Important. Comments will be made available to the public via the Commission's website, except in limited circumstances consistent with the Minnesota Government Data Practices Act. The Commission and the Department do not edit or delete personal identifying information from submissions.

Project Description

The primary components of the solar facility would include bifacial photovoltaic panels affixed to a linear ground-mounted single-axis tracking system, solar inverters, an electrical collection system (belowground), access roads, security fencing, stormwater drainage basins, and eight weather stations.

As proposed, the project will partially replace the energy production of the Sherco Generating Plant Unit 2, currently a coal-powered facility, which will cease operations later in 2023. Based on Xcel Energy’s capacity requirements under the Commission-approved 2020-2034 Upper Midwest Integrated Resource Plan, the project would be placed into service in the fall of 2025.

Proposed Project Area

Minnesota Statutes and Rules. The site permit application is being reviewed under Minnesota Statutes Chapter 216E and Minnesota Rules chapter 7850. The rules and statutes are available for review at: <http://www.revisor.mn.gov>.

Review Process

The Commission must approve a site permit before the project can be constructed. The permit application will be reviewed using the alternative review process (Minn. R. 7850.2800 to 7850.3900). The relevant Minnesota statute and rules may be viewed at: <https://www.revisor.mn.gov>.

Environmental Review. The Department is tasked with preparing an environmental assessment (EA) on the proposed project on behalf of the Commission. The EA will evaluate the human and environmental impacts of the proposed project and identify measures that could reasonably be implemented to avoid or minimize impacts identified.

Public Hearing. After the EA is complete, a public hearing will be held near the project area. The hearing will be presided over by an administrative law judge from the Office of Administrative Hearings. Members of the public will have an opportunity to speak, provide written comments, and ask questions of the applicant and staff. Upon completion of the public hearing process, the Commission will make a final decision on whether to issue a permit for the project.
