Hello,

My name is Julia and I live in St. Paul. I am writing because I am concerned that the PUC is moving forward on a very important rule, without public input. The rules are underinclusive, underprotective and too vague to provide meaningful protection to overburdened Black, Indigenous, and other people of color, and low-income communities against unnecessary and avoidable impacts of new energy infrastructure.

**I am requesting that the PUC hold a public hearing on the 'Proposed Permanent Rules Relating to Power Plants or Lines; Revising the Certificate of Need and Site and Route Permits Requirements.**

Thank you,  
Julia Brokaw

I heard that I had to include my address:

1009 N Kilburn St  
Saint Paul, MN 55013
