory process, Applicants have begun routing studies including gathering public input on possible route alternatives. This outreach has included a public meeting, mailed and published public meeting invitations, and a project website that includes Project information.²

With this proposed Notice Plan, the Applicants will continue this public outreach and provide the notices listed below in compliance with Minnesota Rule 7820.2500.

A. Direct Mail Notice

Attachment A includes a letter that will be mailed to landowners, residents, local units of government, elected officials, tribal government contacts, and agencies within the Notice Area.

1. Landowners

Minnesota Rule 7829.2550, Subpart 3(A), requires an applicant for a Certificate of Need to provide direct mail notice to all landowners likely to be affected by the proposed transmission lines. Applicants have obtained landowner names and addresses within the Notice Area using tax records.

2. Mailing Addresses

Minnesota Rule 7829.2550, Subpart 3(B), requires an applicant for a Certificate of Need to provide direct mail notice to all mailing addresses in the area that are likely to be affected by the proposed transmission line. Applicants have obtained a list of mailing addresses in the Notice Area from a bulk mailing company and removed addresses common to the landowner list.

² See www.huntleywilmarth.com.

3. Tribal Government Officials

Minnesota Rule 7829.2550, Subpart 3(C) requires an applicant for a Certificate of Need for a high voltage transmission line to provide direct mail notice to tribal governments whose jurisdictions are reasonably likely to be affected by the proposed transmission line. The Applicants have assembled a list of tribal organizations and other government officials in the Notice Area and this list is included in **Attachment B**.

4. Local Governments

Minnesota Rule 7829.2550, Subpart 3(C), requires an applicant to provide direct mail notice to governments of towns, cities, home rule charter cities, and counties whose jurisdictions are reasonably likely to be affected by the proposed transmission line. Applicants propose to provide direct mail notice to lead administration personnel in the towns, cities, and counties. The notice will also be provided to the elected officials of those local units of government and to those State Senators and State Representatives whose districts are within the Notice Area. A complete list of government recipients is included in **Attachment B**.

B. Newspaper Notice.

Minnesota Rule 7829.2550, Subpart 3(D), requires an applicant to publish notice in newspapers in the areas that may be affected by the transmission line. The proposed notice text is provided in **Attachment C**. Applicants propose to place notice advertisements in the newspapers also identified in **Attachment C**.

In addition to the Notice Plan newspaper notice requirement, Minnesota Rule 7829.2500, Subpart 5, requires that after a Certificate of Need application is filed that an applicant publish newspaper notice of the filing in a newspaper of general circulation throughout the state. Given that under the proposed Notice Plan, Applicants will publish newspaper notice of the Certificate of Need proceeding no more than 60 days before a Certificate of Need application is filed in the four newspapers noted in Attachment C, Applicants request a variance of Minnesota Rule 7829.2500, Subpart 5 per Minnesota Rule 7829.3200 to waive this additional newspaper notice requirement.

C. Notice Content

Minnesota Rule 7829.2550, Subpart 4, requires notice packets to include several pieces of information including: a map; right-of-way requirements and statement of intent to

acquire property rights; notice that the transmission upgrade cannot be constructed unless the Commission certifies that it is needed; Commission contact information; utility website information; a statement that the Minnesota Department of Commerce, Energy Environmental Review and Analysis (“EERA”) will prepare an environmental report; an explanation of how to get on the Project’s mailing list; and a list of applicable regulatory laws and rules. The Applicants’ notice mailing will include these requirements.

The notice letter will serve three purposes: 1) to introduce and explain the need and location of the proposed Project; 2) to encourage potentially-affected persons to participate in the regulatory process; and 3) to provide contact information for citizens and officials to obtain additional information about the Project and the regulatory process. The map (Figure 1) that will be included with the notice letter will depict the transmission line corridor area, existing transmission lines and substations, counties, townships, and notable landmarks to aid in orientation. The notice will also state that an environmental impact statement will be prepared for the Project because the Certificate of Need and Route Permit will be filed at about the same time and are expected to be processed jointly by the Commission. The map that will be sent with the notice letter will be updated from the enclosed Figure 1 to show the routes Applicants are likely to propose in their Route Permit application. The Applicants will provide a copy of this updated map to Commission and Department of Commerce staff for review prior to mailing.

D. Distribution of Notice Plan Filing

As required under Minnesota Rule 7829.2550, Subpart 1, this Notice Plan filing has been sent to the EERA, the Office of the Attorney General – Residential Utilities and Antitrust Division, and to those parties listed on the “General List of Persons Interested in Power Plants and Transmission Lines.”

E. Notice Timing

Minnesota Rule 7829.2550, Subpart 6, requires the applicant to implement the Notice Plan within 30 days of its approval by the Commission. Applicants request that the Commission modify the Notice Plan implementation requirement to allow notice to more closely coincide with the Certificate of Need filing. Applicants request that the Commission grant a variance and direct the notices identified in this Notice Plan to occur no more than 60 days and no less than two weeks prior to the filing of the Certificate of Need application.

F. Project Service List

Pursuant to Minnesota Rule 7829.0700, Subpart 1, the Applicants request that the following persons be placed on the Commission's Official Service List for this matter, and request electronic service for these persons:

III. CONCLUSION

Applicants respectfully requests that the Commission: (1) approve this Notice Plan prepared in advance of our Certificate of Need application to construct the Project (2) grant the variance from duplicative newspaper notice requirements under Minnesota Rule 7829.2500, Subpart 5; and (3) grant the variance from the 30-day implementation notice contemplated in Minnesota Rule 7829.2550, Subpart 6, and modify the time for implementation of the Notice Plan to no more than 60 days and no less than two weeks prior to the filing of the Certificate of Need application.

Dated: June 30, 2017

Northern States Power Company
ITC Midwest LLC

Example Notice Letter

_____, 2017

RE: Notice of Certificate of Need Application for the Huntley-Wilmarth 345 kV Transmission Project in Blue Earth, Martin, and Faribault counties, Minnesota
MPUC Docket No. E002, ET6675/CN-17-184

This letter is intended to notify you of a proposed transmission line project and to provide the following information:

1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) are proposing to construct an approximately 40 - 50 mile 345 kV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota (Project). A map of the area under consideration for the proposed Project is attached to this letter as Figure 1.

Why is the Project needed?

The Project is needed to reduce congestion on the transmission grid on the Minnesota/Iowa border that is inhibiting low-cost electricity from generation facilities, including wind farms in the area, from reaching customers. When this congestion occurs, the customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. This congestion is projected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in December 2016 as part of MISO's annual Transmission Expansion Plan

(MTEP16) report. The MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are transmission projects that are designed to help achieve this goal.

Further information on the project need is available on the Project website:
www.huntleywilmarth.com

What is the regulatory process for the Project?

Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.puc.state.mn.us in Docket No. E002, ET6675/ CN-17-184.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Minnesota portion of the Project is governed by Minnesota law, including Minnesota Statutes Chapter 216E and Minnesota Rules Chapter 7850. A copy of the Route Permit application, once submitted, can be obtained by visiting the Commission's website in Docket No. E002, ET6675/ TL-17-185.

The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. This process includes preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Energy Environmental Review and Analysis (EERA) staff.

Which routes will be studied in the EIS?

Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated during the scoping process. The Commission and the EERA staff will decide which routes get studied and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

Who decides which route gets approved?

The Commission will review all of the data from the public process and will decide on whether the Project is needed and which route is approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes Section 216E.03, Minnesota Rules 7850.4100, and stakeholder input received during the regulatory process.

The table below provides a high-level summary of the major steps in the regulatory process.

Major Process Steps and Summary Schedule

Step	Approximate Date
Pre-Application study and public meetings and stakeholder outreach	Now until Fall 2017
Certificate of Need and Route Applications submitted to Commission	Fall / Winter 2017
Informational and Scoping Meetings(public meeting and comment)	Winter 2017
Draft Environmental Impact Statement Issued (public meeting and comment period)	First half 2018
Public Hearings (public meeting and comment period)	Second half 2018
Commission Decision	Fall 2018 or first half of 2019

How will the utilities acquire right-of-way necessary for the Project?

Before beginning construction, utilities will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. Xcel Energy and ITC Midwest anticipate acquiring easements with a typical right-of-way of approximately a 150 feet.

How can I obtain additional information about the Project?

To subscribe to the Project's Certificate of Need docket and to receive email notifications when information is filed in that docket, please visit www.puc.state.mn.us, click on the "Subscribe to a Docket" button, enter your email address and select "Docket Number" from the Type of Subscriptions dropdown box, then select "17" from the first Docket number drop down box and enter "184" in the second box before clicking on the "Add to List" button. You must then click the "Save" button at the bottom of the page to confirm your subscription to the Project's Certificate of Need docket. These same steps can be followed to subscribe to the Project Route Permit docket (TL-17-185).

If you would like to have your name added to the Project Route Permit proceeding mailing list (MPUC Dockets ET6675/CN-17-184 and ET6675/TL-17-185 you may register by visiting the Department of Commerce webpage at mn.gov/commerce/energyfacilities/, clicking on the "Transmission Lines" tab, selecting "Huntley - Wilmarth" from the listed projects, and then clicking the links next to the "Mailing List" heading, or contact the Department of Commerce staff at the address above. Please be aware that the Project may not be listed at this location until the Route Permit application is submitted.

A separate mailing list is maintained for the Certificate of Need proceeding. To be placed on the Project Certificate of Need mailing list (MPUC Docket ET6675/CN-17-184), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147, Fax: 651-297-7073 or robin.benson@state.mn.us.

If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

How do I learn more about other transmission projects and the transmission planning process in Minnesota?

Minnesota Statutes § 216B.2425 requires that each electric transmission owning utility in the state file a biennial transmission planning report with the Commission in the fall of odd-numbered years. These reports information on the transmission planning process used by utilities in the state of Minnesota and information about other transmission line projects. The 2015 Biennial Transmission Planning Report is available at: www.minnelectrans.com. The 2017 Biennial Transmission Planning Report will be submitted on November 1, 2017.

Sincerely,

Tom Hillstrom
Xcel Energy
Principal Permitting Agent

Dan Hagan
ITC Midwest LLC
Permit Policy Specialist

This Map will be modified prior to implementation of notice plan to show routes expected to be included in the route permit application. Applicants will provide this map to PUC and DOC staff to review prior to mailing.

Excluded from the notice area because routes are not feasible through this portion of Mankato and North Mankato

- Substation Endpoints
- + Included in Notice Area but unlikely for route consideration
- Notice Area
- City and Township Boundaries

- Existing Transmission**
- 69 kV
 - 115 kV
 - 161 kV
 - 345 kV

ELECTRIC TRANSMISSION LINE PROJECT

RE: Notice of Certificate of Need Application for the Huntley-Wilmarth 345 kV Transmission Project in Blue Earth, Martin, and Faribault counties, Minnesota
MPUC Docket No. E002, ET6675/CN-17-184

This notice provides the following information for a proposed new transmission line project:

1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) are proposing to construct an approximately 40 – 50 mile 345 kV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota.

