

**NOTICE OF COMMENT PERIOD ON INDEPENDENT CONSULTANT REPORT AND
FOR ADDITIONAL RECORD DEVELOPMENT**

Issued: November 17, 2025

**In the Matter of the Application of Great River Energy for a Route Permit Application for the
Laketown 115-kV Transmission Line in Carver County, Minnesota**

Docket Number: ET-2/TL-24-132

PLEASE TAKE NOTICE that the Minnesota Public Utilities Commission (Commission) is accepting comments on the proposed Laketown 115-kilovolt (kV) high voltage transmission line (HVTL) project in Carver County, Minnesota. The project is proposed by Great River Energy (GRE) and Minnesota Valley Electric Cooperative (MVEC). The project, as proposed, includes construction of approximately 4.3 miles of new 115-kV transmission line and a new substation (Laketown substation). The proposed HVTL would begin at an existing GRE-owned 115-kV HVTL and terminate at a proposed substation owned by MVEC and located within Laketown Township.

On September 4, 2025, this matter came before the Commission for a route permit decision. The Commission determined that the record necessary for making a permit decision was incomplete and remanded the matter to the Court of Administrative Hearings for further record development. To this end, and in accordance with the Commission's October 2, 2025, order:

- The Applicants supplemented their reliability and cost analysis contained in Appendix C of the environmental assessment (EA) for the project. Supplemented Appendix C is available at: <https://tinyurl.com/y68ab4wf>
- The Applicants retained an independent consultant to perform a reliability and cost analysis regarding Route Alternative B as compared to the Applicants' proposed route. The report from the independent consultant was filed into the record on November 10, 2025, and is available at: <https://tinyurl.com/3xstejnu>
- The Commission ordered an additional public comment period to allow, among others, local units of government and landowners who have property within the proposed routes to provide any additional comments on any of the routing factors related to Route Alternative B and the Applicants' proposed route.

During this comment period, the Commission also requested comments on a modification to Route Alternative B's alignment that would move the alignment from the south to the north side of August Road between Kelly Avenue and Jersey Avenue, as shown on Map 2 below.

Comment Period: Initial comment period closes **December 16, 2025**, at 4:30 p.m.
Reply comment period closes **December 23, 2025**, at 4:30 p.m.

Please include the docket number in all communications. Comments received after the close of the comment period may or may not be considered by the Commission.

Topics for Comment

- Between Route Alternative B and the Applicants' proposed route, which is the most appropriate route for the project and why?
- In selecting between Route Alternative B and Applicants' proposed route, what potential impacts, including but not limited to reliability and cost, should be considered by the Commission?
- For Route Alternative B, which is the most appropriate alignment for the transmission line along Augusta Road – the north side of the road or the south side of the road? And why?
- Are there other issues or concerns related to this matter?
