VIA E-DOCKETS

Mr. Will Seuffert
Executive Secretary
Minnesota Public Utilities Commission
121 Seventh Place East, Suite 350
Saint Paul, MN 55101-2147

**Re: In the Matter of the Application of Byron Solar, LLC for a Certificate of Need for the up to 200 MW Byron Solar Project and 345 kV Transmission Line in Olmsted and Dodge Counties, Minnesota
MPUC Docket No. IP-7041/CN-20-764
OAH Docket No. 82-2500-38038**

**In the Matter of the Application of Byron Solar, LLC for a Site Permit to construct the up to 200 MW Byron Solar Project in Dodge County, Minnesota
MPUC Docket No. IP-7041/GS-20-763
OAH Docket No. 82-2500-38038**

**In the Matter of the Application of Byron Solar, LLC for a HVTL Route Permit for the 345 kV Transmission Line in Olmsted and Dodge Counties, Minnesota
MPUC Docket No. IP-7041/TL-20-765
OAH Docket No. 82-2500-38038**

Dear Mr. Seuffert:

Byron Solar, LLC (“Byron Solar”) submits these late-filed supplemental comments reflecting the outcome of additional conversations that Byron Solar has had with the Minnesota Department of Commerce, Energy Environmental Review and Analysis (“EERA”) staff following submittal of Byron Solar’s February 7, 2023 Exceptions (“Exceptions”) to the Administrative Law Judge’s (“ALJ”) Findings of Fact, Conclusions of Law, and Recommendations (“ALJ Report”) dated January 23, 2023, in the above-referenced matters.

Byron Solar and EERA staff have reached agreement on alternative permit condition language for each of the four items Byron Solar included in its Exceptions, including: (1) when the permittee must notify the Commission of a change in project ownership; (2) security fencing; (3) the visual screening plan; and (4) the timeline for agency review of the pre-construction site plan filing.

Pursuant to Minn. R. 7829.0420, there is good cause not to exclude this late filing because it reflects the results of compromise and is provided more than 24-hours before the Minnesota Public Utilities Commission (“Commission”) meeting, giving all participants an opportunity to review the language and address it during oral arguments.

1. Draft Site Permit (“DSP”) Section 2.2 (Project Ownership).

Byron Solar and EERA staff discussed modifications to Section 2.2 (Project Ownership) of the DSP to address both of their concerns. Byron Solar’s Exceptions recommended changes to Section 2.2 and related findings to streamline the reporting requirements and to exclude transfers to entities affiliated with the permittee (here, Byron Solar). EERA staff noted that a primary objective of this condition is to ensure that the Commission (and EERA) have a project’s current contact information for compliance purposes, and to make sure that any new “owners” are aware of, and affirm commitment to, permit obligations.

To resolve these issues, EERA staff proposed revising Section 2.2 to more closely mirror similar language that has been included in wind site permits regarding notification of ownership changes. Additionally, EERA staff agreed that a certification that the permittee reads, understands and is able to comply with the plans and procedures of the permit was sufficient without refile existing compliance plans. Byron Solar agreed that the revised language is clearer and avoids unnecessary filings and dropped its request to exclude transfers to affiliated entities.

Based on these considerations, Byron Solar and EERA staff agreed upon the following proposed language for Section 2.2 of the DSP (redline changes shown against the condition recommended by the ALJ):

2.2 Project Ownership

~~The Permittee shall identify the Project’s ownership structure including any parent entity, majority or controlling interest to the Commission at least 14 days prior to the pre-construction meeting.~~

~~In the event of an ownership change to a non-affiliated entity, such as the sale of a parent entity, majority or controlling interest, the Permittee shall identify the new Project’s ownership structure, provide the name and contact information for the site manager, as described in Section 4.3.2, and either a current version with e-docket reference, or a revised version of the following to the Commission:~~

- ~~(a) vegetation management plan, as described in Section 4.3.17;~~
- ~~(b) complaint procedures, as described in Section 7 and Attachment 1;~~
- ~~(c) emergency response plan, as described in Section 8.10; and~~
- ~~(d) decommissioning plan, as described in Section 9.~~

At least 14 days prior to the pre-construction meeting, the Permittee shall file a description of its ownership structure, identifying, as applicable:

- (a) the owner(s) of the financial and governance interests of the Permittee;
- (b) the owner(s) of the majority financial and governance interests of the Permittee’s owners; and

(c) the Permittee's ultimate parent entity (meaning the entity which is not controlled by any other entity).