Why is the Project needed?

The Project is needed to reduce congestion on the transmission grid on the Minnesota/Iowa border that is inhibiting low-cost electricity from generation facilities, including wind farms in the area, from reaching customers. When this congestion occurs, the customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. This congestion is projected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in December 2016 as part of MISO's annual Transmission Expansion Plan (MTEP16) report. The MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are transmission projects that are designed to help achieve this goal.

Further information on the project need is available on the Project website: www.huntleywilmarth.com

What is the regulatory process for the Project?

Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.puc.state.mn.us in Docket No. E002, ET6675/CN-17-184.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Minnesota portion of the Project is governed by Minnesota law, including Minnesota Statutes Chapter 216E and Minnesota Rules Chapter 7850. A copy of the Route Permit application, once submitted, can be obtained by visiting the Commission's website in Docket No. E002, ET6675/TL-17-185.

The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. This process includes preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Energy Environmental Review and Analysis (EERA) staff.

Which routes will be studied in the EIS?

Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated during the scoping process. The Commission and the EERA staff will decide which routes get studied and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

Who decides which route gets approved?

The Commission will review all of the data from the public process and will decide on whether the Project is needed and which route is

approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes Section 216E.03, Minnesota Rules 7850.4100, and stakeholder input received during the regulatory process.

The table below provides a high-level summary of the major steps in the regulatory process.

Major Process Steps and Summary Schedule

Step	Approximate Date
Pre-Application study and public meetings and stakeholder outreach	Now until Fall 2017
Certificate of Need and Route Applications submitted to Commission	Fall / Winter 2017
Informational and Scoping Meetings (public meeting and comment)	Winter 2017
Draft Environmental Impact Statement Issued (public meeting and comment period)	First half 2018
Public Hearings (public meeting and comment period)	Second half 2018
Commission Decision	Fall 2018 or first half of 2019

How will the utilities acquire right-of-way necessary for the Project?

Before beginning construction, utilities will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. Xcel Energy and ITC Midwest anticipate acquiring easements with a typical right-of-way of approximately 150 feet.

How can I obtain additional information about the Project?

To subscribe to the Project's Certificate of Need docket and to receive email notifications when information is filed in that docket, please visit www.puc.state.mn.us, click on the "Subscribe to a Docket" button, enter your email address and select "Docket Number" from the Type of Subscriptions dropdown box, then select "17" from the first Docket number drop down box and enter "184" in the second box before clicking on the "Add to List" button. You must then click the "Save" button at the bottom of the page to confirm your subscription to the Project's Certificate of Need docket. These same steps can be followed to subscribe to the Project Route Permit docket (TL-17-185).

If you would like to have your name added to the Project Route Permit proceeding mailing list (MPUC Dockets ET6675/CN-17-184 and ET6675/TL-17-185 you may register by visiting the Department of Commerce webpage at mn.gov/commerce/energyfacilities/, clicking on the "Transmission Lines" tab, selecting "Huntley - Wilmarth" from the listed projects, and then clicking the links next to the "Mailing List" heading, or contact the Department of Commerce staff at the address above. Please be aware that the Project may not be listed at this location until the Route Permit application is submitted.

A separate mailing list is maintained for the Certificate of Need proceeding. To be placed on the Project Certificate of Need mailing list (MPUC Docket ET6675/CN-17-184), mail, fax, or email Robin Benson at Minnesota Public Utilities Commission, 121 7th Place E., Suite 350, St. Paul, MN 55101-2147. Fax: 651-297-7073 or robin.benson@state.mn.us.

If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

SERVICE DATE: September 1, 2017

DOCKET NO. E-002,ET-6675/CN-17-184

David Grover
ITC Midwest, LLC
901 Marquette Avenue, Suite 1950
Minneapolis, MN 55402

In the Matter of the Application of Xcel Energy and ITC Midwest, LLC for the Huntley-Wilmarth 345 KV Transmission Line Project

The above-entitled matter was considered by the Commission on August 24, 2017, and the following disposition made:

1. Approved the Notice Plan petition as modified:

- **Added the *Maple River Messenger* and a statewide newspaper to the list of newspapers through which notification will be provided pursuant to Minnesota Rules, part 7829.2550, subpart 3.**
- **Granted a variance to Minnesota Rules, part 7829.2500, subpart 5, to remove the requirement to publish notice in a statewide newspaper at the time of the Certificate of Need application (and require statewide publication earlier in the process) and Minnesota Rules, part 7829.2550, subpart 6, to allow for a revised timeframe for implementing the notice plan.**

2. Approved the petition for exemptions from certain filing requirements for the Certificate of Need application.

The Commission agrees with and adopts the recommendations of the Minnesota Department of Commerce, which are attached and hereby incorporated into the order. This order shall become effective immediately.

BY ORDER OF THE COMMISSION

Daniel P. Wolf

Daniel P. Wolf
Executive Secretary

RE: **Comments of the Minnesota Department of Commerce, Division of Energy Resources**
Docket No. E002, ET6675/CN-17-184

Dear Mr. Wolf:

Attached are the comments of the Minnesota Department of Commerce, Division of Energy Resources (Department) in the following matter:

Notice Plan Petition for the Huntley—Wilmarth 345 kV Transmission Line Project.

The Petition was filed on June 30, 2017 by:

Bria E. Shea
Northern States Power Company
414 Nicollet Mall
Minneapolis, MN 55401

and

David Grover
ITC Midwest, LLC
901 Marquette Avenue, Suite 1950
Minneapolis, MN 55402

The Department recommends that the Minnesota Public Utilities Commission (Commission) **approve the petition with modifications**. The Department is available to respond to any questions the Commission may have.

Sincerely,

/s/ STEVE RAKOW
Analyst Coordinator

Before the Minnesota Public Utilities Commission

Comments of the Minnesota Department of Commerce Division of Energy Resources

Docket No. E002, ET6675/CN-17-184

I. INTRODUCTION

On March 3, 2017 Northern States Power Company, doing business as Xcel Energy (Xcel) and ITC Midwest, LLC (ITC) (collectively, the Companies) filed their *Notice of Intent to Construct, Own, and Maintain the Huntley—Wilmarth 345 kV Transmission Line Project* pursuant to Minnesota Statutes § 216B.246, subd. 3 (a).

On June 30, 2017, the Companies filed their *Notice Plan Petition for the Huntley—Wilmarth 345 kV Transmission Line Project* (Notice Petition). The Notice Petition provides the Companies' proposed notice plan to communicate an intent to construct a 40- to 50-mile 345 kV transmission line between Xcel's existing Wilmarth substation north of Mankato, Minnesota and ITC's Huntley substation, currently under construction, south of Winnebago, Minnesota (Project). The Notice Petition includes a draft notice for landowners, residents, and governmental jurisdictions, along with a draft newspaper notice.

Below are the comments of the Minnesota Department of Commerce, Division of Energy Resources, Energy Regulation and Planning (Department) regarding the Notice Petition.

II. DEPARTMENT ANALYSIS

A. GOVERNING STATUTES AND RULES

The Companies filed the Notice Petition pursuant to Minnesota Rules, part 7829.2550 subpart 1 which states, in part:

Three months before filing a certificate of need application for a high-voltage transmission line as defined by Minnesota Statutes, section 216B.2421, the applicant shall file a proposed plan for providing notice to all persons reasonably likely to be affected by the proposed line.

Minnesota Statutes § 216B.2421 includes in its definition of a Large Energy Facility (LEF):

(2) any high-voltage transmission line with a capacity of 200 kilovolts or more and greater than 1,500 feet in length.

Given that the proposed Project is a 345 kV transmission line approximately 40 to 50 miles long, the proposed Project falls within the definition of “large energy facility” and, therefore, requires a notice plan.

B. TYPES OF NOTICE

Minnesota Rules, part 7829.2550, subpart 3, requires types of notice as follows:

- direct mail notice, based on county tax assessment rolls, to landowners reasonably likely to be affected by the proposed transmission line;
- direct mail notice to all mailing addresses within the area reasonably likely to be affected by the proposed transmission line;
- direct mail notice to tribal governments and to the governments of towns, statutory cities, home rule charter cities, and counties whose jurisdictions are reasonably likely to be affected by the proposed transmission line; and
- newspaper notice to members of the public in areas reasonably likely to be affected by the proposed transmission line.

Regarding landowner notice, the Companies proposed to provide notice to landowners in the notice area shown in Figure 1 in Attachment A of the Notice Petition. The potential routes within the notice plan are not identified at this time. Instead, the Notice Petition states that:

This map will be modified prior to implementation of notice plan to show routes expected to be included in the route permit application. Applicants will provide this map to PUC and DOC staff to review prior to mailing.

Regarding notice to landowners, the Companies stated that they have obtained landowner names and addresses from tax records. Regarding the notice to mailing addresses, the Companies proposed to send direct mail notice to mailing addresses using mailing lists obtained from a bulk mailing company. The Companies intend to remove addresses common to the landowner and resident lists.

Regarding notice to governmental jurisdictions reasonably likely to be affected by the proposed Project, the Companies provided a list of government officials in Attachment B. The list

includes state representatives, state senators, numerous county, township and city officials, several tribal organizations, and various state agencies.

Regarding newspaper notice, in Attachment C the Applicants listed four local newspapers to be provided notice. The Department reviewed lists of newspapers in the area and recommends that the *Maple River Messenger* be added to the list of newspapers.

After reviewing the data in Attachments A, B, and C of the Notice Petition, the Department concludes that the Companies proposed identification of individuals and organizations that should receive notice, as modified above, is reasonable.

C. *CONTENT OF NOTICE*

Minnesota Rules, part 7829.2550, subpart 4 require the notices to provide the following information:

- a map showing the end points of the line and existing transmission facilities in the area;
- a description of general right-of-way requirements for a line of the size and voltage proposed and a statement that the applicant intends to acquire property rights for the right-of-way that the proposed line will require;
- a notice that the line cannot be constructed unless the Minnesota Public Utilities Commission (Commission) certifies that it is needed;
- the Commission's mailing address, telephone number, and Web site;
- if the applicant is a utility subject to chapter 7848, the address of the Web site on which the utility applicant will post or has posted its biennial transmission projects report required under that chapter;
- a statement that the Environmental Quality Board¹ will be preparing an environmental report on each high-voltage transmission line for which certification is requested;
- a brief explanation of how to get on the mailing list for the Environmental Quality Board's proceeding; and
- a statement that requests for certification of high-voltage transmission lines are governed by Minnesota law, including specifically chapters 4410 and 7849, and Minnesota Statutes, section 216B.243.

