Email Addresses

Username: Please choose your username carefully because it will become a permanent part of your Internet email address. Most people use some combination of their last name, initials, or a nickname (jdoe@itctel.com). Your email address will use lower case text, and it must be between 3 to 8 characters in length.
Password: Your password must be 12 or more characters, contain at least 2 capital letters (A-Z) and 2 lower case letters (a-z), contain at least 2 special characters (!@#), and 2 numbers (0-9). Do not use your username or other names or words. (*Write additional usernames and passwords on back.)

Table with 4 columns: Username*, @itctel.com, Password, Email? (Yes/No)

Password for Wireless Routers:

This information will be used to establish an account for your use. Warning: Sexually explicit, violent, and offensive material can be obtained over the Internet. ITC will not be responsible for any activity in which you, as the user, conduct your Internet travels. Parents may want to obtain software that will disable this type of activity. ITC also will not allow any rude or offensive text in the username or password.

CPNI

The FCC has rules regarding CPNI (Customer Proprietary Network Information). These rules are designed to protect you and your personal information. For ITC to be compliant with these rules, we require you to provide a password to obtain any call detail information. Call detail information includes, for example, numbers that have called you, numbers you have called, length of call, etc. Because it is public information, call detail is NOT customer names, addresses, or phone numbers.

When you call us for call detail information, we will require you to provide us with a password. The only other way we can provide this information to you is; 1) We call you back at the number of record; 2) We mail you the requested call detail information to the address of record, or; 3) You, the authorized account customer, come to the office and show a valid photo ID per the Red Flag Rules by the FTC.

Current Authorized Account Contacts for: Current Phone number: (_____) _____

Existing Contact #1: _____ Existing Contact #2: _____

(If you wish to add authorized contacts, you need to call or stop by the office nearest you)

Authorized Customer Chosen Password*: _____

(Between 5-10 characters in length; numbers, letters or both - no spaces or symbols) *This password can not be historical information such as social security number or address. The FCC is trying to minimize the possibility of false identification, therefore, do not use anything that someone else would be able to access.

Security Questions and Answers:

Choose two security questions and fill in the answer. This will be used to verify you as the authorized customer if you can not remember your password.

- 1) What was your first childhood pet's name? _____
- 2) Where were you born? _____ (city, state or just state, just city, state abbreviation, zip code or city nick name)
- 3) What is your favorite color? _____
- 4) As a child, what was your dream job? _____
- 5) What brand of shampoo do you use? _____

Agreement

- The undersigned applicant hereby applies for telecommunications services from ITC and agrees to be bound by the tariffs and policies of the ITC.
- A \$20 fee will be charged to establish this account and appropriate fees for changes in services will be charged going forward.
- Service may be disconnected in the event the information provided is incorrect, where service requested by someone under the age of 18, or under the name of someone under 18.

Signature

Please note: Prices on all services listed on this application do not include taxes and/or regulatory fees.

I have read and agree to abide by the Broadband Acceptable Use Policy regarding acceptable use, equipment ownership, charges, etc.

Account Signature (must match the account name or account contact): _____

From time to time ITC may change its service offerings and make available new features or services that may enhance or improve the services to which you are already subscribed. Allowing us to use the CPNI in your account gives us the ability to give you more personalized service and offer you the products and services that best fit your needs. If you allow us to use your CPNI, it will be used only by ITC. ITC does not share customer information.

Customer Guide

Welcome to ITC

ITC is a local telecommunications company focused on offering ultra-fast Internet in the rural communities of our region. We've been serving the communities of Northeast South Dakota and Southwestern Minnesota for more than 65 years. As part of our commitment to the rural areas we serve, we continue to upgrade and expand our network to ensure our customers have access to world-class communication.

This fiber-optic expansion to Lincoln County, MN, is an example of our commitment to this region. You can count on us to work hard every day to serve you. We look forward to having you as a customer. Please don't hesitate to contact us at **1.800.417.8667** with any questions about your new ITC services.

Check here for change of payment method (see reverse for more details)

Make checks payable to:

***** BANK DEDUCT - DO NOT PAY*****

Remittance Information

Account Number	00012345-6
Invoice Number	11183896
Bill Date	10/01/2020
Current Charges Due	10/19/2020
Total Current and Past Charges	\$ 76.93
Payment Enclosed:	\$ _____

Please return this portion with your payment

JOHN OR SARAH SMITH
123 MAIN ST
ARCO, MN 56113

ITC has multiple ways to pay your monthly invoice.

1. **Pay by mail.** Each month you will be mailed an invoice with an envelope to return for payment.
2. **Credit card payment by phone.**
3. **E-Statement.** You can sign up for an E-Statement account after you receive your first bill. It is easy to register. First, go to the ITC website at www.itcfiberlinc.com. On the upper right side of the main page, you will see "View/Pay Bills." Click here to register for the first time and then to view or pay your bill. Once you have clicked on "View/Pay Bills," you can enter your login info, or if you don't have an account, click "Register here." An email will be sent to the email address you have entered. Once you open that email, there will be a link asking you to confirm your email address. Click the link, and you will be directed back to the login page. Enter your email and password to log in.

