RE: SUPPLEMENTAL INFORMATION – CORRECTION
2012 ANNUAL REVIEW OF REMAINING LIVES
DOCKET NO. E,G002/D-12-151

Dear Dr. Haar:

On October 26, 2012, Northern States Power Company submitted to the Minnesota Public Utilities Commission supplemental information regarding our Granite City peaking plant. We submit this filing to make a correction to our October 26 letter, specifically deleting “including AFUDC” from the paragraph at the bottom of page 1. Attached are clean and redline versions of our revised letter. We apologize for any confusion this may have caused.

Pursuant to Minn. Stat. §216.17, subd. 3, we have electronically filed this document with the Commission, and we have served this filing on all parties on the attached service list.

Please contact me at lisa.h.perkett@xcelenergy.com or (612) 330-6950 if you have any questions regarding this filing.

SINCERELY,

/s/

RE: SUPPLEMENTAL INFORMATION
2012 ANNUAL REVIEW OF REMAINING LIVES
DOCKET NO. E,G002/D-12-151

Dear Dr. Haar:

Northern States Power Company submits to the Minnesota Public Utilities Commission this supplemental information regarding our Reply Comments and plans for the Granite City peaking plant outlined in this docket. While we are not proposing any changes affecting our pending 2012 Remaining Lives docket, we provide this information to keep the Commission informed of a change we expect to include in our 2013 Remaining Lives Petition.

In Reply Comments on August 6, 2012, we withdrew our request for life extensions of the Granite City, Key City, and Blue Lake Units 1-4, resulting in full depreciation of these plants by the end of 2012. These plants will continue operations beyond 2012, be available for dispatch into the Midwest Independent Transmission System Operator (MISO) energy and ancillary services market to serve our customers, and be counted as capacity for MISO Resource Adequacy requirements. We indicated, however, that there will be no depreciable life after 2012 (*i.e.*, rate base will be \$0) since no capital additions would be required to continue operations, and all future work on the plants would be handled through our operation and maintenance (O&M) budget.

Energy Supply recently updated its plans for the Granite City plant and concluded that additional work will be needed to continue operations through 2018. Specifically, a new operating control system for Units 1 and 2 is required at an estimated cost of \$294,000. The existing control system is obsolete and no longer

Deleted: including AFUDC

Revised October 29, 2012 – Redline

supported by the manufacturer. If the system is not replaced, control cards could fail, resulting in outages. We anticipate capital expenditures of \$180,000 in 2012 and \$114,000 in 2013 to complete the control system upgrade; with AFUDC the total addition is approximately \$298,000. In addition, we expect it will be necessary to replace the diesel starting motors at the Granite City plant in 2016 at a cost of approximately \$600,000.

For purposes of this existing docket, the Company still proposes to let the current remaining life of the Granite City plant expire at the end of 2012 on the existing investment. In our next Annual Remaining Lives filing in February 2013, we plan to propose establishing a new remaining life of six years on our Granite City control system investment beginning with its in-service date, currently estimated to be May 2013. Currently, the estimated depreciation expense for 2013 is approximately \$31,000.

Pursuant to Minn. Stat. §216.17, subd. 3, we have electronically filed this document with the Commission, and we have served this filing on all parties on the attached service list.

Please contact me at lisa.h.perkett@xcelenergy.com or (612) 330-6950 if you have any questions regarding this filing.

SINCERELY,