¹ The Department notes that while the statutes have changed regarding routing authority and location of the staff preparing the environmental report, the Commission's rules have not yet been updated to reflect these changes. See Docket No. E,ET,IP999/R-12-1246.

The Department reviewed the attached notices, letters and maps provided by the Companies and concludes that the proposal for the resident/landowner notice, governmental notice, and newspaper notice contains the required information.²

D. NOTICE TIMING

Minnesota Rules, part 7829.2550, subpart 6, requires the applicant to implement the notice plan within 30 days of its approval by the Commission. However, the Companies requested that the Commission “direct the notices identified in this notice plan to occur no more than 60 days and no less than two weeks prior to the filing of the certificate of need application.” The Commission has ordered a similar approach in several dockets.³

Minnesota Rules, part 7829.3200 governs such variance requests and establishes the following criteria:

1. enforcement of the rule would impose an excessive burden upon the applicant or others affected by the rule;
2. granting the variance would not adversely affect the public interest; and
3. granting the variance would not conflict with standards imposed by law.

The Department concludes that enforcement of the rule would burden all parties involved by separating the provision of notice from the start of the proceeding. Granting the variance would not adversely affect the public interest since the Companies’ proposal would more closely tie the implementation of the notice plan to the beginning of the certificate of need (CN) proceeding. The Department is not aware that the variance would conflict with standards imposed by law. Therefore, the Department recommends that the Commission approve the Companies’ request to implement the notice plan no more than 60 days and no less than two weeks prior to the filing of the CN petition.

² Note that the notices discuss an environmental impact statement rather than an environmental report since the Companies expect to file the need and route permit petitions at about the same time.

³ Examples include:

- November 3, 2006 in Docket No. E002, ET2, et al/CN-08-1115;
- November 29, 2007 in Docket No. E017, E015, ET6/CN-07-1222;
- November 12, 2008 in Docket No. E002/CN-08-992;
- January 26, 2010 in Docket No. E002/CN-09-1390;
- August 17, 2010 in Docket No. E002/CN-10-694;
- February 4, 2013 in Docket No. E002/CN-12-1235;
- December 8, 2014 in Docket No. E015/CN-14-787; and
- January 30, 2015 in Docket No. E015/CN-14-853.

E. NEWSPAPER NOTIFICATION REQUIREMENTS

In addition to the newspaper notice discussed above, Minnesota Rules, part 7829.2500, subpart 5, requires the Companies to publish newspaper notice of the CN filing in newspapers of general circulation throughout the state. The Companies request a variance to Minnesota Rules, part 7829.2500, subpart 5 both to remove the requirement to publish notice in a newspaper of general circulation throughout the state and to remove the requirement to publish that notice at the time of the CN application.

In its filing, the Companies indicated that they intend to publish a notice in the four local papers: *Blue Earth Faribault County Register*, *Lake Crystal Tribune*, *Mankato Free Press* and *Minnesota Lake Tribune*. All of the selected newspapers are local. Given that the proposed Project potentially has regional impacts,⁴ the Department recommends that the Commission order a statewide newspaper be added to the newspaper notice list. However, the Department recommends that the Commission simplify the notification process by approving the requested variance to remove the requirement to publish that notice at the time of the CN application— instead the statewide newspaper notice could be published at the same time as the other notice documents. In summary, the Department concludes that, with the addition of a statewide newspaper, the Companies' proposed plan for newspaper notice is reasonable.

III. DEPARTMENT RECOMMENDATION

The Department recommends that the Commission approve the Notice Petition, as modified by the following:

- add the *Maple River Messenger* and a statewide newspaper to the list of newspapers through which notification will be provided pursuant to Minnesota Rules, part 7829.2550, subpart 3, and
- grant a variance to Minnesota Rules, Part 7829.2500 to remove the requirement to publish the notice in a statewide newspaper at the time of the CN application.

/lt

⁴ The claimed need is to reduce congestion on the transmission grid in southern Minnesota and northern Iowa that is inhibiting lower-cost electricity from generation facilities, including wind farms in the area, from reaching customers. The project will provide economic benefits by enabling more low-cost electric generation to reach customers throughout the region.

RE: **Comments of the Minnesota Department of Commerce, Division of Energy Resources**
Docket No. E002, ET6675/CN-17-184

Dear Mr. Wolf:

Attached are the comments of the Minnesota Department of Commerce, Division of Energy Resources (Department) in the following matter:

Request for Exemptions for the Huntley—Wilmarth 345 kV Transmission Line Project.

The Petition was filed on July 14, 2017 by:

Bria E. Shea
Northern States Power Company
414 Nicollet Mall
Minneapolis, MN 55401

and

David Grover
ITC Midwest, LLC
901 Marquette Avenue, Suite 1950
Minneapolis, MN 55402

The Department recommends that the Minnesota Public Utilities Commission (Commission) **approve the petition**. The Department is available to respond to any questions the Commission may have.

Sincerely,

/s/ STEVE RAKOW
Analyst Coordinator

Before the Minnesota Public Utilities Commission

Comments of the Minnesota Department of Commerce Division of Energy Resources

Docket No. E002, ET6675/CN-17-184

I. INTRODUCTION

On March 3, 2017, Northern States Power Company, doing business as Xcel Energy (Xcel) and ITC Midwest, LLC (ITCM) (collectively, the Companies) filed their *Notice of Intent to Construct, Own, and Maintain the Huntley—Wilmarth 345 kV Transmission Line Project* pursuant to Minnesota Statutes § 216B.246, subd. 3 (a).

On June 30, 2017, the Companies filed their *Notice Plan Petition for the Huntley—Wilmarth 345 kV Transmission Line Project* (Notice Petition).

On July 14, 2017, the Companies filed their *Request for Exemptions for the Huntley—Wilmarth 345 kV Transmission Line Project* (Exemption Petition).

On July 19, 2017 the Commission issued a notice of comment period regarding the Exemption Petition. Topics open for comment include:

- Should the Commission grant the exemption request?
- Are there other project-related issues or concerns?

On July 20, 2017, comments on the Notice Petition were filed by the Minnesota Department of Commerce, Division of Energy Resources (Department).

Below are the comments of the Department regarding the Exemption Petition and the issues listed in the Commission's notice.

II. DEPARTMENT ANALYSIS

A. GOVERNING STATUTES AND RULES

The Companies filed the Exemption Petition pursuant to Minnesota Rules, part 7849.0200 subpart 6 which states, in part:

Before submitting an application, a person is exempted from any data requirement of parts 7849.0010 to 7849.0400 if the person (1) requests an exemption from specified rules, in writing to the commission, and (2) shows that the data requirement is unnecessary to determine the need for the proposed facility or may be satisfied by submitting another document. A request for exemption must be filed at least 45 days before submitting an application.

In the Exemption Petition the Companies request to be exempted from certain data requirements of parts 7849.0010 to 7849.0400.

B. BACKGROUND

The Companies intend to construct a 40- to 50-mile 345 kV transmission line between Xcel's existing Wilmarth substation north of Mankato, Minnesota and ITCM's Huntley substation, currently under construction, south of Winnebago, Minnesota (Project). The peExemption Petition states that the Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in December 2016 as part of the annual *MISO Transmission Expansion Plan* (MTEP) report.

The Exemption Petition indicates that one of the goals of the MTEP process is to reduce the cost of energy delivery by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs are transmission projects that are designed to help achieve this goal. MISO found that the proposed Project would provide significant benefits in the form of reduced production costs. Specifically, the proposed Project is designed to reduce wholesale energy costs by addressing congestion in the MISO electric transmission system along the Minnesota/Iowa border. In Iowa and southern Minnesota, low-cost energy has not been able to reach load centers, such as the Twin Cities, due to congestion.

C. REQUESTED EXEMPTIONS

The Exemption Petition requests exemptions from the following requirements:

- 7849.0240 subpart 2 (B)—promotional activities;
- 7849.0260 subpart (C) (5)—effect on rates systemwide;
- 7849.0260 subpart A (3) and C (6)—proposed transmission line and alternatives;
- 7849.0260 (D)—system map;
- 7849.0270 subpart 2 (A to D and F) and subparts 3 to 5—peak demand and energy forecast;
- 7849.0280 (B) through (I)—system capacity;
- 7849.0290—conservation;
- 7849.0300—consequences of delay; and
- 7849.0340—no facility alternative.

The Department examines each specific exemption request separately. The required criterion is whether the Companies have shown that “the data requirement is unnecessary to determine the need for the proposed facility or may be satisfied by submitting another document” as discussed above.

D. ANALYSIS OF EXEMPTION REQUESTS

1. 7849.0240 subpart 2 (B)

Minnesota Rules 7849.0240, subp. 2 (B) requires an applicant to provide “promotional activities that may have given rise to the demand for the facility.” The Exemption Petition stated that the ITCM “does not directly serve end-users of electric service and has not engaged in promotional activities that could have given rise to the need for the proposed Project” and therefore requests an exemption for ITCM. Xcel will provide its relevant data. As mentioned by Companies, the Commission has granted other, non-load serving utilities a similar exemption in previous proceedings. Therefore, the Department recommends that the Commission grant the requested exemption to Minnesota Rules 7849.0240, subp. 2 (B).

2. 7849.0260 subpart (C) (5)

Minnesota Rules 7849.0260, subp. (C) (5) requires an applicant to provide “for the proposed facility and for each of the alternatives...an estimate of its effect on rates systemwide and in Minnesota, assuming a test year beginning with the proposed in-service date.” The Exemption Petition stated that ITCM “is not a Minnesota public utility whose rates are regulated by the Commission... as a transmission-only utility, ITC Midwest’s rates are regulated by the Federal

Energy Regulatory Commission (FERC) and the prices for providing transmission service are governed by the MISO tariff.”

In lieu of the required data the Companies proposed that ITCM provide “information regarding the expected Project cost, the MEP allocation methodology, and the share that will be allocated to Minnesota utilities’ load.” Xcel will provide its relevant data related to the Project’s effects on its rates systemwide and in Minnesota. The Department agrees with the Companies that data on the cost allocation method and the share estimated to be allocated to Minnesota load would be more relevant to this proceeding than the data required by rule. Therefore, the Department recommends that the Commission grant the requested exemption to Minnesota Rules 7849.0260, subp. (C)(5) with the provision of the proposed alternative data.

