**Re: In the Matter of Updating the Generic Standards for the
Interconnection and Operation of Distributed Generation
Facilities Established under Minn. Stat. § 216B.1611
Docket No. E999/CI-16-521**

Dear Mr. Seuffert:

On November 1, 2024, the Technical Subgroup (or, "TSG") presented their findings and recommendations to the Distributed Generation Working Group (or, "DGWG") regarding proposed changes to the Minnesota Distributed Energy Resources Interconnection Process (or, "MN DIP") that would facilitate utility assessment of and less-costly remediation of unintentional islanding risk.

On November 27, 2024, the Minnesota Public Utilities Commission (or, "Commission") issued a Notice of Comment regarding whether the Commission should accept the changes proposed by the TSG as found in Attachment A of that notice.

Minnesota Power recommends that the Commission accept the changes proposed by the Technical Subgroup, and has no further issues or concerns to raise at this time.

Please contact me at (218) 355-3178 jmccullough@mnpower.com with any questions related to this matter.

Respectfully submitted,

A handwritten signature in black ink that reads 'Jess McCullough'.
