

Staff Revised Motion (filed September 6, 2022)

Docket No. E002/M-22-161

Xcel Energy

In the Matter of Xcel Energy's Renewable*Connect Pilot Program Compliance Filing

Staff proposes the following revised motion for the Commission for consideration at its September 8, 2022 agenda meeting. Two changes are offered. First, staff modified the Department recommendations to include additional information the parties agreed to in comments. Second, Staff offers a new decision option related to the Company's tariff modifications in its April 1, 2022 Initial Filing. The Company recently highlighted for staff that the tariff modifications were not explicitly noted in the Department's recommendations.

1. Move to adopt the Department's recommendations as reflected in their May 2, 2022 comments:
 - Accept the Company's 2022 Renewable*Connect Annual Compliance Filing and Tracker Account Report.
 - Provide a detailed explanation as to incurred net economic costs in program year 2022 and steps taken to mitigate impacts in the Company's 2023 R*C program compliance filing.
 - Provide additional information on the Company's efforts to reduce line loss expenses in the 2023 Renewable*Connect Annual Compliance Filing and Tracker Account Report (*Staff interpretation of Department May 2, 2022 Comments and Xcel's May 12, 2022 Reply*)
2. Accept the Company's 2022 Renewable*Connect tariff modifications (Attachment B, Xcel Energy Initial Filing). (Staff)