3. 7849.0260 subpart A (3) and C (6)

Minnesota Rules 7849.0260 subpart A (3) and C (6) require an applicant to provide estimated “losses under projected maximum loading and under projected average loading in the length of the transmission line and at the terminals or substations.” Instead, the Companies proposed to supply system loss information in lieu of line-specific losses. The Department agrees that line losses for the system are more relevant to the analysis in this proceeding than line losses for individual lines. Also, as indicated in the Exemption Petition the proposal is consistent with the approach previously approved by the Commission in several other transmission line certificate of need dockets. Therefore, the Department recommends that the Commission grant the requested exemption to Minnesota Rules 7849.0260 subpart A (3) and C (6) with the provision of the proposed alternative data.

4. 7849.0260 (D)

Minnesota Rules 7849.0260 (D) requires the applicant to provide a map showing the applicant’s system. As an independent transmission company, ITCM does not serve load directly. Therefore, the Companies proposed to provide a map showing ITCM’s network of transmission lines in Minnesota and Iowa. The same approach was used in ITCM’s most recent certificate of need proceeding (Docket No. ET6675/CN-12-1053). The Department recommends that the Commission grant the requested exemption to Minnesota Rules 7849.0260(D) with the provision of the proposed alternative data.

5. 7849.0270 subpart 2 (A to D and F) and subparts 3 to 5

Under Minnesota Rules 7849.0270 an applicant must provide detailed peak demand and energy consumption forecasts to justify the need for a proposed transmission project. However, the Companies do not plan to claim the Project is needed to support growing peak demand or to

meet energy demands. Instead, the Companies claimed that, as a MEP, the Project would benefit customers in the broader MISO region as well as customers in southwestern Minnesota and the Twin Cities metropolitan area by relieving congestion on the regional electric system. As a result, the Companies proposed:

to provide forecast information utilized by MISO in studying, planning, and analyzing the Project rather than data limited to the Applicants' service areas and systems. This data will include PROMOD production costs analyses MISO used in the MTEP16. The Applicants will also provide information on the congestion issues on the Minnesota-Iowa border and a discussion of how the proposed Project will alleviate these issues. Congestion data will include historical, day-ahead, real-time and market-to-market congestion, as well as projected congestion identified through out-year production cost model simulations.

The Department agrees that the data and information the Companies proposed to provide are more appropriate regarding assessing the need for the Project and that Company specific forecasts will be of little value. The Department recommends that the Commission grant the requested exemption to 7849.0270 subpart 2 (A to D and F) and subparts 3 to 5 with the provision of the proposed alternative data.

6. *7849.0280 (B) through (I)*

Under Minnesota Rules 7849.0280 an applicant must provide information that describes the ability of its existing system to meet forecasted demand; in essence, load and capability (L&C) information. The Companies noted that the Commission "has previously granted exemption requests from Rule 7849.0280, Subps. (B) through (I) in several other transmission line Certificate of Need dockets where, as here, issues of transmission adequacy, rather than generation adequacy, were at issue." The Department agrees that L&C data will be of minimal value in assessing the proposed need. Therefore, the Department recommends that the Commission grant the exemption to Minnesota Rules 7849.0280.

7. *7849.0290*

Minnesota Rules 7849.0290 requires the applicant to provide conservation program information and quantification of the impact of conservation programs on forecast data. ITCM requests a full exemption from Minnesota Rule 7849.0290 because ITCM has no end-use customers and therefore cannot affect customers' energy consumption levels. The Companies also note that the Commission has granted ITCM an exemption from this requirement in a prior

proceeding (Docket No. ET6675/CN-12-1053). The Department recommends that the Commission grant the exemption to Minnesota Rules 7849.0290.

8. 7849.0300 and 7849.0340

Minnesota Rules 7849.0300 requires detailed information regarding the consequences of delay on three specific statistically-based levels of demand and energy consumption. Minnesota Rules 7849.0340 requires a discussion of the impact on existing generation and transmission facilities at the three levels of demand specified in part 7849.0300 for the no-build alternative. Instead of the required data the Companies propose to evaluate the consequences of delay and a no build alternative “based on impacts to congestion relief and request a variance from the portions of these rules that requires the examination of delay to incorporate the three specific levels of demand required by Minnesota Rule 7849.0300.” The Department recommends that the Commission grant the requested exemption to 7849.0300 with the provision of the proposed alternative data.

III. DEPARTMENT RECOMMENDATION

The Department recommends that the Commission approve the Exemption Petition.

RE: APPLICATION TO THE MINNESOTA PUBLIC UTILITIES COMMISSION FOR A
CERTIFICATE OF NEED FOR THE HUNTLEY-WILMARTH 345 KV TRANSMISSION
LINE PROJECT
DOCKET NO. E-002, ET6675/CN-17-184

Dear Mr. Wolf:

Enclosed for electronic filing is Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC's (collectively, the Applicants) Notice Plan Compliance Filing in the above-referenced docket. The filing demonstrates that the Applicants have fulfilled all of the notice elements under the Notice Plan as required by the Minnesota Public Utilities Commission's Order dated September 1, 2017.

If you have any questions or need additional information, please contact either Gail Baranko, Manager, Regulatory Project Management at gail.a.baranko@xcelenergy.com or 612-330-6935, or Tim Tessier, Manager-Regulatory Strategy at ttessier@itctransco.com or 515-282-5300 ext. 455.

Sincerely,

GAIL A. BARANKO

Katie J. Sieben	Commissioner
John A. Tuma	Commissioner

IN THE MATTER OF THE APPLICATION OF MPUC Docket No. E002, ET6675/
NORTHERN STATES POWER COMPANY CN-17-184

AND ITC MIDWEST LLC, FOR A
CERTIFICATE OF NEED FOR THE
HUNTLEY-WILMARTH 345 kV
TRANSMISSION LINE PROJECT

NOTICE PLAN COMPLIANCE FILING

I. INTRODUCTION

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) (collectively, the Applicants) submit this Notice Plan compliance filing to the Minnesota Public Utilities Commission (Commission) pursuant to Minnesota Rule 7829.2550. This filing confirms that all required notices have been given in advance of submitting a Certificate of Need application for the Huntley-Wilmarth 345 kV Transmission Line Project (Project).

II. NOTICE PLAN IMPLEMENTATION

A. Direct Mail Notice

1. Landowners

Minnesota Rule 7829.2550, subpart 3(A), requires an applicant for a Certificate of Need to provide direct mail notice to all landowners likely to be affected by the proposed transmission line. On December 7, 2017, and December 13, 2017,¹ Applicants sent direct mail notice to landowners within the Notice Area approved by the Commission in its September 1, 2017, Order. Landowners were provided notice materials included in this filing as **Attachment A (Exhibit 1)**. The list of notified

¹ The December 13, 2017 direct mailing was to a small number of additional recipients.

landowners, along with the affidavit of mailing, is included in this filing as **Attachment A (Exhibit 2 to each affidavit)**.

2. Mailing Addresses

Minnesota Rule 7829.2550, subpart 3(B), requires an applicant for a Certificate of Need to provide direct mail notice to all mailing addresses in the area that are likely to be affected by the proposed transmission line. On December 7, 2017, and December 13, 2017,² Applicants sent direct mail notice to mailing addresses within the Notice Area approved by the Commission in its September 1, 2017, Order. Residents were provided notice materials included in this filing as **Attachment A (Exhibit 1)**. The list of notified residents, along with the affidavit of mailing, is included in this filing as **Attachment A (Exhibit 2 to each affidavit)**.

3. Tribal Government Officials

Minnesota Rule 7829.2550, subpart 3(C), requires an applicant for a Certificate of Need for a high voltage transmission line to provide direct mail notice to tribal governments whose jurisdictions are reasonably likely to be affected by the proposed transmission line. On December 7, 2017, Applicants sent direct mail notice to tribal organizations and other government officials in the Notice Area. The materials mailed to landowners and residents at **Attachment A (Exhibit 1)** was sent to tribal government contacts as identified in the approved Notice Plan. Recipients of the notice materials at tribal organizations is included in this filing, along with the affidavit of mailing, as **Attachment A (Exhibit 2 to the December 7, 2017 affidavit)**.

4. Local Governments

Minnesota Rule 7829.2550, subpart 3(C), requires an applicant to provide direct mail notice to governments of towns, cities, home rule charter cities, and counties whose jurisdictions are reasonably likely to be affected by the proposed transmission line. On December 7, 2017, Applicants sent direct mail notice to local governmental officials and lead administrative personnel. On December 7, 2017, Applicants also sent this notice to State Senators and Representatives whose districts are within the Notice Area. The materials mailed to landowners and residents at **Attachment A (Exhibit 1)** was sent to federal, State, and local government agencies and offices as identified in the approved Notice Plan. The list of notified local government elected officials and State Senators and Representatives is included in this filing along with the affidavit of mailing as **Attachment A (Exhibit 2 to the December 7, 2017 affidavit)**. Recipients of the notice materials at federal, State, and local government

² The December 13, 2017 direct mailing was to a small number of additional recipients.

agencies and offices is included in this filing, along with the affidavit of mailing, as **Attachment A (Exhibit 2 to the December 7, 2017 affidavit)**.

B. Newspaper Notice

Minnesota Rule 7829.2550, subpart 3(D), requires an applicant to publish notice in newspapers in the areas that may be affected by the transmission line. Between December 13, 2017, and December 18, 2017, newspaper advertisements announcing the Project were run in local and statewide papers. The Commission granted a variance to Minnesota Rules 7829.2500, subpart 5, as part of its September 1, 2017, Order and the notices published in December 2017 satisfy the requirements under that rule. An affidavit of publication, including a list of newspapers and dates of publication, and a copy of each publication's tear sheet, are included in this filing as **Attachment B**.

C. Notice Timing

Minnesota Rule 7829.2550, subpart 6, requires the applicant to implement the Notice Plan within 30 days of its approval by the Commission. The Commission granted a variance to this rule to modify the Notice Plan implementation requirement to allow notice to more closely coincide with the Certificate of Need filing. The Commission directed the notices identified in this filing to occur no more than 60 days and no less than two weeks prior to the filing of the Certificate of Need application.

III. CONCLUSION

Applicants respectfully submit this compliance filing demonstrating compliance with the Commission's Notice Plan Order. All notice elements of the Notice Plan have been completed as required.

Dated: January 5, 2018

Respectfully submitted,

Northern States Power Company

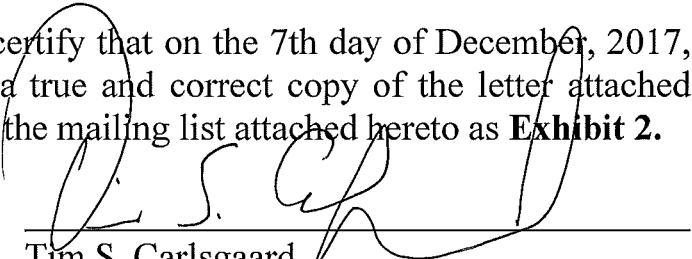

and

ITC Midwest LLC

AFFIDAVIT OF MAILING

STATE OF MINNESOTA)
)
COUNTY OF HENNEPIN)

I, Tim S. Carlsgaard, hereby certify that on the 7th day of December, 2017, I directed to be sent via U.S. Mail a true and correct copy of the letter attached hereto as **Exhibit 1** to all persons on the mailing list attached hereto as **Exhibit 2**.

