

In the Matter of the Application of Walleye Wind, LLC for a Certificate of Need and Site Permit for a 109.2 MW Large Wind Energy Conversion System in Rock County, Minnesota.

Docket Nos. IP7026/CN-20-269; IP7026/WS-20-384

Commissioner Tuma moves to include the following decision option:

D.1.A Modify the ALJ Report regarding shadow flicker to allow the applicant to reach separate agreements with landowners on shadow flicker mitigation and include additional site permit language at 7.2 that reads as follows:

The Permittee may exclude from the Shadow Flicker Management Plan residences that exceed 30 hours per year by providing documentation that the landowners have reached an alternative agreement as it relates to shadow flicker. If agreement is reached with a landowner regarding shadow flicker after the pre-construction meeting the Permittee may remove that residence from coverage under the plan.
