**Re: *In the Matter of the Application of Heartland Corn Products for a Route Permit for the
Heartland Corn Natural Gas Pipeline Project in Sibley County
Docket No. IP-7108/GP-23-43***

Compliance Filing: Route Permit Section 16 – Pipeline Construction Completion Certificate

Dear Mr. Seuffert:

Pursuant to Section 16 of the Route Permit issued by the Minnesota Public Utilities Commission at its October 5, 2023 agenda meeting, Heartland Corn Products (“HCP”) respectfully requests that the Commission accept HCP’s certification that the Project has been completed in compliance with landowner agreements and all permit conditions pursuant to Minn. R. 7852.3900. HCP certifies that there are no unresolved complaints related to HCP’s construction or restoration activities associated with the HCP Pipeline Project. HCP has met the conditions in the pipeline easements and is current on the easement compensation payments.

Route Permit Section 16 states:

In accordance with Minn. R. 7852.3900, the Permittee shall file with the Commission a written certification that the construction and remediation of the permitted pipeline has been completed in compliance with all permit conditions and landowner agreements. The certification shall be considered by the Commission within 60 days of its filing. The Commission shall accept or reject the certification of completion and make a final determination regarding cost or reimbursements due. If the certification is rejected, the Commission shall inform the Permittee in writing which deficiencies, if corrected, will allow the certification to be accepted. When corrections to the deficiencies are completed, the Permittee shall notify the Commission, and the certification shall be reconsidered as soon as possible. After acceptance of the certification, the Commission's jurisdiction over the Permittee's pipeline routing permit shall be terminated.

Phone: 507-647-5000 • Fax: 507-647-5010

HCP Post-Construction Compliance filings included:

- In-Service Filing – Filed 1-9-25
- As-built Alignment Sheets and GPS Coordinates – Filed 4-15-25

Additionally, enclosed with this filing is a copy of the NPDES Stormwater Permit Notice of Termination (NOT) designation from the Minnesota Pollution Control Agency. This NOT verifies the project has achieved final stabilization and that all construction activities are complete.

Thank you for your attention to this filing. Please do not hesitate to contact me at tomp@heartlandcorn.com with any questions or concerns regarding it.

Sincerely,

Tom Paitrick
Chief Executive Officer