Tim S. Carlsgaard

Subscribed and sworn to before me
this 19th day of December, 2017.

Notary Public

December, 2017

RE: Notice of Certificate of Need Application for the Huntley-Wilmarth 345 kV Transmission Project in Blue Earth, Martin, Nicollet and Faribault counties, Minnesota MPUC Docket No. E002, ET6675/CN-17-184

This letter is intended to notify you of a proposed transmission line project and to provide the following information:

1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) are proposing to construct an approximately 40 - 50 mile 345 kV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota (Project). A map of the area under consideration for the proposed Project is attached to this letter as Figure 1.

Why is the Project needed?

The Project is needed to reduce congestion on the transmission grid on the Minnesota/Iowa border that is inhibiting low-cost electricity from generation facilities, including wind farms in the area, from reaching customers. When this congestion occurs, the customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. This congestion is projected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in

December 2016 as part of MISO's annual Transmission Expansion Plan (MTEP16) report. The MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are transmission projects that are designed to help achieve this goal.

Further information on the project need is available on the Project website:
www.huntleywilmarth.com

What is the regulatory process for the Project?

Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.puc.state.mn.us in Docket No. E002, ET6675/ CN-17-184.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is governed by Minnesota law, including Minnesota Statutes Chapter 216E and Minnesota Rules Chapter 7850. A copy of the Route Permit application, once submitted, can be obtained by visiting the Commission's website in Docket No. E002, ET6675/ TL-17-185.

The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. This process includes preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Energy Environmental Review and Analysis (EERA) staff.

Which routes will be studied in the EIS?

Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated during the scoping

process. The Commission will decide which routes get studied and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

Who decides which route gets approved?

The Commission will review all of the data from the public process and will decide on whether the Project is needed and which route is approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes Section 216E.03 subd. 7, Minnesota Rules 7850.4100, and stakeholder input received during the regulatory process.

The table below provides a high-level summary of the major steps in the regulatory process.

Major Process Steps and Summary Schedule

Step	Approximate Date
Pre-Application study and public meetings and stakeholder outreach	Now until Fall 2017
Certificate of Need and Route Permit Applications submitted to Commission	Early 2018
Informational and Scoping Meetings (public meetings and comment)	Spring 2018
Draft Environmental Impact Statement Issued (public meetings and comment period)	Middle 2018
Public Hearings (public hearings and comment period)	Second Half 2018
Commission Decision	First Half of 2019

How will the utilities acquire right-of-way necessary for the Project?

Before beginning construction, utilities will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. Xcel Energy and ITC Midwest anticipate acquiring easements with a typical right-of-way width of approximately 150 feet.

How can I obtain additional information about the Project?

To subscribe to the Project’s Certificate of Need docket and to receive email notifications when information is filed in that docket, please visit www.puc.state.mn.us, click on the “Subscribe to a Docket” button, enter your email address and select “Docket Number” from the Type of Subscriptions dropdown box, then select “17” from the first Docket number drop down box and enter “184” in the second box before clicking on the “Add to List” button. You must then click the “Save” button at the bottom of the page to confirm your subscription to the Project’s Certificate of Need docket. These same steps can be followed to subscribe to the Project Route Permit docket (TL-17-185).

If you would like to have your name added to the Certificate of Need or Route Permit mailing list send an email to docketing.puc@state.mn.us or call 651-201-2204 (800-657-3782). If you send an email or leave a phone message, please include: (1) how you would like to receive mail (regular mail or email) and (2) the docket number (CN-17-184 or TL-17-185), your name, and your complete mailing address or email address.

If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

How do I learn more about other transmission projects and the transmission planning process in Minnesota?

Minnesota Statutes § 216B.2425 requires that each electric transmission owning utility in the state file a biennial transmission planning report with the Commission in the fall of odd-numbered years. These reports provide information on the transmission planning process used by utilities in the state of Minnesota and information about other transmission line projects. The 2017 Biennial Transmission Planning Report is available at: www.minnelectrans.com.

Sincerely,

Tom Hillstrom
Xcel Energy
Principal Permitting Agent

Dan Hagan
ITC Midwest LLC
Permit Policy Specialist

Detailed maps are available at www.huntleywilmarth.com

Excluded from the notice area because routes are not feasible through this portion of Mankato and North Mankato

AFFIDAVIT OF MAILING

STATE OF MINNESOTA)
)
COUNTY OF HENNEPIN)

I, Tim S. Carlsgaard, hereby certify that on the 13th day of December, 2017, I directed to be sent via U.S. Mail a true and correct copy of the letter attached hereto as **Exhibit 1** to all persons on the mailing list attached hereto as **Exhibit 2**.

Tim S. Carlsgaard

Subscribed and sworn to before me
this 19th day of December, 2017.

Notary Public

December, 2017

RE: Notice of Certificate of Need Application for the Huntley-Wilmarth 345 kV Transmission Project in Blue Earth, Martin, Nicollet and Faribault counties, Minnesota MPUC Docket No. E002, ET6675/CN-17-184

This letter is intended to notify you of a proposed transmission line project and to provide the following information:

1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) are proposing to construct an approximately 40 - 50 mile 345 kV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota (Project). A map of the area under consideration for the proposed Project is attached to this letter as Figure 1.

Why is the Project needed?

The Project is needed to reduce congestion on the transmission grid on the Minnesota/Iowa border that is inhibiting low-cost electricity from generation facilities, including wind farms in the area, from reaching customers. When this congestion occurs, the customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. This congestion is projected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in

December 2016 as part of MISO's annual Transmission Expansion Plan (MTEP16) report. The MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are transmission projects that are designed to help achieve this goal.

Further information on the project need is available on the Project website:
www.huntleywilmarth.com

What is the regulatory process for the Project?

Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.puc.state.mn.us in Docket No. E002, ET6675/ CN-17-184.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is governed by Minnesota law, including Minnesota Statutes Chapter 216E and Minnesota Rules Chapter 7850. A copy of the Route Permit application, once submitted, can be obtained by visiting the Commission's website in Docket No. E002, ET6675/ TL-17-185.

The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. This process includes preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Energy Environmental Review and Analysis (EERA) staff.

Which routes will be studied in the EIS?

Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated during the scoping

process. The Commission will decide which routes get studied and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

Who decides which route gets approved?

The Commission will review all of the data from the public process and will decide on whether the Project is needed and which route is approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes Section 216E.03 subd. 7, Minnesota Rules 7850.4100, and stakeholder input received during the regulatory process.

The table below provides a high-level summary of the major steps in the regulatory process.

Major Process Steps and Summary Schedule

Step	Approximate Date
Pre-Application study and public meetings and stakeholder outreach	Now until Fall 2017
Certificate of Need and Route Permit Applications submitted to Commission	Early 2018
Informational and Scoping Meetings (public meetings and comment)	Spring 2018
Draft Environmental Impact Statement Issued (public meetings and comment period)	Middle 2018
Public Hearings (public hearings and comment period)	Second Half 2018
Commission Decision	First Half of 2019

How will the utilities acquire right-of-way necessary for the Project?

Before beginning construction, utilities will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. Xcel Energy and ITC Midwest anticipate acquiring easements with a typical right-of-way width of approximately 150 feet.

How can I obtain additional information about the Project?

To subscribe to the Project’s Certificate of Need docket and to receive email notifications when information is filed in that docket, please visit www.puc.state.mn.us, click on the “Subscribe to a Docket” button, enter your email address and select “Docket Number” from the Type of Subscriptions dropdown box, then select “17” from the first Docket number drop down box and enter “184” in the second box before clicking on the “Add to List” button. You must then click the “Save” button at the bottom of the page to confirm your subscription to the Project’s Certificate of Need docket. These same steps can be followed to subscribe to the Project Route Permit docket (TL-17-185).

If you would like to have your name added to the Certificate of Need or Route Permit mailing list send an email to docketing.puc@state.mn.us or call 651-201-2204 (800-657-3782). If you send an email or leave a phone message, please include: (1) how you would like to receive mail (regular mail or email) and (2) the docket number (CN-17-184 or TL-17-185), your name, and your complete mailing address or email address.

If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

How do I learn more about other transmission projects and the transmission planning process in Minnesota?

Minnesota Statutes § 216B.2425 requires that each electric transmission owning utility in the state file a biennial transmission planning report with the Commission in the fall of odd-numbered years. These reports provide information on the transmission planning process used by utilities in the state of Minnesota and information about other transmission line projects. The 2017 Biennial Transmission Planning Report is available at: www.minnelectrans.com.

Why is the Project needed?

The Project is needed to reduce congestion on the transmission line in the Minnesota/Iowa border that is limiting job-cost efficiency from generation facilities, including wind farms in the area, and electricity because higher cost generators from other areas with customer payment constraints are used to meet customer demand. This congestion is projected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in December 2016 as part of MISO's annual Transmission Expansion Plan (MTEP 6) report. The MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are transmission projects that are designed to help achieve this goal.

Further information on the project need is available on the Project website: www.huntley-wilmarth.com

What is the regulatory process for the Project?

Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit). The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Sections 160A.24, 160A.26, 78A.01, 78A.02, 78A.03, 78A.04, 78A.05, 78A.06, 78A.07, 78A.08, 78A.09, 78A.10, 78A.11, 78A.12, 78A.13, 78A.14, 78A.15, 78A.16, 78A.17, 78A.18, 78A.19, 78A.20, 78A.21, 78A.22, 78A.23, 78A.24, 78A.25, 78A.26, 78A.27, 78A.28, 78A.29, 78A.30, 78A.31, 78A.32, 78A.33, 78A.34, 78A.35, 78A.36, 78A.37, 78A.38, 78A.39, 78A.40, 78A.41, 78A.42, 78A.43, 78A.44, 78A.45, 78A.46, 78A.47, 78A.48, 78A.49, 78A.50, 78A.51, 78A.52, 78A.53, 78A.54, 78A.55, 78A.56, 78A.57, 78A.58, 78A.59, 78A.60, 78A.61, 78A.62, 78A.63, 78A.64, 78A.65, 78A.66, 78A.67, 78A.68, 78A.69, 78A.70, 78A.71, 78A.72, 78A.73, 78A.74, 78A.75, 78A.76, 78A.77, 78A.78, 78A.79, 78A.80, 78A.81, 78A.82, 78A.83, 78A.84, 78A.85, 78A.86, 78A.87, 78A.88, 78A.89, 78A.90, 78A.91, 78A.92, 78A.93, 78A.94, 78A.95, 78A.96, 78A.97, 78A.98, 78A.99, 78A.100.