Bill Pay Options

Menu

Once you log into E-Statement, you will see the Dashboard on the left side of the screen. Here are a few things you will find:

- » **Overview**– Shows a brief recap of your ITC account.
- » **Usage**– Check out your long-distance usage.
- » **Invoices**– See a year’s worth of ITC invoices.
- » **Directory**– Can look up anyone in the ITC Phone Book by searching by name.
- » **Pay Bill**– Pay bills online every month by using a credit card. If you are enrolled in an auto-pay option, there will be a blue box on the top of the screen, letting you know what you are enrolled in.
- » **AutoPay**
 - **Bank Account**– Your bill will be deducted on the 10th of the month.
 - **Credit or Debit Card**– You can choose the deduction date from the 1st–17th of the month.
- » **Payment History**– Find the last 12 months of payment amounts & how you paid.

Go Paperless

Going paperless, or not receiving a paper bill, is just a click of a button! To only receive an e-bill, click on “Settings” at the bottom of the Dashboard. Once in the “Settings,” click the “General tab” under the words “Manage Your Settings.” This will give you a couple of invoice preferences. To go paperless, you would select the dot next to “Web bill only.”

Customer Information

What is CPNI?

CPNI stands for **Customer Proprietary Network Information**. The FCC has implemented rules to protect the privacy of your information contained in your ITC account. The rules allow ITC to discuss account information only with the person(s) listed on the account. Also, we must authenticate authorized individuals by asking for a password or by asking a specific question.

If you wish to restrict ITC's use of your information to offer services different from the type of services you currently buy from us, please register your request by calling **1.800.417.8667**. Your decision will not affect our provision of your current services. Your approval or denial regarding CPNI use will remain valid until you revoke or limit the approval or denial. You may do so at any time.

Backup Battery Power

In the past, your home phone would allow you to stay connected to emergency voice services during a power outage. Today, many advanced home phone services require backup battery power, so they continue to function during an outage. As a Fiber-To-The-Home customer, it's crucial that you understand what will happen to your ITC services when your power goes out. During a power outage, your ITC telephone service will continue to work with your wired (not cordless) telephone using battery power. This battery power comes from the ITC installed power supply at your home. Voice service on a backup battery is expected to last at least eight hours on standby power. The backup battery should give you at least six hours of talk time. If you feel that is not enough time, you may extend your standby power up to 24 hours by purchasing additional eight-hour batteries from our company. If you have any questions, please contact our office at **1.800.417.8667**.

Voice Mail Instructions

Setting up your Voice Mail

To access your Voice Mail:

1. **From your home phone:**
 - **Dial *94.** If you call from your home phone using Auto Login, you don't have to press anything. To set-up Auto Login: access your mailbox, press 9 for mailbox set-up, and then press 4 to disable or enable Auto Login.
2. **Remotely; from a phone other than your home phone:**
 - **Dial 507.368.6245, enter your home phone number and four digit password followed by the # key.**
 - If this is your first time accessing your Voice Mail, the default password is 0000 (four zeros) until you change it.
 - If you have sub-mailboxes, follow step 1 above, then press * to access the Group Greeting Menu and follow the voice prompts.

Change your Password

1. Access your Voice Mailbox.
2. Press 9 for the mailbox set-up menu.
3. Press 2 to change your password.
4. Enter your new password and then press the # key (your password is any series of up to 16 numbers you choose). You can't access your mailbox from a number other than your home number without it, so choose a password you can remember easily!
5. To verify, enter your password again and press the # key.

Voice Mail Instructions

Record your Greeting

1. Access your Voice Mailbox
2. Press 9 for the mailbox set-up menu
3. Press 1 for greeting options (disregard this step if you choose to use the default greeting).
4. Press 2 to record your greeting.
5. Record your greeting and then press the # key.
6. Press 1 to listen to your greeting.
7. If you would like to record multiple greetings: Press 5; choose a new greeting (#2-9); Press 2 to record your greeting and press # to end your recording. If you would like to record more greetings, follow step 7 again.
8. Press * to return to the Main Menu.

Retrieve your Messages

1. Access your Voice Mailbox
2. When prompted, press 1 to listen to Voice Mail messages.
3. Press 1 to listen to new messages.
4. Press 2 to listen to saved messages.
5. Press * to return to the main menu.

When retrieving messages, you can:

Press 1 to play the message again.

Press 2 to save the message and play the next.

Press 3 to delete the message.

Press 4 to save the message as new.

Press 7 to rewind the message.

Press 8 to pause or continue the message.

Press 9 to fast forward the message.

Press * to return to the main menu.

Internet

High-Speed Internet

We've got all the bandwidth you need!

