

October 3, 2025

Sasha Bergman
Executive Secretary
Minnesota Public Utilities Commission
121 7th Place East, Suite 350
St. Paul, Minnesota 55101-2147

RE: Reply Comments of the Minnesota Department of Commerce
Docket No. E002/M-24-432

Dear Ms. Sasha Bergman:

Attached are the reply comments of the Minnesota Department of Commerce (Department) in the following matter:

*In the Matter of a Peak Time Rebate Program for Northern States
Power Co. d/b/a Xcel Energy to Further the Commission's Advanced
Rate Design Efforts in Docket No. E002/CI-24-115*

A notice of comment was filed by the Commission on July 17, 2025, and a notice of extended comment period was issued on August 12, 2025.

The Department provides recommendations on Xcel Energy's proposed Peak Time Rebate Program and is available to answer any questions the Minnesota Public Utilities Commission may have.

Sincerely,

/s/ Dr. SYDNIE LIEB
Assistant Commissioner of Regulatory Analysis

AB/ RW/ad
Attachment

Before the Minnesota Public Utilities Commission

Comments of the Minnesota Department of Commerce

Docket No. E002/M-24-432

I. INTRODUCTION

On July 17, 2025, the Minnesota Public Utilities Commission (Commission) issued a Notice of Comment Period in Docket No. E002/M-24-432. The Commission invited stakeholder input on whether the Commission should approve, modify, or reject the proposed Peak Time Rebate (PTR) program filed by Northern States Power Company, d/b/a Xcel Energy (Xcel).

The Department filed its initial comments on September 5, 2025. Through these comments, the Department related that there was insufficient data to determine the benefits of PTR for ratepayers and the grid. The Department recommended that Xcel first implement PTR as a pilot to gather more data, and later file a proposal for a full program as part of an Energy Conservation and Optimization (ECO) Triennial Plan.

In these reply comments, the Department addresses a limited set of issues raised in the initial comments of the other intervening parties, which mainly relate to topics (1), (2), and (7). The Department intends to address other matters relevant to the PTR proposal through supplemental comments. The Department maintains its initial findings and recommendations from its initial comments with the exception of its position on the enrollment criteria for the proposed PTR program, which it has modified after considering the initial comments of the other parties to this docket.

II. PROCEDURAL BACKGROUND

December 30, 2024 The Commission delegated the Executive Secretary to “open a docket to evaluate a proposal for a peak-time rebate (PTR) program for Xcel Energy.”¹

January 8, 2025 The Commission issued a Notice of Docket Opening for Docket No. E002/M-24-432 in accordance with its December 30, 2024, directive.²

¹ *In the Matter of the Application of Xcel Energy for Authority to Increase Rates for Electric Service in Minnesota, Notice of and Order for Hearing*, December 30, 2024, Docket No. E-002/GR-24-320, (eDockets) [202412-213391-01](#).

² *In the Matter of a Peak Time Rebate Program for Northern States Power Co. d/b/a Xcel Energy to Further the Commission’s Advanced Rate Design Efforts in Docket No. E002/CI-24-115, Notice of Docket Opening*, January 8, 2025, Docket No. E-002/M-24-432, (eDockets) [20251-213658-01](#).

March 17, 2025	Xcel Energy filed a Petition for approval to replace the Company's Energy Action Days program with a PTR program as part of its 2024-2026 Energy Conservation and Optimization (ECO) Triennial Plan. ³
July 17, 2025	The Commission issued a Notice of Comment Period seeking input on whether the Commission should approve, modify, or reject Excel Energy's proposed PTR program. ⁴
September 5, 2025	Initial comments were filed by Fresh Energy, the Attorney General – Residential Utilities Division, Xcel Energy, and the Department.

Topic(s) open for comment:

Merits of the Proposal

1. Is Xcel's proposed PTR program design reasonable and in the public interest?
2. Are Xcel's proposed eligibility rules reasonable, including the proposal to exclude current demand response program participants?
3. Is the Company's proposed budget reasonable, including third-party vendor expenses?
4. Is the Company's proposed customer outreach and communications plan reasonable?
5. Is the Company's cost-effectiveness assessment reasonable?
6. Should the Commission consider recent increases in the Midcontinent Independent System Operator (MISO) capacity auction clearing prices when assessing the cost-effectiveness assessment?
7. Should the Commission require any modifications to the program to increase the scale and/or equity of system benefits that can be delivered?
8. Are there program design, implementation, and evaluation elements that have proven successful in similar programs, such as Connexus's Peak Time Rebate program, that the Commission should direct Xcel to incorporate

Program Evaluation

9. What reporting should the Commission require the Company to provide, and on what cadence?
10. Should the Commission require an assessment of the program's performance and scaling opportunities after a certain duration?