The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analysis of the merits of the Project and various route alternatives. This process includes Preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Energy Environmental Review and Analysis (EERA) staff.

Which routes will be studied in the EIS?

Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated during the scoping process. The Commission will decide which routes get studied and considered for

Legal action taken to protect historic Lake Calhoun.

Shocking new revelation about Lake Calhoun. From 1890!

In 1890, "Father of Minneapolis Parks" and famed 19th century Minnesota historian, Charles Loring, documented to the park board commissioners' meeting that Lake Calhoun was not named after statesman John C. Calhoun, but in fact, was actually named after Lieutenant Calhoun of the U.S. Army.

Source: *Minneapolis Star Tribune, Dec 21, 1890.*
www.newspapers.com/image/179966769

In other words, we Minnesotans have been duped into an inflammatory and false narrative about Lake Calhoun.

Dakota Tribe (and extremist activists) demand the total erasure of iconic Lake Calhoun.

Lake Calhoun (sibling of Lake Harriet & Lake of the Isles) is nationally recognized for its beauty and vibrancy in the heart of the City of Minneapolis.

Sadly, extremist-political activists have bullied our elected officials into agreeing to erase iconic Lake Calhoun and replace it with "Bde Maka Ska." Unbelievably, extremists refused to compromise with a dual name; they demand total erasure.

Lake Calhoun is the first victim of what will be a tsunami of extremist name-change advocacy.

Most Minnesotans thought this "name-change thing" was a joke. We stayed silent. We thought that sensible heads would prevail. But now, we are on the verge of losing the famous Lake Calhoun. There will be devastating consequences if we don't stand-up and defend the things that we value.

What Next?

We respectfully ask for your help. Please support our fight against extremists who are trying to rewrite Minnesota's history and are demanding the total erasure of Lake Calhoun.

You can help save Lake Calhoun in three easy steps.

- 1 Share your opinion with the DNR:
To: commissioner.dnr@state.mn.us
Cc: peter.boulay@state.mn.us
Cc: adam@savelakecalhoun.com
- 2 Kindly contribute to the legal-defense fund that is fighting to preserve historic Lake Calhoun.
www.gofundme.com/save-lake-calhoun
- 3 Remember the Hennepin County Commissioners who ignored and disrespected the majority opinion:
 1. Marion Greene
 2. Peter McLaughlin
 3. Linda Higgins
 4. Debbie Goettl

These officials rejected the compromise of a dual name and demanded the erasure of Lake Calhoun. *Vote them out of office in November 2018 election.*

ELECTRIC TRANSMISSION LINE PROJECT

RE: Notice of Certificate of Need Application for the Huntley-Wilmarth 345 KV Transmission Project in Blue Earth, Martin, Nicollet and Faribault counties, Minnesota MPUC Docket No. E002, ET6675/CN-17-184

This notice provides the following information for a proposed new transmission line project:

1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and meeting lists.

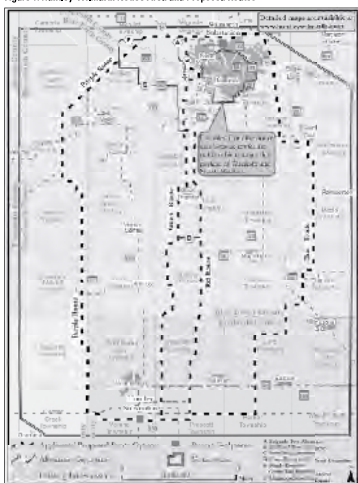

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) are proposing to construct an approximately 40- to 50-mile, 345 KV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winthrop, Minnesota (Project). A map of the area under consideration for the proposed Project is included in this advertisement as Figure 1.

Why is the Project needed?

The Project is needed to reduce congestion on the transmission grid on the Minnesota/Iowa border that is inhibiting lowest electricity from generation facilities, including wind farms in the area, from reaching customers. When this congestion occurs, the customers pay more for electricity because higher cost generators from other areas without transmission constraints are used to meet customer demand. This congestion is expected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.

The Project was studied, reviewed, and approved by the Midwest Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in December 2016 as part of MISO's annual Transmission Expansion Plan (MTEP) report. The MEP report is the culmination of more than 18 months of study and analysis of transmission

Figure 1: Huntley-Wilmarth Notice Area and Proposed Routes

Detailed maps are available at www.huntleywilmarth.com.

system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are long-term projects that are designed to help achieve this goal. Further information on the project need is available on the Project website: www.huntleywilmarth.com

What is the regulatory process for the Project?

Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along with the Project (Route Permit) (Route Permit). The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216C.240, and Minnesota Rules Chapter 788, specifically Rules 788.0310 to 788.0340 and 788.1000 to 788.1100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.pu.senate.mn in Docket No. E002, ET6675/CN-17-184. In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is governed by Minnesota law, including Minnesota Statutes Chapter 216, and Minnesota Rules Chapter 788. A copy of the Route Permit application, once submitted, can be obtained by visiting the Commission's website at www.pu.senate.mn in Docket No. E002, ET6675/CN-17-184. The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. This process includes preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Environmental Review and Analysis (ERA) staff.

Which routes will be studied in the EIS?

Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated in the routing process. The Commission will decide which routes get studied and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other new routes may also be studied and considered for approval.

Who decides which route gets approved?

The Commission will review all of the data from the public process and will decide on whether the Project is needed and which route is approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes Section 216C.03 subd. 7, Minnesota Rules 788.0410, and stakeholder input received during the regulatory process. The table below provides a high-level summary of the major steps in the regulatory process.

Major Process Steps and Summary Schedule

Step	Approximate Date
Pre-application study and public meetings and stakeholder outreach	Now until Fall 2017
Certificate of Need and Route Permit Applications submitted to Commission	Early 2018
Intermittent and Stepping Meetings (public meetings and comment)	Spring 2018
Draft Environmental Impact Statement issued (public meetings and comment period)	Mid-July 2018
Public Hearings (public hearings and comment period)	Second Half 2018
Commission Decision	First Half of 2019

How will the utilities acquire right-of-way necessary for the Project?

Before beginning construction, utilities will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. Xcel Energy and ITC Midwest anticipate acquiring easements with a typical right-of-way width of approximately 150 feet.

How can I obtain additional information about the Project?

To subscribe to the Project's Certificate of Need docket and to receive email notifications when information on it is filed in that docket, please visit www.state.mn.us, click on the "Subscribe to a Docket" button, enter your email address and select "Docket Number" from the Type of Subscriptions dropdown box, then select "17" from the first "Docket number" drop down box and enter "184" in the second box before clicking on the "Add to List" button. You must then click the "Save" button at the bottom of the page to confirm your subscription to the Project's Certificate of Need docket. These same steps can be followed by subscribers to the Project Route Permit docket (11-17-184). If you would like to have your name added to the Certificate of Need or Route Permit mailing list send an email to docketing@pu.senate.mn or call (612) 297-2744 (M-F 9:00-5:00). If you send an email or leave a phone message, please include (1) how you would like to receive mail (regular mail or email) and (2) the docket number (184-17-184 or 11-17-184), your name, and your complete mailing address or email address.

If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

How do I learn more about other transmission projects and the transmission planning process in Minnesota?

Minnesota Statutes § 216B.2425 requires that each electric transmission project that is approved by the Commission in the fall of odd-numbered years, has a public involvement report with all of the information about other transmission projects that are approved by all of the electric utilities in the state of Minnesota and information about other transmission projects that are approved by all of the electric utilities in the state of Minnesota. The public involvement report is available at www.mn.gov/energy.

Treasuries rise as Fed raises outlook

Bloomberg News

Treasuries rose and the dollar slipped for the first time in five days after the Federal Reserve raised its outlook for economic growth in 2018 without lifting its forecast for the number of hires next year. Stocks were mixed.

The S&P 500 index ended lower after a swoon in the final 15 minutes of trading. Stocks earlier spilled on an intraday record on the Fed's widely anticipated announcement that it was hiking rates by a quarter of a percentage point amid rising optimism in the economy.

Target buys same-day deliverer

The Washington Post

Target is doubling down on its efforts to compete with Amazon and Walmart with the purchase of Shipt, a same-day delivery company that specializes in groceries. The Minneapolis-based chain on Wednesday said it would pay \$550 million in cash for the technology company, and that it will begin offering same-day delivery at about half of its 1,800 stores early next year.

MAPLETON COUNCIL

Continued from page 1

The public hearing in Truth and Taxation for 2018 was summed up with the approval of 2018 Total Levy at \$798,926, which reflects the city of Mapleton increasing the budget by approximately five percent for 2018. The council then turned its attention to unfinished business which mainly consisted of personnel decisions. Council member Kenneth Warner stated he had concerns that approving the proposed changes in city employees, including increasing the third office clerk's hours from part-time to full-time, adding a third full-time public works employee while decreasing Larry Johnson's hours to 208 hours per year, and offering management/full-time status including benefits to the current liquor store assistant manager, would have on the budget. He did state that he does not know of the employment needs because he doesn't observe the city employees' daily work load and that they are essentially at the mercy of the

city staff's recommendations. Hollerich stated that the total increase of approximately \$50,000 for changing the office clerk position from part-time to full-time and increasing public works from part-time to full-time and increasing part-time to full-time for liquor store would be spread out in different areas of the budget and would not change the budget significantly because there had been three full-time public works employees in the previous years. Hollerich reminded those present that the phased retirement program of Larry Johnson was established in June of 2017 not because of performance or age issues but because of the needs requested by the long-time public works employee himself. Public Works Supervisor Hunter Chaffee and Woodruff are looking to the future city needs and because of the requirements of licensing and that process taking approximately two-plus years, they are presenting reducing Johnson's part-time

and hiring a full-time public works employee in order to keep up with the city demands. Johnson's wife stated that she felt it was an issue of misallocated hours and informed the council that during the fall harvest, when Johnson had requested two months off, he was never asked to return to city work. Council member Alan Christian asked Johnson how much longer he would like to work for the city and Johnson stated that his original plan was for one and one-half years from June of 2017. Hollerich offered thoughts for future city planning, suggesting that providing better and more consistent city services would draw people to the city, houses would be built and the tax burden would be spread out across a larger base. Furthermore, he stated it was nice to see citizens attending the council meeting and to hear input at the time these decisions are being made rather than after-the-fact. Warner stated that he thought the city would be in reasonable