The Permittee shall notify the Commission of:

(a) a change in owner(s) of the majority* financial or governance interests in the Permittee; or

(b) a change in owner(s) of the majority* financial or governance interests of the Permittee's owners; or

(c) a sale which changes the ultimate parent entity of the Permittee.

*When there are only co-equal 50/50 percent interests, any change shall be considered a change in majority interest.

Also, in the event of an ownership change, the Permittee must provide the Commission with a certification that it has read, understands and is able to comply with the plans and procedures it filed and all conditions of this permit.

2. DSP Section 4.3.31 (Security Fence).

Byron Solar and EERA staff discussed modifications to Section 4.3.31 (Security Fence) of the DSP to address concerns regarding requiring a project to comply with Minnesota Department of Natural Resources ("MDNR") guidance which has not been published and is not reflected in this record.

After discussion, Byron Solar and EERA staff agreed upon the following proposed language for Section 4.3.31 of the DSP (redline changes shown against the condition recommended by the ALJ):

4.3.31 Security Fencing

The Permittee shall design the security fence surrounding the solar energy generating system to minimize the visual impact of the Project while maintaining compliance with the National Electric Safety Code. The Permittee shall develop a final fence plan for the specific site ~~that is consistent with DNR guidance for commercial solar facilities and is done~~ in coordination with EERA and the DNR. The final fence plan shall be submitted to the Commission as part of the site plan pursuant to Section 8.3.

Additionally, EERA staff stated that it was neutral regarding the addition of the following special condition language which would apply specifically to Byron Solar, based on the record built in this case:

Special Condition 5.9 Security Fencing

The final fence plan for the site shall be consistent with the proposal included in the August 30, 2021 Site Permit Application and within the parameters laid out in the 2016 Commercial Solar Siting Guidance.

Byron Solar believes it is important and appropriate to include this special condition language in Section 5.9, in addition to the general permit language in Section 4.3.31, based on the administrative record here, which demonstrates that Byron Solar considered and applied the MDNR's 2016 Commercial Solar Siting Guidance in its fence design. Including this special condition language clarifies which standards are applicable for this Project and avoids further debate over this issue during the final design and compliance phases prior to construction.

3. DSP Section 5.5 (Visual Screening Plan).

Byron Solar and EERA staff discussed modifications to Section 5.5 (Visual Screening Plan) of the DSP to address concerns. Byron Solar and EERA staff agreed that the visual screening plan should be separate from the Vegetation Management Plan ("VMP") but EERA continued to desire that the separate Visual Screening Plan include some additional discussion of management of the screening, where applicable. Byron Solar and EERA staff also agreed that the location of trees and shrubs included in the Visual Screening Plan within the Project site should be included in the site plan filed under Section 8.3 of the DSP.

After discussion, Byron Solar and EERA staff agreed upon the following proposed language for Section 5.5 of the DSP (redline changes shown against the condition recommended by the ALJ):

5.5 Visual Screening Plan

The Permittee shall develop a site-specific Visual Screening Plan. The Visual Screening Plan shall be designed and managed to mitigate visual impacts to adjacent residences ~~and consider local government ordinances and setbacks.~~ The visual screening plan shall at minimum include:

a) objectives for screening of nearby residences; and

b) a description of the types of trees and shrub species to be used, the location of plantings, and plans for installation, establishment and maintenance.

The location of trees and shrubs included in the Visual Screening Plan that are located within the Permittee's site control shall be included in the Site Plan filed under Section 8.3.

