RE: ENVIRONMENTAL ASSESSMENT COMMENTS
IN THE MATTER OF THE APPLICATION OF XCEL ENERGY FOR A CERTIFICATE OF
NEED, SITE PERMIT, ROUTE PERMIT, AND PIPELINE PERMIT FOR THE LYON
COUNTY GENERATING STATION IN LYON COUNTY, MINNESOTA
MPUC DOCKET NOS. E002/CN-25-145, E002/TL-25-161, G002/
GS-25-154, G002/GP-25-163
CAH DOCKET NO. 5-2500-41123

Dear Ms. Bergman:

Northern States Power Company, doing business as Xcel Energy respectfully submits these comments on the Environmental Assessment (EA) filed by the Minnesota Public Utilities Commission Energy Infrastructure Permitting (EIP) Staff on January 9, 2026. Xcel Energy appreciates EIP Staff's detailed review of the Lyon County Generating Station Project (Project). The EA contains a thorough analysis of the potential human and environmental impacts, consistent with the Scoping Decision.

In these comments, Xcel Energy provides several clarifications/updates regarding the EA's analysis of the Project. Xcel Energy also provides limited comments on the sample permits filed by EIP Staff with the EA.

A. Environmental Assessment

First, the Project is now anticipated to include two emergency diesel generators (rather than the three generators identified in the Application). In certain places in the EA, the text refers to the use of one versus two emergency generators.¹ The Company clarifies that the Project has submitted a Title V Air Permit Application that includes

¹ See EA at 22, 34, 58, 76, 84, 118, (Jan. 9, 2026) (eDocket No. [20261-226695-01](#)).

two emergency diesel generators, and the Company plans to use two emergency diesel generators will be used in the Project.

Second, we clarify that there will be no heat input limit on the combustion turbines.² Instead, we anticipate that, as discussed elsewhere in the EA, the applicable permitting will limit individual pollutants to below Prevention of Significant Deteriorating (PSD) thresholds.

Third, Table 4-20 of the EA summarizes the maximum potential to emit for the Project, along with the PSD threshold values and the maximum hourly emission rate for each combustion turbine. We provide an updated table below that reflects what was submitted for the Project’s final air dispersion modeling and AERA analyses. Note that only NO_x, CO and VOC outline limited PTE as all other pollutants’ unlimited PTE are below PSD thresholds.

**Table 4-20
Summary of the Generation Station Maximum Hourly CT Emission Rates and
PTE Values Against PSD Thresholds – Revised**

| Pollutant | Maximum Hourly CT Emission Rate (lb/hr) | Generation Station Limited PTE (tons/year) | PSD Thresholds (tons per year) |
|------------------|--|---|---------------------------------------|
| PM | 8.0 | 70.9 | 250 |
| PM10 | 8.0 | 70.9 | 250 |
| PM2.5 | 8.0 | 70.9 | 250 |
| NO _x | 75.1 | 240.0 | 250 |
| SO ₂ | 6.7 | 59.5 | 250 |
| CO | 36.1 | 240.0 | 250 |
| VOC | 3.5 | 132.6 | 250 |
| CO _{2e} | 277,299.37 | 2,437,860.5 | - |

Section 4.7.2 of the EA also refers to Subpart TTTT_a. Xcel Energy has determined that the Project will not comply with the intermediate load category outlined in that regulation and, instead, the Project will satisfy the regulation’s requirements by ensuring turbines are classified as low-load and complying with the low-load category requirements. Similarly, in addition to maintaining fuel purchase records, turbine operation will be limited as needed to ensure that the turbines are classified as low-load turbines under the regulation.

² *Id.* at 84.

B. Sample Permits

With the EA, EIP Staff filed the following sample permits: pipeline routing permit; transmission line route permit; and site permit for large electric power generating plant. Xcel Energy provides limited comments on the sample pipeline routing permit and transmission line route permit below, primarily to identify provisions that may not be applicable to the Project.

First, however, Xcel Energy continues to request that the permits issued by the Commission for this Project include the provisions identified in the Direct Testimony of Michael Aasen. As described in Mr. Aasen's testimony, Xcel Energy needs to begin construction as soon as possible after the Commission approves the Project to achieve the anticipated and needed December 2028 in-service date. Specifically, Xcel Energy requests that the following provisions be included in the Project's Site Permit:

Permittee may conduct vegetation clearing, topsoil removal, and grading of the site shown on Figure 1-2 of the Application immediately upon issuance of the Site Permit, provided that the Permittee submits a filing to the Commission confirming that: (1) Permittee provided notice to adjacent landowners of Project construction at least five days in advance, including contact information for Permittee's field representative; and (2) Permittee has received all required permits and approvals for the activity to be conducted.

As expressly allowed under Minn. Stat. 216I.05, subd. 12(e), Xcel Energy plans to submit the referenced filing after a Commission oral decision and prior to a written order. Xcel Energy also plans to submit other compliance filings during this timeframe to maintain a full construction start in July 2026, if at all possible. We are available to coordinate with EIP Staff, as needed, to support EIP Staff's review of any compliance filings.

1. Pipeline Routing Permit

The proposed pipeline will be placed on property owned by Xcel Energy. Accordingly, Xcel Energy did not file an agricultural protection plan or environmental mitigation plan for the Project, and submits that Sections 6.4, 6.5, and 7.10 of the sample pipeline routing permit are inapplicable. In addition, Xcel Energy requests that monthly, rather than weekly, status reports be required under Section 6.3, to be consistent with the monthly status reporting required under the transmission line route permit and site permit.

2. *Transmission Line Route Permit*

Xcel Energy understands the requirement to develop a Vegetation Management Plan included Section 5.3.10 of the sample transmission line route permit is now a relatively standard condition. However, given that the transmission lines here will be located entirely on Xcel Energy property and within previously disturbed agricultural land (i.e., little to no clearing of permanent vegetation will be needed for construction), EIP Staff may wish to consider whether a Vegetation Management Plan is necessary for the transmission lines associated with this Project. Alternatively, with the plan and profile filing, Xcel Energy proposes to provide a landscape/ restoration diagram showing how the facility site will be revegetated after construction is complete.

C. Conclusion

Xcel Energy appreciates the opportunity to provide these comments and respectfully submits that the record supports the issuance of a certificate of need, site permit, transmission line route permit, partial exemption, and pipeline routing permit for the Project.

We have electronically filed this document with the Minnesota Public Utilities Commission, and copies have been served on the parties on the attached service list. Please contact me at (612) 216-7954 or Jody.L.Londo@xcelenergy.com if you have any questions regarding this filing.

Sincerely,

/s/

JODY L. LONDO
DIRECTOR, REGULATORY AND STRATEGIC ANALYSIS

Breann L. Jurek certifies that on the 11th day of February, 2026, she e-filed on behalf of Xcel Energy, a true and correct copy of the Environmental Assessment Comments to the Minnesota Public Utilities Commission, via edockets (www.edockets.state.mn.us). Said document was also served on the Official Service Lists on file with the Minnesota Public Utilities Commission and as attached hereto.