Cost Recovery

³ *In the Matter of a Peak Time Rebate Program for Northern States Power Co. d/b/a Xcel Energy to Further the Commission's Advanced Rate Design Efforts in Docket No. E002/CI-24-115*, Xcel Energy, Initial Filing, March 17, 2025, Docket No. E-002/M-24-432, (eDockets) [20253-216468-01](#), (hereinafter, Xcel Petition).

⁴ *In the Matter of a Peak Time Rebate Program for Northern States Power Co. d/b/a Xcel Energy to Further the Commission's Advanced Rate Design Efforts in Docket No. E002/CI-24-115*, Notice of Comment Period, July 17 2025, Docket No. E-002/M-24-432, (eDockets) [20257-221115-01](#).

11. What method of cost recovery is allowable and appropriate for program costs, if approved? For example, should the Commission authorize the Company to seek future cost recovery through Xcel's ECO Portfolio, or direct the Company to use an alternate cost recovery method?

Guidance

12. Is there direction the Commission could provide to Xcel regarding other programs, whether existing or future, that may qualify for ECO and require substantive Commission review and/or tariff?

Other

13. Are there other issues or concerns related to this matter?

III. DEPARTMENT ANALYSIS

A. BACKGROUND OF XCEL PROPOSAL AND UPDATES IN XCEL'S INITIAL COMMENTS

Xcel Energy has operated a behavioral demand response program called Energy Action Days (EAD) since 2022, and the program is currently under the Company's 2024-2026 Energy Conservation and Optimization (ECO) Triennial Program. Through EAD, Xcel sends event notifications to participants to encourage them to reduce energy consumption during peak hours. Participation is voluntary, and there are no rebates for participation or penalties for non-participation. There are currently approximately 550,000 customers enrolled in Energy Action Days.⁵

In Xcel Energy's March 17, 2025, filing, the Company proposes to replace the EAD program with a Peak Time Rebate (PTR) program, as part of the 2024-2026 ECO Triennial Plan.⁶ Like EAD, the PTR program would encourage customers to reduce load during peak hours during three to five events per year. However, PTR participants would earn a rebate of \$1/kWh for their load reduction during events called by the Company.⁷ Xcel proposes to implement the PTR program on an opt-in basis (meaning that customers would have to sign up to join the program), with eligibility extended to all customers that have an AMI meter and who allow the Company to contact them via email and/or text. The Company proposes to exclude net metering customers and customers already participating in another demand response program (such as AC Reward or Saver's Switch).⁸ Xcel plans to initially target EAD participants who are not enrolled in other demand response programs and expects to enroll approximately 15,500 customers in the first year of PTR.⁹

Xcel first estimated a total budget of approximately \$1.1 million for first year of the PTR program, but then it updated the budget in its initial comments on September 5, 2025.^{10,11} Xcel's initial and revised budgets for the program are shown below.

Table 1. PTR 2026 Budget (Initial and Revised)

Budget Category	Filed 2026 Expenses	Updated 2026 Expenses
Vendor	\$800,000	\$440,000
Rebates	\$187,500	\$96,000
Technology Services	\$50,000	\$50,000
Administration	\$80,000	\$80,000
Marketing	\$20,000	\$20,000
Total	\$1,137,500	\$686,000

Source: Xcel Initial Comments at 4

The Company explained that it had decreased the anticipated vendor costs to reflect actual costs, established through contracting with an implementation vendor.¹² Further, while the Company had initially expected the average peak savings per customer to be 0.63 kW, or 2.5 kWh over a 4-hour event, the Company changed this assumption. After reviewing the savings achieved by other programs, the Company determined that its assumed peak-savings factor was too high and therefore reduced the expected savings to 0.32 kW [per hour] per event, per customer.¹³ With these downward revisions to both costs and peak savings assumptions, the Company reports that its proposed PTR program would no longer pass the Minnesota Test. However, the program “is at a break-even point on the Societal test.”¹⁴

B. SUMMARY OF INTERVENOR COMMENTS

Brief summaries of the intervenors’ comments are provided below. These summaries are not meant to be comprehensive, and anything omitted should not be read to suggest a Department inclination or position.

