RE: Comment Out of Time
Xcel Petition – Large General Time Of Day Service And Large Peak Controlled
Time Of Service Tariffs
PUC Docket E015/M-25-289

Dear Ms. Bergman:

Thank you for the Notice of Comment Period and subsequent extension regarding the Xcel's above-named Petition. Please accept this Comment Out of Time requesting an additional time extension, allowing for Supplemental Comments. This docket is particularly important given the massive transmission build-out queued up in and through Minnesota, use by large energy users in the state and beyond, and the impact of Minnesota ratepayers.

The issues presented and those issues open for comment are complicated, and as noted in the Commerce-DER and OAH-RUG Comment filings including Information Request responses, there's more information needed.

At this time, CUB's request for additional time is reasonable, acknowledging that even with that extension, much will depend on information provided by Xcel and whether more time is needed. Xcel controls the information, and thus any need for extension of time.

Very truly yours,

Carol A. Overland
Attorney at Law