shape for one more year without the need for a third full-time public works employee and Council member Kevin Maslakow agreed. Motion was carried unanimously to keep Johnson at 1,040 hours, at the direction of the public works supervisor, for 2018 and review again at December of 2018. The council then turned its attention to the part-time office clerk position. Maslakow stated that the auditors repeatedly have stated that having more separation of duties is needed for checks and balances and having three full-time employees might alleviate that issue. Council member Jerry Eberington stated that the city has grown and extra work is needed. Warner was concerned about the space of the city office itself which tipped off discussion of space and department needs. The council decided to approve increasing the third office clerk position from a part-time position to a full-time one. Woodruff stated that the current part-time

employee has another part-time job so she was unsure if said employee would be interested in taking on full-time duties with the city. Lastly, the council debated whether it was necessary to promote the municipal liquor store assistant manager to full-time manager. Woodruff informed the council that he currently puts in about 78 hours per pay period. This change would equate to approximately a \$10,000 increase to the annual liquor store budget and would also authorize Jake Weise to have a management or supervisory role. Eberington stated that the liquor store manager should be on-site rather than the deputy clerk, who essentially is unaware of daily dealings of the store. Warner's opinion is that Weise should be able to manage and have full-time benefits. The resolution was passed unanimously in council. In other business: Deputy Clerk Sarah Olsen

researched liquor liability insurance offering the same \$1 million coverage at a savings of \$6,692 annually for the city and the council passed this change unanimously. The city needed to update the title of public works supervisor from Woodruff to Chaffee, and that the public works supervisor would oversee all of public works divisions including both water and sewer systems. The council approved unanimously. The council unanimously approved an update to the Water Tower Access Policy to state no one shall climb the tower alone to avoid city liability. The roof in the city hall offices and liquor store needs to be repaired and the council approved unanimously the bid of \$40,000 from Bauman's to repair the roof, keeping it tapered in order for proper water drainage, which comes with a significant warranty on both the contractors work and materials. The next council meeting set for Dec. 19.

Public Notice

ELECTRIC TRANSMISSION LINE PROJECT

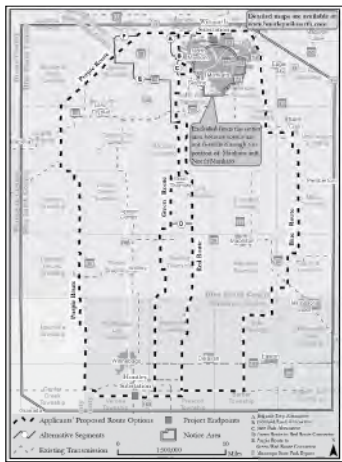

RE: Notice of Certificate of Need Application for the Huntley-Wilmarth 345 kV Transmission Project in Blue Earth, Martin, Nicollet and Faribault counties, Minnesota MPUC Docket No. E002, ET6675/CN-17-184

This notice provides the following information for a proposed new transmission line project:
1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.
Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) are proposing to construct an approximately 40-50 mile 345 kV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota Project. A map of the area under consideration for the proposed Project is included in this advertisement as Figure 1.

Why is the Project needed?
The Project is needed to reduce congestion on the transmission grid on the Minnesota/Iowa border that is inhibiting low-cost electricity from generation facilities, including wind farms in the area, from reaching customers. When this congestion occurs, the customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. This congestion is projected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.
The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Expansion Project (MEP) in December 2016 as part of MISO's annual Transmission Expansion Plan (MTEP16) report. The MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are transmission projects that are designed to help achieve this goal.
Further information on the project need is available on the Project website: www.huntleywilmarth.com

Table with 2 columns: Major Process Steps and Summary Schedule, Approximate Date. Rows include Pre-Application study and public meetings, Certificate of Need and Route Permit Applications, Informational and Scoping Meetings, Draft Environmental Impact Statement Issued, Public Hearings, and Commission Decision.

Figure 1: Huntley-Wilmarth Notice Area and Proposed Routes

What is the regulatory process for the Project?
Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit). The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 218B.243, and Minnesota Rules Chapter 7849, specifically Rules 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.puc.state.mn.us in Docket No. E002, ET6675/CN-17-184.
In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is governed by Minnesota law, including Minnesota Statutes Chapter 218E and Minnesota Rules Chapter 7850. A copy of the Route Permit application, once submitted, can be obtained by visiting the Commission's website in Docket No. E002, ET6675/17-17-185.
The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. This process includes preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Energy Environmental Review and Analysis (EERA) staff.
Which routes will be studied in the EIS?
Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated during the scoping process. The Commission will decide which routes get studied and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.
Who decides which route gets approved?
The Commission will review all of the data from the public process and will decide on whether the Project is needed and which route is approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes Section 218E 03 subd. 7, Minnesota Rules 7850.4100, and stakeholder input received during the regulatory process.

How will the utilities acquire right-of-way necessary for the Project?

Before beginning construction, utilities will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. Xcel Energy and ITC Midwest anticipate acquiring easements with a typical right-of-way width of approximately 150 feet.

How can I obtain additional information about the Project?

To subscribe to the Project's Certificate of Need docket and to receive email notifications when information is filed in that docket, please visit www.puc.state.mn.us, click on the "Subscribe to a Docket" button, enter your email address and select "Docket Number" from the Type of Subscriptions dropdown box, then select "17" from the first Docket number drop down box and enter "184" in the second box before clicking on the "Add to List" button. You must then click the "Save" button at the bottom of the page to confirm your subscription to the Project's Certificate of Need docket. These same steps can be followed to subscribe to the Project Route Permit docket (TL-17-185).
If you would like to have your name added to the Certificate of Need or Route Permit mailing list send an email to docketing.puc@state.mn.us or call 651-201-2204 (800-657-3782). If you send an email or leave a phone message, please include: (1) how you would like to receive mail (regular mail or email) and (2) the docket number (CN-17-184 or TL-17-185), your name, and your complete mailing address or email address.
If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below.

How do I learn more about other transmission projects and the transmission planning process in Minnesota?
Minnesota Statutes § 218B.2425 requires that each electric transmission owning utility in the state file a biennial transmission planning report with the Commission including a list of old-numbered years. These reports provide information about other transmission projects used by utilities in the state of Minnesota and information about other transmission line projects. The 2017 Annual Transmission Planning Report is available at: www.mninelctrans.com.

Detailed maps are available at www.huntleywilmarth.com.

~ PUBLIC NOTICE ~

ELECTRIC TRANSMISSION LINE PROJECT

RE: Notice of Certificate of Need Application for the Huntley-Wilmarth 345 kV Transmission Project in Blue Earth, Martin, Nicollet and Faribault counties, Minnesota MFUC Docket No. E002, ET6675/CN-17-184

This notice provides the following information for a proposed new transmission line project:

1. Project location and a description of the need for the Project;
2. Describe how you can participate in the regulatory process; and
3. Provide contact information to get additional information and to sign up for email and mailing lists.

Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) are proposing to construct an approximately 40 - 50 mile 345 kV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota (Project). A map of the area under consideration for the proposed Project is included in this advertisement as Figure 1

Why is the Project needed?

The Project is needed to reduce congestion on the transmission grid on the Minnesota/Iowa border that is inhibiting low-cost electricity from generation facilities, including wind farms in the area, from reaching customers. When this congestion occurs, the customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. This congestion is projected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in December 2015 as part of MISO's annual Transmission Expansion Plan (MTEP) report. The MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley Wilmarth Project, are transmission projects that are designed to help achieve this goal.

Further information on the project need is available on the Project website: www.huntleywilmarth.com

What is the regulatory process for the Project?

Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and if so, will determine the route along which the Project will be built (Route Permit).

The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes Section 216B.243, and Minnesota Rules Chapter 7849, specifically Rules 7849.0010 to 7849.0400 and 7849.1000 to 7849.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.puc.state.mn.us in Docket No. E002, ET6675/ CN-17-184.

In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is governed by Minnesota law, including Minnesota Statutes Chapter 216E and Minnesota Rules Chapter 7850. A copy of the Route Permit application, once submitted, can be obtained by visiting the Commission's website in Docket No. E002, ET6675/ TL-17-185.

The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. This process includes preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Energy Environmental Review and Analysis (EERA) staff.

Which routes will be studied in the EIS?

Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated during the scoping process. The Commission will decide which routes get studied and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

Who decides which route gets approved?

The Commission will review all of the data from the public process and will decide on whether the Project is needed and which route is approved. Selection of a final route by the Commission will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes Section 216E.03 subd. 7, Minnesota Rules 7850.4100, and stakeholder input received during the regulatory process.

The table below provides a high-level summary of the major steps in the regulatory process.

Major Process Steps and Summary Schedule

Step	Approximate Date
Pre-Application study and public meetings and stakeholder outreach	Now until Fall 2017
Certificate of Need and Route Permit Applications submitted to Commission	Early 2018
Informational and Scoping Meetings (public meetings and comment)	Spring 2018
Draft Environmental Impact Statement issued (public meetings and comment period)	Middle 2018
Public Hearings (public hearings and comment period)	Second Half 2018
Commission Decision	First Half of 2019

How will the utilities acquire right-of-way necessary for the Project?

Before beginning construction, utilities will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. Xcel Energy and ITC Midwest anticipate acquiring easements with a typical right-of-way width of approximately 150 feet.

How can I obtain additional information about the Project?

To subscribe to the Project's Certificate of Need docket and to receive email notifications when information is filed in that docket, please visit www.puc.state.mn.us, click on the "Subscribe to a Docket" button, enter your email address and select "Docket Number" from the Type of Subscriptions dropdown box, then select "17" from the first Docket number drop down box and enter "184" in the second box before clicking on the "Add to List" button. You must then click the "Save" button at the bottom of the page to confirm your subscription to the Project's Certificate of Need docket. These same steps can be followed to subscribe to the Project Route Permit docket (TL-17-185).

If you would like to have your name added to the Certificate of Need or Route Permit mailing list send an email to docketing.puc@state.mn.us or call 651-201-2204 (800-657-3782). If you send an email or leave a phone message, please include: (1) how you would like to receive mail (regular mail or email) and (2) the docket number (CN-17-184 or TL-17-185), your name, and your complete mailing address or email address.

If you have questions about the state regulatory process, you may contact the Minnesota state regulatory staff listed below:

How do I learn more about other transmission projects and the transmission planning process in Minnesota?

Minnesota Statutes § 216B.2425 requires that each electric transmission owning utility in the state file a biennial transmission planning report with the Commission in the fall of odd-numbered years. These reports provide information on the transmission planning process used by utilities in the state of Minnesota and information about other transmission line projects. The 2017 Biennial Transmission Planning Report is available at: www.mnrel.ctans.com.

Figure 1: Huntley-Wilmarth Notice Area and Proposed Routes

Detailed maps are available at www.huntleywilmarth.com.