B.1. Fresh Energy

Fresh Energy filed its initial comments on September 5, 2025, providing two overall recommendations: (1) that Xcel be directed to make a compliance filing addressing the potential for customers participating in other demand response programs to also participate in the PTR program; and (2) that Xcel increase its participation target for the PTR program—based on the rates of participation in the Company’s other demand response programs and in programs offered by peer utilities—and update its benefit-cost analysis accordingly.¹⁵ Fresh Energy also sought clarification on the estimated program budget, the Company’s approach to benefit-cost analysis, and on MISO resource adequacy requirements as they relate to realizing the generation capacity value of peak reductions through PTR.¹⁶

¹² Xcel Initial Comments, at 4.

¹³ Xcel Initial Comments, at 6-7.

¹⁴ Xcel Initial Comments, at 7.

¹⁵ Fresh Energy Initial Comments, at 1.

¹⁶ Fresh Energy Initial Comments, at 2.

B.1. Attorney General – Residential Utilities Division

The Office of the Attorney General – Residential Utilities Division (OAG) filed its initial comments on September 5, 2025. OAG provided context for Xcel’s PTR proposal—explaining that the promise of peak load reduction benefits was a major part of the value proposition for the Company’s AMI and FAN investments, as well as a factor in the Commission’s approval of these significant expenditures. OAG also summarizes relevant past Commission decisions and the recent Transmission Cost Recovery rider (TCR) proceeding, in which efforts were made to develop performance-incentive mechanisms (PIMs) to compel the Company to utilize its advanced meters to achieve peak load reduction.¹⁷

OAG provides several recommendations in its initial comments. First, OAG recommends that the PTR program first be deployed as a pilot, and that the Company seek to validate its assumptions about participation rates and load reduction through this pilot.¹⁸ OAG also recommends marketing and communication enhancements, suggesting, among other things, that the Company target customers with high peak loads and customers in capacity constrained areas of the grid to try to achieve greater benefits.¹⁹ OAG also recommends that Xcel should incorporate direct-mail marketing into its outreach strategy.²⁰ Finally, OAG recommends that the Company consider expanding eligibility criteria for the PTR program so that customers already enrolled in other demand response programs or on a net-metered rate might also participate.²¹

In addition to providing discrete recommendations, OAG also addresses the Company’s PTR budget in its comments. OAG discusses that even at its reduced level, the budget for the PTR vendor, on a per-customer basis, appears to be high compared with similar costs at other utilities. OAG notes that this per-customer vendor cost would improve with increased enrollment.²² OAG further noted that the savings on the vendor cost reported in the revised budget “leaves significant headroom for Xcel to take more aggressive marketing efforts [...]”.²³

C. DEPARTMENT’S RESPONSE TO INITIAL COMMENTS

In these reply comments, the Department mainly focuses on the potential for increasing the benefits of the proposed PTR program.

Consistent with its position in initial comments, the Department continues to be concerned about whether the particular PTR program design put forward by the Company will result in a cost-effective

¹⁷ The Office of the Attorney General – Residential Utilities Division (OAG) Initial Comments, at 1-4.

¹⁸ OAG Initial Comments, at 15-16.

¹⁹ OAG Initial Comments, at 18.

²¹ OAG Initial Comments, at 23.

²² OAG Initial Comments, at 16-17.

²³ OAG Initial Comments, at 19.

offering. Specifically, the Department maintains its concerns about both the low target enrollment and about whether and how capacity benefits will be realized.²⁴ At the same time, the Department remains supportive of initiatives to achieve meaningful peak reduction.

