

MNPUC Agenda Meeting

November 23, 2021

Items #1, 2 and 3

Commissioner Means New Additional Decision Option

The Commission modifies the June 12, 2019 Order in Docket 03-802 to *require* any utility experiencing a significant unforeseen impact (5%) to file a request to the approved fuel rate as soon as practicable. The Electric Utilities will then be *required* to implement the revised rates, subject to a full refund, following a 30-day notice period, if no party objects to the revised rates.
