**NOTICE OF PUBLIC INFORMATION AND
ENVIRONMENTAL ASSESSMENT SCOPING MEETINGS**

Issued: February 11th, 2025

In the Matter of the Application of Great River Energy, Otter Tail Power Co., Western Minnesota Municipal Power Agency, Agralite Electric Coop., and the City of Benson for a Certificate of Need and Route Permit for the Appleton to Benson 115 Kilovolt Transmission Line Project

Docket Number: ET-2,E-017,ET-6135, E-100/CN-24-263; TL-24-264

PLEASE TAKE NOTICE that the Minnesota Public Utilities Commission (Commission) and Minnesota Department of Commerce will hold public information and environmental assessment scoping meetings on a proposal to construct approximately 29 miles of new 115-kV high voltage transmission line (HVTL) by Great River Energy, Otter Tail Power Company, Western Municipal Power Agency (Missouri River Energy Services), Agralite Electric Cooperative, and the City of Benson, MN (collectively referred to as “the Applicants”). The Applicants have submitted a joint application for a Certificate of Need and a Route Permit.

The project will include 2 proposed route segments. The first proposed route segment is approximately 27-miles and will upgrade, rebuild or reconductor existing transmission lines starting near the Appleton Substation in the City of Appleton and extend northeast, to Great River Energy’s Benson Substation near the City of Benson. The second proposed route segment will be a new approximately 1.7-mile transmission line that will extend westerly from the Benson Substation in the City of Benson extending to interconnect with Great River Energy’s existing AG-BK 115-kV transmission line.

The proposed project would primarily use single-pole wood structures with heights of 50-100 feet above ground and 300–500-foot spans between structures. Construction of the transmission line will generally occur within a 100-foot-wide right-of-way easement that the Applicants will obtain. The proposed route has a requested 400-foot route width (200 feet on either side) for most of the project.