OAG's initial comments help to underscore the importance of leveraging Xcel's AMI and FAN technologies to benefit ratepayers, providing important context regarding the Commission's focus on ensuring smart meter investment results in tangible benefits to ratepayers.²⁵ In its initial comments, OAG states: "Xcel used these metering capabilities, and the advanced rates they enable, as major selling points for its grid-modernization investments; customers have already begun to pay for these investments and are entitled to receive their benefits. Xcel's peak-time rebate proposal is an important step toward unlocking the system and customer-bill savings made possible through advanced metering."²⁶ The Department agrees with the OAG. The Department does not believe that the PTR program, as proposed by the Company, is the best rate design to allow customers to realize the benefits of their grid modernization investments (including AMI and FAN), as the Company expects the rate design to marginally *increase* rates.²⁷

The Company, with assistance from stakeholders and guidance from the Commission, should seek to design and deliver programs that will achieve meaningful avoided capacity benefits and help to fulfill the value proposition underlying the costly smart meter deployment. While the Department continues to recommend an initial deployment for PTR on a pilot basis, this pilot should merely be an initial offering enroute to a larger and more beneficial program.

C.1. Xcel should aim to achieve higher enrollments through enhanced marketing and communications

While the Department recommends an initial deployment for PTR on a pilot basis, for which a modest initial enrollment of customers may suffice, the Department recommends that Xcel ultimately aim for a much larger enrollment in PTR. The Department agrees with Fresh Energy that the Company's enrollment targets are too low. The Department also agrees with OAG that the Company should expand on and enhance its marketing efforts in support of enrolling more customers in PTR.

The Department recommends that the Commission require Xcel to file an updated customer outreach and communications plan with its first annual report on PTR. In this updated plan, the Company should address the recommendations of Fresh Energy and OAG, and it should discuss concrete ways to achieve higher customer enrollment, including through both opt-in and opt-out approaches as recommended by the Department in initial comments.

²⁴ Minnesota Department of Commerce Initial Comments, at 4-5.

²⁵ OAG Initial Comments, at 2-4.

²⁶ OAG Initial Comments, at 1.

²⁷ Xcel Initial Comments, Appendix A.

C.2. Xcel should consider ways to expand PTR program eligibility

Xcel proposes to exclude those customers already enrolled in a separate demand response program and those customers with net metered generation. These exclusions represent a conservative, perhaps unnecessary, response to valid concerns about measurement and attribution. Unfortunately, by establishing these blanket exclusions, the Company is preventing the participation in PTR by a subset of customers that may be among the most likely to respond to PTR events. Expanding the eligibility criteria could increase the benefits and cost effectiveness of Xcel's PTR program.

In its initial comments, the Department found that these exclusions were reasonable for the initial PTR deployment, but the Department recommended that the Company consider allowing net metering customers to participate in the future. After considering the comments of Fresh Energy and the OAG, the Department has shifted its view and believes that the Company should also explore the inclusion of customers enrolled in other demand response programs, either for the pilot phase or future phases of the program.

The Department agrees with Fresh Energy and OAG: the Company should not resign itself to excluding customers in with net metering or in other demand response programs. Instead, the Company should thoroughly consider and address whether there is a way to permit dual enrollments, so that customers already participating in another demand response program and/or net metering may also enroll in PTR. There is evidence to support the feasibility of joint enrollment. In its initial comments, Fresh Energy notes that "multiple utilities have been able to address these challenges and allow participation in Peak Time Rebate programs in combination with other DR [demand response] programs, including several utility programs cited by the Company in Attachment B of its initial filing."²⁸ Also in Attachment B, the Company includes as reference utilities the three major California companies, indicating that each permits customers with net metered generation to also participate in demand response.²⁹

The Department requests that Xcel address in its supplemental comments the possibility of allowing net metering customers and customers enrolled in another DR program to participate in PTR. If the initial pilot does not allow for dual enrollment, then the Department recommends that the Commission require the Company to address the feasibility of permitting dual enrollment in its annual reporting on PTR.

C.3. Xcel should assess the potential to incorporate distribution benefits into the PTR program

In its initial comments, OAG recommends that the Company seek to enhance the effectiveness of the PTR program through targeting load reductions to constrained areas of the distribution system. OAG

²⁸ Fresh Energy Initial Comments, at 2.

