¹ Wetland ID corresponds to each discrete wetland or wetland complex as labeled in the Appendix A Route Width map set.

² PEM = Palustrine Emergent; PFO = Palustrine Forested; PSS = Palustrine Scrub-Shrub; Wetland data as provided in the National Wetland Inventory for Minnesota.

³ Area of wetland community located within the Proposed Route (Route Width). Total acreages aggregated by wetland classification.

⁴ Area of wetland community located within the 100 foot-wide right-of-way (ROW). Total acreages aggregated by wetland classification.

⁵ Distance of wetland community crossed by the Proposed Alignment. Total distance crossed is aggregated by wetland classification.
