Please share your comments on the environmental report (ER) that will be prepared for the proposed Brookings – Hampton 2nd Circuit Transmission Project:

- What potential human and environmental impacts should be studied in the ER for this project?
- What are the possible methods to minimize, mitigate, or avoid these impacts?
- Are there other ways to meet the stated need for the project, instead of the proposed project? If so, what alternatives to the project should be studied in the ER?

COMMENTS MUST BE RECEIVED BY WEDNESDAY, JANUARY 3, 2024.

These remarks are addressing my property at 21217 Darsow Ave. E. / Co. Rd 81. There are three poles on my property. The addition of more power lines need to be considered. Impact on environment and property value loss are major concerns. South Branch of the Vermillion River runs through my property. This is a concern. The quality of the river should be foremost