- » Internet fast enough for streaming video, gaming, work from home solutions, and more!
- » **Unlimited Internet**—no more worries about overages, no slowing/throttling speed—use as much Internet as you want. It's complete freedom!
- » Local technical support from the helpful staff at ITC!
- » Packages starting at \$69.95/month.
- » Upgrading to a faster package is easy; give our office a call at **1.800.417.8667!**

Streaming TV

With ITC's Fiber-Fast Internet you are now able to stream TV.

Here are a few streaming options to consider:

- » **Locast** is a newer streaming service that is only available in certain areas. With Locast, you can watch your local broadcast channels for free. That's right, for free! They are a not-for-profit service but do accept donations to help bring Locast to other towns. You will choose "Sioux Falls" or "Minneapolis" as your demographic location, depending on your address.
- » **Netflix** is probably one of the most well-known streaming services. They have TV shows, lots of movies, documentaries, and even their own original content. They have three different plans to meet your needs depending on how many devices will be streaming at one time, and if you want to watch the content in standard definition, high definition, or 4K.
- » **Hulu** is another popular service. Watch live and on-demand TV from 65+ top channels including sports and news. Plus, stream full seasons of exclusive series, hit movies, current episodes, premium Hulu Originals, and more.
- » **Prime Video** is an option that is included with an Amazon Prime membership. Prime video has a growing library of popular shows and movies along with original content.
- » **YouTube TV** offers live TV from over 85+ channels, including sports and your local news. It also has on-demand content for recently broadcast shows and movies.

Blast Wi-Fi

Blast Wi-Fi Powered by ITC gives you the freedom to have ITC manage your Wi-Fi, or we can get you the tools to help you manage it yourself. Here are some of the benefits of the new service:

- » Superior Wi-Fi strength with device connection support
- » Apps available to manage and control your Wi-Fi network
- » An option to extend wireless to your entire house, deck, attic, yard, or garage

Call ITC to upgrade to Blast Wi-Fi and schedule a FREE installation. An ITC technician will come to your home for a site analysis. During this site visit, the technician will:

- » Review your current router placement
- » Verify wireless coverage is everywhere you need it
- » Install the new router and assist you in connecting your devices
- » Install & configure the app on your phone if you want to manage your network

Blast Wi-Fi Packages

Intro – \$6.95/month

Premium – \$14.95/month

Blast Wi-Fi
..... POWERED BY ITC

Blast Wi-Fi

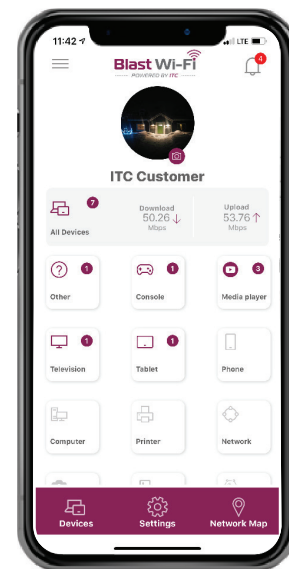

Blast Wi-Fi offers two additional applications to help manage, automate, and secure your network:

ProtectIQ™ delivers home network protection that provides peace of mind.

- » Malicious website protection, anti-virus, and anti-ransomware packet inspection, and intrusion detection
- » Traffic monitoring that automatically blocks anything that looks suspicious coming into the home
- » A dashboard to demonstrate how this service is actively protecting the home network
- » Notifications when content is blocked
- » \$4/month, or included with Premium Blast Wi-Fi

ExperienceIQ™ gives you the ability to manage the content, applications, and websites for devices connected to your home network.

- » Enhanced parental controls that give you the ability to enforce Internet usage rules
- » Family profile tools to manage the content and hours of use for each connected device in the home
- » \$4/month, or included with Premium Blast Wi-Fi

Managed On-Premise Extension

ITC offers many solutions to extend wireless Internet to an outbuilding or additional location at your premise. Whether you are looking to get a wireless signal to your barn or shop, or a camera mounted on an outbuilding, ITC has solutions. If you would like additional information on the pricing or would like to schedule a site visit with an ITC technician to review the options, please call **1.800.417.8667**.

Camera & NVR Systems

ITC camera systems are scalable to fit any size business or residence.

- » The integrated cameras are available up to 8MP or 4K resolution and provide high-quality recordings, both day and night.
- » You can maintain data on the NVR (Network Video Recorder) or archive video files to a separate location for future reference.

ITC has installed this camera system in local businesses, schools, farming operations, lake homes, and residential locations. One of the most incredible benefits of this system is that you can monitor your premise from any Internet-enabled device while you are away.

ITC offers many NVR options to fit your needs. Determining the size of the NVR depends on the number of cameras, camera resolution, and the desired number of days to record. Installation costs will vary based on the number of cameras and wiring requirements.

Camera Options

The **Dome IP camera** offers exceptional performance, providing brilliant image clarity and an incredible level of detail in recordings, both day and night. The Dome IP camera has many options, including Pan-Tilt-Zoom (PTZ), motorized, and digital zoom.

The **Fixed Bullet IP cameras** offer exceptional performance, providing brilliant image clarity and an incredible level of detail in recordings. The Fixed Bullet has options for both motorized and digital zoom.