Affidavit of Publication (Form Rev. 6/15)
 State of Minnesota
 County of Faribault ss

Lori L. Nauman, being first duly sworn, on oath states as follows:

1. I am the publisher/general manager of the *Faribault County Register*. I have personal knowledge of the facts stated in this Affidavit, which is made pursuant to Minnesota Statutes §331A.07.

2. The newspaper has complied with all of the requirements to constitute a qualified newspaper under Minnesota law, including those requirements found in Minnesota Statutes §331A.02.

3. The dates of the month and the year and day of the week upon which the public notice attached/copied below was published in the newspaper are as follows:
 It was first published on Monday, the

18 day of December, 2017,
 and was thereafter printed and published on Monday to and including Monday, the
— day of —, 2017.

Printed below is a copy of the lower case alphabet from A to Z, both inclusive, which is hereby acknowledged as being the size and the kind of type used in the composition and publication of this notice:

abcdefghijklmnopqrstuvwxyz

4. The publisher's lowest classified rate paid by commercial users for comparable space, as determined pursuant to § 331A.06, is as follows: \$6.75

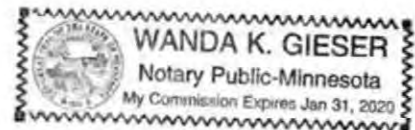

5. Mortgage Foreclosure Notices [Effective 7/1/15]. Pursuant to Minnesota Statutes §580.033 relating to the publication of mortgage foreclosure notices: The newspaper's known office of issue is located in Faribault County. The newspaper complies with the conditions described in §580.033, subd. 1, clause (1) or (2). If the newspaper's known office of issue is located in a county adjoining the county where the mortgaged premises or some part of the mortgaged premises described in the notice are located, a substantial portion of the newspaper's circulation is in the latter county.

FURTHER THE AFFIANT SAITH NOT.

Remembering Vera, from page 17

Fish and Old Maid, and we would play and laugh until the cows came home. Before I would leave for my own farm, she would make me a lunch and a big glass of chocolate milk out of Rowley's chocolate drink mix."

"Vera was kind, giving, and very patient. She would do anything within reason for those she was close to," says Schavey.

He met Vera as a young farmer with his own family just forming as he and his wife and their 13-month-old son, now 37 years old, Ryan, needed a home to stay. Schavey rented a house from Vera and helped farm the land around it.

And, so it seems, through her clever use and reuse of clothing and housing necessities, Vera saved quite a few dollars up during her 89 years on earth.

Vera was very passionate about two things: anything outside, and her Lord. Growing up, Vera would help her mother plant flowers in their family garden, and Vera continued that tradition all through her life.

Vera took one vacation a year, and that was during the week of the Fairbault County Fair. She would tend to the floral building each summer while spending every minute she could at the fair. She only missed two Fairbault County Fairs. On the year she was born, and on the year she passed away.

Staff photos by Katie Mullaly

Dan Schavey and Marjory Hill were two close friends of Vera Steinberg's who assisted Vera in fulfilling her final wishes before she passed away. Above, Dan shows the surveyor's map of the park before it was built.

"She tended to those gardens until she couldn't anymore," says Hill. "But every year, they were just breathtaking, in fact, that master gardener, Cindy Lyon, with permission, took a number of flowers from the Steinberg property and replanted them in Steinberg park for all to admire."

Vera's park was her own idea. According to Hill, Vera had dreamt of creating a park for a number of years. And while walking one of her favorite paths, from the Fairbault County Fairgrounds to the Wayside rest, she ran into David Frundt and his family. It was then that she decided to strike up a conversation about the feasibility of creating a park.

A peaceful place," says Hill. "She said, 'this is what I want to do before I die.'" And so, Vera Steinberg got the ball rolling. According to records, Vera began conversations about the park in 2005 with Frundt, Ben Martig, Blue Earth's city administrator at the time, Paul Schroeder, and Marjory Hill, who took notes. As logistics became untangled, the vision for Vera's park started to get clearer and clearer, but Vera's health was getting worse and worse.

the check," laughs Hill. "Which was quite a thing to see that side of Vera."

Schavey had grown accustomed to Vera's generosity. Having seen all three of Schavey's children grow up, Vera was there to help the young family when they needed it.

"She really enjoyed watching our kids grow up," says Schavey. "And I think she enjoyed watching you grow up too, Dan," adds Hill. Vera volunteered quite a bit in her days, and spent many hours with her church, and enjoyed spending time with her friends and traveling with them. She took a trip with her friend Gail Petersen, and was even able to travel to Israel to the holylands, one of her highlights of her life.

In July of 2007, Vera passed away from complications due to diabetes and congestive heart failure. Hill remembers the day of her funeral.

"It was such a beautifully bright day, and it was so warm. She would have loved it," says Hill. Months prior to her death, work began on restoring her father's old International truck in order for the Fairbault County Historical Society to use it. It can still be viewed in the Historical Society's building during the Fairbault County Fair to this day.

Remembering Vera, page 31

ELECTRIC TRANSMISSION LINE PROJECT

RE: Notice of Certificate of Need Application for the Huntley-Wilmarth 345 KV Transmission Project in Blue Earth, Martin, Nicollet and Fairbault counties, Minnesota MPUC Docket No. E002, ET6675/CN-17-184

1. Project location and a description of the need for the Project;
 2. Describe how you can participate in the regulatory process; and
 3. Provide contact information to get additional information and to sign up for email and mailing lists.
- Northern States Power Company, doing business as Xcel Energy, and ITC Midwest LLC (ITC Midwest) are proposing to construct an approximately 40 - 50 mile 345 KV transmission line between Xcel Energy's existing Wilmarth Substation north of Mankato, Minnesota and ITC Midwest's Huntley Substation, currently under construction, south of Winnebago, Minnesota Project. A map of the area under consideration for the proposed Project is included in this advertisement as Figure 1.

Why is the Project needed?

The Project is needed to reduce congestion on the transmission grid on the Minnesota/Iowa border that is inhibiting low-cost electricity from generation facilities, including wind farms in the area, from reaching customers. When this congestion occurs, the customers pay more for electricity because higher cost generators from other areas (without transmission constraints) are used to meet customer demand. This congestion is projected to get worse as more wind generation is developed in southern Minnesota and northern Iowa in the future. The Project is needed to relieve the current transmission congestion in this area and allow access to lower cost generation, reduce energy costs, strengthen the regional grid, and support future wind generation in Minnesota and Iowa.

The Project was studied, reviewed, and approved by the Midcontinent Independent System Operator, Inc.'s (MISO) Board of Directors as a Market Efficiency Project (MEP) in December 2016 as part of MISO's

annual Transmission Expansion Plan (MTEP16) report. The MTEP report is the culmination of more than 18 months of study and analysis of transmission system issues and development and evaluation of alternatives to determine the most effective transmission solutions to address the identified issues. One of the goals of the MTEP process is to reduce the wholesale cost of energy delivery for the consumer by identifying transmission projects that enable access to generation at the lowest total electric system cost under a variety of possible future scenarios. MEPs, like the Huntley-Wilmarth Project, are transmission projects that are designed to help achieve this goal.

Further information on the project need is available on the Project website: www.huntleywilmarth.com

What is the regulatory process for the Project?

Before we can construct the Project, the Minnesota Public Utilities Commission (Commission) must determine whether the Project is needed (Certificate of Need) and, if so, will determine the route along which the Project will be built (Route Permit). The Certificate of Need process is governed by Minnesota law, including Minnesota Statutes, Section 216B.02, and Minnesota Rules Chapter 7949, specifically Rules 7949.0010 to 7949.0040 and 7949.1000 to 7949.2100. A copy of the Certificate of Need application, once submitted, can be obtained by visiting the Commission's website at www.puc.state.mn.us in Docket No. E002, ET6675/CN-17-184. In addition to certifying the need for the Project, the Commission must also grant a Route Permit for the Project. The routing of the Project is governed by Minnesota law, including Minnesota Statutes Chapter 216B and Minnesota Rules Chapter 7950. A copy of the Route Permit application, once submitted, can be obtained by visiting the Commission's website in Docket No. E002, ET6675/TL-17-185. The Commission will not make these determinations until it has completed a thorough process that encourages public involvement and analyzes the impacts of the Project and various route alternatives. This process includes preparation of an Environmental Impact Statement (EIS) by the Minnesota Department of Commerce's Energy Environmental Review and Analysis (EERA) staff.

Which routes will be studied in the EIS?

Xcel Energy and ITC Midwest will be submitting an application for a Route Permit with at least two routes. Other routes can be proposed to be evaluated during the scoping process. The Commission will decide which routes get studied and considered for approval. Routes that have been shown at public meetings are preliminary and subject to change. In addition, other, new routes may also be studied and considered for approval.

Who decides which route gets approved?

The Commission will review all of the data from the public process and will decide on whether the Project is needed and which route is approved. Selections will be based on an evaluation of the routes guided by the factors identified in Minnesota Statutes, Section 216E.03 subd. 7, Minnesota Rules 7950.4100, and stakeholder input received during the regulatory process. The table below provides a high-level summary of the major steps in the regulatory process.

Major Process Steps and Summary Schedule

Step	Approximate Date
Pre-Application study and public meetings and stakeholder outreach	Now until Fall 2017
Certificate of Need and Route Permit Applications submitted to Commission	Early 2018
Informational and Scoping Meetings (public meetings and comment)	Spring 2018
Draft Environmental Impact Statement issued (public meetings and comment period)	Middle 2018
Public Hearings (public hearings and comment period)	Second Half 2018
Commission Decision	First Half of 2019

How will the utilities acquire right-of-way necessary for the Project?

Before beginning construction, utilities will acquire property rights for the right-of-way, typically through an easement that will be negotiated with the landowner for each parcel. Xcel Energy and ITC Midwest anticipate acquiring easements with a typical right-of-way width of approximately 150 feet.

How can I obtain additional information about the Project?

To subscribe to the Project's Certificate of Need docket and to receive email notifications when information is filed in that docket, please visit www.puc.state.mn.us, click on the "Subscribe to a Docket" button, enter your email address and select "Docket Number" from the Type of Subscriptions dropdown box, then select "17" from the first Docket number drop down box and enter "184" in the second box before clicking on the "Add to List" button. You must then click the "Save" button at the bottom of the page to confirm your subscription to the Project's Certificate of Need docket. These same steps can be followed to subscribe to the Project Route Permit docket (TL-17-185). If you would like to have your name added to the Certificate of Need or Route Permit mailing list send an email to docketing.puc@state.mn.us or call (651) 201-2298 (800-657-3792). If you send an email or leave a phone message, please include: (1) how you would like to receive mail (regular mail or email) and (2) the docket number (CN-17-184 or TL-17-185), your name, and your complete mailing address or email address.
