**Request for Delayed Filing of Reply Comments on Process for Consideration of Dodge  
Wind Dockets**

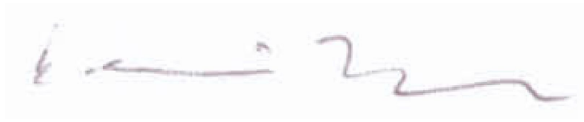

---

The Laborers District Council of Minnesota and North Dakota ("LIUNA Minnesota & North Dakota") requests a brief delay in the deadline for filing reply comments on the disposition of Dodge County Wind, LLC applications for Certificates of Need, Site Permit, and HVTL Route Permit for the proposed Dodge County Wind project until Tuesday, October 8, 2019.

As indicated in our September 27 comments, we are currently in discussions with Applicant and Applicant's intended general contractor to resolve concerns over the project's impact on local workforce. We expected to conclude our discussions in time to meet the 4:30 PM October 4 Reply Comment deadline, but were still attempting to work through a small number of outstanding issues with the parties into the evening.

We believe that resolution of these matters is in the best interest of the parties and the public, and that a brief delay in the filing of LIUNA Minnesota & North Dakota's reply comments will not prejudice any party.

Dated: October 5, 2019

Kevin Pranis, Marketing Manager  
LIUNA Minnesota & North Dakota