²⁹ Xcel Petition, Attachment B.

notes that Xcel's benefit-cost analysis for its PTR program includes neither transmission nor distribution benefits and suggests that the Commission direct Xcel to analyze the potential for its PTR program to avoid upgrades—and especially proactive upgrades—to the distribution system.³⁰

The Department agrees with OAG about the goal of enhancing the value provided by the proposed PTR program. The Department also agrees with the OAG that reductions in customer demand achieved through PTR can result in local avoided distribution grid upgrades. However, the Department notes that similar issues arise when considering avoided distribution expenditures as when considering the savings from avoided generation capacity; in this case the Company (rather than MISO) must rely on and incorporate into its local load forecast the expected peak load reductions from PTR.

The Department requests that Xcel, in its supplemental comments, address the potential for incorporating local distribution grid benefits into its PTR program. The Department requests the Company specifically address the potential challenges related to heterogeneity in the timing of local distribution grid peaks, and any uncertainty in the level of participation or individual peak load reductions and how this interacts with the utility's traditional distribution planning processes. The Department recommends the Commission direct Xcel to also address these issues in its ongoing annual reporting on PTR.

IV. DEPARTMENT RECOMMENDATIONS

Based on analysis of Xcel's PTR proposal, the Department has prepared recommendations, which are provided below.

A. NEW RECOMMENDATIONS FROM REPLY COMMENTS

The following are new recommendations from these reply comments:

- The Department recommends that the Commission require Xcel to file an updated customer outreach and communications plan with its first annual report on PTR. In this updated plan, the Company should address the recommendations of Fresh Energy and OAG, and it should discuss concrete ways to achieve a higher customer enrollment, including through both opt-in and opt-out approaches.
- The Department requests that Xcel address in its supplemental comments the possibility of allowing net metering customers and customers enrolled in another DR program to participate in PTR. If the initial pilot does not allow for dual enrollment, then the Department recommends that the Commission require the Company to address the feasibility of permitting dual enrollment in its annual reporting on PTR.

³⁰ OAG Initial Comments, at 20-21.

- The Department requests Xcel, in its supplemental comments, address the potential for incorporating local distribution grid benefits into its PTR program. The Department requests the Company specifically address the potential challenges related to heterogeneity in the timing of local distribution grid peaks, and any uncertainty in the level of participation or individual peak load reductions and how this interacts with the utility's traditional distribution planning processes.
 - The Department recommends the Commission direct Xcel to also address these issues in its ongoing annual reporting on PTR.

B. RECOMMENDATIONS MAINTAINED FROM INITIAL COMMENTS

The Department maintains all of the recommendations from its initial comments, which are provided below.

- The Department recommends that PTR be implemented as a pilot, in parallel with EAD. The pilot should pursue both opt-in and opt-out approaches to customer enrollment and collect data on opt-in and opt-out customers separately.
- The Department recommends that Xcel include a proposal for a full PTR program as part of the Company's ECO portfolio upon completion of the pilot. The proposal should:
 - Include BCAs for both an opt-in and opt-out program, informed by the data collected as part of the pilot
 - Include the costs of necessary billing system upgrades to support an opt-out program
 - Specify how Xcel will bid PTR load reductions into MISO markets or reduce the Company's capacity obligations.
- The Department recommends that Xcel utilize updated capacity prices as part of its full PTR program proposal.
- The Department recommends that Xcel target low-income customers and customers with high peak load contribution for program enrollment.
- The Department recommends that reporting for PTR be part of the Company's annual ECO status reports and that Xcel collect the following additional information from the PTR pilot to inform future program design and implementation:
 - Enrollment rates for opt-in customers
 - Participation, rebates paid, and peak load reduction for opt-in and opt-out customers
 - Customer acquisition costs for opt-in and opt-out customers
 - Customer satisfaction for opt-in and opt-out customers

- Participation, rebates paid, and peak load reduction for high PLC customers and non-high PLC customers
- Participation, rebates paid, and peak load reduction for low-income customers and non-low-income customers
- Timing of PTR events compared to timing of actual system peaks.
- The Department recommends that PTR costs be recovered through Xcel's ECO portfolio.
- The Department recommends that the Commission instruct Xcel to seek Commission approval for proposals that will result in a tariff or rate change prior to filing proposals under ECO.

CERTIFICATE OF SERVICE

I, Sharon Ferguson, hereby certify that I have this day, served copies of the following document on the attached list of persons by electronic filing, certified mail, e-mail, or by depositing a true and correct copy thereof properly enveloped with postage paid in the United States Mail at St. Paul, Minnesota.