At least 14 days prior to the pre-construction meeting, the Permittee shall file:

a) the Visual Screening Plan;

- b) documentation of coordination between landowners within 500 feet of the site boundary and Dodge County Office of Environmental Services; and
- c) an affidavit of its distribution of the Visual Screening Plan to landowners within 500 feet of the site boundary and Dodge County Environmental Services.

~~The Permittee shall work with landowners and use the Department of Commerce Guidance for Developing a Vegetation Establishment and Management Plan for Solar Facilities to develop the Visual Screening Plan.~~

~~At minimum the Visual Screening Plan shall include:~~

- ~~a) management objectives for the screening of nearby residences;~~
- ~~b) a description of planned restoration and vegetation management activities at the screening locations, including how the screening locations will be prepared, timing of activities, how planting will occur, the types of tree and shrub species to be used, plans for watering and other maintenance;~~
- ~~c) a description of how the screening will be monitored and evaluated to meet management objectives; and,~~
- ~~d) a marked-up copy of the site plan showing the location of the tree and shrub species.~~

4. DSP Section 8.3 (Site Plan).

Byron Solar and EERA staff discussed modifications to Section 8.3 (Site Plan) of the DSP to address both of their concerns. Byron Solar explained that the removal of the 30-day timeframe for the Commission's review of the site plan from Section 8.3 of the DSP effectively leaves that review period open-ended. EERA staff noted that the 30-day time frame is not reasonable given the timing of the pre-construction meeting and filing of the pre-construction meeting summary, and that, overall, it leaves little time for Commission review if additional revisions to any of the filings are necessary. EERA staff also noted that the condition should address a situation where the Commission determines a project is not in compliance and cannot commence construction.

After discussion, Byron Solar and EERA staff agreed upon the following proposed language for Section 8.3 of the DSP (redline changes shown against the condition recommended by the ALJ):

8.3 Site Plan

At least 30 days prior to the pre-construction meeting, the Permittee shall file with the Commission, and provide the Department of Commerce, and the County(s) where the Project is located with a site plan that includes specifications and

drawings for site preparation and grading; specifications and locations of the solar energy generating system and associated facilities; and procedures for cleanup and restoration. The documentation shall include maps depicting the Project Boundary, solar energy generating system and associated facilities layout in relation to that approved by this permit.

The Permittee may not commence construction until the earlier of (i) 30 days after the pre-construction meeting or (ii) until the Commission has notified the Permittee in writing that it has completed its review of the documents and determined that the planned construction is consistent with this permit. [If the Commission notifies the Permittee in writing within 30 days after the pre-construction meeting that it has completed its review of the documents and planned construction, and finds that the planned construction is not consistent with this permit, the Permittee may submit additional and/or revised documentation and may not commence construction until the Commission has notified the Permittee in writing that it has determined that the planned construction is consistent with this permit.](#)

If the Permittee intends to make any significant changes to its site plan or the specifications and drawings after submission to the Commission, the Permittee shall notify the Commission at least five days before implementing the changes. No changes shall be made that would be in violation of any of the terms of this permit.

Conclusion.

Byron Solar respectfully requests that the Commission adopt the ALJ Report with the revisions noted herein as agreed to by EERA staff and grant the Certificate of Need, Site Permit, and Route Permit for the Byron Solar Project.

A copy of this filing is also being served upon the persons on the Official Service Lists of record. Please let me know if you have any questions regarding this filing.

Sincerely,

/s/ Christina K. Brusven

CERTIFICATE OF SERVICE

Alicia P. LaValla certifies that on the 28th day of February 2023, she e-filed on behalf of Byron Solar, LLC true and correct copies of the following documents via eDockets (www.edockets.state.mn.us):

- Byron Solar, LLC's Late-Filed Supplemental Comments on DSP Conditions; and
- Certificate of Service.

Said documents were also served on the Official Service Lists on file with the Minnesota Public Utilities Commission and as attached hereto.

/s/ Alicia P. LaValla
